INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
Westpac Investments, Inc. 401(k) Profit Sharing Plan
San Luis Obispo, California

We were engaged to audit the accompanying statements of net assets available for benefits of the Westpac Investments, Inc. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010 and 2009 and the related statements of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets held for investment purposes at December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information as set forth in Note E to the financial statements, which was certified by Fidelity Management Trust Company and Counsel Trust D.B.A Mid Atlantic Trust Company, trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that Counsel Trust D.B.A Mid Atlantic Trust Company held Plan assets and executed investment transactions from April 1, 2010 through December 31, 2010, and that Fidelity Management Trust Company held Plan assets and executed investment transactions as of December 31, 2009 and for the period from January 1, 2010 to May 14, 2010. The Plan administrator has obtained certifications from the trustees as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement income Security Act of 1974.

NOTE A – DESCRIPTION OF PLAN

The following description of the Westpac Investments, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, formed on February 1, 2003, is a defined contribution plan generally covering all employees of Westpac Investments, Inc and affiliated companies (the Company), as described in the Plan agreement, who have one year of service and are at least twenty-one (21) years of age. The service requirement was waived for employees at the Plan's inception date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Amendments: Effective March 1, 2010 the Plan was amended and restated in its entirety coinciding with a change in trustees to Counsel Trust DBA Mid Atlantic Trust Company with recordkeeping by Paychex Retirement Services. Upon restatement, the Plan adopted a standardized prototype plan sponsored by Paychex, Inc. In conjunction with the restatement, the eligibility requirements were amended to increase the service period requirement from six months to one year and new issuances of participant loans are no longer permitted.

Contributions: Each year, participants may contribute pre-tax or after-tax (Roth) amounts up to 92% of annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. In early 2007, the Plan was amended to add an auto-enrollment feature whereby all eligible participants are automatically enrolled in the plan, unless they opt-out, at a 3% deferral rate.

The Company, at its discretion, may make employer profit sharing contributions. The Company did not make a profit sharing contribution for 2010.

Participants direct the investment of their contributions into various mutual fund investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of a) the Company's contribution and b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. A participant is always one hundred percent (100%) vested in their account. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes receivable from participants: Prior to March 1, 2010, participants could borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest rates that range from 9.00% to 9.25%. Principal and interest is paid ratably

through payroll deductions. Since March 1, 2010, the Plan does not allow new issuances of participant loans.

Withdrawals and Payment of Benefits: The Plan includes several sets of provisions for withdrawal or payment of benefits relative to a participant's age and circumstances, in compliance with provisions of the Internal Revenue Code. There are provisions for disability, death, hardship withdrawal, direct rollovers, lump sum benefit payments and delay of payments to retirement date.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting. Revenues are recognized when earned, and purchase of assets is recognized when the obligation is incurred. Investments are carried at fair value.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires that management make estimates and assumptions that affect the financial statements and accompanying notes. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition: Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of investments are recorded on a trade date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The plan has evaluated subsequent events through October 10, 2011 the date the financial statements were available to be issued.

NOTE C- RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net assets Available for Benefits.

NOTE D - RELATED PARTY TRANSACTIONS

During the year, the Plan invested in shares of mutual funds managed by an affiliate of Fidelity Management Trust Company (FMTC). FMTC acts as trustee for only those investments as

defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

NOTE E – INFORMATION CERTIFIED BY FIDELITY MANAGEMENT TRUST COMPANY AND COUNSEL TRUST DBA MID ATLANTIC TRUST COMPANY

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company (FMTC) and Counsel Trust DBA Mid Atlantic Trust Company, except for comparing such information certified by the trustees to information included in the Plan's financial statements and supplemental schedule.

The following table presents the investments in the Plan that were certified by Counsel Trust DBA Mid Atlantic Trust Company as of December 31, 2010 and Fidelity Management Trust Company as of December 31, 2009. Single investments representing more than 5% of the Plan's net assets as of December 31, 2010 are separately identified.

The trustees also certified to the completeness and accuracy of $95,133 of net appreciation in fair value of investments and $23,162 of interest and dividends related to the aforementioned investments for the year ended December 31, 2010.

NOTE F – FAIR VALUE MEASUREMENT

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31,2010			
	Level 1	Level 2	Level 3	Total

Fixed income funds	36,143	-	-	36,143
	$ 1,203,845	$ -	$ -	$ 1,203,845

NOTE G – PLAN TERMINATION

Although Westpac Investments, Inc. has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA.

NOTE H – TAX STATUS

Effective March 1, 2010, the Plan adopted a standardized form of a prototype plan sponsored by Paychex, Inc. The prototype plan has received an opinion letter, dated March 31, 2008, from the IRS as to the prototype plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and has concluded as of December 31, 2010, there are no uncertain positions taken or expected to be taken

that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
Westpac Investments, Inc. 401(k) Profit Sharing Plan
San Luis Obispo, California

We were engaged to audit the accompanying statements of net assets available for benefits of the Westpac Investments, Inc. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010 and 2009 and the related statements of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets held for investment purposes at December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information as set forth in Note E to the financial statements, which was certified by Fidelity Management Trust Company and Counsel Trust D.B.A Mid Atlantic Trust Company, trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that Counsel Trust D.B.A Mid Atlantic Trust Company held Plan assets and executed investment transactions from April 1, 2010 through December 31, 2010, and that Fidelity Management Trust Company held Plan assets and executed investment transactions as of December 31, 2009 and for the period from January 1, 2010 to May 14, 2010. The Plan administrator has obtained certifications from the trustees as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement income Security Act of 1974.

NOTE A – DESCRIPTION OF PLAN

The following description of the Westpac Investments, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, formed on February 1, 2003, is a defined contribution plan generally covering all employees of Westpac Investments, Inc and affiliated companies (the Company), as described in the Plan agreement, who have one year of service and are at least twenty-one (21) years of age. Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires that management make estimates and assumptions that affect the financial statements and accompanying notes. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition: Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of investments are recorded on a trade date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The plan has evaluated subsequent events through October 10, 2011 the date the financial statements were available to be issued.

NOTE C- RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net assets Available for Benefits.

NOTE D - RELATED PARTY TRANSACTIONS

During the year, the Plan invested in shares of mutual funds managed by an affiliate of Fidelity Management Trust Company (FMTC). FMTC acts as trustee for only those investments as

defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

NOTE E – INFORMATION CERTIFIED BY FIDELITY MANAGEMENT TRUST COMPANY AND COUNSEL TRUST DBA MID ATLANTIC TRUST COMPANY

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company (FMTC) and Counsel Trust DBA Mid Atlantic Trust Company, except for comparing such information certified by the trustees to information included in the Plan's financial statements and supplemental schedule.

The following table presents the investments in the Plan that were certified by Counsel Trust DBA Mid Atlantic Trust Company as of December 31, 2010 and Fidelity Management Trust Company as of December 31, 2009. Single investments representing more than 5% of the Plan's net assets as of December 31, 2010 are separately identified.

NOTE F – FAIR VALUE MEASUREMENT

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31,2010			
	Level 1	Level 2	Level 3	Total

NOTE G – PLAN TERMINATION

Although Westpac Investments, Inc. has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA.

NOTE H – TAX STATUS

Effective March 1, 2010, the Plan adopted a standardized form of a prototype plan sponsored by Paychex, Inc. The prototype plan has received an opinion letter, dated March 31, 2008, from the IRS as to the prototype plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and has concluded as of December 31, 2010, there are no uncertain positions taken or expected to be taken

that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.
