REPORT OF INDEPENDENT AUDITORS

TO THE PLAN ADMINISTRATOR OF
THERMAL VENTURES II, L.P. 401(K) PLAN

We were engaged to audit the financial statements of Thermal Ventures II, L.P. 401(K) Plan as of December 31, 2010 and 2009, and for the years then ended and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in the notes to the financial statements, which was certified by the Principal Financial Group, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A – DESCRIPTION OF PLAN

The following description of Thermal Ventures II, L.P. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution savings plan covering substantially all hourly and salaried employees of Thermal Ventures II, L.P. and its affiliates (the Company). There is no minimum age or length of service requirement to enter the plan. Employees may enter the plan on a semi-yearly basis. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). .

Contributions
Participants may elect to contribute, on a salary-deferral basis, amounts ranging from 1% to 100% of their pretax annual compensation but not to exceed certain limitations. Participants may also contribute amounts representing distributions from other qualified plans. The Company shall make matching contributions in an amount equal to a percentage of elective deferral contributions, according to the following

Elective Deferral Contribution for the Plan Year	Matching Percentage
$500 or less	100%
Between $500 and $1,000	50%
$1,000 or more	10%

In addition, discretionary contributions may be made annually in an amount determined by the Company. All contributions are subject to the limitations of the Internal Revenue Code and the regulations thereunder.

Contributions are 100% participant directed within the investment alternatives and participants may redirect the percentage of future contributions to the various investment options at any time. In addition, participants may transfer their existing account balances to any of the investment accounts at their discretion.

Participant Accounts
Each participant's account is credited with the participant's contributions, the Company's matching contribution, and an allocation of the Company's discretionary contribution and Plan earnings and losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Company's discretionary contributions are allocated based on a percentage of wages to participants who were actively employed on the last day of the plan year and who have one year of participation. During the years ended December 31, 2010 and 2009, no discretionary contributions were made by the Company.

NOTE A – DESCRIPTION OF PLAN (continued)

Vesting
Participants are immediately fully vested in their voluntary contributions and the Company matching contribution plus earnings thereon. Vesting in the discretionary contributions plus actual earnings thereon is based on years of service. The Plan provides for vesting in Company made contributions in 20 percent increments beginning after the second year of service as follows:

Years of Service	Vested Percentage of Employer Contributions
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The receivables are secured by the balance in the participant's account and bear a reasonable interest rate. During 2010, the notes had a fixed rates ranging from 3.25% to 8.25% for the term of the note. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits
Benefits are payable in an amount equal to the value of the participant's vested interest in his or her account, either in a lump-sum payment, installment payments, annuity, or in a direct rollover to an IRA or other employer plan.

Forfeitures
If a participant is not vested upon termination, the nonvested portion of their account balance contributed by the employer and the earnings thereon are forfeited. Forfeited amounts are used to reduce employer matching contributions. There were no forfeitures for the years ended December 31, 2010 and 2009.

Plan Termination
Although it has not expressed any intention to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their accounts.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the plan document.

Accounting standards require that participant loans be classified as notes receivable from participants in the accompanying financial statements; however, the Department of Labor requires these to be classified as investments on the Form 5500 and on the schedule of assets (held at end of year).

Payments of Benefits
Benefits are recorded when paid.

Administrative Expenses
Substantially all administrative and recordkeeping fees of the Plan are paid by the Plan Sponsor.

Reclassifications
Certain amounts in the prior year financial statements have been reclassified to enhance comparability with the current period information. Such reclassifications had no impact on the Plan's net assets or changes in net assets.

NOTE C – INVESTMENTS

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2010 and 2009 and net change in investment income and expenses for the years ended December 31, 2010 and 2009, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee.

NOTE D – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange traded equity securities, mutual funds and U.S. Treasury bonds. Prices are obtained from readily available sources for market transactions involving identical assets and liabilities.

Fair values for Level 2 inputs are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions. Level 2 assets primarily includes fixed maturity securities (including public and private bonds), equity securities, over-the-counter derivatives, group annuity contracts, pooled separate accounts and other investments. These fair values are generally obtained from third-party pricing services or determined through the use of valuation models or methodologies, including matrix pricing, using substantially all observable inputs. Prices are validated through an investment analyst review process including direct interaction with external sources, recent trade activity or through use of internal models.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values. Level 3 assets include certain fixed maturity securities, private equity securities, and complex derivatives. These fair values are generally obtained through the use of valuation models or methodologies using significant unobservable inputs or broker quotes. In circumstances where broker quotes are used to value an instrument, a nonbinding quote is generally received. Broker quotes are validated through an investment analyst review process, including direct interaction with external sources, through the use of internal models or other relevant information.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Net asset value (NAV) of each of the separate accounts is calculated in a manner consistent with U.S. GAAP for investment companies and is determinative of their fair value and represents the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. The fair value of the underlying mutual funds or stock is used to determine the NAV of the separate account, which is not publicly quoted. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying securities is based on quoted prices of similar assets and used to determine the NAV of the separate account.

Guaranteed interest account: Valued at fair value, adjusted to reflect current market rates only to the extent such market rates exceed crediting rates.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

NOTE E – TAX STATUS

The Plan obtained its latest determination letter on October 19, 2007, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE E – TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability, or asset, if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability, or asset, or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE F – PARTY-IN-INTEREST

The Plan allows participants to borrow funds against their account balances. These transactions qualify as party-in-interest transactions.

NOTE G – RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H – PROHIBITED TRANSACTIONS

During the Plan year ended December 31, 2010 and 2009, it was noted there were unintentional delays by the Plan Sponsor in remitting employee contributions to the Plan. The total employee contributions not remitted timely for the years ended December 31, 2010 and 2009 amounted to $30,118 and $130,715, respectively. The Plan Sponsors are in the process of calculating the lost earnings to be reimbursed to the Plan's participants. These lost earnings will be recognized in the financial statements for the Plan year they are reimbursed.

NOTE I – SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 10, 2011, which is the date the financial statements were available to be issued.

On February 22, 2011 Detroit Thermal and Hamtramck Energy Services employees' accounts were transferred into a new pension plan. This action resulted in a partial termination of the plan. Due to the partial termination, all Detroit Thermal and Hamtramck Energy Services participants became fully vested in their account.
