Independent Auditor's Report

To the Pension Committee
McLaughlin Body Company
401(k) Plan and Trust
Moline, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of McLaughlin Body Company 401(k) Plan and Trust as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified or provided by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company (a member of the Principal Financial Group), the custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodians hold certain Plan investment assets and execute certain investment transactions. As disclosed in Note 6, the Plan Administrator has obtained certifications from the custodians regarding the completeness and accuracy of the investment information provided to the Plan Administrator by the custodians as of and for the years ended December 31, 2010 and 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a salary deferral plan under Section 401(k) of the Internal Revenue Code. The Plan provides retirement benefits to all eligible employees of McLaughlin Body Company (Company) and its affiliated entities including Bee Line Company and McLaughlin Motors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

All employees who have completed one year of service and have reached their twenty-first birthday are eligible to participate in the Plan as of the date they have satisfied such requirements. An employee who has become eligible for participation shall become a participant effective the first day of the quarter following the date the employee met the eligibility requirements.

Participant accounts:

Each participant's account is credited with the participant's salary deferral contributions and an allocation of Plan earnings. Allocations are based on account balances in accordance with the method described in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants elect the funds to which their contributions are allocated.

Vesting:

Participants are immediately vested in their salary deferral contributions and the actual earnings thereon.

Payment of benefits:

Upon termination of service, a participant may elect to maintain their account in the Plan or to receive either a lump-sum amount equal to the value of his or her account, or a purchased annuity of equal installments over a period not to exceed the payee's or beneficiary's assumed life expectancy as of the termination date.

Funding policy:

The Company is required to contribute the amount agreed to pursuant to the salary deferral agreement described below and entered into between the Company and the participants for each plan year.

The Plan allows participants to elect to enter into a salary deferral agreement each Plan year. The terms of any such agreement provide that the participant agrees to accept a percentage reduction in salary from the employer; however, this percentage may not exceed the limitations set forth in the Plan.

Note 1. Plan Description (Continued)

Notes receivable from participants:

The Plan includes a provision allowing participants to borrow funds from the Plan. Under the terms of this provision, borrowings are subject to certain limitations, including a minimum borrowing of $1,000 and a maximum borrowing not to exceed the lesser of 50 percent of the participant's vested account balance or $50,000. The maximum loan term is five years. Participants may not have more than two loans outstanding at any point in time and spousal consent must be obtained in the case of married participants.

Note 2. Summary of Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the exdividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest.

Payment of benefits:

Benefits are recorded when paid.

Recent pronouncements:

In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment, ASU 2010-06, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*, which requires new disclosures and reasons for transfers of financial assets and liabilities between levels 1 and 2 and also clarifies that fair value measurement disclosures, including discussion of input and valuation techniques, are required for each class of financial assets and liabilities. This part of the amendment was effective and has been adopted by the Plan during the Plan’s year ended December 31, 2010. The amendment further clarifies expanded disclosure requirements related to reconciliation of level 3 measurements, which will be effective for the Plan’s year ending December 31, 2011.

Note 2. Summary of Accounting Policies (Continued)

In September 2010, FASB issued an amendment, ASU 2010-25, *Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment requires retrospective application to all periods presented and was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $345,232 and $320,165 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events:

The Plan Administrator has evaluated subsequent events through July 19, 2011, the date the financial statements were available to be issued.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 4. Tax Status

The Plan is a standardized profit sharing 401(k) prototype plan sponsored by Principal Life Insurance Company (Principal). The prototype plan has received a letter from the Internal Revenue Service dated March 31, 2008 as to its qualified status under Section 401(k) of the Internal Revenue Code, and is, therefore, exempt from federal income taxes. The Plan has been amended and restated since the original determination letter was received. The Plan Administrator believes that the Plan, as amended and restated, is designed and is currently being operated in compliance with the applicable requirements of the Code.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision of liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2007.

Note 5. Investment in Insurance Contracts

The Plan has entered into an insurance contract with Principal, who maintains the Plan's deposits in an unallocated fund, to which it adds interest at the contract rates ranging from .10 to 4.11 percent and .84 to 4.10 percent for December 31, 2010 and 2009, respectively. The account is credited with earnings on underlying investments and charged for participant withdrawals and administrative expenses. Principal is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The guaranteed interest rate is set from time to time by Principal for contracts in effect for each year. This contract has been determined to not be fully benefit-responsive as market value adjustments may be made when funds are withdrawn prior to their maturity. The contract value of the unallocated fund was $429,872 and $523,690 for the years ended December 31, 2010 and 2009, respectively.

Note 6. Information Certified or Provided by Plan Custodians

The following is a summary of the Plan's investment information as of and for the years ended December 31, 2010 and 2009, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following investments:

Interest and dividends	123,650	97,991
	$ 1,631,126	$ 1,543,684

Note 7. Fair Value Measurements

Financial Accounting Standards Board ASC No. 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; and Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009:

Guaranteed interest accounts (investments in insurance contracts): Valued at fair value based on a formula specified in the Plan's group annuity contract with Principal.

Pooled separate accounts: All pooled separate accounts, except the U.S. property account, are valued on the net fair value of the underlying assets held in those accounts using quoted prices for similar assets or benchmark information. There are no unfunded commitments related to these accounts as of December 31, 2010 and 2009 and the amounts can be redeemed daily without restrictions.

The value of the U.S. property account is based on the fund's net asset value (NAV) as determined utilizing information from brokers on market rents and sales comparables for similar assets as well as the applicable cash flows generated by the property. The Plan's investment in the Principal U.S. property account was $393,705 or approximately 3 percent of Plan investments as of December 31, 2010. Principal still maintains a contractual withdrawal limitation which may delay the payment of withdrawal requests. Those requests will be honored proportionately as sufficient cash becomes available for distribution, in accordance with the terms of the Plan's agreement.

Mutual funds: Value based on quoted prices in the active markets on which the funds are traded.

Note 7. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009. Those investments that represent 5 percent or more of the Plan's net assets are presented separately:

Balance, December 31, 2010	$ 428,208	$ 393,705

Note 8. Risks and Uncertainties

The investments of the Plan are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term could materially affect investment balances and the amounts reported in the financial statements.

Note 9. Related Party Transactions

Plan investments in guaranteed interest and pooled separate accounts are funds managed by Principal, a plan custodian, and therefore, transactions with these investments are considered related party transactions.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits and changes in net assets available for benefits per the financial statements to the Form 5500:
