The Company made a discretionary matching contribution equal to 30 percent of participant's deferrals up to five percent of participant's compensation, as defined by the Plan, with a maximum matching contribution of $2,000 per year. The Company could have also made a discretionary profit-sharing contribution to the Plan. There were no discretionary profit-sharing contributions for the period from January 1, 2019 to February 21, 2019 and the year ended December 31, 2018. Participants had to complete one year of employment to be eligible for Company matching and profit-sharing contributions. Contributions were subject to certain limitations.

Participant accounts: Each participant's account was credited with the participant's contribution and Company matching contributions, as well as allocations of Company profit-sharing contribution, if any, and Plan earnings/losses. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant was able to direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants were able to change their investment options at any time.

Vesting: Participants were immediately 100 percent vested in their contributions and any income or loss thereon. The portion of the participant's account attributable to Company matching and profit-sharing contributions was fully vested after completion of five years of service, attainment of normal retirement age, or in the event of death or disability.

Notes receivable from participants: Participants were able to borrow from their accounts the lesser of one-half of their vested account balance or $50,000 reduced by the participant's highest outstanding loan balance during the previous twelve months. The minimum loan available was $1,000 and a participant was able to only have one outstanding loan. Loan terms could not exceed five years. Participant loans were secured by a lien on the participant's interest in the Plan and were repaid through payroll deductions. The notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. The interest rate for loans outstanding was set at prime rate plus 1 percent.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant were able to elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In addition, in-service and hardship withdrawals were permitted in certain situations as described in the plan agreement.

Note 1. Plan Description (continued)

Forfeited accounts: Forfeited non-vested accounts are to be applied to reduce Company matching contributions. At February 28, 2019, December 31, 2018 and 2017, the balance in forfeited non-vested accounts was $0, $10 and $10, respectively. None were used to reduce company contributions or pay for Plan expenses in 2019 and 2018.

Other income: ADP, LLC, the Plan's recordkeeper, receives revenue sharing payments from shares of registered investment companies and common/collective trust funds in which Plan assets are invested. The administrative service agreement between the Plan and ADP, LLC provides that a portion of the revenue sharing payments received by ADP, LLC will be credited to the Plan. For 2019 and 2018, $667 and $2,143 was credited to the Plan, respectively, under this agreement. The balance in the administrative budget account, which holds these revenue sharing payments was $0 at February 28, 2019, December 31, 2018 and 2017.

Transfers: During the year ended December 31, 2018 the plan transferred funds to and from plans under common ownership due to transfer of employment of participants.

Effective February 28, 2019, the Board of Directors approved a merger of the Plan to the Incipe, LLC d/b/a Hawk Ford of Oak Lawn 401(k) Plan. All assets were transferred out of the Plan by February 28, 2019.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Accounting policies: The Plan follows Generally Accepted Accounting Principles (GAAP), as established by the Financial Accounting Standards Board (FASB) to ensure consistent reporting of financial condition and results of operations.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid. Corrective distributions payable generally represent the distribution of certain assets to employees in order for the Plan to comply with nondiscrimination rules.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through September 6, 2019, the date the financial statements were available to be issued.

Note 3. Investments Certified or Provided by Reliance Trust Company

Reliance Trust Company (Reliance) the trustee, has reported and certified as to the completeness and accuracy of the investment information for purposes of preparing the financial statements and supplemental schedule related thereto. This information includes investments held and notes receivable from participants at February 28, 2019, December 31, 2018 and 2017, net appreciation (depreciation) in fair value of investments, interest and dividends, and interest on notes receivable from participants for the period from January 1, 2019 to February 28, 2018 and the year ended December 31, 2018. In accordance with the procedures stated in 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the trustee. The Plan Administrator, therefore has instructed independent public accountants to exclude the information certified by the trustee from the scope of their audit.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust funds: Value based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (continued)

The following table summarizes investments measured at fair value based on NAV per shares as of December 31, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 745,807	$ -	$ -	$ 745,807
Total assets in fair value hierarchy	$ 745,807	$ -	$ -	745,807
Investments measured at net asset value (a)				10,522
				$ 756,329

	2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 489,295	$ -	$ -	$ 489,295
Total assets in fair value hierarchy	$ 489,295	$ -	$ -	489,295
Investments measured at net asset value (a)				22,304
				$ 511,599

(a) - In accordance with Accounting Standard Codification (ASC) Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per shares as of December 31, 2018 and 2017:

Investment	2018 Fair Value	2017 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust fund	$ 10,522	$ 22,304	$ -	Immediate	None

Note 5. Related-Party Transactions

Reliance is the trustee and custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. Fees paid to Reliance were $1,334 and $2,144 for the period from January 1, 2019 to February 28, 2019 and the year ended December 31, 2018, respectively.

ADP, Inc. provides recordkeeping services to the Plan. Transactions with ADP Inc. qualify as party-in-interest transactions. Fees paid to ADP, Inc. were $667 and $830 for the period from January 1, 2019 to February 28, 2019 and the year ended December 31, 2018, respectively.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Tax Status

The Plan has adopted a non-standardized prototype plan of ADP, Inc. The non-standardized prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The non-standardized prototype plan opinion letter has been relied upon by the Plan. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
