1. Description of the Plan

The following description of the MMC Group, L.P. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established effective October 1, 1998. The Plan was amended August 1, 2002. The Plan is subject to the provisions of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and the Internal Revenue Code ("IRC"), as amended.

The employee benefit Plan of C.D. Mitchell & Company (also known as the C. D. Mitchell & Company 401(k) Profit Sharing Plan) was merged into the Plan effective December 31, 2017. Total plan assets transferred in were approximately $1 million and was recorded as a plan transfer-in receivable as of December 31, 2017 on the Statement of Net Assets Available for Benefits which were received by the Plan on January 8, 2018.

Administration

The Company has appointed employees of the Company to administer the Plan. The Plan investments are managed by John Hancock Life Insurance Company ("Custodian") as agent for the trustees.

Eligibility

All employees of MMC Group, L.P. (the "Company" or the "Plan Sponsor") who have completed 3 months of service and have reached the age twenty-one are eligible to participate in the Plan. Employees will become a participant on the first day of the month following the completion of the eligibility requirements.

Participant Contributions

Annual employee contributions are limited to a maximum of 75% of each participant's annual compensation subject to a dollar limitation. Total elective deferrals made by an employee are further limited by the Internal Revenue Service to a maximum contribution adjusted annually by the Secretary of the Treasury for inflation ($18,500 for 2018) and may be made on either a pre-tax basis or a post-tax basis as a "Roth Deferral". Participants may also rollover amounts from other qualified plans. Employee contributions to the Plan are made through regular payroll deductions. Participants may stop their elective deferred contributions at any time. Participants may increase or decrease the amount of their contributions monthly.

Employer Contributions

The Company may match, in its sole discretion, contribute and allocate to each eligible participant's account, a percentage of the participant's elective deferrals. Matching contributions, if any, shall be determined as of the end of the Plan year. The Company did not make any contributions for the year ended December 31, 2018. Additional profit-sharing amounts may be contributed at the option of the Company's board of directors.

Rollovers

Participants may elect to make rollover contributions to the Plan from other qualified plans.

Participants' Accounts

Participant accounts are credited with (1) participant contributions, (2) Company matching contributions, if applicable, (3) Company discretionary profit-sharing contributions, if applicable, and (4) Plan earnings and forfeitures. Allocations of any profit-sharing contributions to participant accounts are based on participant compensation. Plan earnings are allocated pro rata within each investment based on the participant's account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their contributions and allocated earnings thereon. The Company's matching and profit-sharing contributions vest as follows: less than one year of service-0%, 1 year-20%, 2 years-40%, 3 years-60%, 4 years-80%, after 5 years-100%. A participant's account becomes 100% vested upon death, attaining normal retirement age, retirement due to disability, or if the Plan terminates.

Forfeitures

If a participant withdraws from the Plan before becoming fully vested, the portion of the participant's account attributed to the Company's matching or profit-sharing contributions, which has not vested, will be forfeited and applied first to the payment of the Plan's administrative expenses and any excess applied to reduce either the matching or profit-sharing contributions. There were no forfeitures as of December 31, 2018.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance, reduced by any outstanding loan balance, or $50,000. Loans bear interest equal to the Wall Street Journal’s prime rate plus two percentage points at the inception of the loan (ranging from 4.25% to 6.50% at December 31, 2018). Delinquent participant loans are reclassified as distributions based upon the term of the Plan document. Participant loans are collateralized by the respective participant’s account balance and are repaid through payroll deduction, not to exceed five years, unless the loan was obtained to purchase a participant’s principal residence.

Benefit Payments to Participants

A participant's vested account balance is paid to the participant or the participant's beneficiary in a lump sum cash payment as of the valuation date following retirement (normal retirement age under the Plan is 65), death or disability, or other termination of employment. If, however, the amount of the participant's vested account balance is greater than $5,000, then a participant can elect to have his vested account balance paid to him in installments over a fixed period. In addition, the Plan permits in-service distributions to participants who have attained age 59 1/2 of amounts up to the value of his vested account balance. Distributions to participants are recorded when paid.

Hardship Withdrawals

Upon demonstration of immediate and heavy financial need, as defined in the Plan, hardship withdrawals are allowed from the participant's salary deferrals contributed to the Plan, as well as the participant's Plan account attributable to certain Company matching contributions and Company additional contributions. There is a six-month hold on contributions to the Plan after initial hardship withdrawal.

Administrative Expenses

A substantial portion of the administrative expenses of the Plan is paid by the Company as defined in the Plan agreement. Administrative expenses include third party administration and audit services.

Termination of the Plan

While the Company has not expressed any intent to discontinue the Plan, it may, by action of the Board of Directors of the Company, terminate the Plan. In the event the Plan is terminated, the participants become 100% vested in their account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Contributions and Contribution Receivables

Contributions are recorded on the accrual method of accounting. Contribution receivables are obligations arising from amounts owed to the Plan from Participants or the Company that have not been included in the Plan's investments at year end.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A description of the valuation methodologies used for assets measured at fair value is described further in Note 5. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation of investments is comprised of realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Use of Estimates

The preparation of financial statements, in conformity with U.S. GAAP, requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and changes therein. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus and accrued but unpaid interest. Delinquent participant loans are recorded as deemed distributions based on the terms of the Plan document. There was no allowance at December 31, 2018 or 2017 as the loans are fully collateralized by the participants' accounts.

3. Investments and Information Certified by the Custodian (Unaudited)

The custodian holds the Plan's investments and executes all investment transactions. All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2018 and 2017, net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2018, was obtained or derived from information supplied to the Plan administrator, and certified as complete and accurate, by the custodian. Accordingly, at the request of the Plan administrator, the Plan's independent auditors have performed no audit procedures on the investment information, or related activity, other than to agree the information to the certified custodian statements.

The following is a summary of financial information certified by the custodian as of December 31, 2018 and 2017, and for the year ended December 31, 2018.

	2018	2017
Pooled separate accounts, at net asset value	**$ 2,367,021**	$ 1,346,584
Common collective trust, at contract value	**25,696**	-
Total investments	**$ 2,392,717**	$ 1,346,584
Notes receivable from participants	**$ 70,655**	$ 19,842
Cash	**1,788**	461
	$ 72,443	$ 20,303

	2018
Net depreciation in fair value of investments	**$ (160,483)**
Interest on notes receivable from participants	**$ 1,444**

4. Income Tax Status

The Plan is using a non-standardized prototype plan document, which has received an opinion letter dated March 31, 2008 stating that the form of the Plan is acceptable under section 401 of the IRC for use by employers for the benefit of their employees. The Plan has since been amended

but the Plan Sponsor believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2016.

5. Fair Value Measurements

The accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Pooled Separate Accounts: These accounts are valued on a net unit value basis as determined by the custodian on the last business day of the Plan year. The fair values of these investments are determined by reference to the respective fund's underlying assets, with the custodian specifying the source(s) to use for underlying investment asset prices. The investments underlying the Plan's pooled separate accounts primarily include domestic and international equities and domestic fixed income securities. The net assets value prices of the individual pooled separate accounts are not quoted on any market; however, the unit prices are based on the underlying investments, which are traded in an active market, and are reported at net asset value within the financial statements.

Stable Value Fund: The Plan invests in the John Hancock Stable Value Fund which is a collective investment trust fund sponsored by John Hancock. The fund's primary investment objectives are to preserve principal, maintain a competitive interest rate, and provide daily liquidity at contract value for plan-permitted, participant-directed withdrawals. The fund invests primarily in diversified fixed-income mutual funds and separately managed bond accounts run by investment subsidiaries of John Hancock, and in contract value stabilizing agreements offered by high-quality financial institutions. The stabilizing agreements are designed to offset price fluctuations associated with fixed-income investments by smoothing the effect of any gains or losses on the assets and to offer participants daily liquidity at contract value. Contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustment for withdrawals. The contract value to fair value adjustment at December 31, 2018 and 2017 is insignificant.

Crediting rates on contracts are net of fees to the provider. The calculation of the crediting rate incorporates the book value, market value, duration, and current market yield rates of assets held. Interest crediting rates are typically reset monthly; however, under certain circumstances (such as during periods of high market volatility, unexpected cash in-flows or unexpected withdrawals), it may be reset more frequently. Under the terms of the contract, the crediting rate will not be less than 0%. Periodic resets of the crediting rate may be affected by, among other things, i) changes in the market value of assets, (ii) income, gains and losses with respect to assets, (iii) fees and expenses incurred in asset management and the operation of related accounts or contracts, (iv) the timing and amount of cash in-flows and withdrawals, and (v) the terms and conditions of relevant benefit responsive contracts.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The stable value fund is expected to have a constant contract value of $1.00, although there is no assurance that it will remain constant at $1.00. The fund's trust agreement provides that withdrawals for purposes other than normal benefit payments or plan permitted investment option transfers are subject to either up to a 12-month hold or a market value adjustment, as elected by the Plan Sponsor. These events may include, but are not limited to, the following: mergers, layoffs, plan termination, implementation of early retirement incentive programs or other events within the control of the Plan Sponsor resulting in a material and adverse financial impact on the issuer's obligations under the contract.

In addition, a breach of material obligation under a stability agreement could cause John Hancock or the stability provider to terminate the contract. Most stabilizing agreements also may be terminated by the stability provider due to adverse changes in applicable laws, regulations or accounting treatment. Replacement stabilizing agreements may not be available and participants may experience losses if the market value of the separate account assets no longer covered by the stabilizing agreement is below contract value.

The following table sets forth the Plan's assets at net asset value, as determined by Plan management, as of December 31, 2018 and 2017:

	December 31,	
	2018	**2017**
Investments at net asset value:		
Pooled separate accounts	**$ 2,367,021**	$ 1,346,584

As of December 31, 2018 and 2017, there were no restrictions on redemption or unfunded commitments for any of the major classes of assets, as well as no transfers between Level 1 and 2 investments.

6. Related-Party Transactions

Certain Plan investments are managed by the custodian. Also, the Plan Sponsor pays certain fees on behalf of the Plan. These transactions qualify as exempt party-in-interest transactions.

7. Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general are exposed to volatility and various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect

participants' account balances and the amounts recorded in the Statements of Net Assets Available for Benefits and changes therein.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits from the financial statements to the Schedule H of Form 5500.

9. Subsequent Events

The Plan was amended effective January 1, 2019 to allow an employer match for certain employees who are engaged as contractors with the federal government. The Plan also lowered the age of participation from 21 to 18.

The Plan Sponsor has evaluated subsequent events through September 13, 2019, which is the date these financial statements were available for issuance.
