Pusan Pipe America, Inc. Employee Profit Sharing & Savings Plan
Notes to Financial Statements

1. DESCRIPTION OF PLAN

The following description of Pusan Pipe America, Inc. Employee Profit Sharing & Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, effective January 1, 1981, and most recently amended and restated effective January 1, 2016, under the provisions of Section 401(a) of the Internal Revenue Code ("IRC") which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of Pusan Pipe America, Inc., State Pipe & Supply, Inc., West Coast Pipe, and SeAh Steel USA LLC (effective April 1, 2017), a controlled group of corporations (collectively "the Employer"). All employees upon reaching age 21 and completing one year of service (who work at least 1,000 hours during 12 consecutive months of employment) are eligible to participate in the Plan. Employees enter the Plan on the first day of the calendar quarter coinciding with or next following completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Plan Administration

The Plan is adminstered by a written plan and trust agreement, and the trustee of that agreement are responsible for management of the Plan's assets. The trustees are Jun Lee and Byung Joon Lee, officers of the Company, and Voya Retirement Insurance and Annuity Company ('VOYA") is the custodian and recordkeeper of the Plan.

Contributions

Participants may elect to reduce their compensation, as defined by the Plan, by a certain amount and have that amount contributed to the Plan as a pre-tax salary deferrals. Participants who have attained age 50 before the Plan year-end are also eligible to make additional catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and individual retirement accounts. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4 percent of eligible compensation and their contributions invested in a target date fund until changed by the participant. The Employer makes matching contributions to eligible participants of the Plan who have at least 1,000 hours of service during the Plan year and who are employed on the last day of the Plan year. In 2018, the Employer matched 50% of the participants' pre-tax contributions on the first 6% of compensation deferred. The Employer may also make a non-elective profit sharing contribution for certain participants (based on classification) who are employed on the last day of the Plan year and have at least 1,000 hours of service during the Plan year. In 2018, these participants received 7% of their compensation as a profit sharing contribution. Contributions are subject to certain limits.

1. DESCRIPTION OF PLAN (Continued)

Participant Accounts

Participants direct the investment of their accounts into various investment funds offered by the Plan. Each participant's account is credited with the participant's contribution and related Employer's matching contribution and also an allocation of the Employer's profit sharing contribution, Plan earnings and expenses. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100 percent vested in their own contributions to the Plan and actual earnings thereon. Vesting in the Employer's contributions is based on years of service wherein a participant works at least 1,000 hours during the year, with participants becoming 100% vested after five years of service. A participant becomes fully vested in all Employer contribution accounts in the event the participant reaches normal retirement age, dies or becomes totally disabled.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited nonvested accounts totaled $39,136 and $9,353, respectively. Forfeited accounts are used to pay Plan administrative expenses or as a credit to reduce future Employer's contributions. During the year-ended December 31, 2018, the Plan applied $51 as a credit to reduce future Employer's contributions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Loans are permitted only for certain specific purposes, as defined. Loan terms are up to 5 years, except in the case of a purchase of a primary residence, which may have a loan term up to 25 years. Loans are secured by the balance in the participant's account and bear interest at a fixed rate (prime rate plus 1%) at the date the loan is issued and range from 4.25% to 6.25% at December 31, 2018. Principal and interest are normally paid ratably through payroll deductions.

Payments of Benefits

Participants are eligible for distribution of benefits when there is one of the following distributable events - termination of employment, death, disability, or retirement. Benefits are paid in a lump-sum cash payment. In addition, in-service withdrawals are allowed under certain conditions.

Plan Termination

Although it has not expressed any intent to do so, the Company is under no obligation or liability to continue its contributions and may discontinue such contributions or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 5 for disclosures regarding fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis, which approximates when interest is received. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year. Management fees and operating expenses charged to the Plan for investments in the group annuity contract accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are stated at the unpaid principal balance. Interest income associated with the notes receivable is recorded when interest payments are received, usually bi-weekly. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid or upon distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (Continued)

Plan Expenses

Certain expenses of maintaining the Plan are paid directly by the Employer, at its option, and are excluded from these financial statements. Fees related to specific participant transactions, such as for withdrawals and participant loans, are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. PARTICIPANT-DIRECTED INVESTMENTS

The Plan has a group annuity contract with VOYA, wherein the participants of the Plan may direct the investments of their contributions to VOYA pooled separate accounts and a fixed general account. Contributions directed to pooled separate accounts are segregated from other assets of VOYA as required by law and represent investment fund options that are invested in underlying portfolios that are regulated by the Securities and Exchange Commission and managed by professional money managers.

The pooled separate account investments have no unfunded commitments, redemption frequency is daily and there is no required redemption notice period. Contributions directed to the fixed account are invested in the VOYA general account and are governed by state insurance law and are guaranteed as to principal and interest; however, market value adjustments may apply, at contract termination.

4. FINANCIAL INFORMATION CERTIFIED BY THE CUSTODIAN

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, which include investments at December 31, 2018 and 2017, and net appreciation in fair value of investments and interest income for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya Retirement Insurance Annuity Company, the custodian of the Plan, in accordance with Section 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

5. INVESTMENTS AND FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy with the related inputs to the valuation methodology are described as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access.

Level 2 - Significant other observable (directly or indirectly) inputs, including quoted prices for similar assets in active markets or in inactive markets and other market observable inputs such as interest rate, credit risks, etc.

5. INVESTMENTS AND FAIR VALUE MEASUREMENTS (Continued)

Level 3 - Significant unobservable inputs, including the Plan's own assumptions in determining the fair value of investments.

At December 31, 2018 and 2017, the Plan did not have any investments that fall under the above fair value hierarchy and required leveling.

The Plan's investments in pooled separate accounts measured at fair value are based on the valuation methodology that pooled separate accounts are valued at the unit net asset value as reported by the insurance company, based on the market value of the underlying investments of the accounts. The net asset value (NAV) is used as a practical expedient to estimate fair value. There have been no changes in the methodology used at December 31, 2018 and 2017.

The Plan's investment in pooled separate accounts under the VOYA group annuity contract (summarized with the December 31, 2018 dollar value) reflect the following investment strategies:

Asset Allocation ($1,571,226) - seeks to balance risk versus reward by investing in mutual funds (including target date funds) which adjust the percentage of each asset category in an investment portfolio according to the investor's risk tolerance, goals and investment time frame.

Balanced ($172,514) - seeks safety, income and modest by investing in mutual funds that invest in a mix of stocks and bonds.

Bonds ($1,476,151) - seeks income or growth of income, with less emphasis on capital appreciation by investing in mutual funds that invest in various types of bond instruments.

Global/International ($617,181) - seeks capital appreciation by investing in mutual funds that invest in a diversified portfolio of stocks of foreign companies.

Large Cap Growth ($763,185) - seeks long-term growth of capital by investing in mutual funds that invest in large market capitalization stocks with capital appreciation as its primary goal, with little or no dividend payouts.

Large Cap Value ($2,389,314) - seeks long-term growth of capital or a combination of growth and income by investing in mutual funds that invest in large market capitalization stocks that are deemed to be undervalued in price and that are likely to pay dividends.

Small/Mid/Specialty ($2,232,962) - seeks capital appreciation by investing in mutual funds that invest in stocks of small- and medium-sized companies; also invests in specialty or sector companies, which include those in a particular industry.

Stability of Principal ($318,055) - seeks to hold principal value of an investment stable through various market conditions, at the same time earning interest and dividend income.

6. FIXED ACCOUNT INVESTMENTS AT CONTRACT VALUE

The Plan's investments in the Fixed Account are fully benefit-responsive investment contracts with Voya Retirement Insurance Annuity Company ("VOYA"). The Plan's investments in the Fixed Account are held in VOYA's general account. The Fixed Account investments are guaranteed against loss of principal, and the guarantee is based on the ability of VOYA to meets its financial obligations from the general assets of VOYA. The Fixed Account investments are credited with earnings at interest rates which are announced in advance and that will not be less than the guaranteed minimum interest rate, as per the contract specifications, and are guaranteed for a specific time period. VOYA is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Contract value, as reported to the Plan by VOYA, represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Normally, the participants may direct the withdrawal of all or a portion of their investment at contract value (no market value adjustment) based on normal distributable events, such as termination of employment, loans, death, retirement or disability.

The Plan currently has two Fixed Account investments. For the Plan's original Fixed Account investment, interest rates are set annually and these rates are established without the use of a specific formula. The minimum crediting rate under the contract is 3%. Effective July 1, 2017, the VOYA contract was amended as follows - the participants invested in the original Fixed Account investment will maintain the above market guaranteed minimum interest rate of 3%; however, all future deposits and transfers will be to a new VOYA Fixed Account A with an interest rate set at a new guaranteed minimum interest rate of 1%. When establishing interest rates for the Fixed Account VOYA considers many factors, including current economic and market conditions, the general interest rate environment and both the expected and actual experience of a reference portfolio within VOYA's general account.

If the Fixed Account investment contract were terminated by the Employer, the distribution of funds in the Fixed Account would be subject to a market value adjustment as defined in the contract. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan assets include investments in the general account of VOYA and investments in funds managed by an affiliate of VOYA. VOYA is an investment contract issuer that holds the Plan's investment contract. Fees incurred by the Plan for investment management services are in net appreciation in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to VOYA, other investment custodians and investment advisors.

Additionally, as mentioned in Note 2, certain administrative and investment expenses related to participant related activities are paid directly to VOYA and totaled $2,531 in 2018.

The above transactions, including the notes receivable from participants, qualify as allowable party-in-interest transactions for which there are statutory exemptions.

8. TAX STATUS OF THE PLAN

The Plan conforms to a volume submitter 401(k) profit sharing plan document, which has received an Internal Revenue Service ("IRS") favorable opinion letter. Therefore, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values on investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. DELINQUENT PARTICIPANT CONTRIBUTIONS

During 2018 and 2017, the Company failed to remit certain employee participant contributions and loan repayments in a timely manner. For 2018, the Plan will calculate and remit to the Plan, "lost earnings" on the delinquent participant contributions and loan repayments through the actual deposit date assuming an appropriate interest rate. For 2017, the Plan remitted $547 in 2018 related to the calculated "lost earnings" on the identified delinquent participant contributions and loan repayments. These delinquent participant contributions qualify as nonexempt prohibited transactions and have been reported in the supplemental schedule of delinquent participant contributions.

11. SUBSEQUENT EVENTS

In preparing these financial statements, the Plan administrator has evaluated subsequent events and transactions for potential recognition or disclosure through October 15, 2019, the date the financial statements were available to be issued.
