4. Participant Accounts

Each participant's account is credited with the participant's contribution, including rollover contributions, an allocation of the Company's discretionary matching and profit sharing contributions, and an allocation of plan earnings. The Company's discretionary matching contribution is allocated based on a percentage of the participant's contribution. The Company's discretionary profit sharing contribution is allocated as of the last day of the plan year and is based on a ratio of each participant's compensation to total compensation for all participants. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

5. Vesting

Participants are immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions becomes 10% vested after one year of service, an additional 10% vested after two years of service, and continues to vest at the rate of 20% for each successive year until 100% vested after six years of service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

During 2009, a partial termination of the Plan occurred. Affected participants are immediately fully vested in all plan contributions. See Note G for further information.

6. Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time, or a direct rollover distribution. Hardship withdrawals, subject to certain restrictions, are also permitted by the Plan.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

7. Participant Loans

Participants are permitted to take loans, subject to certain restrictions, from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are collateralized by the borrowers' respective vested account balances and bear interest ranging from 4.25% to 9.25%. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence. Related interest income totaled $6,659 for the year ended December 31, 2009.

8. Administrative Expenses

Administrative expenses of the Plan are paid by the Company and the Plan. Administrative expenses paid by the Company approximated $14,300 for the year ended December 31, 2009.

9. Forfeitures

At December 31, 2009 and 2008, unallocated plan assets resulting from forfeited nonvested accounts totaled $2,327 and $6,282, respectively. These accounts will be reallocated to remaining participants in the subsequent year. Forfeitures of $6,282 were reallocated to participant accounts in 2009.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

As described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 962-325 (formerly FASB Staff Position AAG INV-1 and Statement of Position 94-4-1), *Plan Accounting - Defined Contribution Pension Plans, Investments - Other,* investment contracts held by a defined contribution plan are required to be reported at fair value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Basis of Accounting (Continued)

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the ASC, the statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on the contract value basis.

2. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 (formerly FASB Statement No. 157), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:
* Quoted prices for similar assets or liabilities in active markets;
* Quoted prices for identical or similar assets or liabilities in inactive markets;
* Inputs other than quoted prices that are observable for the asset or liability;
* Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Collective fund: Valued at fair value based on market value of underlying investments.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008. Plan investments at December 31, 2009 are further disaggregated, as required by FASB ASC 820.

2. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 investments for the year ended December 31, 2009.

	Level 3 Investments Year Ended December 31, 2009
	Participant loans

Purchases, sales, issuances, and settlements (net)	(4,039)
Balance, end of year	$ 102,768

3. Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Unrealized gains or losses from appreciation or depreciation of investments are recognized as increases or decreases in net assets available for benefits.

4. Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

5. Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. New Accounting Pronouncements

a. Generally Accepted Accounting Principles

In June 2009, the FASB issued ASC 105, *Generally Accepted Accounting Principles,* which establishes the FASB ASC as the sole source of authoritative generally accepted accounting principles ("GAAP"). Pursuant to the provisions of FASB ASC 105, the Plan has updated references to GAAP in its financial statements issued for the year ended December 31, 2009. The adoption of FASB ASC 105 did not impact the Plan's financial position or results of operations.

b. Accounting for Uncertainty in Income Taxes

The FASB issued ASC 740 (formerly FASB Interpretation No. 48), *Income Taxes.* The Plan adopted this new guidance for the year ended December 31, 2009. Plan management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

NOTE C - INVESTMENTS

All investment information, including investments held at December 31, 2009 and 2008, net appreciation in the fair value of investments, and interest and dividends for the year ended December 31, 2009, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by the trustee.

The following table presents the fair value of the investments in the Plan. Individual investments representing more than 5% of the Plan's net assets as of December 31, 2009 and/or 2008, are separately identified.

	$ 18,342,209	$ 15,642,011

During the year ended December 31, 2009, the Plan's investments appreciated as follows:

Mutual Funds	$ 3,314,895
Collective Fund	45,095
	$ 3,359,990

NOTE D - COLLECTIVE FUND

On January 1, 1999, the Plan entered into a collective fund with Fidelity Management Trust Company (Fidelity). Fidelity maintains the contributions in a general account. The account is credited with the earnings of the underlying investments and is charged for participant withdrawals and administrative expenses. The collective fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan.

As described in Note B-1, because the collective fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective fund. The contract value of the Fidelity Managed Income Portfolio of $2,837,368, as reported to the Plan by Fidelity, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE D - COLLECTIVE FUND (Continued)

There are no reserves against contract value for credit risk of the issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestiture or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of the partial plan termination in the current year limited the Plan's ability to transact at contract value with the participants. Further, the Plan Administrator does not believe that the occurrence of any of the remaining value events, which would limit the Plan's ability to transact at contract value with the participants, is probable.

The collective fund does not permit the investment company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2009	2008
Based on actual earnings	4.91%	-1.00%
Based on the interest rate credited to participants	1.20%	3.04%

NOTE E - INCOME TAX STATUS

The Plan obtained its latest determination letter on May 24, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their respective account balances.

NOTE G - PARTIAL TERMINATION

Due to the termination of a significant number of plan participants as a result of corporate restructuring at the Plan Sponsor, a partial termination of the Plan occurred during the year ended December 31, 2009. Participants affected by the corporate restructuring are immediately fully vested in all plan contributions.

NOTE H - MARKET RISK

The value of the Plan's investments is subject to market risk associated with potential fluctuations in the values of the underlying securities. Fluctuations in the market value of the Plan's investments could be material to the financial statements.

NOTE I - RELATED-PARTY TRANSACTIONS

Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Administrative expenses paid to Fidelity Management Trust Company, not including brokerage commissions, totaled $1,991 for the year ended December 31, 2009.

NOTE J - RECONCILIATION OF AUDITED FINANCIAL STATEMENTS TO FORM 5500

The following are reconciliations of net assets available for benefits from these financial statements to the Form 5500. The reconciliation is a result of the fact that the 2009 and 2008 Form 5500s were prepared on the cash basis rather than the accrual basis, as required by accounting principles generally accepted in the United States of America. Additionally, the Form 5500 reports fully benefit-responsive collective funds, as described in Note D, at fair value, rather than contract value, as required by accounting principles generally accepted in the United States of America.

	2009	2008
Net assets available for benefits - Financial Statements	$ 18,394,007	$ 15,779,785
Adjustment from contract value to fair value for fully benefit-responsive collective funds	(51,798)	(137,774)
Net assets available for benefits - Form 5500	$ 18,342,209	$ 15,642,011

NOTE J - RECONCILIATION OF AUDITED FINANCIAL STATEMENTS TO FORM 5500
(Continued)

	Year ended December 31, 2009
Net appreciation in value of investments - Financial Statements	$ 3,359,990
Change in adjustment from contract value to fair value for fully benefit-responsive collective funds	85,976
Net appreciation in value of investments - Form 5500	$ 3,445,966

NOTE K - SUBSEQUENT EVENT

Plan management has evaluated subsequent events through July 27, 2010, the date that these financial statements were available to be issued. Plan management has determined that no events or transactions have occurred subsequent to the statement of net assets available for benefits date that require disclosure in the financial statements.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the General Kinematics Profit Sharing and Employee's 401(k) Savings Plan (the Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

1. General

   The Plan is a defined contribution profit sharing and 401(k) plan covering eligible employees of General Kinematics Corporation (the Company). Eligible employees are allowed to participate upon completion of three consecutive months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

   The Plan is funded by voluntary contributions of participants and discretionary matching and profit sharing contributions of the Company. Participants may contribute to the Plan, through regular payroll deductions, an amount subject to limitations imposed by the Internal Revenue Code. Participants may also roll over amounts representing distributions from other qualified employee benefit plans. The Company made matching contributions of $66,254 to the Plan for the year ended December 31, 2009. The Company made no discretionary profit sharing contributions to the Plan for the year ended December 31, 2009.

3. Investment Options

   Participants must direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the Plan Administrator. Participants may change their investment options at any time.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Participant Accounts

Each participant's account is credited with the participant's contribution, including rollover contributions, an allocation of the Company's discretionary matching and profit sharing contributions, and an allocation of plan earnings. The Company's discretionary matching contribution is allocated based on a percentage of the participant's contribution. The Company's discretionary profit sharing contribution is allocated as of the last day of the plan year and is based on a ratio of each participant's compensation to total compensation for all participants. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

5. Vesting

Participants are immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions becomes 10% vested after one year of service, an additional 10% vested after two years of service, and continues to vest at the rate of 20% for each successive year until 100% vested after six years of service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

During 2009, a partial termination of the Plan occurred. Affected participants are immediately fully vested in all plan contributions. See Note G for further information.

6. Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time, or a direct rollover distribution. Hardship withdrawals, subject to certain restrictions, are also permitted by the Plan.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

7. Participant Loans

Participants are permitted to take loans, subject to certain restrictions, from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are collateralized by the borrowers' respective vested account balances and bear interest ranging from 4.25% to 9.25%. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence. Related interest income totaled $6,659 for the year ended December 31, 2009.

8. Administrative Expenses

Administrative expenses of the Plan are paid by the Company and the Plan. Administrative expenses paid by the Company approximated $14,300 for the year ended December 31, 2009.

9. Forfeitures

At December 31, 2009 and 2008, unallocated plan assets resulting from forfeited nonvested accounts totaled $2,327 and $6,282, respectively. These accounts will be reallocated to remaining participants in the subsequent year. Forfeitures of $6,282 were reallocated to participant accounts in 2009.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

As described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 962-325 (formerly FASB Staff Position AAG INV-1 and Statement of Position 94-4-1), *Plan Accounting - Defined Contribution Pension Plans, Investments - Other,* investment contracts held by a defined contribution plan are required to be reported at fair value.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Basis of Accounting (Continued)

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the ASC, the statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on the contract value basis.

2. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 (formerly FASB Statement No. 157), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:
* Quoted prices for similar assets or liabilities in active markets;
* Quoted prices for identical or similar assets or liabilities in inactive markets;
* Inputs other than quoted prices that are observable for the asset or liability;
* Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Collective fund: Valued at fair value based on market value of underlying investments.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008. Plan investments at December 31, 2009 are further disaggregated, as required by FASB ASC 820.

2. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 investments for the year ended December 31, 2009.

	Level 3 Investments Year Ended December 31, 2009
	Participant loans

Purchases, sales, issuances, and settlements (net)	(4,039)
Balance, end of year	$ 102,768

3. Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Unrealized gains or losses from appreciation or depreciation of investments are recognized as increases or decreases in net assets available for benefits.

4. Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

5. Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. New Accounting Pronouncements

a. Generally Accepted Accounting Principles

In June 2009, the FASB issued ASC 105, *Generally Accepted Accounting Principles,* which establishes the FASB ASC as the sole source of authoritative generally accepted accounting principles ("GAAP"). Pursuant to the provisions of FASB ASC 105, the Plan has updated references to GAAP in its financial statements issued for the year ended December 31, 2009. The adoption of FASB ASC 105 did not impact the Plan's financial position or results of operations.

b. Accounting for Uncertainty in Income Taxes

The FASB issued ASC 740 (formerly FASB Interpretation No. 48), *Income Taxes.* The Plan adopted this new guidance for the year ended December 31, 2009. Plan management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

NOTE C - INVESTMENTS

All investment information, including investments held at December 31, 2009 and 2008, net appreciation in the fair value of investments, and interest and dividends for the year ended December 31, 2009, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by the trustee.

The following table presents the fair value of the investments in the Plan. Individual investments representing more than 5% of the Plan's net assets as of December 31, 2009 and/or 2008, are separately identified.

	$ 18,342,209	$ 15,642,011

During the year ended December 31, 2009, the Plan's investments appreciated as follows:

Mutual Funds	$ 3,314,895
Collective Fund	45,095
	$ 3,359,990

NOTE D - COLLECTIVE FUND

On January 1, 1999, the Plan entered into a collective fund with Fidelity Management Trust Company (Fidelity). Fidelity maintains the contributions in a general account. The account is credited with the earnings of the underlying investments and is charged for participant withdrawals and administrative expenses. The collective fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan.

As described in Note B-1, because the collective fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective fund. The contract value of the Fidelity Managed Income Portfolio of $2,837,368, as reported to the Plan by Fidelity, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE D - COLLECTIVE FUND (Continued)

There are no reserves against contract value for credit risk of the issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestiture or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of the partial plan termination in the current year limited the Plan's ability to transact at contract value with the participants. Further, the Plan Administrator does not believe that the occurrence of any of the remaining value events, which would limit the Plan's ability to transact at contract value with the participants, is probable.

The collective fund does not permit the investment company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2009	2008
Based on actual earnings	4.91%	-1.00%
Based on the interest rate credited to participants	1.20%	3.04%

NOTE E - INCOME TAX STATUS

The Plan obtained its latest determination letter on May 24, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their respective account balances.

NOTE G - PARTIAL TERMINATION

Due to the termination of a significant number of plan participants as a result of corporate restructuring at the Plan Sponsor, a partial termination of the Plan occurred during the year ended December 31, 2009. Participants affected by the corporate restructuring are immediately fully vested in all plan contributions.

NOTE H - MARKET RISK

The value of the Plan's investments is subject to market risk associated with potential fluctuations in the values of the underlying securities. Fluctuations in the market value of the Plan's investments could be material to the financial statements.

NOTE I - RELATED-PARTY TRANSACTIONS

Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Administrative expenses paid to Fidelity Management Trust Company, not including brokerage commissions, totaled $1,991 for the year ended December 31, 2009.

NOTE J - RECONCILIATION OF AUDITED FINANCIAL STATEMENTS TO FORM 5500

The following are reconciliations of net assets available for benefits from these financial statements to the Form 5500. The reconciliation is a result of the fact that the 2009 and 2008 Form 5500s were prepared on the cash basis rather than the accrual basis, as required by accounting principles generally accepted in the United States of America. Additionally, the Form 5500 reports fully benefit-responsive collective funds, as described in Note D, at fair value, rather than contract value, as required by accounting principles generally accepted in the United States of America.

	2009	2008
Net assets available for benefits - Financial Statements	$ 18,394,007	$ 15,779,785
Adjustment from contract value to fair value for fully benefit-responsive collective funds	(51,798)	(137,774)
Net assets available for benefits - Form 5500	$ 18,342,209	$ 15,642,011

NOTE J - RECONCILIATION OF AUDITED FINANCIAL STATEMENTS TO FORM 5500
(Continued)

	Year ended December 31, 2009
Net appreciation in value of investments - Financial Statements	$ 3,359,990
Change in adjustment from contract value to fair value for fully benefit-responsive collective funds	85,976
Net appreciation in value of investments - Form 5500	$ 3,445,966

NOTE K - SUBSEQUENT EVENT

Plan management has evaluated subsequent events through July 27, 2010, the date that these financial statements were available to be issued. Plan management has determined that no events or transactions have occurred subsequent to the statement of net assets available for benefits date that require disclosure in the financial statements.
