INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Equity Office Money Purchase Pension Plan (formerly Equity Office Retirement Savings Plan):

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Equity Office Money Purchase Pension Plan (formerly Equity Office Retirement Savings Plan) (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 (In Liquidation) and 2017 (Ongoing), and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2018 (In Liquidation) and 2017 (Ongoing), and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis-of-Matter Regarding Liquidation Basis of Accounting

As discussed in the notes to the financial statements, the Equity Office Benefit Plan Committee approved the termination of the Plan on October 29, 2018, effective November 1, 2018. In accordance with accounting principles generally accepted in the United States of America, the Plan changed its basis of accounting from the ongoing basis used in presenting the 2017 financial statements to the liquidation basis used in presenting the 2018 financial statements. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedule listed in the table of contents is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. PLAN DESCRIPTION

The Equity Office Retirement Savings Plan (formerly Equity Office Retirement Savings Plan) (the "Plan",) was established on January 1, 1998, for eligible employees of Equity Office Properties Trust ("Equity Office"). On February 9, 2007, Blackhawk Parent LLC (the "Company") acquired Equity Office and assumed sponsorship of the Plan. On December 7, 2017, the Equity Office Benefit Plan Committee (the "Committee") authorized the freezing of the Plan effective December 29, 2017. Once the Plan was frozen new participants were prohibited from joining the Plan. In addition, all employee and employer contributions were prohibited on a go-forward basis. On October 4, 2018, the Committee authorized the transfer of certain Plan assets (99.7% of Plan assets) to the Insperity 401(k) Plan (the "Insperity Plan") effective November 1, 2018. In addition, on October 29, 2018, the Committee authorized the renaming of the Plan to Equity Office Money Purchase Pension Plan (formerly Equity Office Retirement Savings Plan) and approved the termination of the Plan effective November 1, 2018. Due to the approved termination of the Plan, the Committee filed for an updated determination letter (Form 5310) with the IRS on June 28, 2019. Once the updated determination letter is received by the Plan, the Committee will proceed with the termination process and distribute the remaining Plan assets as soon as administratively possible. In accordance with generally accepted accounting principles in the United States ("GAAP"), the Plan changed its basis of accounting from the ongoing basis used in presenting the December 31, 2017 financial statements to the liquidation basis used in presenting the December 31, 2018 financial statements and for all periods subsequent to the termination date until liquidation is complete.

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description and other Plan documents for a more complete description of the Plan's provisions.

General—The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan has 401(k) and discretionary profit-sharing components, and was created to provide retirement benefits for employees of the Company. The Plan's trustee and custodian is Fidelity Management Trust Company ("Fidelity"). The Plan's record-keeper is Fidelity Workplace Services LLC, an affiliate of Fidelity.

All full-time employees, as defined, hired prior to December 27, 2017 were eligible to participate upon their hire date. Employees regularly scheduled to work less than 20 hours per week were not eligible until they completed one year of service, as defined. Generally, temporary employees and employees covered under collective bargaining agreements were not eligible to participate in the Plan. Employees were automatically enrolled into the Plan upon their hire date, unless they declined participation.

The Plan is served by the Committee, which controls administration of the Plan, with all powers necessary to enable it to properly carry out the provisions of the Plan. The Committee has the following specific powers and responsibilities: to keep records of all acts and determination of the Committee, to prepare and distribute to all Plan participants and beneficiaries information concerning the Plan and their rights under the Plan, to file required reports, and to do all things necessary to operate and administer the Plan in accordance with its provisions and in compliance with applicable provisions of federal law.

Contributions—Prior to December 27, 2017, participants could contribute up to 50% of eligible annual compensation, as defined in the Plan, subject to maximum amounts established by the Internal Revenue Code (IRC), pursuant to Section 401(k). Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributed 100% of the first 4% of eligible compensation that an eligible participant contributed to the Plan, subject to defined limitations. The Plan allowed for pretax and after-tax (Roth) contributions. The Company, at its option, could also contribute funds to the Plan in the form of profit sharing. The Company made a profit-sharing contribution of 2.0% of eligible compensation for the year ended December 31, 2017.

Vesting—Participants are immediately vested in their contributions and all Company contributions, plus actual earnings thereon. Vesting in the Company's pre-January 1, 2003 contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service, as defined in the Plan. A participant vests as follows: 25% after two years, 50% after three years, 75% after four years, and 100% after five years of credited service. If a participant reaches age 62, becomes permanently disabled, as determined by the Plan administrator, or dies while actively employed, the participant automatically becomes 100% vested in his or her account.

Participant Accounts—Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and the Plan's earnings. Allocations are based on participant earnings or account balances, as defined. Miscellaneous fees for loans and withdrawals are deducted directly from respective participant accounts. The benefit to which a participant is entitled is the vested balance that can be provided from the participant's account.

Forfeited Accounts—Forfeited balances of terminated participants' nonvested accounts are used to pay expenses of the Plan and, otherwise, applied to all participant accounts equally. During 2018 and 2017, there were $6,489 and $0 of forfeitures applied to all participant accounts, respectively. The amounts of unallocated forfeitures at December 31, 2018 and 2017, were $0 and $6,481, respectively.

Investment Options—Participant-directed investment options consist of various investment choices, including mutual funds and a common collective trust. Participants are allowed to change their future investment options at any time and the allocation of the accumulated investment balances daily.

Participant Loans—Participants may borrow from their Plan's accounts a minimum of $100 up to a maximum of the lesser of 50% of their vested account balance or $50,000. The $50,000 limit is reduced by the highest outstanding balance on any other loan to the participant during the 12-month period prior to the date of the new loan. All loans are to amortize over a reasonable period of time, not to exceed five years. However, loans used to acquire a principal residence may be repaid over a longer period of time, not to exceed 20 years. Loans are to be secured by the vested balance in the participant's account

(limited to the balance of the loan) and are to bear interest at the applicable prime interest rate, as defined, plus 1%. Principal and interest are paid biweekly. Participants are allowed to have two loans outstanding at any time. The Plan does not allow a participant to take a new loan for the 30-day period following the participant's prepayment of the full amount of an outstanding loan.

A terminated participant can elect to continue to repay his or her scheduled loan payments via electronic funds transfer until the loan is paid in full. With the consent of the Committee, a participant can roll over to the Plan a loan balance under another employer's qualified plan. In addition, the Plan accommodates a loan rollover out of the Plan to a qualified plan of a new employer.

As of December 31, 2017, participant loans had maturities through 2037 at interest rates ranging from 4.25% to 6.0%. As of December 31, 2018, there are no outstanding participant loans.

Payment of Benefits—In the event of retirement, termination of service, death, or permanent disability, as determined by the Plan administrator, the participant will receive a lump-sum amount equal to the vested value of his or her account. Participants may obtain withdrawals of any portion of their account balance including money that they previously rolled into the Plan from another qualified retirement plan after attaining the age of 59 1/2 or for certain financial hardship situations. Such withdrawal will be authorized by the Plan administrator only upon satisfaction of criteria as enumerated in the Plan agreement. Participants are eligible to withdraw money that they previously rolled into the Plan from another qualified retirement plan at any time.

Plan Termination—The Company exercised its right under the Plan to terminate the Plan in 2018, subject to the provisions of ERISA. Due to the Plan termination, the account of each participant is now fully vested and will be distributed to the participant.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). As a result of the Committee's decision to terminate the Plan, the Plan has changed its basis of accounting from the ongoing basis to the liquidation basis for presentation of the 2018 financial statements and all periods subsequent to the termination date until the liquidation of the Plan is completed.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value. The fair value of investments was determined under the liquidation basis of accounting as of December 31, 2018 and ongoing basis as of December 31, 2017. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for additional detail on the valuation methodologies used for the investments.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Use of Estimates—The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions, including the estimated payments to participants upon liquidation, that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan invests in various investment instruments, including mutual funds and a common collective trust stable value fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Payments of Benefits—Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but had not been paid at December 31, 2018 and 2017.

Administrative Expenses—Plan participants pay quarterly record keeping and maintenance fees, as well as administrative costs for loans. Other administrative expenses are paid by the Company. Effective April 1, 2016, certain Plan investments returned a portion of their investment fees to Fidelity to offset their administrative expenses. The excess administrative revenues were in turn distributed to the plan participants who held these investments to offset their respective quarterly record keeping and maintenance fees. For the years ended December 31, 2018 and 2017, administrative revenues of $74,474 and $64,688, respectively, were returned to plan participants.

Payments through Liquidation—Payments through liquidation that relate to ongoing participant benefits, including lump sum payments, have been included in estimated payments to participants upon liquidation liability in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018 (In Liquidation).

Excess Contributions Payable—The Plan is required to return contributions recorded during the Plan year in excess of IRC limits.

Notes Receivable from Participants—Notes receivable from participants are measured at their unpaid principal balance, plus any accrued, but unpaid, interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Accounting Standards Updates Adopted—In April 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-07, Presentation of Financial Statements: Liquidation Basis of Accounting (Topic 205). The ASU requires an entity to use the liquidation basis of accounting if liquidation is imminent. Liquidation will be considered "imminent" when (1) a liquidation plan has been approved by those with the authority to do so and the chance of the plan being blocked by other parties is remote or (2) a liquidation plan is imposed by other forces (e.g., involuntary bankruptcy). ASU 2013-07 is effective prospectively for interim or annual periods beginning on or after December 15, 2013. The Plan adopted ASU 2013-07 upon approval of the termination of the Plan on October 29, 2018 and will apply the ASU for all financial statements required subsequent to the December 31, 2018 financial statements until liquidation of the Plan is completed.

3. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value, and requires additional disclosures about fair value measurements. The ASC 820 framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical instruments (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1—Quoted unadjusted prices for identical instruments in active markets that the Plan has the ability to access at the date of measurement.

Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists, or instances where prices vary substantially over time or among brokered market makers.

Level 3—Model-derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Plan's assumptions that market participants would use to price the instrument based on the best available information.

An instrument's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 (In Liquidation) and 2017 (Ongoing):

Mutual Funds—Categorized as Level 1, they are valued at the net asset value (NAV) of the shares held by the Plan, based on quoted market prices.

Common Collective Trust—The common collective trust is reported at fair value using net asset value (NAV) as a practical expedient. The stable value fund calculates NAV per share in a manner consistent with the measurement principles in FASB ASC Topic 946 *Financial Services—Investment Companies*. Those measurement principles indicate that, in the determination of a stable value fund's NAV, the relevant measurement is net assets which include the fully benefit investment contracts held by the fund at contract value. This NAV represents the Plan's fair value since this is the NAV at which the Plan transacts with the fund. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the common collective trust, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan's assets at fair value, set forth by level, within the fair value hierarchy at December 31, 2018 (In Liquidation) and 2017 (Ongoing), are as follows:

	Fair Value Measurements at December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 403,593	$ -	$ -	$ 403,593
Investments measured at NAV as a practical expedient	-	-	-	57,770
Total	$ 403,593	$ -	$ -	$ 461,363

	Fair Value Measurements at December 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 141,577,049	$ -	$ -	$ 141,577,049
Investments measured at NAV as a practical expedient	-	-	-	6,363,480
Total	$ 141,577,049	$ -	$ -	$ 147,940,529

Transfers between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions of model-based valuation techniques may require the transfer of financial instrument from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and the size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2018 (In Liquidation) and 2017 (Ongoing), there were no transfers between levels.

The following table sets forth a summary of the Plan's investments with a reported NAV at December 31, 2018 and 2017.

	2018		2017				Redemption
Investment	**Fair Value [a]**	**Unfunded Commitment**	**Fair Value [a]**	**Unfunded Commitment**	**Redemption Frequency**	**Redemption Restrictions**	**Notice Period**
Common: Collective Trust Fund	$57,770	$ -	$6,363,480	$ -	Same Day	None	None

[a] The fair values of the investments have been estimated using the net asset value of the investment.

4. STABLE VALUE FUND

The Stable Value Fund (Fund) is a common collective trust sponsored by Fidelity. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's constant NAV of $1 per unit. Distribution to the Fund's unitholders is declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable NAV of $1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan and the Fund itself may be subject to circumstances that affect its ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

Limitations on the Ability of the Fund to Transact at Contract Value:

Restrictions on the Plan—Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Company. The following employer-initiated events may limit the ability of the Fund to transact at contract value:

- A failure of the Plan or its trust to qualify for exemptions from federal income taxes or any required prohibited transaction exemption under ERISA
- Any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund
- Any transfer of assets from the Fund directly into a competing investment option
- The establishment of a defined contribution plan that competes with the Plan for employee contributions
- Complete or partial termination of the Plan or its merger with another plan

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 1, 2015, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC.

The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

On October 29, 2018, the Plan formally approved the termination of the Plan. On June 28, 2019, the Plan filed for the termination request from the IRS. As of the date the financial statements were available to be issued, the Plan has not received the favorable IRS determination letter from the IRS approving the termination; however, the Plan does not have any knowledge to date that would contradict that a favorable IRS determination letter approving the termination would not be given.

6. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of and for the years ended December 31, 2018 (In Liquidation) and 2017 (Ongoing), included in the Plan's financial statements and supplemental schedule that were prepared by or derived from information prepared by Fidelity, the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from Fidelity that such information is complete and accurate.

	2018 (In Liquidation)	2017 (Ongoing)
Statements of net assets available for benefits:		
Participant-directed investments—at fair value	$ 461,363	$ 147,940,529
Notes receivable from participants	-	835,662
Statements of changes in net assets available for benefits—investment income:		
Net (depreciation)/appreciation in fair value of investments	(686,389)	18,441,664
Dividends and interest income (including interest on notes receivable from participants)	774,540	4,666,733
Transfer paid into new plan upon liquidation	113,704,441	-

All investment balances and investment information within Note 3, excluding the classification by level.
Supplemental schedule: All investment balances and information included in the supplemental schedule of assets (held at end of year).

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and a common collective trust managed by Fidelity. Fidelity is the trustee, as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Administrative revenues (which are netted against fees) arise when investment managers return a portion of the investment fees to Fidelity to offset the administrative expenses. Fidelity then passes these revenues back to the plan participants with holdings in the corresponding investments.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2018 (In Liquidation) and 2017 (Ongoing), is as follows:

	2018	2017
Net assets available for benefits per the financial statements	$ -	$150,012,521
Adjustment for accrued investment income expected to be earned in liquidation	(45,709)	-
Adjustment for In Liquidation—estimated payments to participants upon liquidation	507,072	-
Adjustment from contract value to fair value for the stable value fund	(614)	(18,126)
Net assets per the Form 5500	$ 460,749	$149,994,395

The adjustments to liquidation basis of accounting are not included in the 2018 Form 5500.

A reconciliation of the decrease in net assets available for benefits per the financial statements to the net income per Form 5500 for the year ended December 31, 2018 (In Liquidation), is as follows:

Decrease in net assets available for benefits per the financial statements	$ (35,801,008)
Current-year adjustment for net depreciation in fair value of investments	(45,709)
Current-year adjustment from contract value to fair value for the stable value fund	(614)
Prior-year adjustment from contract value to fair value for the stable value fund	18,126
Net income per Form 5500	$ (35,829,205)

9. SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 29, 2019, the date the financial statements were available to be issued. No material subsequent events, except for those described in Notes 1 and 5, have occurred since December 31, 2018, that require recognition or disclosure in the Company's consolidated financial statements.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Equity Office Money Purchase Pension Plan (formerly Equity Office Retirement Savings Plan):

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Equity Office Money Purchase Pension Plan (formerly Equity Office Retirement Savings Plan) (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 (In Liquidation) and 2017 (Ongoing), and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2018 (In Liquidation) and 2017 (Ongoing), and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis-of-Matter Regarding Liquidation Basis of Accounting

As discussed in the notes to the financial statements, the Equity Office Benefit Plan Committee approved the termination of the Plan on October 29, 2018, effective November 1, 2018. In accordance with accounting principles generally accepted in the United States of America, the Plan changed its basis of accounting from the ongoing basis used in presenting the 2017 financial statements to the liquidation basis used in presenting the 2018 financial statements. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedule listed in the table of contents is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. PLAN DESCRIPTION

The Equity Office Retirement Savings Plan (formerly Equity Office Retirement Savings Plan) (the "Plan",) was established on January 1, 1998, for eligible employees of Equity Office Properties Trust ("Equity Office"). On February 9, 2007, Blackhawk Parent LLC (the "Company") acquired Equity Office and assumed sponsorship of the Plan. On December 7, 2017, the Equity Office Benefit Plan Committee (the "Committee") authorized the freezing of the Plan effective December 29, 2017. Once the Plan was frozen new participants were prohibited from joining the Plan. In addition, all employee and employer contributions were prohibited on a go-forward basis. On October 4, 2018, the Committee authorized the transfer of certain Plan assets (99.7% of Plan assets) to the Insperity 401(k) Plan (the "Insperity Plan") effective November 1, 2018. In addition, on October 29, 2018, the Committee authorized the renaming of the Plan to Equity Office Money Purchase Pension Plan (formerly Equity Office Retirement Savings Plan) and approved the termination of the Plan effective November 1, 2018. Due to the approved termination of the Plan, the Committee filed for an updated determination letter (Form 5310) with the IRS on June 28, 2019. Once the updated determination letter is received by the Plan, the Committee will proceed with the termination process and distribute the remaining Plan assets as soon as administratively possible. In accordance with generally accepted accounting principles in the United States ("GAAP"), the Plan changed its basis of accounting from the ongoing basis used in presenting the December 31, 2017 financial statements to the liquidation basis used in presenting the December 31, 2018 financial statements and for all periods subsequent to the termination date until liquidation is complete.

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description and other Plan documents for a more complete description of the Plan's provisions.

General—The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan has 401(k) and discretionary profit-sharing components, and was created to provide retirement benefits for employees of the Company. The Plan's trustee and custodian is Fidelity Management Trust Company ("Fidelity"). The Plan's record-keeper is Fidelity Workplace Services LLC, an affiliate of Fidelity.

All full-time employees, as defined, hired prior to December 27, 2017 were eligible to participate upon their hire date. Employees regularly scheduled to work less than 20 hours per week were not eligible until they completed one year of service, as defined. Generally, temporary employees and employees covered under collective bargaining agreements were not eligible to participate in the Plan. Employees were automatically enrolled into the Plan upon their hire date, unless they declined participation.

The Plan is served by the Committee, which controls administration of the Plan, with all powers necessary to enable it to properly carry out the provisions of the Plan. The Committee has the following specific powers and responsibilities: to keep records of all acts and determination of the Committee, to prepare and distribute to all Plan participants and beneficiaries information concerning the Plan and their rights under the Plan, to file required reports, and to do all things necessary to operate and administer the Plan in accordance with its provisions and in compliance with applicable provisions of federal law.

Contributions—Prior to December 27, 2017, participants could contribute up to 50% of eligible annual compensation, as defined in the Plan, subject to maximum amounts established by the Internal Revenue Code (IRC), pursuant to Section 401(k). Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributed 100% of the first 4% of eligible compensation that an eligible participant contributed to the Plan, subject to defined limitations. The Plan allowed for pretax and after-tax (Roth) contributions. The Company, at its option, could also contribute funds to the Plan in the form of profit sharing. The Company made a profit-sharing contribution of 2.0% of eligible compensation for the year ended December 31, 2017.

Vesting—Participants are immediately vested in their contributions and all Company contributions, plus actual earnings thereon. Vesting in the Company's pre-January 1, 2003 contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service, as defined in the Plan. A participant vests as follows: 25% after two years, 50% after three years, 75% after four years, and 100% after five years of credited service. If a participant reaches age 62, becomes permanently disabled, as determined by the Plan administrator, or dies while actively employed, the participant automatically becomes 100% vested in his or her account.

Participant Accounts—Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and the Plan's earnings. Allocations are based on participant earnings or account balances, as defined. Miscellaneous fees for loans and withdrawals are deducted directly from respective participant accounts. The benefit to which a participant is entitled is the vested balance that can be provided from the participant's account.

Forfeited Accounts—Forfeited balances of terminated participants' nonvested accounts are used to pay expenses of the Plan and, otherwise, applied to all participant accounts equally. During 2018 and 2017, there were $6,489 and $0 of forfeitures applied to all participant accounts, respectively. The amounts of unallocated forfeitures at December 31, 2018 and 2017, were $0 and $6,481, respectively.

Investment Options—Participant-directed investment options consist of various investment choices, including mutual funds and a common collective trust. Participants are allowed to change their future investment options at any time and the allocation of the accumulated investment balances daily.

Participant Loans—Participants may borrow from their Plan's accounts a minimum of $100 up to a maximum of the lesser of 50% of their vested account balance or $50,000. The $50,000 limit is reduced by the highest outstanding balance on any other loan to the participant during the 12-month period prior to the date of the new loan. All loans are to amortize over a reasonable period of time, not to exceed five years. However, loans used to acquire a principal residence may be repaid over a longer period of time, not to exceed 20 years. Loans are to be secured by the vested balance in the participant's account

(limited to the balance of the loan) and are to bear interest at the applicable prime interest rate, as defined, plus 1%. Principal and interest are paid biweekly. Participants are allowed to have two loans outstanding at any time. The Plan does not allow a participant to take a new loan for the 30-day period following the participant's prepayment of the full amount of an outstanding loan.

A terminated participant can elect to continue to repay his or her scheduled loan payments via electronic funds transfer until the loan is paid in full. With the consent of the Committee, a participant can roll over to the Plan a loan balance under another employer's qualified plan. In addition, the Plan accommodates a loan rollover out of the Plan to a qualified plan of a new employer.

As of December 31, 2017, participant loans had maturities through 2037 at interest rates ranging from 4.25% to 6.0%. As of December 31, 2018, there are no outstanding participant loans.

Payment of Benefits—In the event of retirement, termination of service, death, or permanent disability, as determined by the Plan administrator, the participant will receive a lump-sum amount equal to the vested value of his or her account. Participants may obtain withdrawals of any portion of their account balance including money that they previously rolled into the Plan from another qualified retirement plan after attaining the age of 59 1/2 or for certain financial hardship situations. Such withdrawal will be authorized by the Plan administrator only upon satisfaction of criteria as enumerated in the Plan agreement. Participants are eligible to withdraw money that they previously rolled into the Plan from another qualified retirement plan at any time.

Plan Termination—The Company exercised its right under the Plan to terminate the Plan in 2018, subject to the provisions of ERISA. Due to the Plan termination, the account of each participant is now fully vested and will be distributed to the participant.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). As a result of the Committee's decision to terminate the Plan, the Plan has changed its basis of accounting from the ongoing basis to the liquidation basis for presentation of the 2018 financial statements and all periods subsequent to the termination date until the liquidation of the Plan is completed.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value. The fair value of investments was determined under the liquidation basis of accounting as of December 31, 2018 and ongoing basis as of December 31, 2017. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for additional detail on the valuation methodologies used for the investments.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Use of Estimates—The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions, including the estimated payments to participants upon liquidation, that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan invests in various investment instruments, including mutual funds and a common collective trust stable value fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Payments of Benefits—Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but had not been paid at December 31, 2018 and 2017.

Administrative Expenses—Plan participants pay quarterly record keeping and maintenance fees, as well as administrative costs for loans. Other administrative expenses are paid by the Company. Effective April 1, 2016, certain Plan investments returned a portion of their investment fees to Fidelity to offset their administrative expenses. The excess administrative revenues were in turn distributed to the plan participants who held these investments to offset their respective quarterly record keeping and maintenance fees. For the years ended December 31, 2018 and 2017, administrative revenues of $74,474 and $64,688, respectively, were returned to plan participants.

Payments through Liquidation—Payments through liquidation that relate to ongoing participant benefits, including lump sum payments, have been included in estimated payments to participants upon liquidation liability in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018 (In Liquidation).

Excess Contributions Payable—The Plan is required to return contributions recorded during the Plan year in excess of IRC limits.

Notes Receivable from Participants—Notes receivable from participants are measured at their unpaid principal balance, plus any accrued, but unpaid, interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Accounting Standards Updates Adopted—In April 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-07, Presentation of Financial Statements: Liquidation Basis of Accounting (Topic 205). The ASU requires an entity to use the liquidation basis of accounting if liquidation is imminent. Liquidation will be considered "imminent" when (1) a liquidation plan has been approved by those with the authority to do so and the chance of the plan being blocked by other parties is remote or (2) a liquidation plan is imposed by other forces (e.g., involuntary bankruptcy). ASU 2013-07 is effective prospectively for interim or annual periods beginning on or after December 15, 2013. The Plan adopted ASU 2013-07 upon approval of the termination of the Plan on October 29, 2018 and will apply the ASU for all financial statements required subsequent to the December 31, 2018 financial statements until liquidation of the Plan is completed.

3. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value, and requires additional disclosures about fair value measurements. The ASC 820 framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical instruments (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1—Quoted unadjusted prices for identical instruments in active markets that the Plan has the ability to access at the date of measurement.

Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists, or instances where prices vary substantially over time or among brokered market makers.

Level 3—Model-derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Plan's assumptions that market participants would use to price the instrument based on the best available information.

An instrument's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 (In Liquidation) and 2017 (Ongoing):

Mutual Funds—Categorized as Level 1, they are valued at the net asset value (NAV) of the shares held by the Plan, based on quoted market prices.

Common Collective Trust—The common collective trust is reported at fair value using net asset value (NAV) as a practical expedient. The stable value fund calculates NAV per share in a manner consistent with the measurement principles in FASB ASC Topic 946 *Financial Services—Investment Companies*. Those measurement principles indicate that, in the determination of a stable value fund's NAV, the relevant measurement is net assets which include the fully benefit investment contracts held by the fund at contract value. This NAV represents the Plan's fair value since this is the NAV at which the Plan transacts with the fund. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the common collective trust, the issuer reserves the right to require 12 months notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan's assets at fair value, set forth by level, within the fair value hierarchy at December 31, 2018 (In Liquidation) and 2017 (Ongoing), are as follows:

	Fair Value Measurements at December 31, 2018			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 403,593	$ -	$ -	$ 403,593
Investments measured at NAV as a practical expedient	-	-	-	57,770
Total	$ 403,593	$ -	$ -	$ 461,363

	Fair Value Measurements at December 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 141,577,049	$ -	$ -	$ 141,577,049
Investments measured at NAV as a practical expedient	-	-	-	6,363,480
Total	$ 141,577,049	$ -	$ -	$ 147,940,529

Transfers between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions of model-based valuation techniques may require the transfer of financial instrument from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and the size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2018 (In Liquidation) and 2017 (Ongoing), there were no transfers between levels.

The following table sets forth a summary of the Plan's investments with a reported NAV at December 31, 2018 and 2017.

	2018		2017				Redemption
Investment	**Fair Value [a]**	**Unfunded Commitment**	**Fair Value [a]**	**Unfunded Commitment**	**Redemption Frequency**	**Redemption Restrictions**	**Notice Period**
Common: Collective Trust Fund	$57,770	$ -	$6,363,480	$ -	Same Day	None	None

[a] The fair values of the investments have been estimated using the net asset value of the investment.

4. STABLE VALUE FUND

The Stable Value Fund (Fund) is a common collective trust sponsored by Fidelity. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's constant NAV of $1 per unit. Distribution to the Fund's unitholders is declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable NAV of $1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan and the Fund itself may be subject to circumstances that affect its ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

Limitations on the Ability of the Fund to Transact at Contract Value:

Restrictions on the Plan—Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Company. The following employer-initiated events may limit the ability of the Fund to transact at contract value:

- A failure of the Plan or its trust to qualify for exemptions from federal income taxes or any required prohibited transaction exemption under ERISA
- Any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund
- Any transfer of assets from the Fund directly into a competing investment option
- The establishment of a defined contribution plan that competes with the Plan for employee contributions
- Complete or partial termination of the Plan or its merger with another plan

5. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 1, 2015, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC.

The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

On October 29, 2018, the Plan formally approved the termination of the Plan. On June 28, 2019, the Plan filed for the termination request from the IRS. As of the date the financial statements were available to be issued, the Plan has not received the favorable IRS determination letter from the IRS approving the termination; however, the Plan does not have any knowledge to date that would contradict that a favorable IRS determination letter approving the termination would not be given.

6. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of and for the years ended December 31, 2018 (In Liquidation) and 2017 (Ongoing), included in the Plan's financial statements and supplemental schedule that were prepared by or derived from information prepared by Fidelity, the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from Fidelity that such information is complete and accurate.

	2018 (In Liquidation)	2017 (Ongoing)
Statements of net assets available for benefits:		
Participant-directed investments—at fair value	$ 461,363	$ 147,940,529
Notes receivable from participants	-	835,662
Statements of changes in net assets available for benefits—investment income:		
Net (depreciation)/appreciation in fair value of investments	(686,389)	18,441,664
Dividends and interest income (including interest on notes receivable from participants)	774,540	4,666,733
Transfer paid into new plan upon liquidation	113,704,441	-

All investment balances and investment information within Note 3, excluding the classification by level.
Supplemental schedule: All investment balances and information included in the supplemental schedule of assets (held at end of year).

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and a common collective trust managed by Fidelity. Fidelity is the trustee, as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Administrative revenues (which are netted against fees) arise when investment managers return a portion of the investment fees to Fidelity to offset the administrative expenses. Fidelity then passes these revenues back to the plan participants with holdings in the corresponding investments.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2018 (In Liquidation) and 2017 (Ongoing), is as follows:

	2018	2017
Net assets available for benefits per the financial statements	$ -	$150,012,521
Adjustment for accrued investment income expected to be earned in liquidation	(45,709)	-
Adjustment for In Liquidation—estimated payments to participants upon liquidation	507,072	-
Adjustment from contract value to fair value for the stable value fund	(614)	(18,126)
Net assets per the Form 5500	$ 460,749	$149,994,395

The adjustments to liquidation basis of accounting are not included in the 2018 Form 5500.

A reconciliation of the decrease in net assets available for benefits per the financial statements to the net income per Form 5500 for the year ended December 31, 2018 (In Liquidation), is as follows:

Decrease in net assets available for benefits per the financial statements	$ (35,801,008)
Current-year adjustment for net depreciation in fair value of investments	(45,709)
Current-year adjustment from contract value to fair value for the stable value fund	(614)
Prior-year adjustment from contract value to fair value for the stable value fund	18,126
Net income per Form 5500	$ (35,829,205)

9. SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 29, 2019, the date the financial statements were available to be issued. No material subsequent events, except for those described in Notes 1 and 5, have occurred since December 31, 2018, that require recognition or disclosure in the Company's consolidated financial statements.
