TSI GROUP, INC.
401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of TSI Group, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit-sharing plan including a 401(k) provision which allows for voluntary employee salary reductions to be placed into the Plan. This Plan is a single employer plan with a controlled group that covers the employees of TSI Group, Inc.; Sandy Bay Machine Inc.; Brazonics Inc.; Woven Electronics, LLC; American Avionic Technologies Corporation; Performance Metal Fabricators Inc.; ADB Industries; Thompson Industries, Ltd.; and CGR Technologies Incorporated. The Plan covers all full-time employees who have reached the age of twenty-one (21) and have completed one year of service as of the valuation date. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions

Participants may contribute up to 100 percent of their eligible annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct their contributions in one percent increments into various investment options offered by the Plan. The Company contributes a safe-harbor matching contribution equal to 100 percent of the amount of the participant's contribution up to three percent of the participant's compensation, plus 50 percent of the participant's contribution exceeding three percent of the participant's compensation, but not exceeding five percent. The Company may also make additional discretionary matching and profit sharing contributions. For 2009, the Company did not make an additional discretionary matching or profit-sharing contribution. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's and Company's contribution and allocations of Plan earnings and charged with an allocation of administrative expense. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and the Company's safe harbor matching contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant vests 20 percent per year of service and is 100 percent vested in the Company's additional matching contributions and the Company's profit sharing contributions plus actual earnings thereon after five years of credited service. Upon reaching normal retirement age as defined, or following disability or death, a participant is 100 percent vested in his or her entire account.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN, Continued

Payment of benefits

Upon termination of service for any reason, if the value of the vested account is greater than \$5,000, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or receive periodic installments. If the value of the vested account is \$5,000 or less, the balance will be automatically distributed with the option of rolling the vested balance into an IRA or retirement plan or having the balance paid in cash. If the participant does not make an election, the vested account will be distributed as follows: (1) vested balances of \$1,000 or less will be paid directly to the participant in cash and (2) vested balances greater than \$1,000 will be rolled directly into an IRA established by the plan administrator. At age 70 1/2, participant must begin receiving benefit distributions. In addition, hardship distributions are permitted if certain criteria are met.

Forfeited accounts

Forfeited balances of terminated participants' non-vested accounts are used to reduce administrative expenses and then to reduce any employer contributions. At December 31, 2009 and 2008, unallocated forfeited non-vested accounts totaled \$4,356 and \$62, respectively. During 2009, the Plan did not use any forfeitures to reduce administrative expenses.

Participant loans

Participant loans are not permitted under the Plan. However, participant loans that existed from previous individual company plans that merged into the Plan remain in effect until the outstanding amounts are repaid. These loans are secured by the balances in the participants' accounts and bear interest at the prime rate at the time of borrowing (ranging from 5.25 to 10.25 percent), as defined. Principal and interest are paid ratably through payroll deductions.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES AND ACTIVITIES

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions which affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(Continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES AND ACTIVITIES, Continued

Investment valuation and income recognition

The Plan's investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Administrative expenses for service providers and trustee's fees are paid directly by the Plan. Professional services are paid by the Plan sponsor.

Recent Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued guidance which restructured generally accepted accounting principles (GAAP) and simplified access to all authoritative literature by providing a single source of authoritative nongovernmental GAAP. The guidance is presented in a topically organized structure referred to as the FASB Accounting Standards Codification. The new structure is effective for interim or annual periods ending after September 15, 2009. All existing accounting standards have been superseded and all other accounting literature not included is considered non-authoritative.

Subsequent events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through July 9, 2010, the date the financial statements were available for issuance.

NOTE 3 - CUSTODIAN CERTIFICATIONS

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Nationwide Financial Services, Inc. ("Nationwide Financial"), the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedules:

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS, Continued

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Stable value fund: Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations.

State Street S&P Mid Cap Index Securities Lending Series Fund: Valued at the NAV of each Class with the Class underlying investments in collective investment funds valued at their transaction price, which reflects investments in State Street Cash Collateral Funds, if any, valued at a constant \$1.00 price per unit.

Money market fund: Valued on the active market on which it is traded; at amortized cost, which approximates fair value.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009.

The following is a reconciliation of fair value of the investments to contract value as identified in the certified information:

NOTE 7 - TRANSACTIONS WITH PARTIES-IN-INTEREST AND RELATED PARTIES

Certain Plan investments are shares of mutual funds managed by Nationwide Financial. Nationwide Financial is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to approximately \$34,000 for the year ended December 31, 2009.

Summit Financial Corporation is the third-party administrator for the Plan. Transactions with Summit Financial Corporation qualify as party-in-interest transactions. Fees paid by the Plan to Summit Financial Corporation for services amounted to approximately \$38,000 for the year ended December 31, 2009.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100 percent vested in their employer contributions.

NOTE 9 - INCOME TAX STATUS

The Plan has adopted a non-standardized form of a prototype plan which has received an opinion letter dated March 31, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirement of the IRC.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 - PLAN ERRORS AND PROHIBITED TRANSACTIONS

During 2009, the Plan sponsor remitted approximately \$75,000 of participant deferrals later than required by Department of Labor ("DOL") Regulation 2510.3-102. The DOL considers late deposits to be prohibited transactions. The Plan sponsor will file Form 5330 and pay applicable excise tax as soon as administratively possible. The excise tax payments will be made from the Plan sponsor's assets and not from assets of the Plan. In addition, participant accounts will be credited with the amount of investment income that would have been earned had the participant contributions been remitted on a timely basis.
