INDEPENDENT AUDITORS' REPORT

To the Administrative Committee and Trustees
Clear View Building Services 401(k) Profit Sharing Plan & Trust

We were engaged to audit the financial statements of Clear View Building Services 401(k) Profit Sharing Plan & Trust (the "Plan") as of December 31, 2010, and for the year ended December 31, 2010, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

We were unable to obtain a service auditor's report or apply auditing procedures at the service organization supporting the Plan's investment balance of $41,504 at December 31, 2010, or its changes in net assets of $1,029, which is included in the statement of changes in net assets available for benefits for the year then ended; nor were we able to satisfy ourselves as to the carrying value of the investment or the effect on the changes in net assets by other auditing procedures.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to obtain a service auditor's report or apply auditing procedures at the service organization, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Clear View Building Services 401(k) Profit Sharing Plan & Trust as of December 31, 2010, and the changes in its net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

1. DESCRIPTION OF THE PLAN:

The following description of the Clear View Building Services (the "Company") 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Coverage and Eligibility

The Plan, established January 1, 2010, is a defined contribution 401(k) profit sharing plan covering all of the employees of Clear View Building Services, Inc. (the Plan Sponsor) who have attained age 21 and have completed one year of eligible service. Eligible employees may begin to participate in the Plan immediately following eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and Section 401(a) of the Internal Revenue Code.

Contributions

Participants may contribute up to maximum percentage of their eligible annual compensation to the Plan, as defined by the Internal Revenue Code. Annual contributions are further limited by certain anti-discrimination tests as required by the Internal Revenue Service and to aggregate contributions of $16,500 ($22,000 for participants over 50 years of age) for the year ended December 31, 2010. The plan sponsor is subject to the Safe Harbor CODA rules in which matching contributions will be made to each eligible employee equal to 100 percent of the employee's elective deferrals that do not exceed 3% of the employees compensation for the plan year, plus 50 percent of the amount of the employee's elective deferrals that exceed 3% of the employee's compensation but do not exceed 5% of the employee's compensation. The matching contributions paid for the year ended December 31, 2010 amounted to $12,249.

Participant Accounts

All of the Plan's assets are held in a general trust and invested as pooled funds. Each participant's account is credited with the participant's contribution, plan sponsor matching contributions, any rollover contributions, and an allocation of investment earnings pursuant to the participant directed investment allocations.

Vesting and Forfeitures

Participants are immediately 100% vested in their contributions, plan sponsor matching contributions, and related earnings thereon. Participants will be vested in discretionary profit sharing contributions ratably over five years of service. Generally, a vested year of service is defined as 1,000 hours. In the event of death, disability, or attaining normal retirement age, participants become immediately vested. Forfeitures are allocated to the remaining participants according to the provisions of the Plan.

Benefits Paid to Participants

The Plan provides for the payment of benefits to the participant or the participant's beneficiary at retirement, disability, death, or termination of employment. Participants who qualify for distributions may elect to receive their distributions in the form of a lump sum or substantially equal installment payments. The total amount of distribution the participant is entitled to is the participant's vested account amount. Vested account balances in the amount of $5,000 or less will be subject to the lump sum distribution provisions of the Plan.

1. DESCRIPTION OF THE PLAN (Continued):

Notes Receivable from Participants

The Plan permits the participant to borrow against their vested account balance. All borrowings bear a fixed rate of interest determined on the date of advance by the plan administrator and are payable through regular payroll deductions. In the event of termination of employment, participants are required to pay back their loans. Participants should refer to the Plan agreement to find out how to apply for such participant loans.

Administrative expenses

The Employer has elected to pay all administrative expenses incurred by the Plan except for certain transaction fees such as loan and distribution requests, which are paid by the plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in all of the funds are stated at fair value, based on quoted market prices of the underlying securities within each fund at December 31, 2010. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

The payment of benefits or distributions, are recorded when paid.

3. RELATED PARTY TRANSACTIONS:

Since the inception of the Plan, the plan sponsor has paid certain Plan expenses and fees. Certain Plan investments are comprised of shares of mutual funds managed by Paychex, Inc., the third party administrator of the Plan. Therefore, these transactions qualify as party-in-interest transactions.

4. INVESTMENTS:

All of the Plan's assets are held in a trust and invested as pooled accounts. Participants may direct their contributions into investment funds approved by the trustees of the Plan. None of these investments provides for a guaranteed rate of return and participants assume all of the risk of loss in the selection of their investments. The following presents investments at December 31, 2010 that represent 5% or more of the Plan's net assets:

4. INVESTMENTS (Continued): Investments, at fair value:

	2010
Vanguard Prime Money Market	$ 21,858
Oppenheimer Developing Markets	3,188
RS Global Natural Resources	2,703
Perkins Mid Cap Value	2,589
First Eagle Gold	2,319
Vanguard Targ Ret 2030	2,286
Oppenheimer International Bond	2,220
Investments less than 5%	4,341
Total	$ 41,504

5. FAIR VALUE MEASUREMENTS: FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

5. FAIR VALUE MEASUREMENTS (Continued):

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.
Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.
Participant loans: valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Money Market Account	$ 21,858	$ 0	$ 0	$ 21,858
Mutual funds	19,646	0	$ 0	19,646
Total assets at fair value	$ 41,504	$ 0	$ 0	$ 41,504

In the opinion of the Plan administrator, the Plan held no level 3 investments at December 31, 2010.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. INCOME TAX STATUS:

The Internal Revenue Service has determined and informed the plan administrator by letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) by way of an approved prototype profit sharing plan document. The plan administrator and plan sponsor believe that the Plan, inclusive of amendments and required law changes, is currently designed and is being operated in compliance with applicable requirements of the IRC. Therefore, it believed that the Plan is qualified and the trust is exempt from current income taxes.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. SUBSEQUENT EVENTS: For the year ended December 31, 2010, the Plan has evaluated subsequent events for potential recognition and disclosure as of October 7, 2011, the date the financial statements were available to be issued.
