NOTE 1 DESCRIPTION OF PLAN

The following description of the Latite Roofing & Sheet Metal, LLC 401(K) (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective July 1, 1994. The Plan is a defined contribution 401(k) Savings Plan and profit sharing plan covering all employees of the Company who have six months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Contributions to the plan consist of the following:

1. Voluntary employee contributions in any amount up to 100% of annual compensation, subject to federal tax law limits of $18,000 in 2017 and $18,500 in 2018. Individuals at least 50 years of age are permitted to make "catch-up" contributions of up to $6,000 in 2018.

2. Discretionary employer contributions in accordance with the terms of the Plan agreement. For the current plan year, the Company matched 10% of amounts contributed by the participants.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the employer's discretionary matching contributions, (b) Plan earnings, and is charged with his or her withdrawals and an allocation of administrative expenses.

Allocations

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants self-direct the investment of their account into various options offered by the Plan.

Retirement, Death and Disability

A participant is entitled to 100 percent of his or her account balance upon retirement, death or disability.

Vesting

Participants are immediately fully vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts, plus earnings thereon, is based on years of continuous service at the rate of 20 percent per year.

Plan Termination

Although it has not expressed intent to do so, the employer has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their account balances existing at the time of termination.

Payment of Benefits

An account is established for each participant in the Plan to which contributions and any related earnings thereon are credited. The amount of benefits payable under the Plan will be the vested amount in the participant's account as of the date of a participant's retirement, death, or disability. Benefits payable to participants upon termination of employment prior to normal retirement age will be the vested amount in the participant's account as of the last day of the calendar quarter coinciding with or immediately preceding his termination of employment. On termination of service, payment shall be a lump sum. The plan also allows for hardship withdrawals in certain circumstances.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly. Principal and interest is repaid through payroll deductions.

NOTE 2 SUMMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The records of the Plan are maintained on the accrual basis of accounting. Costs are recorded as incurred and investment income is recorded as it is earned.

Valuation of Investments

The Plan's investment assets are primarily invested in various mutual funds of the American Funds Group. The Plan's assets invested in the various mutual funds are stated at fair market value as determined by quoted market prices.

Administrative and Investment Management Expenses

Loan origination fees associated with notes receivable from participants and the Plan's record keeping and custodian fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan. All other expenses of the Plan are paid by the Company.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Forfeited Accounts

Forfeitures may first be used to pay administrative expenses. Any unused amounts may then be used to reduce Company contributions.

NOTE 3 TAX STATUS

The IRS has determined and informed the Plan sponsor that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and currently is being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or assets) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 4 INFORMATION CERTIFIED BY THE PLAN CUSTODIAN (Unaudited)

The notes are collateralized by vested benefits. Principal and interest is repaid in equal installments through payroll deductions.

NOTE 6 EVALUATION OF SUBSEQUENT EVENTS

The Company has evaluated subsequent events through July 1, 2019, the date which the financial statements were available to be issued.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investments it is at lease reasonably possible that changes in the values for investments will occur in the near term and such changes could materially affect participants' balances and amounts reported in the statement of net assets available for benefits.

NOTE 8 FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. As defined in FASB ASC 820, fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Company utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated or generally unobservable inputs and minimize the use of unobservable inputs.

Based on the examination of the inputs used in the valuation techniques, the Company is required to provide the following information according to the fair value hierarchy. This hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair values will be classified and disclosed in one of the following three categories:

Level 1 - Inputs consist of unadjusted quoted prices in active markets for identical assets or liabilities in active markets that the Plan has the ability to access; these inputs have the highest priority.

Level 2 – Inputs to the valuation method include:

a. Quoted prices for similar assets or liabilities in active markets
b. Quoted prices for identical or similar assets of liabilities in inactive markets
c. Inputs other than quoted prices that are observable for the asset or liability
d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following table presents the Plan’s financial instruments carried at fair value as of December 31, 2018, in accordance with the FASB ASC 820 hierarchy, as described above:
