Note 1 – Description of the Plan

The Plan:

The following description of the A & A Ready Mixed Concrete, Inc. 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The plan has been restated and amended effective January 1, 2011.

General:

The Plan is a defined contribution plan covering all full-time employees of the Company who have three months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Employer Contributions are determined by resolution of the Board of Directors of the employers. Profit sharing contributions are discretionary. The employer may make discretionary matching contributions up to 3% of participant compensation for union contract employees only. There was $7,851 in matching contributions for the year ending December 31, 2010. There were no profit sharing contributions for the year ending December 31, 2010.

Each year, participants may contribute up to 15% of pretax annual compensation, as defined in the Plan.

Participants direct the investment of their contributions, as well as employer contributions to their accounts into various investment options offered by the Plan. The Plan currently offers various mutual funds and common/collective trusts as investment options for participants.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. The employer profit sharing contributions and employer matching contributions will not be vested until there has been six years of credited service, at which time they will become vested at 100%.

Note 1 – Description of the Plan - continued

Notes receivable from participants:

Participants may borrow from their fund accounts. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25% which are commensurate with local prevailing rates as determined by the trustee at the time the loan is originated. Principal and interest is paid ratably through monthly payroll deductions.

Payment of benefits:

On termination of service, death, disability or retirement, a participant may elect to receivable either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments, partial withdrawals. Benefits are paid in cash only.

Participants are allowed to take hardship distributions from all accounts.

Participants may take in-service distributions if they have not separated from service and has attained the age of 59 ½.

Forfeitures:

There was $ 36,159 in benefits forfeited in profit sharing and matching accounts for the Plan Year ended December 31, 2010. The amount allocated to the Employer Account was $ 7,778. There is an accumulated total of $ 40,235 of forfeitures to reduce employer's future contributions.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Notes Receivable from Participants:

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Accounting estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 – Summary of Significant Accounting Policies - continued

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

The plan's investments are stated at fair value, except for common/collective trust investments, which are at contract value.

Payment of benefits:

Benefits are recorded when paid.

Operating expenses:

All expenses of maintaining the Plan are paid by the Company.

Evaluation of subsequent events:

Events subsequent to December 31, 2010 have been evaluated through August 1, 2011, the date at which the Plan's audited financial statements were available to be issued. No events requiring disclosures have occurred through this date.

Note 3 – Tax Status

The Plan was effective January 1, 2009. In March 1992, the Internal Revenue Service found the Plan to be a qualified plan and thus issued a favorable determination letter. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 4 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

			Fair Value Measurement Using:	
		Fair Value	Quoted Prices Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2010				
Mutual funds	$	7,458,136	$ 7,458,136	$ 0
Common/collective trust		2,450,255	2,450,255	0
Total	$	9,908,391	$ 9,908,391	$ 0
December 31, 2009				
Investment contract with insurance company	$	7,371,904	$ 7,371,904	$ 0
Common/collective trust		2,567,591	2,567,591	0
Total	$	9,939,495	$ 9,939,495	$ 0

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 and Level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Note 4 – Fair Value Measurements - continued

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2010 are reported in net appreciation in fair value of investments.

Note 5 – Investments

The following presents investments at December 31, 2010 and 2009 that represent 5% or more of the Plan's net assets.

In the event of Plan termination, the Trustee, in accordance with the direction of the Plan Administrator, shall allocate and segregate for the benefit of the Plan participants, the proportionate interest in the Trust as reflected by their accounts.

Note 7 – Risks and Uncertainties

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits

NOTE: The Deemed Distributed Loans (DDL) listed on this Schedule include all DDLs that were deemed distributed during this period or earlier. This may differ from the DDLs listed on Report #6 STATEMENT OF DISBURSEMENTS (Section III), since it lists only loans that were deemed distributed during this period.

EXPLANATION OF LOAN CODES:

(1) DDL - A Deemed Distributed Loan (DDL) occurs when a participant misses a loan payment (other than leave of absence) and fails to make it up by a specified date, or the term for repaying a loan expires without full payment. Per IRS instructions, the plan must continue to treat the DDLs as outstanding loans, while the plan's 5500 Schedule H or I must exclude DDLs from the assets reported.

(2) OFS - An Offset Loan (OFS) occurs when a participant has an outstanding loan, terminates employment, and is paid out from the plan. The loan is treated as part of the distribution.

(3) DDL/OFS - A DDL/OFS is a previous DDL that is now Offset. This occurs when a participant who has a DDL terminates employment and is paid out from the plan. The DDL is then treated as part of the distribution.

(4) DDL/RPD - A DDL/RPD is a previous DDL that is now Repaid.

(5) REF - Refinanced loan

NOTE: The following is specifically for Form 5500 reporting.
FOR FORM 5500 SCHEDULE H/I #4b, DO NOT REPORT DEFAULTED OR OFFSET LOANS MADE UNDER AN INDIVIDUAL ACCOUNT PLAN WITH INVESTMENT EXPERIENCE SEGREGATED FOR EACH ACCOUNT AND SECURED SOLELY BY A PORTION OF THE PARTICIPANT'S VESTED ACCRUED BENEFIT (ACCOUNT BALANCE).
