We have been informed by the Plan Administrator that John Hancock USA holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from John Hancock USA as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan Administrator by John Hancock is complete and accurate.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

NOTE A--DESCRIPTION OF PLAN

The following description of the Berkowitz Dick Pollack & Brant Certified Public Accountants & Consultants, LLP 401(K) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreements for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan, commonly referred to as a 401(K) plan, covering qualified employees of Berkowitz Dick Pollack & Brant Certified Public Accountants & Consultants, LLP, Provenance Wealth Advisors, LLC, Provenance Wealth Advisors Holdings, LLC, BayBridge Home Lending, Ltd., BayBridge Capital Advisors, LLC, BayBridge Real Estate Group, LLC and Home Mortgage Management, L.C. (collectively the "Company"). Employees are eligible to participate in the Plan as of the date of their employment with the Company and on the semi-annual entry dates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Elective Deferrals and Contributions: Each year, participants may elect to defer their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan on a pre-tax basis as a salary deferral ("elective deferrals"). For any calendar year, a participant's elective deferrals may not exceed a specific dollar amount [the lesser of 75% of non-highly compensated participant's compensation and 15% of highly compensated participant's compensation or $16,500 in 2010 and 2009 as determined by the Internal Revenue Service "IRS")]. For participants 50 years of age or older, an additional $5,500 contribution is allowed for the years 2010 and 2009. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Each year, the Company may contribute discretionary profit sharing contributions equal to a uniform percentage of the amount of the salary reduction the participant elects to defer, which percentage the employer determines each year. In 2010 and 2009, the Company did not make any discretionary profit sharing contributions. On behalf of each non-highly compensated participant, the Company may make a qualified non-elective contribution in an amount determined each year by the Company. In 2009, the Company made a qualified non-elective profit sharing contribution of $629. Participants direct the investment of their contributions and any employer matching contributions into various investment options offered by the Plan. The participant must complete a Year of Service during the Plan year and be actively employed on the last day of the Plan Year to share in the employer's discretionary profit sharing contribution. The participant will have completed a Year of Service for purposes of sharing in the discretionary profit sharing contribution if they are credited with at least 1000 hours of service during a Plan Year.

NOTE A--DESCRIPTION OF PLAN--Continued

Participant Accounts: Each participant's account is credited with the participant's elective deferrals and allocations of (a) the Company's profit sharing, qualified non-elective contributions and discretionary contributions (b) investment earnings or losses, and charged with an allocation of administrative expenses, if the expenses are not paid by the Company. Allocations are based on participant account balances, as defined. Certain minimum service hour requirements must be met for employees to be entitled to allocations of Company 401(K) profit sharing plan contributions. In order to share in a profit sharing contribution, the employee must complete one year of service, as defined above, and be employed on the last day of that plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately 100% vested in their elective deferrals and the qualified non-elective contributions contributed to the Plan and the actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing portions of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested based on the following vesting schedule:

Years of service	% Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of Benefits: On termination of service due to death, 100% of the participants account balance is used to provide the participants beneficiary with a single lump-sum payment or in installments over a period of not more than the beneficiary's assumed life expectancy. If a participant retires or becomes disabled, a participant is entitled to 100% of the account balance and payment of the disability benefits will be made as if the participant had retired. If the value of the vested benefit is less than $5,000, then a lump-sum distribution will be made and if the vested benefit exceeds $5,000 the distribution can be made in a single lump-sum payment or in installments over a period of not more than the participant's assumed life expectancy. For termination of service due to other reasons, a participant may elect to have the vested benefit distributed as soon as administratively feasible.

NOTE A--DESCRIPTION OF PLAN--Continued

Payment of Benefits (Continued): All accounts less than $5,000 will be distributed in a lump sum as soon as practicable. If a participant's vested benefit exceeds $5,000, the participant must consent to the distribution before it may be made and the benefit can be paid in a single lump-sum payment in cash or in installments over a period not more than the participants assumed life expectancy.

Forfeited Accounts: Forfeitures of the non-vested portion of a terminated participant's account balance attributable to employer profit sharing contributions not used by the Plan will be used to pay Plan expenses and to reduce Company's contributions to the Plan. Forfeitures in the Plan are used for the Plan year following the Plan year in which the forfeiture occurs. Forfeitures of $7,692 and $9,153, for the years ended December 31, 2010 and 2009, respectively, attributable to discretionary profit sharing contributions, were used to pay Plan expenses and the balance is included in cash.

Hardship Distributions: Participants may request a distribution from the Plan prior to the participant's termination of employment in any one Plan year up to the lesser of 100% of the participant's elective salary deferrals and the participant's transfer/rollover account value as of the last valuation date or the amount necessary to satisfy the immediate and heavy financial need of the participant. In order to request a hardship distribution the participant must meet one of six conditions related to a financial hardship as defined by the Internal Revenue Service. For 2010 and 2009, hardship distributions were $105,870 and $22,000, respectively.

Plan Amendments: Effective January, 2010 the Plan was amended to conform with recent law changes.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition: Investments are reported at their estimated fair value as described in Note E. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Investment Valuation and Income Recognition (Continued): Purchases and sales of units are recorded on a trade-date basis. Cost of investments sold is determined on the basis of identified cost. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined-contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined contribution Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements: In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-6, which amends Accounting Standards Codification ("ASC") 820. ASU 2010-6 amends ASC 820 to add new requirements for disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements and (4) the transfers between Levels 1, 2 and 3 fair value measurements. ASU 2010-06 is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide the Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of applicable sections of ASU 2010-06 did not have a significant impact on the Plan's financial statements for the year ended December 31, 2010.

In May 2011, the FASB issued ASU 2011-4, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in GAAP* and International Financial Reporting Standards ("IFRS"), ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

December 15, 2011. Plan management is currently evaluating the effects that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Payment of Benefits: Benefits are recorded when paid.

Operating Expenses: The Company absorbed $11,909 in 2010 and $11,650 in 2009 of Plan expenses.

Subsequent Events: Subsequent events have been evaluated for potential recognition and/or disclosure through October 6, 2011. This represents the date the financial statements were available to be issued.

NOTE C--INVESTMENTS

The appreciation in the fair value of investments was in the investments in the John Hancock USA Pooled Separate Accounts and totaled $1,346,117 in 2010 and $2,147,239 for 2009.

The following presents individual investments, at fair value as determined by quoted market price, that represent 5% or more of Plan net assets at December 31, 2010 and 2009:

NOTE D--INFORMATION PREPARED AND CERTIFIED BY JOHN HANCOCK LIFE INSURANCE COMPANY U.S.A. ("JOHN HANCOCK USA")

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock USA has certified that the following data included in the accompanying financial statements and supplemental schedule for the year ended December 31, 2010 and 2009 is complete and accurate.

	Amount	
	2010	2009
Investments, at fair value:		
Pooled separate accounts - mutual funds	$ 10,608,499	$ 8,914,612
Guaranteed investment contracts	3,972	81,896
	$ 10,612,471	$ 8,996,508
Investment income:		
Net appreciation in fair value of investments, including reinvestment of interest and dividends	$ 1,346,117	$ 2,147,239

NOTE E--FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") has established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE E--FAIR VALUE MEASUREMENTS--Continued

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Interests in pooled separate accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E--FAIR VALUE MEASUREMENTS--Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

NOTE F--TAX STATUS

The Plan obtained its latest determination letter in February, 2005, in which, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements

Plan management is required to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The administrator believes it is no longer subject to income tax examination for years prior to 2007.

NOTE G--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participants' accounts will become 100% vested. Any unallocated assets of the Plan will be allocated to participants' accounts and distributed in such a manner as the Company may determine.

NOTE H – RELATED PARTIES

One of the officers of one the Companies covered by the Plan received commissions on the Plan investments from the broker-dealer of record with John Hancock USA of $42,815 for 2010 and $33,468 for 2009.

John Hancock USA is the Plan Custodian as defined by the Plan, and investments are held in John Hancock's mutual funds. Therefore, these transactions qualify as party-in-interest.

NOTE I– RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE J– RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

There are no material differences between these financial statements and Form 5500 for the years ended December 31, 2010 and 2009.

The net assets available for benefits for the financial statement and per Schedule H of Form 5500 at December 31, 2010 and 2009 were $10,600,474 and $9,008,688, respectively

NOTE K—CORRECTIVE DISTRIBUTIONS PAYABLE

For the year ended December 31, 2010, the Plan failed certain discrimination tests. Therefore, the Plan had a liability for corrective distributions payable of $25,465 as of December 31, 2010. These amounts were refunded to the participants to bring the Plan into compliance with the Internal Revenue Code.
