Wirtz Corporation 401(k) Profit Sharing Plan
Notes to the Financial Statements
December 31, 2010 and 2009

Note 1- Description of Plan:

The following description of the Wirtz Corporation Union Employees ("Company") 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees of the Company (except those who are members of a collective bargaining unit) who have one year of service and are age twenty and one-half of older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, eligible participants may contribute up to 100% of pretax annual compensation or $49,000, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a fixed income, a money market, six solution portfolios, and seventeen variable investment funds as investment options for participants. The Company may provide an annual discretionary contribution to the Plan at the option of the board of directors. Discretionary contributions are invested as directed by the individual participant.

For discretionary matching and profit sharing contributions, an employee must complete one year of service and be at least 20.5 years of age. An annual matching contribution may be contributed at the discretion of the Company. The matching contributions for the years ended December 31, 2010 and 2009 were $1,398,199 and $1,214,615, respectively. The Company may also make a discretionary profit sharing contribution. For the years ended December 31, 2010 and 2009 no discretionary profit contributions were made.

Participant accounts
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. All amounts in a participant's account are participant directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service. Vesting in Company contributions plus earnings thereon is based on continuous years of service as follows:

Years of Service	Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Note 1- Description of Plan (continued):

Vesting (continued):
Participants are immediately vested in their contributions plus actual earnings thereon. Participants are immediately vested in the Company's contribution, as applicable, plus actual earnings thereon.

Participant loans
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 2% (5.25% to 10.25%) during the year ended December 31, 2010, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Loan terms may not exceed 5 years, except for loans for the purchase of a participant's primary residence. Principal and interest are paid ratably through monthly payroll deductions. Interest income on the loans are accrued through year-end, and listed at their amortized cost.

Payment of benefits
On termination of service due to death, disability, retirement or other reasons, a participant is entitled to a lump-sum distribution of their total vested interest. There are no undistributed termination of service benefits as of December 31, 2010 and 2009.

Note 2 - Summary of Significant Accounting Policies:

Basis of accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Plan administration
The Company is the Plan sponsor and Plan administrator. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

Expenses
Substantially all investment expenses are picked up by the Plan and allocated to the participants as shown in the change in value of investments. The Plan sponsor incurs expenses on behalf of the plan that are not reimbursed by the Plan.

Use of estimates
The preparation of financial statements in conformity with the United States of America's generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for a discussion of fair value measurement.

Note 2 - Summary of Significant Accounting Policies (continued):

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis.

Payment of benefits
Benefits are recorded when paid.

Forfeited accounts
Forfeited nonvested accounts totaled $23,858 and $18,180 at December 31, 2010 and 2009, respectively. These accounts will be used to reduce future employer contributions or refunded to the sponsor.

Note 7 - Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 8 - Subsequent Events:

Management has evaluated subsequent events through October 7, 2011, the date which the financial statements were available to be issued.

Note 9 - Investments and Fair Value Measurements:

The United States of America generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 9 - Investments and Fair Value Measurements (continued):

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable to the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

If the asset or liability has a specified contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2010 and 2009.

Common/collective mutual funds: Valued at the fair value of the shares in the collective trust, as determined by the fair value of the underlying investments/mutual funds.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Common/collective mutual funds	$ -	$68,497,968	$ -	$68,497,968
Participant loans	-	-	316,592	316,592
	$ 0	$68,497,968	$ 316,592	$ 68,814,560

Note 9 - Investments and Fair Value Measurements (continued):

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2010:

	Participant loans
Balance, beginning of year	$ 238,896
Purchases, sales, issuances and settlements, net	77,696
Balance, end of year	$ 316,592

The certified report from the trustee does not contain the allocation between investment income and realized and unrealized gains and losses on investments, and accordingly, the allocation is not presented in the statement of changes in net assets available for planbenefits.

Note 10 - Reconciliation of the Plan Financial Statements to the Form 5500:

Certain balances included on Schedule H Part I, II on the Annual Return/Report of Employee Benefits Plan (Form 5500) have been reclassified for purposes of presentation in the financial statements.

Note 11 - Indirect Compensation:

For the year ended December 31, 2010, the Plan paid $1,998,293 in indirect compensation which included reimbursement fees, insurance mortality and expense charges, recordkeeping fees, account maintenance fees, investment advisory fees and 12B-1 distribution fees. Indirect compensation is compensation that a service provider receives from sources other than the Plan directly or from the Plan sponsor in connection with services rendered to the Plan during the Plan year.
