INDEPENDENT AUDITOR'S REPORT

TELEPHONE 215-563-1400

To the Board of Directors and Stockholders of Gramercy Capital Corporation

We have audited the accompanying statement of net assets available for benefits for Gramercy Capital Corporation, 401(k) Plan as of December 31, 2009, and the related statement of changes in net assets available for benefits and supplementary schedules for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Gramercy Capital Corporation 401(k) Plan as of December 31, 2009, and the changes in its net assets available for benefits for the year then ended in conformity with U.S. generally accepted accounting principals.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets Held At End of Year, referred to as "supplemental information" are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Gramercy Capital Corporation 401(k) Plan Notes to Financial Statements

1. Description of Plan

The following description of the Gramercy Capital Corporation 401 (k) Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

- a. *General*. The plan is a defined contribution plan covering all full time employees of the company who have one year of service and are age twenty-one or older. The plan is subject to the provisions of ERISA.
- b. Contributions. Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds as options for participants. The company may make a discretionary matching employer contribution on behalf of each eligible participant during the contribution period. Discretionary matching employer contributions may be limited to a percentage of the participant's deferral or contributions up to a specified percentage of compensation or limit the amount of the match to a specified dollar amount.
- c. Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the company's matching contributions and (b) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant's contributions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- d. *Vesting*. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 6 or more years of service.
- e. Participant Loans. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of 50% of their account balance. The loans will bear a reasonable amount of interest based on the prevailing interest rates determined by the plan administrator.
- f. Payment of Benefits. On termination of service due to death, disability, or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

g. Forfeited Accounts. At December 31, 2009 forfeited nonvested accounts totaled \$297. These accounts will be used to reduce future employer contributions.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the company.

Subsequent Events

The plan has evaluated subsequent events through January 22, 2010.

3. Investments

There were no investments that represent 5 percent or more of the plan's net assets.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are

described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liabilities fair value measurement level within the fair value hierarchy are based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at fair value.

Common trusts: Valued at the net asset value (NAV) of shares held by the plan at year end.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009.

	Level 1	Level 2	Level 3	<u>Total</u>
Mutual Funds:	\$549,774			\$549,774
Common Trusts: Prime Fund:	- 70,340 297			70,340 297
Participants Loans:			\$52,100	52,100
	\$ <u>620,411</u>		<u>\$52,100</u>	<u>\$672,511</u>

Level 3 gains and losses

The following sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2009. The changes are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Participant Loans \$ 57,000

Principal Payments received (4,900)

Balance, end of year \$ 52,100

5. Tax Status

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008, that the plan and related trust is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

6. Risk and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. Reconciliation of Financial Statements to Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to Form 5500:

Net assets available for benefits per the
Financial statements \$801,550

Adjustment for difference in fixed value and market value (93)

Net assets available for benefits per the
Form 5500 \$801,457

INDEPENDENT AUDITOR'S REPORT

TELEPHONE 215-563-1400

To the Board of Directors and Stockholders of Gramercy Capital Corporation

We have audited the accompanying statement of net assets available for benefits for Gramercy Capital Corporation, 401(k) Plan as of December 31, 2009, and the related statement of changes in net assets available for benefits and supplementary schedules for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Gramercy Capital Corporation 401(k) Plan as of December 31, 2009, and the changes in its net assets available for benefits for the year then ended in conformity with U.S. generally accepted accounting principals.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets Held At End of Year, referred to as "supplemental information" are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Gramercy Capital Corporation 401(k) Plan Notes to Financial Statements

1. Description of Plan

The following description of the Gramercy Capital Corporation 401 (k) Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

- a. *General*. The plan is a defined contribution plan covering all full time employees of the company who have one year of service and are age twenty-one or older. The plan is subject to the provisions of ERISA.
- b. Contributions. Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds as options for participants. The company may make a discretionary matching employer contribution on behalf of each eligible participant during the contribution period. Discretionary matching employer contributions may be limited to a percentage of the participant's deferral or contributions up to a specified percentage of compensation or limit the amount of the match to a specified dollar amount.
- c. Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the company's matching contributions and (b) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant's contributions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
- d. *Vesting*. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 6 or more years of service.
- e. Participant Loans. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of 50% of their account balance. The loans will bear a reasonable amount of interest based on the prevailing interest rates determined by the plan administrator.
- f. Payment of Benefits. On termination of service due to death, disability, or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

g. Forfeited Accounts. At December 31, 2009 forfeited nonvested accounts totaled \$297. These accounts will be used to reduce future employer contributions.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the company.

Subsequent Events

The plan has evaluated subsequent events through January 22, 2010.

3. Investments

There were no investments that represent 5 percent or more of the plan's net assets.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are

described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liabilities fair value measurement level within the fair value hierarchy are based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at fair value.

Common trusts: Valued at the net asset value (NAV) of shares held by the plan at year end.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009.

	Level 1	Level 2	Level 3	<u>Total</u>
Mutual Funds:	\$549,774			\$549,774
Common Trusts: Prime Fund:	- 70,340 297			70,340 297
Participants Loans:			\$52,100	52,100
	\$ <u>620,411</u>		<u>\$52,100</u>	<u>\$672,511</u>

Level 3 gains and losses

The following sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2009. The changes are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Participant Loans \$ 57,000

Principal Payments received (4,900)

Balance, end of year \$ 52,100

5. Tax Status

The Internal Revenue Service has determined and informed the company by a letter dated March 31, 2008, that the plan and related trust is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

6. Risk and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. Reconciliation of Financial Statements to Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 to Form 5500:

Net assets available for benefits per the
Financial statements \$801,550

Adjustment for difference in fixed value and market value (93)

Net assets available for benefits per the
Form 5500 \$801,457
