1. Description of Plan

General

The Glasfloss Industries, L.P. 401(k) Retirement Plan (the "Plan") is a defined contribution plan covering substantially all employees of Glasfloss Industries, L.P. (the "Partnership" or "Employer") who have completed at least 1000 hours of service within the first six months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective January 1, 2015, the Plan was amended and restated in its entirety to bring the plan into compliance with the Pension Protection Act of 2006. The following are certain summarized provisions of the Plan; however, the entire Plan document should be referred to for a more detailed explanation of the Plan's provisions.

Eligibility

Employees of the Company are eligible to participate in the Plan after completing 1,000 hours of service within the six month time period following their date of hire or are credited with a year of service. For purposes of elective deferrals, entry date is the first day of the Plan Year or the first day of the seventh month of the Plan Year coinciding with or next following the date an employee satisfies the eligibility requirements.

Contributions

Participants may contribute up to the maximum percentage allowable under the Internal Revenue Code ("IRC"), and may also contribute amounts representing rollover distributions from other qualified plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation until changed by the participant. The Plan provides that the Partnership may contribute, for its active participants who have elected to make salary deferrals, a matching contribution not to exceed a percentage of the employee's compensation, as determined by the Company. For the 2018 and 2017 plan years, the Partnership matched $0.20 for every $1 contributed by the participant, up to 10% of the participant's eligible compensation for the period. The Plan also provides for additional discretionary and qualified non-elective contributions, all of which are at the option of the Partnership's Board of Directors. The Company did not make any discretionary or qualified non-elective contributions during 2018.

Participant accounts and allocations

Each participant account is credited with the participant's contribution, the Partnership's matching contribution, an allocation of any other discretionary Partnership contributions, and actual Plan earnings. Allocations of the Partnership's contributions are based on each participant's compensation compared to the total compensation of all participants, as defined by the Plan document. Earnings are allocated to individual participant fund accounts based on the earnings of the individual investment options selected by the participant. Terminated participants do not share in allocations of discretionary and qualified non-elective contributions.

Vesting

Participants are immediately vested in their own contributions, the Partnership's matching contributions and any other Partnership discretionary or qualified, non-elective contributions from which the participants are entitled to receive an allocation, plus actual earnings thereon.

Payment of benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance. In addition, hardship distributions are permitted if certain criteria are met.

Administrative expenses

Certain administrative fees are generally charged to each participant's account on a pro rata basis. Likewise, loan fees are charged to the participant's account requesting the loan. As such, these expenses are a component of the Statement of Changes in Net Assets Available for Benefits. In 2018, the Plan paid administrative expenses of $22,472. All other expenses incurred in administering the Plan, other than the administrative fees paid from the Plan's assets, are paid by the Partnership which are not a component of the Statement of Changes in Net Assets Available for Benefits.

Notes receivable from participants

Participants may borrow from their individual accounts a minimum of $1,000 up to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years unless the loan is for the purchase of a primary residence. Any loan balance owed by a participant upon termination of employment with the Partnership is treated as a distribution to the participant. The loans are secured by the balance in the participant's account and bear interest at rates as determined by the Plan administrator based on published rates of reputable financial institutions. Interest rates on outstanding loans ranged from 5.25% to 6.25% at December 31, 2018.

Excess contributions refundable

At December 31, 2018 and 2017, liabilities of $22,867 and $14,484, respectively, were recorded for amounts refundable by the plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service ("IRS"). These excess contributions were reimbursed after year end.

2. Significant Accounting Policies

Basis of presentation

The Plan's financial statements are prepared under the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may vary from such estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contributions

Contributions are recorded under the accrual method of accounting.

Payment of benefits

Benefits are recorded when paid.

Forfeiture account

Forfeitures may be used to reduce future plan expenses or to offset Employer contributions. As of December 31, 2018 and 2017, forfeited non-vested accounts totaled $918 and $16,605, respectively. The Plan used $3,652 of forfeitures to reduce the Company's administrative expenses for the year ended December 31, 2018.

Recent accounting pronouncements

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 amends the disclosure requirements for recurring and nonrecurring fair value measurements by removing, modifying and adding certain disclosures. ASU 2018-13 removes the following disclosures: the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy; the policy for timing of transfers; the valuation process for Level 3 fair value measurements; and changes in the unrealized gains and losses for the period included in earnings for recurring Level 3 fair value measurements held at the end of the reporting period. The ASU modifies the following disclosure requirements: transfers in and out of Level 3 and purchases and issues of Level 3 assets and liabilities; for investments in certain entities that calculate net asset value, the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse if timing has been communicated or announced publicly; and clarifies that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurement as of the reporting date. The additional disclosures required under ASU 2018-13 are applicable only for public entities. The ASU is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. Certain amendments of the ASU may be applied prospectively while others should be applied retrospectively to all periods presented upon the effective date. It is permissible to early adopt any removed or modified disclosures and delay adoption of the additional disclosures, if applicable, until the effective date. Plan management is currently evaluating the impact that the ASU will have on its financial statements.

3. Information Certified by the Plan's Trustee or Custodian (Unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodians have certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

(a) Investments and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017;

(b) Net depreciation in fair value of investments, dividends and interest income, and interest from participant notes receivable, as shown in the Statement of Changes in Net Assets Available for Benefits;

(c) Investment information disclosed in Notes 4 and 5; and

(d) All information included in the Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2018, as shown in the supplemental schedule.

The Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

4. Fully Benefit-Responsive Guaranteed Investment Contracts

As of December 31, 2018, the Plan invests in a fully benefit-responsive fixed interest account, the VOYA Fixed Account ("Fixed Account"), which is available through a group funding contract issued by VOYA Retirement Insurance and Annuity Company ("VOYA"). The Fixed Account is an obligation of VOYA's general account which supports all of the company's insurance and annuity commitments. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a Stable Value fund. As of December 31, 2018 and 2017, the value of the Fixed Account was $1,335,311 and $1,144,576, respectively.

The value of the Fixed Account is determined by the daily crediting of interest which is subject to minimum contractual guarantees. The Fixed Account does not have a maturity date. Investment transfers to and from the Fixed Account, and withdrawals to pay participant benefits (as defined in the contract) are made at book (i.e., "contract") value. Non-benefit surrenders from the Fixed Account would either be subject to a market value adjustment or paid in installments as elected by the contract holder. A contract surrender charge may also be applicable, depending on the terms of the contract.

5. Investments Measured Using the NAV Per Share Practical Expedient

Pooled Separate Accounts

As of December 31, 2018 and 2017, the Plan held investments in pooled separate accounts. The variable funds are pooled separate accounts that invest directly in designated mutual funds or, in some cases, collective investment trusts. The separate account owns and holds the underlying mutual fund or collective trust shares which are valued daily at their net asset values ("NAV"). Plans and participants hold "units of participation" in the separate account.

The variable funds are pooled separate accounts that invest directly in designated mutual funds or, in some cases, collective investment trusts. The separate account owns and holds the underlying mutual fund or collective trust shares which are valued daily at their net asset values ("NAV"). Plans and participants hold "units of participation" in the separate account.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2018 and 2017.

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Holding Period
December 31, 2018				
Pooled separate accounts	$ 11,343,153	N/A	Daily	None
December 31, 2017				
Pooled separate accounts	$ 11,216,362	N/A	Daily	None

6. Related-Party Transactions and Party-in-Interest Transactions

At December 31, 2018 and 2017, there were outstanding loans of $617,526 and $579,573, respectively, due from Plan participants. All of these loans were made in accordance with the Plan agreement which permits loans to be made with prescribed terms, amounts and collateral. None of these loans were determined to be a prohibited transaction as defined by ERISA.

Certain Plan investments are managed by the Custodians and, therefore, these transactions qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Federal Income Tax Status

As of the financial statement date, the Plan has not applied for a determination letter from the IRS to confirm its tax-exempt status. However the Plan is based on the Benefit Investment Group Inc. Prototype plan document qualified with the National Office of the IRS as Basic Plan Document No. 5. This prototype plan is intended to qualify under Section 401(a) and received a favorable opinion letter from the IRS dated August 30, 2001. The Partnership is not aware of any course of action or series of events that have occurred which might adversely affect the Plan's qualified status. The plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization

has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500
