INDEPENDENT AUDITOR'S REPORT

September 30, 2011

To the Plan Trustees of
J & B Importers, Inc. Retirement/Profit Sharing Plan
Miami, Florida

We were engaged to audit the financial statements and supplemental schedules of J & B Importers, Inc. Retirement/Profit Sharing Plan (the "Plan") as of December 31, 2010, and 2009, and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodian(s) of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian(s) holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian(s) as of December 31, 2010 and 2009, that the information provided to the plan administrator by the custodian(s) is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian(s), have been audited by us in accordance with auditing standards generally accepted in the United States of America, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

J & B IMPORTERS, INC.
RETIREMENT/ PROFIT SHARING PLAN
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF PLAN

The following description of the J & B Importers, Inc. Retirement/Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of J & B Importers, Inc. (the "Company"). Eligibility is subject to the minimum age and length of service requirements specified in the Plan. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility and Vesting: All employees are eligible to participate in the Plan on the first entry date provided the employee has attained age 21 and completed six months of service. Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. Vesting in the remainder of their accounts plus earnings thereon is based on years of credited service. All participants who are participating in this plan will be 100% vested after six years of credited service.

Contributions: Participants may elect to defer to the Plan a portion of their eligible earnings on a pre-tax basis up to the maximum allowed under Section 402(g) of the Internal Revenue Code ("IRC"). Participants may contribute funds from another qualified plan as rollover contributions. The Company may make a discretionary matching contributions, other discretionary contributions, and/or a qualified non-elective contribution to the Plan.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Company's contribution and allocations of the Plan earnings and losses, and reduced by distributions. Allocations are based on participant contributions, participant earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options: Upon enrollment in the Plan, a participant may direct any portion of their account, regardless of the vesting percentage, in specific assets, specific funds or other investments permitted under the Plan.

Notes Receivable From Participant: Participants may borrow from their fund accounts at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.00% - 8.50%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Retirement, Death and Disability: Upon termination of service due to death, disability, or retirement, benefits are paid either in a lump sum, in the form of an annuity, or in equal installments over a period not more than the participant's or designated beneficiary's assumed life expectancy at the time of distribution. For termination of service for other reasons, a participant may receive that value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures: A participant vests in the employer contributions in accordance with the provisions of the Plan. Forfeitures of nonvested amounts remain in the Plan and are used to pay plan expenses and reduce future contributions of the Plan sponsor. There were $0 and $216 of forfeited amounts available as of December 31, 2010 and 2009. Approximately $28,000 in forfeited amounts were used to reduce employer contributions for the year ended December 31, 2010.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation: The Plan's financial statements are on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from these estimates.

Adoption of New Accounting Standard: The Plan adopted Accounting Standards Update (ASU) 2010-25 on Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans, which reclassifies participant loans from investments to notes receivable from Participants. The provisions of GAAP are to be applied prospectively and are effective for financial statements issued for fiscal years beginning after December 15, 2010.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Adoption of New Accounting Standard: In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2010-06 ("ASU 2010-06"), "Improving Disclosures about Fair Value Measurements", which, among other things, requires entities to separately present purchases, sales, issuances, and settlements in their reconciliation of Level 3 fair value measurements (i.e., to present such items on a gross basis rather than on a net basis), requires disclosures about significant transfers between all Levels, and clarifies existing disclosure requirements regarding the level of disaggregation and the inputs and valuation techniques used to measure fair value for measurements that fall within either Level 2 or Level 3 of the fair value hierarchy. The Fund adopted ASU 2010-06 during the year ended December 31, 2010.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade date basis. Realized gains and losses on security transactions are computed on the basis of average cost of investments sold. Interest from investments is recorded as earned on the accrual basis.

Payment of Benefits: Benefits are recorded when paid.

Statement of Changes in Net Assets Available for Benefits: The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation on those investments.

Contributions: Employee contributions are recorded in the period during which the Company makes payroll deductions from the Plan participant's compensation.

Administrative Expenses: Employer personnel and facilities are used for certain Plan activities at no charge to the Plan. The Employer absorbed certain administrative expenses incurred by the Plan for the years ended December 31, 2010.

Subsequent Events: Credit Union Management has evaluated subsequent events through September 30, 2011, the date on which the financial statements were available to be issued.

NOTE 3: INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan's holds a investment contracts with Principal Life Insurance Company ("Principal"). The assets invested under this contract are held in an Insurance Company General Account, reported as the Guaranteed Interest Accounts in the Plan's accounting records which are not fully benefit responsive. Principal maintains the contributions to the Fixed Income account in its general account, and the account is credited with actual earnings on the underlying investments and decreased for Plan withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by Principal. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investments at contract value. Contract value represents contributions made under the contract, plus earnings, less plan withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuers or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include a lump-sum Plan termination initiated by the Company. If a lump-sum termination of the Plan would be initiated by the Company, Principal could terminate the contract at an amount less than the contract value. Currently, management believes that the occurrence of such an event is not probable.

The crediting interest rate of the contract is determined periodically and based on an agreed-upon formula with Principal. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contracts; and the duration of the underlying investments backing the contract. The resulting gain or loss in the fair value of the investment contract relative to its contract value, if any, is presented in the statement of net assets available for benefits as an adjustment from fair value to contract value for fully benefit-responsive investment contracts.

NOTE 4: INVESTMENT - UNAUDITED

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust Company), the custodian of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to investments which is included in the financial statements has been certified by them. This information has not been audited by independent public accountants. The following presents the fair value of investments that represent five percent or more of the Plan's net assets:

	December 31, 2010	December 31, 2009
Guaranteed Interest Account	$ 1,636,549	$ 1,826,673
Large Cap S&P 500 Index	1,836,262	1,408,750

U.S. Property	*	661,312
Large Cap Blend	*	656,547
Disc. Largecap Blend	751,270	*

* Less than five percent of net assets

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) as follows:

	2010
Pooled Separate Accounts	$ 1,470,715

During 2010, the Plan's General Account earned interest income of $54,496.

NOTE 5: FAIR VALUE MEASURMENTS

The fair value of financial instruments represents the fair value in terms of the price in an orderly transaction between market participants to sell an asset or transfer a liability in the principal (or most advantageous) market for the asset or liability. The transaction to sell the asset or transfer the liability is a hypothetical transaction at the measurement date, considered from the perspective of a market participant that holds the asset or owes the liability. Therefore, the objective of a fair value measurement is to determine the price that would be received to sell the asset or paid to transfer the liability at the measurement date (an exit price).

To increase consistency and comparability in fair value measurements and related disclosures, the fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). In some cases, the inputs used to measure fair value might fall into different levels of the fair value hierarchy. The level in the fair value hierarchy within which the fair value measurement in its entirety falls shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The availability of inputs relevant to the asset or liability and the relative reliability of the inputs might affect the selection of appropriate valuation techniques.

Fair values of equity securities are determined using public quotations, when available. Fair values of public bonds and those private securities that are actively traded in the secondary market have been determined through the use of third-party pricing services using market observable inputs. Private placement securities and other corporate fixed maturities where a public quotation is not received are valued by discounting the expected cash flows. Market rates used are applicable to the yield, credit quality and average maturity of each security. Private equity securities may also utilize internal valuation methodologies appropriate for the specific asset. Fair values may also be determined using broker quotes or through the use of internal models or analysis.

Level 1 Inputs

Fair values are based on unadjusted quoted market prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange traded equity securities, mutual funds and U.S. Treasury bonds. Prices are obtained from readily available sources for market transactions involving identical assets or liabilities.

Level 2 Inputs

Fair values are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions. Level 2 assets primarily include fixed maturity securities (including public and private bonds), equity securities, over-the-counter derivatives and other investments. These fair values are generally obtained from third-party pricing services or determined through the use of valuation models or methodologies, including matrix pricing, using substantially all observable inputs. Prices are validated through an investment analyst review process including direct interaction with external sources, recent trade activity or through the use of internal models.

Level 3 Inputs

Fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values. Level 3 assets include certain fixed maturity securities, private equity securities, and complex derivatives. These fair values are generally obtained through the use of valuation models or methodologies using significant unobservable inputs or broker quotes. In circumstances where broker quotes are used to value an instrument, we generally receive one non-binding quote. Broker quotes are validated through and investment analyst review process, including direct interaction with external sources, through the use of internal models or other relevant information.

In determining fair value for the Plan, the market approach utilizes process and other relevant information generated by market transactions involving identical generated assets or liabilities. Observable inputs reflect the assumptions market participants would use in valuing a financial instrument based on market data obtained from sources independent of the Third Party Administrator.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Pooled Separate Accounts (PSA): PSAs are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The NAV of a PSA is based on market value of its underlying investments but the PSA NAV is not a publicly quoted price in an active market.

Guaranteed Investment Contracts (GIC): Investment contracts issued by Principal are backed by the general account. Fair value represents the amount plan sponsors would receive if the they terminated the contract at the reporting date which is book value less any early withdrawal charge. This includes both benefit and non-benefit responsive investment contracts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Values as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

NOTE 6: TRANSACTIONS WITH PARTIES-IN-INTEREST

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. The Plan invests in a guaranteed accounts and pooled separate accounts issued by Principal Life Insurance Company, the custodian of the Plan. Therefore, these investments qualify as party-in-interest investments that are allowable under ERISA.

NOTE 7: TAX STATUS

The Internal Revenue Service has determined and informed the Credit Union by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan management believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 8: PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9: DUE TO TERMINATED PARTICIPANTS

Included in net assets available for benefits are amounts allocated to individuals who have elected to withdraw from the Plan, but have not been paid as of yearend. As of December 31, 2010 and 2009, there were $228,054 and $175,672 allocated to these individuals. See reconciliation of 5500 to financial statements below.

The following is a reconciliation of net assets available for benefits per the financial statements at yearend to Form 5500:

	December 31, 2010	December 31, 2009
Net assets available for plan benefits per the financial statements	$ 14,904,709	$ 12,867,241
Excess refunds	228,054	175,672
Net assets available for plan benefits per Form 5500	$ 15,132,763	$ 13,042,913

The following is a reconciliation of corrective distributions per the financial statements to the Form 5500:

	December 31, 2010
Corrective distributions per the financial statements	$ 228,054
Difference in refunds paid cash basis	(52,382)
Corrective distributions per Form 5500	$ 175,672

NOTE 10: RISKS AND UNCERTAINTIES

The Plan invests in various investments which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is a least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
