The Plan covered all non-union employees of SAS Automotive USA, Inc. (the "Company" or "Plan Sponsor") having attained 19 years of age and completed two months of service. Employees covered by a Collective Bargaining Agreements shall become eligible to make contributions to the plan after completing one year of service. All Eligible employees may enroll on the first day of the month following meeting service requirements. All employees covered by a Collective Bargaining Agreement were not eligible for discretionary matching contributions at any time.

Contributions
The Plan provided each participant with an opportunity to make pre-tax deferral contributions or Roth contributions to the Plan. Participants may elect to defer up to 90 percent of their eligible compensation, as defined by the Plan, subject to Internal Revenue Service ("IRS") limits. Participants who had attained age 50 or older before the end of such taxable year were eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans ("Rollover").

The Company, at its discretion, may make matching contributions for non-union, eligible participants who had attained two months of service, as further defined in the plan document. For the four month period ended April 30, 2021, the Company matched 50% of employee deferrals, inclusive of catch-ups, if applicable, up to 6% of compensation.

Participant Accounts
Each participant's account was credited with their contributions, employer contributions, and the earnings thereon. Contributions to the Plan were invested by the custodian as directed by the participants. Each participant may elect from one or more of the investment vehicles offered pursuant to the provisions of the Plan.

Withdrawals
A participant's vested interest in the Plan's assets is distributable generally upon termination, disability, retirement, or death. Participants may withdraw from their individual accounts pursuant to specific guidelines as set forth in the Plan.

Vesting
Participants were immediately and fully vested in employee contributions, rollover contributions, and any income or loss thereon. Vesting in the Company's employer matching was based on years of service. A participant was fully vested after four years of credited service. Regardless of the vesting schedule, a participant will become fully vested upon death or total and permanent disability.

Years of Service	Percentage Vested
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

Forfeitures
For the four month period ended April 30, 2021 and year ended December 31, 2020, forfeited non-vested amounts totaled $0 and $2,432, respectively. The accounts were used to pay Plan expenses and to reduce discretionary employer contributions. During the period from January 1, 2021 to April 30, 2021, forfeitures were utilized to reduce discretionary employer contributions were $17,665.

Notes Receivable from Participants
Participants were permitted to borrow up to maximum amount which is equal to the lesser of $50,000 or 50% of their vested account balance. The Plan limited the minimum value of loans to $1,000. The loans were secured by the balance in the participant's account. No more than two loans could have been outstanding at any time. Loans were measured at their unpaid principal balance plus any accrued but unpaid interest. The loans bear interest at rates commensurate with the prevailing rate as determined by the plan administrator. As of April 30, 2021, the interest rates on the outstanding loans range from 4.25% to 6.50%. Approx. $43,142 of notes receivable from participants were transferred to the Faurecia USA Holdings, Inc. Retirement Savings Plan and the Faurecia USA Holdings, Inc. Union Retirement Savings Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses in investments bought and sold as well as held during the year.

Payment of Benefits
Benefit payments to participants were recorded upon distribution.

Administrative Fees
Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to the processing of in-service withdrawals, loans and distributions upon termination of the participant in the Plan were charged directly to the participant's account and were included in administrative expenses.

3. Information Certified by the Plan's Custodian

The following is a summary of the Plan's asset information as of April 30, 2021 and **December 31, 2020**, and for the period from January 1, 2021 to April 30, 2021, included throughout the Plan's financial statements, that was prepared by or derived from information provided by Reliance Trust Company ("Reliance"), the custodian of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certification from the custodian that information related to the following assets is complete and accurate.

Information relating to investments and participant loans held by the custodian on April 30, 2021 and December 31, 2020, is as follows:

	2021	2020
Statements of net assets available for benefits:		
Registered investment companies	$ -	$ 1,836,287
Common collective trusts	-	2,433
Notes receivable from participants	-	43,142

The custodian also certified the following for the four month period ended April 30, 2021:

Statement of changes in net assets available for benefits:	
Interest and dividends	$ 1,751
Net appreciation in fair value of investments	177,463
Interest income on notes receiviable from participants	654

4. Fair Value Measurements

The Financial Accounting Standards Board's Accounting Standards Codification established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2021 and December 31, 2020:

- Shares of mutual funds are valued using quoted market price in an active market for each share held by the fund.
- Common collective trust funds are stated at fair value, which is determined by the trustee of the common collective trust based on underlying assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

	2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,836,287	$ -	$ -	$ 1,836,287
Common collective trusts measured at net asset value (a)	-	-	-	2,433
Total investments at fair value	$ 1,836,287	$ -	$ -	$ 1,838,720

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for plan benefits.

5. Party-in-Interest Transactions

ADP and MMA Securities LCC ("MMC) perform administrative and recordkeeping, and investment advisory services for the Plan, respectively. The administrative expense paid to ADP and MMA for the four month period ended April 30, 2021 were $4,821 and $2,256, respectively. $8,529 was paid to other plan service providers for the four month period ended April 30, 2021.

6. Income Tax Status

The Plan obtained its latest opinion letter on July 16, 2014, in which the IRS stated that the Plan, prototype non-standardized profit sharing plan, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there were no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invested in various investment instruments. Investment securities, in general, are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 for the four month period ended April 30, 2021 and year ended December 31, 2020:
