The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Under the provisions of the Plan, each active participant may enter into a written salary deferral agreement with the Company, in an amount not to exceed 100 percent of compensation for the contribution period, up to the maximum allowable amount as determined yearly by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make Non-Safe Harbor Matching Contributions, Non-Safe Harbor Non-Elective Contributions, Qualified Matching Contributions, Qualified Non-Elective Contributions, or Safe Harbor 401(k) Contributions to the Plan. The type and amount of any contribution for any particular plan year is determined by the Company's board of directors at its sole discretion.

An employee must be employed on the last day of the Plan year and must have completed 1,000 hours of service during that Plan year to receive a portion of the non-elective contribution.

1. Description of the Plan (Continued)

Participant Accounts

An account is maintained for each participant. The participant's account is credited with the participant's contributions, Company's matching contributions, Company's non–elective contributions, Qualified Matching Contributions, Qualified Non-Elective Contributions, and participant's Plan earnings and losses.

Vesting

Participants are immediately vested in their contributions, Qualified Matching Contributions, and Qualified Non-Elective Contributions, plus earnings thereon. Vesting in the Non-Safe-Harbor Matching Contributions, Non-Safe-Harbor Non-Elective Contributions plus actual earnings thereon is based on years of service. A year of service is given for each Plan year in which a participant performs 1,000 or more hours of service. After two years of service, a participant becomes 20 percent vested. Each service year thereafter will increase the participant's vesting by 20 percent, with 100 percent vesting after six years.

Investment Options

Participants direct employee and Company contributions to their accounts in guaranteed interest contracts or in a number of pooled separate accounts.

Notes Receivable from Participants

A participant may borrow from his or her fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of the participant's vested account balance. At any time, a participant may only have one loan outstanding. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined periodically by the Plan's administrator. Interest rates range from 5.25 percent to 8.25 percent. Principal and interest are paid ratably through payroll deductions. Any outstanding loan balance will become due and payable in its entirety upon occurrence of a distributable event.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly installments for the duration of the lesser of the available account balance or the participant's life expectancy. Participants who terminate employment shall receive the value of the vested interest in their accounts as lump-sum distributions.

Forfeited Accounts

A participant's unvested portion of Company matching contributions and non-elective contributions is forfeited upon termination of employment for reasons other than retirement, death, or permanent disability. Forfeitures are maintained in a separate account and are applied to pay expenses, restore participant accounts for participants with less than a five-year break in service, or to reduce the Company's contributions, as defined by the Plan. There were no forfeitures used to pay Plan expenses in 2010. The balance at December 31, 2010 amounted to $1,861. There was no forfeiture account balance at December 31, 2009.

2. Summary of Accounting Policies

Use of Estimates

The preparation of these financial statements requires management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of assets, liabilities, revenues, and expenses, as well as the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

Management has considered events occurring through September 22, 2011 in its evaluation of the conditions on which estimates were based or for changes in conditions subsequent to the balance sheet date which should be disclosed. The financial statements were available to be issued at this date.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note 4 for discussion on fair-value measurements.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan's document.

Payment of Benefits

Benefits are recorded when paid.

Reclassification

Certain amounts for 2009 have been reclassified to conform to the 2010 financial statement presentation.

4. Fair-Value Measurements

Accounting Standards Codification Topic 820 for Fair Value Measurements and Disclosures (ASC Topic 820) establishes a framework for measuring fair value. The framework provides a fair-value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair-value hierarchy under ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair-value measurement.

The asset's or liability's fair-value measurement level within the fair-value hierarchy is based on the lowest level of any input that is significant to the fair-value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There were no significant transfers between Level 1 and 2 for the year ended December 31, 2010.

Following is a description of the valuation methodologies used for assets measured at fair value:

- *Pooled separate accounts* are valued at the net asset value of the underlying assets held by the separate account.

- *Guaranteed interest contracts:* Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair-value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair-value measurement at the reporting date.

4. Fair-Value Measurements (Continued)

The following table sets forth, by level within the fair-value hierarchy, the Plan's assets at fair value as of December 31, 2010:

5. Related-Party and Party-in-Interest Transactions

The Plan has not considered Company contributions to the Plan, nor benefits accrued or paid by the Plan for participants, as party-in-interest transactions.

The Company provides certain services, such as accounting and auditing, to the Plan without compensation.

John Hancock Life Insurance Company (U.S.A.) is the custodian of the Plan's assets. Third-party service organizations that provide services to the Plan are Actuarial Benefits Corporation and Integrated Wealth Management. Fees paid by the Plan for contract administration provided by the third-party service organizations amounted to $51,611 for the year ended December 31, 2010.

6. Tax Status

The Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Plan's trustees and management believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100 percent vested in their Company matching contributions and Company non-elective contributions.
