NEILL AIRCRAFT COMPANY
PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2010

Note 1 – Description of the plan

The following description of the Neill Aircraft Company (the Company) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on June 30, 1968, and is a defined contribution plan covering substantially all eligible employees of the Company who have worked at least one thousand hours, have at least one year of service, and are age twenty-one or older. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA). The most recent amendment to the Plan was effective February 1, 2009. The Plan was also amended in 2010 to reflect the Heroes Earnings and Assistance Relief Tax (HEART) Act.

Contributions

Each year, participants may contribute up to 15% of pretax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options provided by the Plan. The Plan currently offers nine mutual funds as investment options for participants. The Company makes discretionary contributions to the Plan based upon the recommendations of the Company's Administrative Committee.

Participants' accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts, and charged with an allocation of administrative expenses. Allocations are based upon participant contributions, earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based upon years on service. A participant is 100% vested after six years of credited service.

Note 1 – Description of the plan (continued)

Participant loans

Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their account balance, whichever is less. A participant may have only one outstanding loan at any time. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator.

Payment of benefits

On termination of service due to death, disability or retirement, a participant or his/her heirs may elect to receive the value of the participant's vested interest in his or her account as either a lump-sum amount or as a life or joint and survivor annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Forfeited accounts

At December 31, 2010, the forfeited nonvested accounts totaled $8,879. These accounts will be reallocated to participants in the same manner as employer contributions.

Note 2 – Summary of significant accounting policies

Date of management evaluation

Management has evaluated subsequent events through October 7, 2011, the date on which the financial statements were available to be issued.

Basis of accounting

The financial statements of the Plan are prepared under the modified cash basis method of accounting whereupon revenue is recognized when received and expenses are recognized when disbursed.

Note 2 – Summary of significant accounting policies (continued)

Estimates and assumptions

The Plan administrator uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales are recorded on a trade-date basis.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

All significant expenses of maintaining the Plan are paid by the Company.

NOTES TO FINANCIAL STATEMENTS

Registered investment companies	$	220,159

Note 4 – Tax status

The Plan obtained its latest determination letter in January 1994, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan has adopted the provisions of Accounting Standards Codification (ASC) 740-10-50, *Accounting for Uncertainty in Income Taxes*. The statement requires that a tax position be recognized or derecognized based on a 'more-likely-than-not' threshold. This applies to positions taken or expected to be taken in a tax return. The implementation of the statement had no impact on the Plan's statement of financial position or statement of activities. The Plan does not believe its financial statements include (or reflect) any uncertain tax positions.

Note 5 – Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010, to Schedule H of Form 5500:

Net assets available for benefits per the financial statements	$ 2,514,365
Amounts allocated for withdrawing participants	-

Benefits paid to participants per Schedule H of Form 5500	$ 217,015

Note 6 – Information prepared and certified by the Custodians of the Plan

The following information included in the accompanying financial statements and supplemental schedule was obtained from the data prepared and certified as complete and accurate by Capital Bank and Trust Company and Frontier Trust Company, the Custodians of the Plan.

Investments at fair value:	
Registered investment companies	$ 1,977,611
Cash equivalents	380,003
Net appreciation in fair value of investments	220,159
Realized loss on sale of investments	(67,831)
Interest income	10,717
Investment income from registered investment companies	48,782

The custodian of the Plan was changed during 2010. Capital Bank & Trust was the custodian from January 1, 2010 through May 22, 2010. Frontier Trust Company was the custodian from May 22, 2010 through December 31, 2010.

Note 7 – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NEILL AIRCRAFT COMPANY
PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2010

Note 1 – Description of the plan

The following description of the Neill Aircraft Company (the Company) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on June 30, 1968, and is a defined contribution plan covering substantially all eligible employees of the Company who have worked at least one thousand hours, have at least one year of service, and are age twenty-one or older. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA). The most recent amendment to the Plan was effective February 1, 2009. The Plan was also amended in 2010 to reflect the Heroes Earnings and Assistance Relief Tax (HEART) Act.

Contributions

Each year, participants may contribute up to 15% of pretax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options provided by the Plan. The Plan currently offers nine mutual funds as investment options for participants. The Company makes discretionary contributions to the Plan based upon the recommendations of the Company's Administrative Committee.

Participants' accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts, and charged with an allocation of administrative expenses. Allocations are based upon participant contributions, earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based upon years on service. A participant is 100% vested after six years of credited service.

Note 1 – Description of the plan (continued)

Participant loans

Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their account balance, whichever is less. A participant may have only one outstanding loan at any time. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator.

Payment of benefits

On termination of service due to death, disability or retirement, a participant or his/her heirs may elect to receive the value of the participant's vested interest in his or her account as either a lump-sum amount or as a life or joint and survivor annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Forfeited accounts

At December 31, 2010, the forfeited nonvested accounts totaled $8,879. These accounts will be reallocated to participants in the same manner as employer contributions.

Note 2 – Summary of significant accounting policies

Date of management evaluation

Management has evaluated subsequent events through October 7, 2011, the date on which the financial statements were available to be issued.

Basis of accounting

The financial statements of the Plan are prepared under the modified cash basis method of accounting whereupon revenue is recognized when received and expenses are recognized when disbursed.

Note 2 – Summary of significant accounting policies (continued)

Estimates and assumptions

The Plan administrator uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales are recorded on a trade-date basis.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

All significant expenses of maintaining the Plan are paid by the Company.

Note 4 – Tax status

The Plan obtained its latest determination letter in January 1994, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan has adopted the provisions of Accounting Standards Codification (ASC) 740-10-50, *Accounting for Uncertainty in Income Taxes*. The statement requires that a tax position be recognized or derecognized based on a 'more-likely-than-not' threshold. This applies to positions taken or expected to be taken in a tax return. The implementation of the statement had no impact on the Plan's statement of financial position or statement of activities. The Plan does not believe its financial statements include (or reflect) any uncertain tax positions.

Note 5 – Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010, to Schedule H of Form 5500:

Realized loss on sale of investments	(67,831)

Note 7 – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
