Note 1 – Description of the Plan

The following description of the North Dallas Bank & Trust Co. Thrift and Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was originally established on January 1, 1984, to provide financial benefits for eligible employees of North Dallas Bank & Trust Co. (the "Company"). The Plan is a defined contribution plan qualified under Section 401(k) of the U.S. Internal Revenue Code ("IRC") covering all employees of Company. Effective January 1, 2016, the Plan was amended and restated. There were no substantial changes in Plan provisions as a result of the restatement.

Employees who have completed 6 months of service are eligible to participate in the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participant's contributions are subject to a maximum dollar limit as determined under IRC regulations. Participants may also contribute amounts representing distributions from other qualified plans.

Employer contributions include the greater of a Safe Harbor Matching or an employer matching and an employer discretionary profit sharing contribution. The Safe Harbor Matching contribution equals one hundred percent (100%) of the employee's salary deferral up to three percent (3%) of their annual compensation, and fifty percent (50%) of the employee's salary deferrals that exceed three percent (3%), but not five percent (5%) of their annual compensation. The employer matching contribution equals up to the first six percent (6%) of the participants' pre-tax compensation if defined profit levels are met based on the following schedule:

Note 1 – Description of the Plan (continued)

Participant's Years of Service	Employer Contribution as a Percentage of a Participant's Contribution
Less than 5	50.0%
5 – 10	87.5%
10 – 15	125.0%
15 – 19	162.5%
20 or more	200.0%

For the year ended December 31, 2018, the Company made matching contributions in accordance with the Plan. The Company's matching contributions amounted to $416,144 and safe harbor contributions amounted to $387,079 for the year ended December 31, 2018.

The Company may also make additional discretionary contributions. For the year ended December 31, 2018, the Company made no discretionary contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contributions and Plan earnings. Each participant's contributions are invested separately according to the participant's investment direction so that each participant's account realizes appreciation and depreciation based on related investment performance. Plan earnings are calculated and credited to participant's account on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions as well as the Safe Harbor Matching contributions plus actual earnings thereon. Employer matching contributions and employer discretionary profit sharing contributions vest 100% after three years of employment.

Note 1 – Description of the Plan (continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, participants may receive the value of the participant's vested balance in his or her account. Participants may elect to defer distributions until retirement except for balances less than $5,000.

Participant Loans

The Plan includes a provision allowing eligible participants to borrow from their accounts. The minimum amount of any loan is $1,000 and the maximum amount is the lesser of $50,000 or 50% of their vested balance. The loans are repaid, with a reasonable interest rate over a reasonable period of time. Loans are secured by the balance in the participant's account. Participant loans outstanding as of December 31, 2018, had interest rates ranging from 4.25% to 9.25% and matured through March 2046.

Forfeitures

When certain terminations of participants in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are allocated to participants in the same manner as employer matching contributions. No forfeitures were allocated to participants during the year ended December 31, 2018. Unallocated forfeitures at December 31, 2018, amounted to $1,355.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

Investments are stated at fair value as determined by quoted market prices. Net realized and unrealized gains and losses are recorded in the accompanying statement of changes in net assets available for plan benefits.

Purchases and sales of securities are recorded on a trade-date basis. Interest is accrued when earned. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Note 3 – Tax Status

The Internal Revenue Service has issued a letter dated March 31, 2014, stating that the Plan is acceptable under Section 401 of the IRC. The Plan has been amended since then, however, the Plan administrator and the Plan's tax counsel believes that the Plan as currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the financial statements.

The Plan believes that there are no uncertain income tax positions at December 31, 2018 or 2017, although tax years since 2014 are still open and subject to examination.

Note 4 – Fair Value Measurements

Accounting standards generally accepted in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were used by the Plan.

At December 31, 2018 and 2017, the Plan's investments consist entirely of publicly traded money market and mutual funds and all were valued using Level 1 inputs.

Note 5 – Investments

The plan assets are invested in mutual funds and money market accounts based on the participant's specified allocation percentages.

The Plan has no instrument that, in part or in whole, is accounted for as a derivative instrument under accounting standards generally accepted in the United States during the current plan year.

Note 6 – Plan Administration

Officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the plan. Administrative fees paid directly by the Company amounted to $11,020 during 2018.

Note 7 – Plan Amendment and Termination

The Company may amend the Plan at any time provided that no amendment will divert any part of the Plan's assets to any purpose other than for the exclusive benefit of the participants in the Plan or eliminate an optional form of distribution.

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of termination, all amounts credited to participants' accounts will be fully vested and will be paid to the participants.

Notes 8 – Risks and Uncertainties

The Plan invests in various mutual funds. Investment in mutual funds is exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain mutual funds, it is at least reasonably possible that changes in the values of mutual funds will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Information Prepared and Certified By the Custodian of the Plan

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as accurate and complete by the Custodian.

	2018	2017
Investments at fair value	$ 20,473,305	$ 21,299,302
Participant loans	44,526	67,822
Net realized and unrealized gains and losses and investment income	(641,531)	

Note 10 – Subsequent Events

The Plan has evaluated all subsequent events and transactions through July 25, 2019, the date the financial statements were available for issue. The Plan has determined that there are no subsequent events that require recognition or disclosure in the financial statements.
