Notes to Financial Statements

Description of Plan:

General:

The following description of The L&R Company Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all full-time employees of The L&R Group of Companies (the Company) who have at least six months of service, are age twenty-one or older, and do not qualify as excluded employees as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participants may elect to defer up to 90% of pre-tax annual compensation up to $18,000 for the years ended December 31, 2018 and 2017 as defined in the Plan. Participants who will be at least 50 years of age by the end of the plan year may make an additional "catch-up" contribution of up to $6,000. Participants may also contribute amounts distributed from other qualified plans (rollover contributions). The Company has the option of making a discretionary matching contribution. The Company matched 10% of employee deferrals up to a maximum of 10% of employee wages during 2018 and 2017.

Participant accounts:

Participant accounts are all participant directed and are credited with the participant's contribution, any Company matching contribution, an allocation of the Plan earnings, and are charged with any withdrawals and directly allocated fees for loans and withdrawals. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon.

Employer matching contributions are subject to a vesting schedule based on years of continuous service as follows:

Years of service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes to Financial Statements (continued)

Description of plan (continued):

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000, or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 30 years for the purchase of a principal residence. Loan set-up fees are deducted from loan proceeds and recorded as administrative expense when incurred. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate set by the custodian of the Plan. Principal and interest is paid ratably through bi-monthly payroll deductions.

Participant loans are classified as notes receivable and valued at their unpaid principal balance, plus accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the plan administrator deems the loan to be in default, the loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Upon termination of employment, a participant can elect to receive distribution of their account balance as defined in the Plan agreement including a lump sum cash payout. $76,569 of excess contributions refunded to the participants is included in the benefits paid to participants for the year ended December 31, 2018.

Forfeited accounts: Forfeitures of Company discretionary contributions are created when employees terminate employment before being fully vested in the Plan. Forfeitures are first applied to Plan expense with any remaining used to reduce the employer's matching contribution. $4,502 of forfeitures were used during the year ended December 31, 2018. $3,241 of forfeitures were used during the year ended December 31, 2017. The balance in the forfeiture account as of December 31, 2018 was $2,844.

Plan expenses: Administrative expenses, such as the annual audit are paid by the Company and are not included in the financial statements. Fees relating to investments, distributions and participant loan processing are paid from the individual participant accounts and are included in administrative fees.

Summary of significant accounting policies:

Basis of accounting: The Plan's financial statements are prepared using the accrual method of accounting. Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in the Company's discretionary contributions, if any.

Notes to Financial Statements (continued)

Summary of significant accounting policies (continued):

Tax status:

The Plan utilizes a prototype plan document and relies on the opinion letter issued to the prototype document sponsor. The prototype document sponsor received an opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since the prototype document sponsor received the opinion letter. However, the Company believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax exempt as of December 31, 2018 and 2017.

Therefore, no provision for income taxes has been included in the Plan's financial statements. Disclosure or accrual of uncertain tax positions is not required when it is more likely than not that the plan is entitled to the economic benefits resulting from the positions taken in income tax returns. The plan has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

Benefit claims payable:

There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid at December 31, 2018 and 2017, respectively. At December 31, 2018, the Plan includes thirty-two terminated participants whose balances totaled $1,524,640.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

See the note below on fair value measurements for further discussion.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds are stated at fair value as determined by quoted market prices, which represent the net asset value.

Pooled separate accounts consists primarily of mutual funds held and pooled by the custodian and is valued at quoted market price, which represent the net asset value (NAV) of shares held by the custodian at year end, allocated amongst members of the pool.

Notes to Financial Statements (continued)

Summary of significant accounting policies (continued):

Investment valuation and income recognition (continued):

Most of the common collective trust investments are valued at the net asset value per unit based upon ownership interest in the fund as based on information reported by the investment advisor using the audited financial statements of the collective trusts at year end.

One common collective trust investment is a stable value fund with an underlying investment in a fully benefit responsive investment contract.

Fair value measurements:

The framework for measuring and reporting fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fair value of investments:

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements (continued)

Fair value of investments (continued):

These party in interest transactions are exempt from the prohibited transaction rules of ERISA. Participant loans qualify as party in interest transactions and are also exempt from the prohibited transaction rules of ERISA (see related footnote for notes receivable from participants for additional information).

Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
