Note 1. DESCRIPTION OF THE PLAN

The following description of the Sunrise Management Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all Sunrise Management Company (the Company) employees that are not covered by a collective bargaining agreement, are age 18 or older and have been with the Company for at least one month. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to a maximum of 100% of pay each year, as defined in the Plan, subject to annual limitations as defined by the Internal Revenue Code. The Plan provides for an automatic elective deferral of 3% unless the participant affirmatively elects a different percentage. Participants may also contribute amounts representing distributions (rollover contributions) from other qualified defined benefit or contribution plans. The Company's management may choose to make discretionary matching contributions or qualified non-elective contributions. Qualified non-elective contributions are allocated to all eligible participants in the ratio the participant's salary bears to total salaries of all participants. The Company made no qualified non-elective or discretionary matching contributions in 2019 and 2018. Plan members who are age 50 or older before the end of the year may make additional catch-up contributions in excess of the normal annual limitations as defined by the Internal Revenue Code.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of Company contributions. Each participant has an individual investment account and is credited with the earnings or loss from that account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in Company contributions based on years of service. Participants are fully vested in Company contributions after six years of service. Forfeitures are used to reduce Company contributions. There were no forfeitures in 2019 or 2018, and no forfeitures were used to reduce Company contributions in 2019 or 2018.

Investment Options

Each participant may direct the investment of his or her account balance in various pooled separate accounts, a common/collective trust, and a fixed account.

Participant Notes Receivable

Participants may borrow from their fund accounts subject to certain limitations as defined in the Plan. Loan terms are up to 5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates on outstanding participant loans as of December 31, 2019 and 2018 ranged from 5.75% to 6.75% and from 5.25% to 6.75%, respectively. Principal and interest are paid ratably through regular payroll deductions.

Excess Contributions Payable

Excess contributions are reported as a liability and a reduction of net assets available for benefits for the plan year in which the excess contributions were made.

Payment of Benefits

On termination of service, a participant will receive the value of the vested interest in his or her account in installments or in a lump-sum distribution. At age 59½, or in the event of an undue financial hardship, a participant may elect to withdraw all or part of his or her vested account.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation

The Plan's investments, with the exception of the Massachusetts Mutual Life Insurance Company fixed account, are stated at fair value.

Investments in the Massachusetts Mutual Life Insurance Company fixed account are stated at contract value as determined by the custodian. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Participant Notes Receivable

Participant loans are classified as notes receivable from participants, segregated from plan investments, and reported at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan's investments are exposed to various risks such as interest rate, market, and credit risks. Consequently, the value of the Plan's investments, and participants' account balances, will fluctuate in the near term and such fluctuations may be material.

Note 3. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits, except for investments in fixed accounts, which are reported at contract value. FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 Fair Value Measurements

Fair values are based on publicly quoted prices in active markets for identical assets. The fair value of investments in common/collective trusts is based on the net asset value of the trust as published daily.

Level 2 Fair Value Measurements

Fair values are based on observable inputs other than publicly quoted prices in active markets for identical assets. The fair value of investments in pooled separate accounts is determined based on the published prices of the underlying investments held by the pooled separate accounts.

Level 3 Fair Value Measurements

Fair values are based on unobservable inputs used for valuing the asset.

Fair value measurements as of December 31, 2019 are as follows:

	Fair Value	Level 1	Level 2	Level 3
Investments in pooled separate accounts	$ 3,383,236	$ -	$ 3,383,236	$ -
Investments in a common/collective trust	-	-	-	-
Total	$ 3,383,236	$ -	$ 3,383,236	$ -

Fair value measurements as of December 31, 2018 are as follows:

	Fair Value	Level 1	Level 2	Level 3
Investments in pooled separate accounts	$ 2,459,096	$ -	$ 2,459,096	$ -
Investments in a common/collective trust	14,566	14,566	-	-
Total	$ 2,473,662	$ 14,566	$ 2,459,096	$ -

Note 4. FIXED ACCOUNT INVESTMENT OPTION

The Plan's investments in the Massachusetts Mutual Life Insurance Company fixed account are fully benefit-responsive.

The fixed account is a group annuity contract with a fixed rate of interest. The average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. A surrender charge may apply under certain circumstances involving significant or total reductions in the Plan's investment in the contract. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable.

	2019	2018
Net assets available for benefits per the financial statements	$ 3,650,676	$ 2,764,600
Excess contributions payable	-	1,600
Net assets available for benefits per Schedule H of Form 5500	$ 3,650,676	$ 2,766,200

Note 6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (continued)

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Schedule H of Form 5500:

	2019	2018
Net increase/(decrease) per the financial statements	$ 886,076	$ (161,922)
Excess contributions payable at end of year	-	1,600
Excess contributions payable at beginning of year	(1,600)	-
Net increase/(decrease) per Schedule H of Form 5500	$ 884,476	$ (160,322)

Note 7. EXCESS CONTRIBUTIONS

Excess contributions received from participants of $1,600 for 2018 were refunded in 2019 to certain active participants as required to satisfy the relevant nondiscrimination provisions of the Plan. This amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2018. There were no excess contributions for 2019.

Note 8. PARTY-IN-INTEREST TRANSACTIONS

Massachusetts Mutual Life Insurance Company, as current custodian for the Plan, functioned as record keeper and investment manager for the Plan, disbursed benefit payments, and executed investment transactions in the pooled separate accounts and common/collective trust. Principal Life Insurance Company, as former custodian for the Plan, and its subsidiaries functioned as record keeper and investment manager for the Plan, disbursed benefit payments, and executed investment transactions in the pooled separate accounts and common/collective trust. As a result, these transactions qualify as party-in-interest transactions. Fees paid by the Company for the Plan's administrative expenses are also considered party-in-interest transactions.

Note 9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 10. TAX STATUS

For the period from January 1, 2018 to June 4, 2018, the Plan was operated pursuant to a prototype non-standardized 401(k) plan offered by the Principal Life Insurance Company. From June 4, 2018 to December 31, 2019, the Plan was operated pursuant to a prototype non-standardized 401(k) plan offered by Premier Plan Consultants. The Internal Revenue Service has determined in letters dated March 31, 2014, that the prototype plans are designed in accordance with applicable sections of the Internal Revenue Code. Although the plans have been amended since receiving the determination letters, the Plan administrator believes that the plans are designed and are currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, management believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability for an uncertain tax position if it is not more likely than not that the position would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2016.

Note 11. SUBSEQUENT EVENTS

Management has evaluated subsequent events for disclosure and accrual through October 14, 2020, which is the date the 2019 financial statements were available to be issued.
