Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Beginning January 1, 2019, the Plan was amended to automatically increase deferrals 1% per year up to a maximum 15%.

Participants direct the investment of their contributions into various investments offered by the Plan. The Plan currently offers a variety of registered investment companies as investment options for participants.

The Plan offers a discretionary profit sharing employer contribution. Under the discretionary profit sharing employer contribution, the Plan Sponsor may make a contribution on behalf of each participant equal to the percentage

declared of eligible compensation, as defined. There was a transfer of $1,569,499 to the Plan from the Madico, Inc. Pension Plan, a terminated, employer funded defined benefit plan, during the year ended December 31, 2015. The Company was the plan sponsor of this qualified plan. The transfer represented excess pension plan funds to be allocated as either discretionary profit sharing or matching employer contributions. The Company did not make a discretionary profit sharing employer contribution during 2019.

The Plan is a "safe harbor 401(k) plan" effective January 1, 2019. The Company makes safe harbor matching contributions equal to 100% of participant salary deferrals that do not exceed 3% of compensation, plus 50% of participant salary deferrals in excess of 3% and up to 5% of compensation. The safe harbor matching contribution is fully vested. During the year ended December 31, 2019, the plan sponsor applied $338,423 of the transferred pension funds noted above towards the employer safe harbor contributions per the formula. As of December 31, 2019 and 2018, approximately $188,000 and $526,000 respectively, remains available for allocation as either discretionary profit sharing or employer matching contributions.

d) *Participants Accounts* – Each participant's account is credited with the participant's contribution and allocations of: (a) the Plan Sponsor's discretionary matching employer contribution, (b) the Plan Sponsor's discretionary profit sharing employer contribution, and (c) Plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e) *Vesting* – Participants are immediately vested in their contributions as well as employer safe harbor matching contributions and discretionary profit sharing employer contributions, plus actual earnings thereon.

f) *Investment elections* – Each participant shall direct the investment of their account among a selection of registered investment companies and a common collective trust. Contributions may be diversified among one or more of the funds in increments of 1%.

g) *Notes Receivable from Participants* – The Plan permits its participants to borrow from his or her account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 (less the highest outstanding loan balance in the previous 12 months) or 50% of the participant's account balance. Loans range up to 5 years or longer term for the purchase of a primary residence as established by the Plan Administrator at the time of the loan. The loans are collateralized by the balance in the participant's account and bear interest at a the prime rate of interest plus one percent. These rates range from 4.25% to 6.50% on outstanding loans as of December 31, 2019, and mature through 2027. Principal and interest are paid ratably through weekly payroll deductions. A participant is not allowed to have more than one loan outstanding at a time.

h) *Payment of Benefits* – Withdrawals may be made from a participant's account at retirement, death, disability, hardship or termination of employment. A participant with a rollover account balance is permitted to withdraw all or a portion from the amount of rollover contributed to the Plan, as defined. A participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants

Notes from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant to be in default, the participant's note receivable is reduced and a benefit payment is recorded based on the terms of the Plan. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Contributions

Contributions from Plan participants and the matching contribution from the Plan Sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. Profit-sharing contributions are recognized upon authorization and in the year the underlying compensation is recognized under the Plan. All participant and employer contributions are participant-directed. Participant contributions in excess of amounts allowed by the Internal Revenue Service (IRS) regulation are recorded as a liability with a corresponding reduction in contributions.

Payment of Benefits

Benefit payments are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes from participants that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Subsequent events

The Plan has evaluated subsequent events (events occurring after December 31, 2019) through October 12, 2020, the date the financial statements were available to be issued.

3. Information Prepared and Certified by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR

2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

December 31,	***2019***	*2018*
Investments, at fair value:		
Registered investment companies	**$21,799,194**	$16,410,532
Common collective investment trust fund	**–**	2,303,385
Notes receivable from participants	**256,084**	188,758

Year ended December 31,	***2019***
Investment income:	
Net increase in fair value of investments	**$3,476,041**
Interest and dividends	**437,037**
Interest – notes receivable from participants	**13,066**

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2

input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the best level input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 or 2018.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective investment trust fund: Valued at the NAV of shares in each account held by the Plan at year end. The NAV is not a public-quoted price in an active market. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Investment Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$21,799,194	–	–	$21,799,194
Investments, at fair value				$21,799,194

	As of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$16,410,532	–	–	$16,410,532
Investments measured at NAV [(a)]				2,303,385
Investments, at fair value				$18,713,917

(a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using the NAV per share (or its equivalent) as of December 31, 2019 and 2018:

Investment	Fair Value December 31 2019	2018	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust fund: Fidelity managed income portfolio fund	$ –	$ 2,303,385	None	Daily	None

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

5. Related Party Transactions and Party in Interest transactions

Reliance Trust is the trustee of the Plan; therefore, transactions with the trustee qualify as parties-in-interest transactions. ADP is the recordkeeper of the Plan and

qualifies as a party-in-interest. Fees paid by the Plan to the recordkeeper totaled $5,930 for the year ended December 31, 2019. The Plan Sponsor also paid certain administrative expenses of the Plan.

6. Plan Amendment and Change in Trustee and Recordkeeper

Effective January 1, 2019 the Plan was amended to change the Plan's trustee to Reliance Trust. In addition, the Plan's recordkeeper was changed to ADP effective January 1, 2019. The amended plan altered the definition of compensation and implemented automatic annual increases in deferral rates. The Plan was also amended to include employees of Vacuum Depositing, Inc. LLC.

7. Merged Plan – VDI, LLC Retirement Savings Plan

On January 1, 2019 the net assets of VDI, LLC Retirement Savings Plan were transferred to the Plan. Vacuum Depositing, Inc. LLC is the plan sponsor of the VDI, LLC Retirement Savings Plan. Assets transferred to the Plan totaled $619,764. Employees of Vacuum Depositing, Inc. are now participants of the Plan effective January 1, 2019.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will remain fully vested in their accounts.

9. Tax Status

The Plan adopted a volume submitter plan sponsored by ADP. The volume submitter plan provider received an advisory letter from the IRS as to the volume submitter plan's qualified status. The volume submitter advisory letter has been relied upon by the Plan. The Plan has been amended since the volume submitter received the advisory letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is

subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
