1. Plan Description

General

The Telluride Ski & Golf 401(k) Plan (the "Plan") is a defined contribution plan covering all qualified employees of TSG Ski and Golf, LLC (the "Company"), as defined in the Plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. To be eligible, employees must be 21 years of age or older and complete one year of service. Eligible employees become participants in the Plan on the entry date immediately following the completion of the eligibility requirements.

The Plan is established to aid eligible employees in providing for a portion of their future security by the administration and distribution of contributions made by the Company and participants. The Plan is intended to qualify under Section 401(a) of the Internal Revenue Code ("IRC"). In addition, the Plan includes a "cash or deferred" salary reduction savings arrangement qualifying under Section 401(k) of the IRC.

During the year, the Plan changed their service providers, both for record-keeping services and custodial services. Per the blackout letter sent to participants, the Plan made the change from ADP to Quality Pension Services, Inc (“QPS”) for record keeping services and from Reliance Trust Company to John Hancock Retirement Plan Services (“John Hancock”) for the custodial services, as of January 24, 2018. The assets transferred on February 7, 2018, and the blackout period ended on February 14, 2018.

Eligibility

An employee of legal standing and of any age, may become eligible to participate in the Plan upon working 1,000 hours. Upon hire, the employee sets their “Seniority Date” which remains the start date for recordkeeping purposes. Upon becoming eligible to participate, the employee must be severed from employment for a full year to lose this eligibility, as defined in the Basic Plan Document.

Contributions

A participant who is an employee of the Company may elect the salary reduction option, under which up to 20% of the participant's eligible compensation (as defined in the Plan agreement), to a maximum of $18,500 and 18,000 in 2018 and 2017, respectively, will be withheld and credited to the participant's account ("participant contributions"). If the participant elects this option, the Company will contribute a matching amount equal to 100% of each participant's contribution in an amount not to exceed 4% of each participant's compensation ("matching contribution"). Matching contributions are credited to the participants' accounts. Matching contributions are made at the discretion of the Company. Participants may elect to transfer funds into the Plan from other qualified retirement plans.

The Company may also elect to make additional discretionary contributions, but in no event shall the aggregate contributions to the Plan or any other qualified plan offered by the Company exceed the maximum allowed under the IRC. There were no such contributions made to the Plan in 2018 or 2017.

1. Plan Description (continued)

Participant Accounts

Each participant's account is credited with their contributions (including matching and additional discretionary contributions) and for investment earnings. Each participant's account is charged with the amounts they withdraw from the Plan and for their share of investment expenses and losses. Accounts are credited and charged daily for transactions.

Investments

Each participant has the option to direct investment of the funds in their account into one or more of the available investment funds. The investment funds were administered by ADP Retirement Services. During the year, participants could elect to invest their account balances among several investment funds designated by the Company (see complete listing in supplemental schedule to financial statements).

Income earned by each investment fund, including unrealized appreciation or depreciation, is allocated pro rata to the participants' accounts based on each participant's balance in the respective fund. Asset management fees are allocated by the Custodian to each of the funds and then are allocated to the participants' accounts based on each participant's balance.

Vesting and Forfeiture

Participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Participants become vested in matching and additional discretionary contributions, including earnings thereon, based on years of continuous service to the Company. Participants vest at the rate of 20% for each completed year of service to the Company, beginning with completion of the second year of service. After completing six years of service, a participant is 100% vested in Company matching contributions and earnings thereon.

Payment of Benefits

Additionally, if a participant terminates employment due to death, disability or retirement upon reaching normal retirement at age 65, that participant becomes 100% vested in all contributions plus actual earnings thereon which have been credited to their account. The Plan also allows for early retirement at age 55.

In the event a participant withdraws from the Plan before fully vesting, the unvested portion of matching and additional discretionary contributions, including earnings thereon, is forfeited. Forfeitures, which amounted to $10,934 in 2018 and $42,644 in 2017, may reduce the amount of future Company matching contributions or may be used to pay for administrative expenses of the Plan, at the discretion of the Company's board of directors. The Company used $10,934 and $42,644 of forfeiture funds to reduce the amount of Company matching contributions in 2018 and 2017, respectively. As of December 31, 2018 and 2017 the Plan held $0 and $0, respectively, of forfeiture funds.

Distributions

Participants may elect to receive distributions in lump sum payments following the fiscal quarter in which the participant terminates employment with the Company. Participants may elect to receive installment distributions if termination is due to death, disability or occurs after attaining normal retirement age in certain instances the Plan's administrator may grant hardship distributions. Upon termination, a participant may elect to defer receiving their vested benefits.

1. Plan Description (continued)

Participant Loans

A participant employed by the Company may borrow from the Plan the lesser of $50,000 or 50% of the value of their vested account balance. The minimum loan amount is $1,000. Loans are repaid in installments not to exceed 60 months (120 months for principal residence loans).

Termination of the Plan

The Company has the right under the Plan agreement to suspend or discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, all participants will become 100% vested in their accounts, without regard to the number of years of service.

Administrative Expenses

Expenses related to the administration of the Plan may be paid for by the Plan Sponsor, at its discretion. Administrative fees of $45,514 for 2018 were paid by the Plan.

2. Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and in accordance with generally accepted accounting principles. The financial statements present the net assets available for benefits and changes in net assets available for benefits.

Valuation of Investment Income Recognition

The Plan records its investments at fair value as reported by the trustee. Fair value is based on quoted market prices of the securities underlying mutual funds at December 31, 2018 and 2017. Realized gain or loss on the sale of an investment is the difference between the proceeds received and the cost of the investment sold. The change during a period in the fair value of investments plus realized gains or losses and actual interest and dividends paid are recorded in the Statements of Changes in Net Assets Available for Benefits as "Net appreciation in fair value of investments".

Federal Income Taxes

The Internal Revenue Service ("IRS") issued a determination letter in March 2008 indicating the standardized prototype plan document used by the Plan qualifies under Section 401(a) of the IRC.

The Plan's administrator and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision is made for Federal income tax in the Plan's financial statements. Tax years that remain subject to examination are 2014 through 2017.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

2. Significant Accounting Policies (continued)

Contributions Receivable

The Company records receivables for amounts owed to the Plan when payroll dates occur before year end, but the Plan is funded subsequent to year end.

Subsequent Events

Subsequent events were evaluated through October 14, 2019, which is the date the financial statements were available to be issued. No reportable subsequent events were identified.

Risks and Uncertainties

The Plan provides participants with various investment fund options. Participants may choose to invest their funds in any combination of these investment options. The underlying securities owned by these investment funds are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

3. Information certified by the Custodian (unaudited)

At December 31, 2018, the Plan's investments were held by the asset custodian, John Hancock Retirement Plan Services. At December 31, 2017, the Plan's investments were held by the previous asset custodian, Reliance Trust Company. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the respective custodians as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

	2018	2017
Investments at fair value		
Investments in pooled separate accounts	$ 8,603,674	$ -
Investments in mutual funds	-	7,699,721
Investments in common collective trusts	-	416,501
Notes receivable from participants	95,373	96,925
Investment income:		
Dividend income	659	
Other losses	(12,971)	
Net depreciation in fair value of investments	(305,022)	
Interest on participant loans	$ 4,849	

4. Fair Value Measurements

Accounting standards, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018.

Pooled separate accounts – Separate accounts are valued at their "accumulation unit value" which is the net asset value of the underlying funds, the fund's dividends, and the separate account charges and is determined daily. As these investments are not traded on active markets, this investment class is classified as Level 2.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

2018	**Level 1**	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	$ -	$ 8,603,674	$ -	$ 8,603,674
Total assets at fair value	$ -	$ 8,603,674	$ -	$ 8,603,674

2017	**Level 1**	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 7,699,721	$ -	$ -	$ 7,699,721
Common / collective trust	-	416,501	-	416,501
Total assets at fair value	$ 7,699,721	$ 416,501	$ -	$ 8,116,222

5. Participant Loans

During 2018 and 2017, loans in the aggregate amounts of $28,886 and $28,472, respectively, were made to participants. Interest charged on outstanding loans amounted to $4,849 in 2018.

As of December 31, 2018 and 2017, the principal balances outstanding on participant loans were $95,373 and $96,925, respectively.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Transactions with Parties in Interest

Certain Plan investments are shares of separate pooled accounts managed by Reliance Trust Company. Reliance Trust Company is the trustee, as defined by the Plan, and qualities as a party-in-interest. Plan trustees also participate in the Plan. Fees paid for by the Plan for administrative services rendered by parties in interest were based on customary and reasonable rates for such services and are paid by the Plan Sponsor. These transactions qualify as party in interest transactions.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of Statement of Changes in Net Assets Available for Plan Benefits per the financial statements to the 2018 Form 5500:
