SOLSBURY HILL 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2020 AND 2019, AND
FOR THE YEAR ENDED DECEMBER 31, 2020

1. DESCRIPTION OF PLAN

The following description of the Solsbury Hill (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more comprehensive description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all full-time employees of the Company and part-time employees with at least 1,000 service hours during a Plan year who have two months of service and are age 21 or older. To qualify for profit sharing contributions from the Company, after fulfilling the plan minimum age and service eligibility requirements, employees must have worked at least 500 hours during the year and been employed on the last day of the calendar year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan. The Plan Administrator and Plan management determine the appropriateness of the Plan's investment offerings and monitors investment performance.

(b) Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants may also contribute to after-tax Roth Elective deferrals. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 100 percent of the first 3 percent of base compensation that a participant contributes to the Plan, plus an additional 50 percent of the next 2 percent of base compensation, in accordance with the safe harbor matching contribution formula. The matching Company contribution is invested according to participant direction. Additional profit-sharing amounts may be contributed at the option of the Company's ownership and are invested in a portfolio of investments as directed by the participant. During the year ended December 31, 2020, the Company made a $192,101 profit sharing contribution to the Plan based on the Company's 2019 performance .

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit-sharing contribution, Plan earnings, and administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in both their contributions and the Company's safe harbor matching and any profit-sharing contributions plus actual earnings thereon.

(e) Notes Receivable from Participants

Participant loans are not permitted under Plan guidelines.

(f) Payment of Benefits

On termination of service a participant may receive the value of the vested interest in his or her account as a lump sum distribution. Upon attainment of age 59½, participants may receive in-service distributions in amounts up to their total vested balance.

1. DESCRIPTION OF PLAN (continued)

(g) Investment Options

Upon enrollment in the Plan, a participant may direct both employee and employer contributions in any of twenty-three mutual fund options or a guaranteed interest contract. Participants may change their investment choices at any time.

(h) Administrative Expenses

Fees and expenses for general Plan administrative services (for example, recordkeeping services and custodial services) are charged to the Plan quarterly. These fees and expenses are charged to the Plan and allocated to participants as a percentage amount based on assets held in the respective participant account. Fees related to the administration of distributions to participants are charged directly to the participant's account. Investment related expenses are included in net appreciation of fair value of investments. Investment advice fees and certain maintenance fees are deducted from revenue sharing accounts maintained by the Plan.

(i) Coronavirus Aid, Relief, and Economic Security Act

In March 2020, the Coronavirus Aid, Relief, and Economic Security Act ("Cares Act") was signed into law. The Cares Act provisions included expanded distribution eligibility and an available pause on 2020 required minimum distributions. The Plan has not adopted the Cares act as of December 31, 2020 but retains the ability to adopt with retrospective application until the last day of the 2022 plan year, or a later date if determined by the Department of Treasury.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value, as reported to the Plan by Great-West Trust Company LLC (the Custodian). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Custodian determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

The assets of the Plan are comprised of mutual funds and a guaranteed investment contract. Plan investments in mutual funds are valued on a per-unit fair value basis as determined by the Custodian based on quoted market prices, which reflect the fair value of investments comprising the separate funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Investment Valuation and Income Recognition (continued)

The guaranteed interest contract meets the fully benefit-responsive contract criteria, and therefore is stated at contract value. The guaranteed interest contract is under a group annuity contract with the Custodian, which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. There were no reserves against contract value for credit risk of the contract issuer or otherwise. The guaranteed interest contract is an interest-earning investment option backed by the Custodian's general account assets. The Custodian's general account assets are predominantly fixed income investments (bonds, mortgages, and private placements) with maturities and durations in the medium-long range of investments. Crediting interest rates are reset by the Custodian on a quarterly basis. The average yield was approximately 1.04% for the year ended December 31, 2020 and the crediting interest rate was approximately 1.00% and 1.20% at December 31, 2020 and 2019, respectively.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is a relevant measurement for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

3. FAIR VALUE MEASUREMENTS (continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 10,396,839	$ -	$ -	$ 10,396,839
Total assets at fair value	$ 10,396,839	$ -	$ -	$ 10,396,839

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 8,403,027	$ -	$ -	$ 8,403,027
Total assets at fair value	$ 8,403,027	$ -	$ -	$ 8,403,027

For the years ended December 31, 2020 and 2019, there were no significant transfers in or out of Level 1.

4. RELATED-PARTY TRANSACTIONS & PARTY-IN-INTEREST TRANSACTIONS

The guaranteed interest contract investment option is sponsored by the Custodian. Therefore, all transactions between the Plan and the guaranteed interest contract qualify as party-in-interest transactions.

During the year ended December 31, 2020, the Plan operated under an agreement with Global Retirement Partners LLC (dba Achieve Retirement), and the Custodian whereby Achieve Retirement and the Custodian receive revenue from mutual fund service providers for the respective services that are provided to the funds. This revenue is then used to offset certain amounts owed to Achieve Retirement and the Custodian for the administrative services to the Plan. If the revenue Achieve Retirement and the Custodian received from such mutual fund providers exceeds the amount owed under the respective agreement, Achieve Retirement and the Custodian would remit the excess to the Plan's trust on a quarterly basis. Such amounts may be used to pay Plan administrative expenses or allocated to the accounts of participants. During 2020, there were no excess amounts. The Plan makes payments to the Custodian for administrative expenses not covered by revenue sharing.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

6. TAX STATUS

The Company adopted the Great-West Trust Company Defined Contribution Prototype Plan and Trust with a deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

6. TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. INFORMATION PROVIDED BY THE CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Custodian and was not subjected to auditing procedures:

(a) Total investments as shown in the accompanying statements of net assets available for plan benefits as of December 31, 2020 and 2019, and Note 3.

(b) Net investment gain as shown in the accompanying statement of changes in net assets available for plan benefits for the year ended December 31, 2020.

(c) Schedule 1, schedule of assets (held at end of year) as of December 31, 2020, as shown on the accompanying schedule.

9. SUBSEQUENT EVENTS

The Company evaluated events occurring between December 31, 2020 and the report date, which is the date financial statements were available for issuance.
