INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and
Administrative Committee
Raley's 401(k) Retirement Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Raley's 401(k) Retirement Savings Plan (the "Plan") as of December 31, 2010 and 2009 and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Principal Trust Company, the Trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the Trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the Trustee as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. PLAN DESCRIPTION

The following description of the Raley's 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan, which became effective July 1, 1990, is a defined contribution plan covering all eligible employees of Raley's (the "Company") and its subsidiaries. The Administrative Committee of the Company is responsible for administration and management of the Plan. All investments in the Plan are participant-directed. Principal Trust Company (Principal) is the Trustee of the Plan. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Each employee who is not otherwise excluded from participation in the Plan, is eligible to participate in the Plan after completing the eligibility requirements as stated in the Plan Document. The Plan excludes the following:

- Employees whose employment is covered by the terms of a collective bargaining agreement, unless eligibility for that specific bargaining group has been provided for in the Plan Document.
- Other various exclusions as defined by the Plan.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon.

Employer contributions are vested for each employee group in accordance with the Plan Document. The value of a participant's account becomes fully vested when the participant's normal retirement age is attained while an employee of the Company. A participant will also become 100% vested upon termination of employment due to death or disability.

Contributions

Each year, participants may make salary deferral contributions in any whole percentage up to 75% of pretax annual compensation as defined in the Plan. The Company may make an annual discretionary non-elective contribution, as determined each year by the Company's Board of Directors. There were no discretionary non-elective contributions for the year ended December 31, 2010. In addition, the Company will make mandatory matching contributions for each eligible group of employees as stated in the Plan Document. Contributions are subject to certain IRC limitations.

1. PLAN DESCRIPTION (Continued)

Contributions (Continued)

Participants may also contribute amounts representing pre-tax distributions from other qualified plans.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, allocation of the Company's matching and discretionary contributions, allocation of Plan earnings, and charged with withdrawals, allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Employer discretionary contributions are allocated to the account of each participant in ratio of the participant's eligible compensation to the total eligible compensation for all Plan participants.

The benefit to which a participant is entitled is the value of the participant's vested account.

Participant's Investment Options

Participants direct the investment of their contributions into various options offered by the Plan. Participants may change their investment options at any time throughout the year directly with the Trustee.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested accounts in the form of a hardship loan with a minimum amount of $1,000 and a maximum amount of $50,000. Loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.25%, calculated as prime interest rate plus 2% as published by the Wall Street Journal on the first business day of the month. Loan terms range from one to five years, or up to fifteen years for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to retirement, death, disability or other reasons, a participant shall receive a distribution equal to the value of the participant's vested interest in his or her account in one of the following forms: (a) a cash-out for vested account balances of $1,000 or less, or (b) upon request, a participant may receive the value of the vested interest in his or her account as a lump-sum cash distribution, a roll over into an eligible retirement plan, or a combination thereof. Participants may also receive in-service distributions on account of hardship or after attaining age 59-1/2. As of December 31, 2010 and 2009 there were no benefits payable to participants that have elected to withdraw from the Plan but have not yet been paid.

1. PLAN DESCRIPTION (Continued)

Forfeitures

Matching and discretionary forfeitures from the non-vested portion of terminated employees' account balances are used to reduce employer mandatory matching contributions or discretionary contributions and to pay for eligible administrative expenses. For the year ending December 31, 2010, there was approximately $128,000 of forfeitures used to reduce the employer's matching contribution.

Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Administrative and Investment Expenses

The Company provides bookkeeping and other administrative services for the Plan at no charge. Administrative and investment expenses are paid by the Plan.

Reclassifications

Certain reclassifications have been made to prior year balances to conform to classifications used in the current year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes net unrealized market appreciation and depreciation of investments and net realized gains and losses on the sale of investments during the period.

Management fees and operating expenses charged to the Plan for investments in shares of registered investment companies (mutual funds), pooled separate accounts and common/collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds, pooled separate accounts and common/collective trusts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

Payment of Benefits

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Adoption of New Accounting Standards

Fair Value Measurements

In January 2010, the Financial Accounting Standards Board (FASB) issued FASB Accounting Standards Update (ASU) 2010-06*, Improving Disclosures about Fair Value Measurements,* which amends and clarifies existing standards to require additional disclosures regarding fair value measurements. Specifically, the standard requires disclosure of the amounts of significant transfers between Level 1 and Level 2 of the fair value hierarchy and the reasons for these transfers, the reasons for any transfers in or out of Level 3, and information in the reconciliation of recurring Level 3 measurements about purchases, sales, issuances and settlements on a gross basis. This standard clarifies that reporting entities are required to provide fair value measurement disclosures for each class of assets and liabilities—previously separate fair value disclosures were required for each major category of assets and liabilities. This standard also clarifies the requirement to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. Except for the requirement to disclose information about purchases, sales, issuances, and settlements in the reconciliation of recurring Level 3 measurements on a gross basis, these disclosures are effective for the year ended December 31, 2010. The requirement to separately disclose purchases, sales, issuances, and settlements of recurring Level 3 measurements becomes effective for the Plan for the year beginning on January 1, 2011. The Plan adopted this new accounting standard as of January 1, 2010 and the impact of adoption was not material to the Plan's financial position or results of operations.

Reporting for Participant Loans

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans.* This ASU applies to any defined contribution pension plan that allows participant loans. The amendments in this ASU require that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in this ASU are effective for fiscal years ending after December 15, 2010, and should be applied retrospectively to all prior periods presented. The Plan adopted this new accounting standard as of January 1, 2010 and the impact of adoption was not material to the Plan's financial position or results of operations.

Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $2,250,318 and $1,977,595 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets available for benefits as of December 31, 2010 and 2009, as a result of the adoption.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accounting Standards Issued but Not Yet Adopted

Fair Value Measurement

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (Topic 820) – Fair Value Measurement* ("ASU 2011-04"). ASU 2011-04 was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for level 3 fair value measurements. ASU 2011-04 is effective for annual reporting periods beginning after December 15, 2011. The Plan Sponsor is currently evaluating the impact this update will have on the Plan's financial position and results of operations.

Subsequent Events

We have reviewed all events occurring from December 31, 2010 through October 3, 2011, the date the Plan's financial statements were available to be issued, and no subsequent events occurred requiring disclosure.

3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by Principal, the Trustee, as of December 31, 2010 and 2009 and for the year ended December 31, 2010, and was not subjected to any auditing procedures except for comparing such information to information included in the Plan's financial statements and supplemental schedule.

The following table presents the investments in the Plan that were certified by Principal for the years ended December 31, 2010 and 2009. Investments that represent 5% or more of the Plan's net assets available for benefits are separately identified.

	December 31,	
	2010	2009
Principal Trust Company:		
Principal Large Cap S&P 500 Index Separate Account	$ 43,378,234	$ 39,310,654
ABN AMRO Income Plus E Fund	35,059,967	35,525,036
American Funds Growth Fund of America R4 Fund	34,153,065	31,883,548
Vanguard Total Bond Market Index Fund	24,653,962	22,517,647
Other investments	82,337,646	66,103,148
Total investments	$ 219,582,874	$ 195,340,033

3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED) (Continued)

Principal also certified to the completeness and accuracy of $23,079,358 of net appreciation in fair value of investments related to the aforementioned investments for the year ended December 31, 2010, and to all investment balances and information included in the supplemental schedules.

During 2010, the Plan's investments appreciated in fair value by $23,079,358 as follows:

Mutual funds	$ 12,222,108
Pooled separate accounts	10,194,764
Common/collective trusts	662,486
	$ 23,079,358

In addition, the Trustee certified notes receivable from participants of $2,250,318 and $1,977,595 at December 31, 2010 and 2009, respectively, as well as interest income on notes receivable from participants of $139,000 for the year ended December 31, 2010.

4. FAIR VALUE MEASUREMENTS

Fair Value Hierarchy

The Plan groups its assets and liabilities measured at fair value within three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. Valuations within these levels are based upon:

Level 1 – Quoted market prices for identical instruments traded in active exchange markets.

Level 2 – Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable or can be corroborated by observable market data.

Level 3 – Pricing inputs are generally unobservable for the assets or liabilities and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require management's judgment or estimation of assumptions that market participants would use in pricing the assets or liabilities. The fair values are therefore determined using factors that involve judgment and interpretations including, but not limited to, private and public comparables, third party appraisals, discounted cash flow models, fund manager estimates and net asset valuations provided by the underlying private investment companies and/or their administrators.

4. FAIR VALUE MEASUREMENTS (Continued)

Fair Value Hierarchy (Continued)

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Assets Recorded at Fair Value

There were no changes in the valuation techniques used during 2010. The Plan is required to record the following assets at fair value on a recurring basis. The following tables present information about the Plan's assets and liabilities measured at fair value on a recurring basis:

	As of December 31, 2010			
Description	Total	(Level 1) Fair Value	(Level 2) Fair Value	(Level 3) Fair Value
Mutual funds:				
U.S. mutual funds	$ 71,234,589	$ 71,234,589	$ -	$ -

4. FAIR VALUE MEASUREMENTS (Continued)

Assets Recorded at Fair Value (Continued)

Mutual funds – Fair values for mutual funds are based on quoted market prices in active markets for identical assets that the Plan has the ability to access at the measurement date.

Pooled separate accounts and Common/collective trusts – Fair values for the pooled separate accounts and common/collective trusts are determined based on the net asset value of the shares held by the underlying investments at the measurement date.

Certain of the investments above report at fair value using a calculated net asset value per share (NAV) or its equivalent. The following table and explanations identify attributes relating to the nature and risk of such investments:

	As of December 31, 2010			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Period
Level 2				
Pooled separate accounts	$ 78,318,860	$ -	Daily	1 Day
Common/collective trusts	35,059,967	-	Daily	1 Day
	$ 113,378,827	$ -		

	As of December 31, 2009			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Period
Level 2				
Pooled separate accounts	$ 67,158,271	$ -	Daily	1 Day
Common/collective trusts	35,525,036	-	Daily	1 Day
	$ 102,683,307	$ -		

Pooled Separate Accounts – This category includes pooled separate accounts that invest primarily in domestic or foreign international equity securities and bonds and attempt to match the returns of specific indices. There are currently no restrictions on redemption rights for these accounts.

Common/Collective Trusts – This category includes a broadly pooled fund of guaranteed investment contracts, alternative investment contracts and short-term money market instruments and seeks to obtain competitive returns in different interest rate environments without principal market fluctuations. There are currently no restrictions on redemption rights for these accounts.

4. FAIR VALUE MEASUREMENTS (Continued)

Assets Recorded at Fair Value (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Administrative Committee believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no transfers in or out of Levels 1, 2 or 3 during the years ended December 31, 2010 and 2009.

There were no liabilities measured at fair value on a recurring basis at December 31, 2010 or 2009.

The Plan did not have any assets or liabilities measured at fair value on a non-recurring basis at December 31, 2010.

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated November 13, 2008, which includes amendments executed through October 2, 2008, that the Plan was designed in accordance with the applicable regulations of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC, and the Plan continues to be tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

6. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of registered investment companies (mutual funds) or common/collective trusts managed by Principal, the Trustee. Principal acts as the investment advisor and Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were $98,286 for the year end December 31, 2010.

7. RECONCILIATION FROM THE FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the Plan financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009
Total net assets per the financial statements	$ 221,967,141	$ 198,383,934
Add (less): Contract value adjustment	136,588	(762,076)
Total net assets per Form 5500	$ 222,103,729	$ 197,621,858

The following is a reconciliation of total receivables per the Plan financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009
Total receivables per the financial statements	$ 2,520,855	$ 2,281,825
