NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016
(See Independent Auditor's Report)

1. Description of Plan

The following description of the Kellermeyer Bergensons Services Savings & Protection Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a.) General

The Plan is a defined contribution [401(k)] plan covering all non-union employees, with the exception of highly-compensated employees of Kellermeyer Bergensons Services, LLC, the Plan sponsor, who have completed 12 months of service and have 1,000 or more hours of service in the 12-month period commencing on his/her date of employment. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b.) Contributions

Each active participant may elect to make contributions under the Plan in an amount which is based on the participant's compensation. There are limits on the amount of employee contributions, which are defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution Plans (rollovers).

The Plan sponsor shall contribute for each Plan year such amount as the board of directors shall determine.

Participants direct the investment of their contributions and employer contributions into various investment options offered by the Plan. These investments can be changed throughout the year. The investment options currently offered through the Plan's group annuity contract are 15 pooled separate accounts, 7 common collective trust accounts, 1 guaranteed interest account and 4 mutual funds.

c.) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the employer contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan documents. Participants incur charges for certain Plan services requested by them. For 2017 and 2016, the charges were $ 5,694 and $ 5,820, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d.) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $ 1,000, up to a maximum equal to the lesser of $ 50,000, or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at 5.25%, which is commensurate with prevailing market rates at inception of loan. Principal and interest are paid ratably through semi-monthly payroll deductions.

1. Description of Plan - continued

e.) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's discretionary contribution portion of their account, plus actual earnings thereon, is based on years of service as defined in the Plan. A participant is 100% vested after 4 years of credited service. Participants working for the company on or after normal retirement age, on the date they become totally disabled as defined in the Plan, or on the date they die, is fully vested.

f.) Payment of Benefits

Upon termination of service, a participant has various payment options to choose from depending on their vested account balance. Account balances of $ 1,000 or less will be paid in lump sum. Active participants with at least 5 years of service may withdraw all or part of their vested account balance resulting from employer discretionary contributions, as long as the vested account balance is under $ 1,000, and they are not a corporate manager or field manager. Participants attaining the age of 59 1/2 can request in-service distributions of their vested account balance.

g.) Forfeited Accounts

At December 31, 2017 and 2016, forfeited nonvested accounts totaled $ -0- for both years. These accounts may be used to pay future Plan administration fees.

2. Summary of accounting policies

a.) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

b.) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

c.) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. The fair value of separate accounts and common collective trust accounts is maintained and determined by Principal Life Insurance Company, the Plan's custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold, as well as held during the year.

2. Summary of accounting policies - continued

d.) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

e.) Excess Contributions Payable

Amounts payable to a participant for contributions in excess of amounts allowed due to Plan provision not allowing highly-compensated employees to contribute is recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participant in August 2017.

f.) Payment of Benefits

Benefits are recorded when paid.

g.) Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan sponsor, Kellermeyer Bergensons Services, LLC, and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

3. Change in accounting principles

The Plan has elected early adoption of the Accounting Standards *Update 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or ITS Equivalent)* (ASU 2015-07), issued in May 2015 and Accounting Standards Update 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962) Part II Plan Investment Disclosures* (ASU 2015-12), issued in July 2015.

ASU 2015-07 allows Plans to remove investments measured at fair value using NAV from categorization as Level 1, Level 2 or Level 3 within the fair value hierarchy footnote. This update allows for a more consistent approach in reporting investments, simplifies the fair value disclosure and may save auditing time.

ASU 2015-12 Part II allows Plans to eliminate the requirement to identify individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. Instead, the net appreciation or depreciation in investments will be required to be presented in the aggregate. This update results in no new disclosure requirements and will reduce cost through elimination of current disclosure requirements.

4. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows: There are no Plan assets requiring the use of Level 2 inputs for the period presented.

LEVEL 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2

Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability and (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds

Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access at the measurement date.

Guaranteed interest accounts

Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances. An example could be real estate valuations, which require significant judgment.

Pooled separate accounts (PSA)

Assets allocated to the separate accounts can include, but are not limited to, stocks (both domestic and foreign), bonds, mortgages, real estate, mutual funds, other separate accounts, cash or cash equivalents as specified in the separate account's investment policy. Some underlying investments may be publicly quoted and others may not, the net asset value (NAV) of a separate account is not publicly quoted. The separate accounts the Plan has investments in are valued using NAV. The NAV is used as a practical expedient to estimated fair value. The PSAs can be redeemed on a daily basis.

4. Fair value measurements - continued

Collective investment trust

Collective investment trusts invest in collecting trust funds, as well as a variety of separate accounts and mutual funds. The fair value of the collective investment trust and the separate accounts are not publicly quoted pricing inputs. The mutual funds are publicly quoted pricing inputs (Level 1). The fair value of all these investments are used in determining the NAV of the collective investment trust, which is not publicly quoted. The NAV is used as a practical expedient to estimated fair value. The collective investment trust can be redeemed at NAV as of the measurement date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Assets at fair value as of December 31, 2017:

	Fair Value	Level 1	Level 3
Mutual funds	$ 542,786	$ 542,786	$ -0-
Guaranteed interest account	190,705	-0-	190,705
Total assets in the fair value hierarchy	733,491	542,786	190,705
Investment measured at net asset value [(a)]	4,181,260	--	--
	$ 4,914,751	$ 542,786	$ 190,705

Assets at fair value as of December 31, 2016:

	Fair Value	Level 1	Level 3
Mutual funds	$ 514,321	$ 514,321	$ -0-
Guaranteed interest account	184,712	-0-	184,712
Total assets in the fair value hierarchy	699,033	514,321	184,712
Investment measured at net asset value [(a)]	4,326,847	--	--
	$ 5,025,880	$ 514,321	$ 184,712

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Assets Available for Benefits.

4. Fair value measurements - continued

Level 3 gains and losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2017 and 2016:

5. Information prepared and certified by the Plan's custodians

The following information included in the accompanying financial statements as of and for the year ended December 31, 2017 and 2016, was obtained from data that has been prepared and certified to as complete and accurate by Principal Life Insurance Company and Principal Trust Company.

	2017	2016
Pooled separate accounts	$ 2,936,998	$ 3,327,176
Mutual funds	542,786	514,321
Collective investment trust	1,244,262	1,089,671
Guaranteed interest account	190,705	184,712
Investment earnings (losses)	662,284	332,521

6. Tax status

The Plan has obtained its latest Determination Letter dated May 7, 2015, in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Internal Revenue Service conducted an examination of the Plan's 2012 Form 5500 in June 2014 and notified the Plan on July 11, 2014, that they accepted the tax return as filed. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2014.

7. Plan termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8. Related party transactions

Certain Plan investments are units of pooled separate accounts and collective investment trust managed by Principal Life Insurance Company. Principal Life Insurance Company is a custodian of the Plan assets. These transactions qualify as exempt party-in-interest transactions.

The Plan sponsor pays substantially all expenses of administering the Plan.

9. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$	5,088,729

10. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

11. Subsequent event

The Plan has evaluated subsequent events through October 11, 2018, the date the financial statements were available to be issued.
