To the Plan Administrator
Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan
Plan 001; EIN # 75-2308147
Dallas, Texas

We were engaged to audit the financial statements of the Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note H, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A – Description of plan

Barrett Daffin Frappier Turner & Engel, LLP established the Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan (the Plan) effective January 1, 1998. The Plan was established as a qualified defined contribution profit sharing plan which has a qualified salary deferral feature under Section 401(k) of the Internal Revenue Code of 1986. The following description of the Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution prototype plan covering all full-time employees of the Employer, who are age twenty-one years or older. An employee is eligible to participate in the Plan immediately upon employment. The plan is subject to the provisions of ERISA.

Contributions. For the current year, participants may contribute up to $16,500 of pretax annual compensation, as defined in the plan. In addition, individuals age 50 or over are allowed to contribute an additional $5,500 to the plan. Participants direct the investment of all contributions to their account into various investment options offered by the Plan. Effective January 1, 2009 the plan was amended to automatically defer 3% for all eligible employees unless the employee elects to change the deferral.

Company matching. The Employer shall make a discretionary matching contribution based on the amount of salary reduction contributions. The Employer evaluates the match annually, and can modify the percentage at their discretion. The Employer matching contribution in 2010 was 50% up to the first 6% of participants' compensation. Each eligible employee who satisfies the participation requirements may receive matching and non-elective Employer contributions after completing one year of service.

With limited exceptions, participants must complete 250 hours of service and be employed on the last day of the Plan quarter to receive an allocation of Employer matching contributions and must complete 1,000 hours of service and be employed on the last day of the Plan year to receive an allocation of Employer non-elective contributions.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A – Description of plan (continued)

Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts and earnings thereon is based on years of continuous service, as follows:

Year of Participation	Percent Vested
1 Year	0
2 Years	20
3 Years	50
4 Years	75
5 Years or More	100

One year of service credit for purposes of the vesting schedule will include all plan years during which the participant worked at least 1,000 hours for the plan Sponsor. Years of service before the effective date of the plan are excluded for vesting purposes.

Payment of benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes receivable from participants. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates range from 4.25% to 9.25%. Principal and interest is paid ratably through bi-monthly payroll deductions.

Investment options. Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their deferral percentage and investment options as often as they choose by contacting the Trustee in writing, via telephone or via the internet. Participants may terminate deferrals at any time.

Rollovers. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations. All contributions are paid in cash.

Note B – Summary of significant accounting policies

Basis of accounting. The financial statements of the plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note J for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Notes receivable are reclassified from investments pursuant to the Plan's adoption of Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 962-310-45-2.

Payment of benefits. Benefits are recorded when paid.

Use of estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Forfeitures. Forfeitures may be used to reduce future Employer contributions. At December 31, 2010 and 2009, forfeited nonvested accounts totaled $34,372 and $38,448, respectively. These accounts will be used to reduce future employer contributions. Also, in 2010, plan expenses were reduced by $21,405 from forfeited nonvested accounts.

Contributions receivable. Contributions receivable represent deferrals withheld from participant's paychecks and payments withheld for scheduled notes receivable from participant payments for the last pay period in December. Employer contributions receivable represent the company match for the quarter ended December and a correction for the 2008 partial plan termination.

Operating expenses. Operating expenses consist of fees for auditing, recordkeeping and other administrative services. Some fees are deducted from participant accounts in accordance with the plan documents for services received, however most costs are paid by the employer.

Note C – Reconciliation of financial statements to form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$	6,302,138
Less: 2010 employee contributions receivable		(17,409)
Less: 2010 employer contributions receivable		(93,109)
Net assets available for benefits per Schedule H to the form 5500	$	6,191,620

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements at December 31, 2010 to Schedule H of Form 5500:

Net increase in net assets available for benefits per the financial statements	$	832,839
Add: 2009 employer contributions receivable		80,130
Less: 2010 employee contributions receivable		(17,409)
Less: 2010 employer contributions receivable		(93,109)
Net increase in net assets available for benefits per the form 5500	$	802,451

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$	5,469,299
Less: 2009 employer contributions receivable		(80,130)
Net assets available for benefits per Schedule H to the form 5500	$	5,389,169

Note D – Tax status

The IRS has determined and informed the Employer by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Note D – Tax status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Code. The plan administrator has analyzed the tax positions taken by the plan, and have concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note E – Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note F – Risk/uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note G – Related party transactions

Certain plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A., is the Trustee as defined by the plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to $24,692 for the year ended December 31, 2010.

Notes to Financial Statements
December 31, 2010 and 2009

Note H – Information certified by the plan's trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CF 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and disclosure under Employee Retirement Income Security Act of 1974. The Trustee holds the plan's investment assets and notes receivable from participants, and executes investment transactions in accordance with the plan documents. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	Year ended December 31,	
	2010	2009
Interest with registered investment companies	$ 6,057,276	$ 5,228,004
Notes receivable from participants	134,344	146,081
	$ 6,191,620	$ 5,374,085

The net appreciation in fair value of investments was $670,965 for the year ended December 31, 2010. Dividend income was $55,526 and interest income was $9,425 for the year ended December 31, 2010.

The plan's independent auditors did not perform audit procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

All investments of the Plan are participant-directed.

Note J – Fair value measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Note J – Fair value measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010:

	Level 1	Total
December 31, 2010		
Mutual funds:		
Money market	$ 573,701	$ 573,701

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2010 are reported in net appreciation in fair value of investments.

Note J – Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009:

	Level 1	Total

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2009 are reported in net appreciation in fair value of investments.

Note K – Subsequent events

Plan management reviewed its operations and transactions occurring since December 31, 2010 through September 28, 2011, the date of which the financial statements were issued, and did not identify any subsequent events.

Note L – Participant statements

Participant statements are reported on a modified accrual basis and do not reflect employee and employer receivables at the end of the year.

We were engaged to audit the financial statements of the Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note H, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A – Description of plan

Barrett Daffin Frappier Turner & Engel, LLP established the Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan (the Plan) effective January 1, 1998. The Plan was established as a qualified defined contribution profit sharing plan which has a qualified salary deferral feature under Section 401(k) of the Internal Revenue Code of 1986. The following description of the Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution prototype plan covering all full-time employees of the Employer, who are age twenty-one years or older. An employee is eligible to participate in the Plan immediately upon employment. The plan is subject to the provisions of ERISA.

Contributions. For the current year, participants may contribute up to $16,500 of pretax annual compensation, as defined in the plan. In addition, individuals age 50 or over are allowed to contribute an additional $5,500 to the plan. Participants direct the investment of all contributions to their account into various investment options offered by the Plan. Effective January 1, 2009 the plan was amended to automatically defer 3% for all eligible employees unless the employee elects to change the deferral.

Company matching. The Employer shall make a discretionary matching contribution based on the amount of salary reduction contributions. The Employer evaluates the match annually, and can modify the percentage at their discretion. The Employer matching contribution in 2010 was 50% up to the first 6% of participants' compensation. Each eligible employee who satisfies the participation requirements may receive matching and non-elective Employer contributions after completing one year of service.

With limited exceptions, participants must complete 250 hours of service and be employed on the last day of the Plan quarter to receive an allocation of Employer matching contributions and must complete 1,000 hours of service and be employed on the last day of the Plan year to receive an allocation of Employer non-elective contributions.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A – Description of plan (continued)

Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts and earnings thereon is based on years of continuous service, as follows:

Year of Participation	Percent Vested
1 Year	0
2 Years	20
3 Years	50
4 Years	75
5 Years or More	100

One year of service credit for purposes of the vesting schedule will include all plan years during which the participant worked at least 1,000 hours for the plan Sponsor. Years of service before the effective date of the plan are excluded for vesting purposes.

Payment of benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes receivable from participants. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates range from 4.25% to 9.25%. Principal and interest is paid ratably through bi-monthly payroll deductions.

Investment options. Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their deferral percentage and investment options as often as they choose by contacting the Trustee in writing, via telephone or via the internet. Participants may terminate deferrals at any time.

Rollovers. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations. All contributions are paid in cash.

Note B – Summary of significant accounting policies

Basis of accounting. The financial statements of the plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note J for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Notes receivable are reclassified from investments pursuant to the Plan's adoption of Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 962-310-45-2.

Payment of benefits. Benefits are recorded when paid.

Use of estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Forfeitures. Forfeitures may be used to reduce future Employer contributions. At December 31, 2010 and 2009, forfeited nonvested accounts totaled $34,372 and $38,448, respectively. These accounts will be used to reduce future employer contributions. Also, in 2010, plan expenses were reduced by $21,405 from forfeited nonvested accounts.

Contributions receivable. Contributions receivable represent deferrals withheld from participant's paychecks and payments withheld for scheduled notes receivable from participant payments for the last pay period in December. Employer contributions receivable represent the company match for the quarter ended December and a correction for the 2008 partial plan termination.

Operating expenses. Operating expenses consist of fees for auditing, recordkeeping and other administrative services. Some fees are deducted from participant accounts in accordance with the plan documents for services received, however most costs are paid by the employer.

Note C – Reconciliation of financial statements to form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$	6,302,138
Less: 2010 employee contributions receivable		(17,409)
Less: 2010 employer contributions receivable		(93,109)
Net assets available for benefits per Schedule H to the form 5500	$	6,191,620

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements at December 31, 2010 to Schedule H of Form 5500:

Net increase in net assets available for benefits per the financial statements	$	832,839
Add: 2009 employer contributions receivable		80,130
Less: 2010 employee contributions receivable		(17,409)
Less: 2010 employer contributions receivable		(93,109)
Net increase in net assets available for benefits per the form 5500	$	802,451

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$	5,469,299
Less: 2009 employer contributions receivable		(80,130)
Net assets available for benefits per Schedule H to the form 5500	$	5,389,169

Note D – Tax status

The IRS has determined and informed the Employer by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Note D – Tax status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Code. The plan administrator has analyzed the tax positions taken by the plan, and have concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note E – Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note F – Risk/uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note G – Related party transactions

Certain plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A., is the Trustee as defined by the plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to $24,692 for the year ended December 31, 2010.

Notes to Financial Statements
December 31, 2010 and 2009

Note H – Information certified by the plan's trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CF 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and disclosure under Employee Retirement Income Security Act of 1974. The Trustee holds the plan's investment assets and notes receivable from participants, and executes investment transactions in accordance with the plan documents. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	Year ended December 31,	
	2010	2009
Interest with registered investment companies	$ 6,057,276	$ 5,228,004
Notes receivable from participants	134,344	146,081
	$ 6,191,620	$ 5,374,085

The net appreciation in fair value of investments was $670,965 for the year ended December 31, 2010. Dividend income was $55,526 and interest income was $9,425 for the year ended December 31, 2010.

The plan's independent auditors did not perform audit procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

All investments of the Plan are participant-directed.

Note J – Fair value measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Note J – Fair value measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010:

	Level 1	Total
December 31, 2010		
Mutual funds:		
Money market	$ 573,701	$ 573,701
Large cap stock	1,745,151	1,745,151
Mid cap stock	790,744	790,744
International	814,039	814,039
Balanced	329,433	329,433
Other	885,236	885,236
Small cap stock	444,487	444,487
Fixed income	474,485	474,485
Total assets at fair value	$ 6,057,276	$ 6,057,276

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2010 are reported in net appreciation in fair value of investments.

Note J – Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009:

	Level 1	Total

Independent Auditors' Report

To the Plan Administrator
Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan
Plan 001; EIN # 75-2308147
Dallas, Texas

We were engaged to audit the financial statements of the Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note H, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note A – Description of plan

Barrett Daffin Frappier Turner & Engel, LLP established the Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan (the Plan) effective January 1, 1998. The Plan was established as a qualified defined contribution profit sharing plan which has a qualified salary deferral feature under Section 401(k) of the Internal Revenue Code of 1986. The following description of the Barrett Daffin Frappier Turner & Engel, LLP 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution prototype plan covering all full-time employees of the Employer, who are age twenty-one years or older. An employee is eligible to participate in the Plan immediately upon employment. The plan is subject to the provisions of ERISA.

Contributions. For the current year, participants may contribute up to $16,500 of pretax annual compensation, as defined in the plan. In addition, individuals age 50 or over are allowed to contribute an additional $5,500 to the plan. Participants direct the investment of all contributions to their account into various investment options offered by the Plan. Effective January 1, 2009 the plan was amended to automatically defer 3% for all eligible employees unless the employee elects to change the deferral.

Company matching. The Employer shall make a discretionary matching contribution based on the amount of salary reduction contributions. The Employer evaluates the match annually, and can modify the percentage at their discretion. The Employer matching contribution in 2010 was 50% up to the first 6% of participants' compensation. Each eligible employee who satisfies the participation requirements may receive matching and non-elective Employer contributions after completing one year of service.

With limited exceptions, participants must complete 250 hours of service and be employed on the last day of the Plan quarter to receive an allocation of Employer matching contributions and must complete 1,000 hours of service and be employed on the last day of the Plan year to receive an allocation of Employer non-elective contributions.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A – Description of plan (continued)

Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts and earnings thereon is based on years of continuous service, as follows:

Year of Participation	Percent Vested
1 Year	0
2 Years	20
3 Years	50
4 Years	75
5 Years or More	100

One year of service credit for purposes of the vesting schedule will include all plan years during which the participant worked at least 1,000 hours for the plan Sponsor. Years of service before the effective date of the plan are excluded for vesting purposes.

Payment of benefits. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes receivable from participants. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Interest rates range from 4.25% to 9.25%. Principal and interest is paid ratably through bi-monthly payroll deductions.

Investment options. Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options. Participants may change their deferral percentage and investment options as often as they choose by contacting the Trustee in writing, via telephone or via the internet. Participants may terminate deferrals at any time.

Rollovers. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations. All contributions are paid in cash.

Note B – Summary of significant accounting policies

Basis of accounting. The financial statements of the plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note J for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Notes receivable are reclassified from investments pursuant to the Plan's adoption of Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 962-310-45-2.

Payment of benefits. Benefits are recorded when paid.

Use of estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Forfeitures. Forfeitures may be used to reduce future Employer contributions. At December 31, 2010 and 2009, forfeited nonvested accounts totaled $34,372 and $38,448, respectively. These accounts will be used to reduce future employer contributions. Also, in 2010, plan expenses were reduced by $21,405 from forfeited nonvested accounts.

Contributions receivable. Contributions receivable represent deferrals withheld from participant's paychecks and payments withheld for scheduled notes receivable from participant payments for the last pay period in December. Employer contributions receivable represent the company match for the quarter ended December and a correction for the 2008 partial plan termination.

Operating expenses. Operating expenses consist of fees for auditing, recordkeeping and other administrative services. Some fees are deducted from participant accounts in accordance with the plan documents for services received, however most costs are paid by the employer.

Note C – Reconciliation of financial statements to form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$	6,302,138
Less: 2010 employee contributions receivable		(17,409)
Less: 2010 employer contributions receivable		(93,109)
Net assets available for benefits per Schedule H to the form 5500	$	6,191,620

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements at December 31, 2010 to Schedule H of Form 5500:

Net increase in net assets available for benefits per the financial statements	$	832,839
Add: 2009 employer contributions receivable		80,130
Less: 2010 employee contributions receivable		(17,409)
Less: 2010 employer contributions receivable		(93,109)
Net increase in net assets available for benefits per the form 5500	$	802,451

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$	5,469,299
Less: 2009 employer contributions receivable		(80,130)
Net assets available for benefits per Schedule H to the form 5500	$	5,389,169

Note D – Tax status

The IRS has determined and informed the Employer by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Note D – Tax status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Code. The plan administrator has analyzed the tax positions taken by the plan, and have concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note E – Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note F – Risk/uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note G – Related party transactions

Certain plan investments are shares of mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A., is the Trustee as defined by the plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to $24,692 for the year ended December 31, 2010.

Notes to Financial Statements
December 31, 2010 and 2009

Note H – Information certified by the plan's trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CF 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and disclosure under Employee Retirement Income Security Act of 1974. The Trustee holds the plan's investment assets and notes receivable from participants, and executes investment transactions in accordance with the plan documents. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

	Year ended December 31,	
	2010	2009
Interest with registered investment companies	$ 6,057,276	$ 5,228,004
Notes receivable from participants	134,344	146,081
	$ 6,191,620	$ 5,374,085

The net appreciation in fair value of investments was $670,965 for the year ended December 31, 2010. Dividend income was $55,526 and interest income was $9,425 for the year ended December 31, 2010.

The plan's independent auditors did not perform audit procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

	$ 726,491

All investments of the Plan are participant-directed.

Note J – Fair value measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Note J – Fair value measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010:

	Level 1	Total
December 31, 2010		
Mutual funds:		
Money market	$ 573,701	$ 573,701

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2010 are reported in net appreciation in fair value of investments.

Note J – Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009:

	Level 1	Total
