INDEPENDENT AUDITORS' REPORT

Retirement Plan Committee
Trinity Highway Products Retirement Plan for Hourly Employees

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Hourly Employees of Trinity Highway Products, LLC – Plan 003 (the "Plan"), which comprise the statements of net assets available for benefits – modified cash basis, as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits – modified cash basis, for the years then ended, and the related notes to the financial statements.

Plan Management's Responsibility for the Financial Statements

Trinity Industries, Inc.'s Retirement Plan Committee (the "Retirement Plan Committee") is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. The Retirement Plan Committee is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Retirement Plan Committee instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A. the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Retirement Plan Committee that the custodian holds the Plan's investment assets and executes investment transactions. The Retirement Plan Committee has obtained a certification from the custodian as of December 31, 2018 and 2017 and for the years then ended, that the information provided to the Retirement Plan Committee by the custodian is complete and accurate

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RETIREMENT PLAN FOR HOURLY EMPLOYEES OF TRINITY HIGHWAY PRODUCTS, LLC

PLAN 003

NOTES TO FINANCIAL STATEMENTS

MODIFIED CASH BASIS

December 31, 2018 and 2017

1. DESCRIPTION OF THE PLAN

The following description of the Retirement Plan for Hourly Employees of Trinity Highway Products, LLC – Plan 003 (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering substantially all hourly employees of the Highway Products Division of Trinity Industries, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Establishment

The Plan, formerly named Retirement Plan for Hourly Employees of Syro Steel Company – Western Division, was adopted by SYRO Steel Company, a wholly owned subsidiary of Trinity Industries, Inc. (the "Company"), on April 1, 1979.

Effective January 1, 2009, the Plan changed its name, by amendment, from Retirement Plan for Hourly Employees of Syro Steel Company – Western Division to Retirement Plan for Hourly Employees of Trinity Highway Products, LLC.

Effective March 1, 2016, the Plan was frozen to new entrants.

Administration

The Plan is administered by a retirement plan committee (the "Retirement Plan Committee") appointed by the Board of Directors of the Company. The Retirement Plan Committee is generally responsible for administering the Plan, maintaining eligibility records of

participants in the Plan, authorizing payment of administrative expenses, processing benefit claims and authorizing payment of benefits.

Eligibility

Prior to March 1, 2016, employees became eligible for participation on the first of the month coinciding with or following the later of the completion of one year of service and their twenty-first birthday. However, no new employees are eligible to participate after March 1, 2016, the date the Plan was frozen.

Vesting

The Plan provides for 100 percent vesting at the end of five years of vesting service.

Benefit Provisions

The Plan provides benefits for normal and early retirement. The normal form of benefit payment for a single participant is a monthly benefit payable for life. The normal form of benefit payment for a married participant is a joint and survivor benefit, in which an employee receives a monthly benefit payment until death, at which time the surviving spouse begins receiving 50 percent of the benefit until death. Other payment options as described in the plan document are available. In addition, the Plan's document provides certain death benefits in the event of the death of an employee prior to retirement.

Funding

The Company contributes to a trust fund, The Trinity Industries, Inc. Master Trust, ("The Master Trust") such amounts deemed necessary based on actuarial computations to provide assets to meet anticipated future benefits to be paid from the Plan to its participants. Participating employees are not required or permitted to make contributions to the Plan. The Plan meets the minimum funding requirements prescribed by ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles

generally accepted in the United States of America, and is an acceptable method of reporting under Department of Labor regulations ("DOL"). The modified cash basis of accounting utilizes the cash basis of accounting while carrying investments at fair value and recording investment income (loss) on the accrual basis. Consequently, contributions are recognized when received rather than when earned, and expenses are recognized when paid rather than when the obligation is incurred.

Use of Estimates

The preparation of financial statements in accordance with the modified cash basis of accounting requires the Retirement Plan Committee to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and the custodian. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a settlement-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Plan interest in Trinity Industries, Inc. Master Trust investment (loss) income includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Expenses

The Plan's expenses are absorbed by the Plan. Pursuant to the plan document, the Plan incurs certain administrative expenses and the Plan's proportionate share of other Master Trust expenses. Certain expenses incurred in connection with the general administration of the Plan that

are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in Plan interest in Trinity Industries, Inc. Master Trust investment (loss) income presented in the accompanying statement of changes in net assets available for benefits.

Transfers In and Out

A cash account was created in 2017 at Wells Fargo Bank, N.A. to complement each Trinity plan's investment in the Master Trust to more efficiently fund benefit payments and other plan expenses. The transfers in and out as presented in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2018 and 2017 represent cash moving back and forth between the Plan and the Wells Fargo cash account. All transfers related to these transactions in and out are a net zero effect to the Plan.

Concentrations

The following table presents investments that represent ten percent or more of the total investments in the Master Trust as of December 31, 2018 and 2017:

	2018	2017
JPMCB Long Duration Investment Grade Fund	**	$ 216,143,574

** Value does not represent ten percent or more of total investments in the Master Trust as of the respective date.

Subsequent Events

The Retirement Plan Committee has evaluated subsequent events through October 2, 2019, the date the financial statements were available to be issued. See Note 14 for further discussion.

3. ACTUARIAL ASSUMPTIONS

The more significant assumptions underlying the actuarial computations made by the consulting actuary, Towers Watson, are as follows. The assumptions for computing pension cost and contributions for the plan years beginning January 1, 2018 and 2017 are the same unless otherwise noted.

Actuarial Methods

Pension costs:

- Service cost & projected benefit obligation : Project unit credit
- Market related value of assets : Equal to the fair value of assets

Contributions:

- Normal cost & actuarial accrued liability : Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
- Actuarial value of assets : 12 and 24 month smoothing

Economic assumptions	2018	2017
Interest rates:		
Pension costs:		
Discount rate	3.79%	4.34%
Return on assets	5.65%	6.25%
Contributions:

Nonvested benefits	3,777	5,536
Total	$ 4,242,429	$ 3,890,289

The change in the actuarial present value of accumulated plan benefits from January 1, 2017 to January 1, 2018, is as follows:

Actuarial present value of accumulated plan benefits as of January 1, 2017	$ 3,890,289
Increase (decrease) during the year attributable to:	
Benefits accumulated	18,462
Actuarial (gains)/losses	13,581

Actuarial present value of accumulated plan benefits as of January 1, 2018	$ 4,242,429

4. INVESTMENT IN MASTER TRUST

The Master Trust invests the Plan's investment assets in short-term investments consisting of equity and other exchange-traded instruments, fixed income instruments, venture capital and money market funds. The Master Trust maintains these investments for all of the Company's pension plans and each plan has an undivided interest in trust investments. Ownership of plan assets is represented as proportionate dollar units of participation which is determined each quarter by the custodian based upon initial plan participation and adjusted for plan contributions, plan benefit payments and plan administrative expenses.

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Retirement Plan Committee has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The custodian has certified that the following data included in the accompanying financial statements is complete and accurate as of December 31, 2018 and 2017, and for the years then ended.

	2018	2017
Total plan interest in the Trinity Industries, Inc. Master Trust		
Estimated cost	$ 4,524,531	$ 3,314,655
Market value	$ 4,273,206	$ 4,039,329
Interest bearing cash	$ 2,853	$ 99,978
Other receivables	$ 5	$ 90
Investment (loss) income allocated from Trinity Industries, Inc. Master Trust	$ (151,028)	$ 554,498
Interest	$ 1,903	$ 689
Net gain on sale of assets	$ -	$ 58

The net investment (loss) gain for the Master Trust for the years ended December 31, 2018 and 2017, as certified by the custodian, was derived from and composed of the following:

	2018	2017
Interest and dividend income	$ 4,908,411	$ 33,750
Net realized gain on the sale of investments	101,512,265	14,968,049
Net unrealized (depreciation) appreciation in fair value of investments	(123,516,322)	51,850,212
Total investment (loss) gain	$ (17,095,646)	$ 66,852,011
Net investment (loss) gain allocated to the Plan	$ (151,028)	$ 554,498

The following table summarizes the net assets of the Master Trust as of December 31, 2018, and 2017:

	2018	2017
Corporate debt instruments	$ 311,233,181	$ -
Interest in common collective trusts	69,667,184	480,718,460

Foreign government and agency securities	2,838,105	-
Joint venture interest	6,743,938	-
Money market funds	9,739,397	6,738,107
Master Trust Total Investments	$ 474,444,158	$ 487,456,567
Interest of the Plan in the Master Trust	$ 4,273,206	$ 4,039,329

The allocated fair value share of the investments of the Plan in the Master Trust as of December 31, 2018 and 2017 is 0.90068 percent and 0.82865 percent, respectively. The allocated cost share of the investments of the Plan in the Master Trust as of December 31, 2018 and 2017 is 0.93208 percent and 0.88410 percent, respectively.

6. NET INVESTMENT (LOSS) GAIN ALLOCATED FROM THE MASTER TRUST

The net investment (loss) gain allocated to the Plan is composed of the following:

	2018	2017
Interest and dividend income	$ 43,270	$ 77
Net realized gain on the sale of investments	881,770	122,125
Net unrealized (depreciation) appreciation in fair value of investments	(1,076,068)	432,296
Net investment (loss) gain allocated to the Plan	$ (151,028)	$ 554,498

7. ASSETS HELD FOR INVESTMENT

The assets held for investment consist of investments in the Master Trust (a party in interest). The estimated cost, market value and units of participation as of December 31, 2018 are as follows:

Estimated Cost	$	4,524,531
Market Value	$	4,273,206
Units		4,273,206

8. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level l) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Equity and other exchange-traded instruments: Valued at the last sale price of official market closing price, as applicable, on the primary exchange on which the instrument is traded. Instruments traded on more than one exchange are valued at the last sale price on the primary exchange and, if there has been no sale on such primary exchange, then at the last sale price on the secondary exchange on which trading has occurred. If there has been no sale on the primary exchange or the secondary exchange on which the instrument is traded on the date of valuation, the instruments are valued at the mean of the bid and ask quotations as of the closing of the primary exchange.

Fixed income instruments: Valued at prices supplied by third party pricing vendors and brokers which are based on bid-side quotations unless the amortized cost method is applicable.

Money market funds: Valued daily based off of the amortized cost method of accounting to arrive at the net asset value ("NAV"). Amortized cost is the book price of the security as adjusted over time to reflect any discount or premium. These funds are required to transact at the NAV.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investment assets at fair value as of December 31, 2018 and 2017:

	Investments at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total

9. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are held by Wells Fargo Bank, N.A. Wells Fargo is the custodian as defined by the plan document and, therefore, these transactions qualify as party in interest transactions, which are exempt from prohibited transaction rules. Fees incurred by the Plan for the investment management and trustee services are included in both Plan interest in Trinity Industries, Inc. Master Trust investment income and general and administrative expenses.

Towers Watson is the Plan actuary and, therefore, these transactions qualify as party in interest transactions, which are exempt from prohibited transaction rules. Fees incurred by the Plan for actuarial valuation services are included in general and administrative expenses.

Milliman is the Plan third-party administrator and, therefore, these transactions qualify as party in interest transactions, which are exempt from prohibited transaction rules. Fees incurred by the Plan for third-party administrative services are included in general and administrative expenses.

Capfinancial Partners is the Plan investment manager and, therefore, these transactions qualify as party in interest transactions, which are exempt from prohibited transaction rules. Fees incurred by the Plan for investment management services are included in general and administrative expenses.

McDermott, Will and Emory is the Plan attorney and, therefore, these transactions qualify as party in interest transactions, which are exempt from prohibited transaction rules. Fees incurred by the Plan for legal services are included in general and administrative expenses.

The Plan is subject to an annual audit in order to remain in compliance with ERISA regulations. Huselton, Morgan & Maultsby, P.C. is the auditor of the Plan and, therefore, these transactions qualify as party in interest transactions, which are exempt from prohibited transaction rules. Fees incurred by the Plan for the audit are included in general and administrative expenses.

10. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 29, 2017, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Retirement Plan Committee believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

The modified cash basis of accounting requires the Retirement Plan Committee to evaluate tax positions taken by the Plan, disclose within the footnotes to the financials any potential impact to the Plan, and recognize a tax liability at the Company level if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. If terminated, net assets of the Plan would be distributed to participants and beneficiaries as prescribed by the terms of the Plan in accordance with ERISA and its related regulations. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided at all. In the case of termination, if assets of the Plan are sufficient to provide all accumulated plan benefits, then net assets in excess of accumulated plan benefits would be returned to the Company.

12. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in the values of investment

securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits – modified cash basis.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

13. REPORTABLE TRANSACTIONS

A schedule of reportable transactions has not been presented because there are no reportable transactions which require presentation under ERISA Section 2520.103-6.

14. SUBSEQUENT EVENT

Effective July 31, 2019, the Company merged the Plan with and into the Trinity Industries, Inc. Standard Pension Plan.

Summary of Plan Provisions

Plan Provisions – Highway Products (Syro)

The plan was restated effective March 1, 2016. The most recent amendment reflected in the following plan provisions was effective March 1, 2016.

Covered employees — Any hourly employee of the Syro Steel Western Division. All new employees hired after March 1, 2016 are not covered by the plan.

Participation date — Employees enter the plan on the first of the month coincident with or next following the date they attain age 21 and completed one year of service.

Definitions

Vesting service — The number of years in which a participant works at least 1,000 hours.

Pension service — The number of years in which a participant works at least 1,000 hours.

Normal retirement date (NRD) — First of month coinciding with or next following the attainment of age 65 and completion of 5 years of service.

Monthly pension benefit — As of appropriate date, the sum of (1), (2) and (3) below, payable monthly as a life annuity from NRD:

(1) The number of years of credited service earned through December 31, 2010 times benefit rate

Date of Retirement or Termination	Benefit Rate
4/8/1991 – 4/7/1992	13.00
4/8/1992 – 4/7/1993	14.00
4/8/1993 – 4/7/1994	15.00

3/1/2000 – 2/28/2003	18.00
3/1/2003 – 12/31/2004	20.00

1/1/2005 – 12/31/2006	22.00
1/1/2007 – 12/31/2008	24.00
1/1/2009 or later	26.00

(2) The number of years of credited service earned from January 1, 2011 through December 31, 2012 times $27.00

(3) The number of years of credited service earned from January 1, 2013 times $28.00.

Monthly preretirement death benefit

50% of the accrued benefit that would have been paid to the participant:

(1) from the first of the month following death if eligible for early retirement at death, assuming the participant had retired and commenced payments on the first of the month of death under the 50% joint and survivor option with his spouse as the survivor;

(2) from the earliest retirement age if not eligible for early retirement at death, assuming termination on the day of death, survived to the earliest retirement age, retired and commenced payments under the 50% joint and survivor option with the spouse as the survivor, and died the day after retirement.

Actuarial equivalence

7% UP84, 3 year setback for beneficiaries.

Eligibility for Benefits

Normal retirement

Retirement on NRD

Early retirement

Retire before NRD and on or after both attaining age 55 and completing 15 years of vesting service.

Postponed retirement

Retirement after NRD

Vested termination

Terminate for reasons other than death or retirement after completing 5 years of vesting service.

Disability

Completion of 15 years of service, and eligible for Social Security disability.

Preretirement death benefit

Die while employed and while otherwise eligible for deferred vested, early, normal, or postponed retirement benefits, with a surviving spouse.

SCHEDULE SB ATTACHMENTS

Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit determined as of NRD.
Early retirement	Accrued benefit determined as of early retirement date, reduced 1/180 for each month between age 60 and age 65 and reduced 1/360 for each month between age 60 and 55 commencement of payments precedes the participant's NRD.
Postponed retirement	Accrued benefit determined as of actual retirement date.
Vested termination	Accrued benefit determined as of termination date.
Disablement	Accrued benefit, payable at disability.
Preretirement death	Monthly preretirement spouse benefit.

Other Plan Provisions

Forms of payment	Married participants: Qualified 50% Joint and Survivor Annuity which is actuarially equivalent to a Single Life Annuity. Single participants: Life Annuity. Other forms of payment are available under the plan upon written request to the Pension Committee. Spousal consent is required for married participants to elect out of the Qualified 50% Joint and Survivor Annuity. All optional forms of benefit are actuarially equivalent to the Life Annuity form. Optional forms of payment include a life annuity, 5-year, 10-year and 15-year certain and life, joint and 50%, 75% and 100% survivor annuity.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Percent married	80%
Spouse age	Wife three years younger than husband.
Covered pay	Prior year pensionable earnings.
Administrative expenses	Prior year administrative expenses adjusted for PBGC premiums, rounded to the nearest $10,000.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the life annuity form of payment.
Cash flow:	
▪ Amount and timing of contributions	Contributions are made on the last day required to meet quarterly and minimum funding requirements.
▪ Timing of benefit payments	Annuity payments are payable monthly and lump sum payments are payable on the date of decrement.
Funding policy	The plan sponsor's funding policy is to contribute at least the minimum amount required under ERISA, as determined without regard to interest rate stabilization. The plan sponsor may deviate from this policy based on cash, tax or other considerations.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 6.25% (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. The plan pays small benefits in a single lump sum payment. Such lump sums are not explicitly valued; rather, benefits are valued using the benefit choice assumptions described above. Willis Towers Watson has reviewed the plan provisions with the Company and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, furnished participant data as of January 1, 2018. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available.

In consultation with Trinity, the following assumption was made for missing or apparently inconsistent data elements:

- If beneficiary date of birth was not provided, a three-year age difference from the participant was used.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

SCHEDULE SB ATTACHMENTS

Assumptions Rationale – Significant Demographic Assumptions

Healthy and Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.
Retirement	Retirement rates were based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	
▪ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
▪ Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.
Form of payment	Form of payment elections are based on an experience study conducted in 2013, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A1, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.

The mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.
