THE BLOMMER CHOCOLATE COMPANY EMPLOYEES' PROFIT-SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of The Blommer Chocolate Company Employees' Profit-Sharing and 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan, which is a defined-contribution plan, was established in 1943, to provide profit-sharing benefits to the employees of The Blommer Chocolate Company and its subsidiaries (the Company). It is subject to the Employee Retirement Income Security Act of 1974 (ERISA). The Plan elected a 52 to 53-week year as the annual period. The Plan year varies from 52 to 53 weeks and the Plan year ends on the last Sunday in May each year.

Contributions:

The Company allows employee pre-tax contributions, employee rollover contributions, employer safe harbor contributions and employer discretionary profit-sharing contributions to the Plan. Contributions are subject to certain statutory limitations and are also limited to 75% of a participant's compensation. Discretionary profit-sharing contributions are determined each year by the Company's Board of Directors.

Participant accounts:

Each participant's account is credited with the participant's contribution and an allocation of the employer's contribution, administrative expenses, Plan earnings and forfeitures of terminated participants' nonvested balances. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants self-direct their contributions and their share of the Company's contribution among various investment options offered by the Plan.

Eligibility:

All employees who have completed 60 continuous days of employment are automatically enrolled into the Plan on the following day they meet the eligibility requirements.

Investment options:

Participants in the Plan have the right to direct that their contributions and the employer's contributions be invested in various investment options.

1. Description of the Plan (continued)

Participant loans:

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

A participant becomes entitled to benefits under the Plan upon normal retirement at age 59 ½, disability leading to termination, death or resignation from the Company. Upon retirement, disability or death prior to termination, a participant is entitled to receive the full amount in his account. Upon termination or resignation, the participant is entitled to receive the vested portion of his account balance. The Plan allows partial distributions to terminated participants and beneficiaries.

The Plan allows for in-service distributions as follows:

Salary deferrals – The participant has a hardship distribution at any time.

Rollover contributions – At any time.

After-tax contributions – At any time.

Forfeited accounts:

At May 30, 2021 and May 31, 2020, forfeited nonvested accounts totaled $342,795 and $308,130, respectively. Forfeitures arising during the year ended May 30, 2021 totaled $342,779. Forfeitures used to offset employer contributions to the plan during the year ended May 30, 2021 totaled $308,130.

1. Description of the Plan (continued)

Vesting:

The profit-sharing contribution and earnings thereon vesting schedule is as follows:

Years of service	Percentage vested
Less than 2	0%
2-3	20%
3-4	40%
4-5	60%
5-6	80%
6 or more	100%

Participants are 100% vested in their salary deferrals and any safe harbor contributions and earnings thereon.

2. Summary of significant accounting policies

Basis of accounting:

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Shares of mutual funds are valued at market value of shares held by the Plan at year-end.

Units of the common collective trust funds are valued based on the net asset value (NAV) per share as a practical expedient.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is presented on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

2. Summary of significant accounting policies (continued)

Administrative expenses:

Certain expenses of administering the Plan are paid by the participants. Other administrative expenses are paid by the Company.

Expense offset arrangements:

Fees incurred by the Plan for investment management services and/or recordkeeping are included in other income, as they are paid through revenue sharing, rather than a direct payment.

Use of estimates:

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes receivable from participants:

The Plan allows for participants to borrow against their vested account balance and the loan is secured by the participant's account balance. Participant loans are valued at their unpaid principal balance plus any accrued but unpaid interest. Participant loans are repaid ratably through regular payroll deductions and loan defaults are treated as distributions. The Plan is required to review the collectibility of the outstanding loan balances and record an allowance for loans determined to be uncollectible. As of May 30, 2021 and May 31, 2020, no allowance for uncollectible loans was deemed necessary.

Payment of benefits:

Benefits are recorded when paid.

Subsequent events:

The Plan Administrator has reviewed and evaluated subsequent events through March 9, 2022, the date the financial statements were available to be issued.

3. Tax status

The Plan is exempt from federal income taxes under Section 401(k) of the Internal Revenue Code (the Code).

The Internal Revenue Service has determined and informed the Company by a favorable determination letter dated August 19, 2020, that the Plan is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receipt of the determination letter, the Plan Administrator is not aware of any activity or transactions that may adversely affect the qualified status of the Plan and believes that the Plan is currently being operated in compliance with the applicable requirements of the Code.

4. Investments (prepared and certified by the Trustee)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in these financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by T. Rowe Price Trust Company (the Trustee) as of May 30, 2021 and May 31, 2020 and for the year ended May 30, 2021.

The Trustee certified the fair value of investments of $113,033,861 and $100,228,595 at May 30, 2021 and May 31, 2020, respectively. Notes receivable from participants of $1,656,102 and $2,061,139 were also certified by the Trustee at May 30, 2021 and May 31, 2020, respectively. The interest on these receivables ranged from 4.25% to 6.50% in 2021 and 2020.

For the year ended May 30, 2021, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value in the amount of $26,492,814. Dividend income was $1,631,679 for the year ended May 30, 2021. Interest on notes receivable from participants was $93,768 for the year ended May 30, 2021.

5. Fair value measurements

The Plan defines fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable inputs for the asset or liability.

5. Fair value measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at May 30, 2021 or May 31, 2020.

Mutual funds: Valued at market value of shares held by the Plan at year-end.

Common collective trust funds - T Rowe Price Stable Value Fund: Valued at the NAV of the units held by the Plan. The Fund invests in fully benefit-responsive investment contracts that are held at contract value. NAV is determined to be contract value, the value at which participants ordinarily transact. This practical expedient would not be used if it is determined to be probable that the Fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

Common collective trust funds - T Rowe Price Retirement Trusts: Valued at the NAV of the units held by the Plan. The Trusts invest in publicly-traded investments with readily determinable fair value. NAV is determined to be contract value, the value at which participants ordinarily transact. This practical expedient would not be used if it is determined to be probable that the Trusts will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes that the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair value measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of May 30, 2021 and May 31, 2020.

Investments at fair value as of May 30, 2021:

May 30, 2021	**Level 1**	**Total**

Common collective trust funds - T Rowe Price Stable Value Fund measured at NAV*		**9,155,160**
Total investments at fair value		**$ 113,033,861**

Investments at fair value as of May 31, 2020:

May 31, 2020	Level 1	Total

Common collective trust funds - T Rowe Price Stable Value Fund measured at NAV*		12,457,077
Total investments at fair value		$ 100,228,595

5. Fair value measurements (continued)

*Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for plan benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of May 30, 2021 and May 31, 2020:

Investment	**2021**	2020	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust funds	**$ 68,292,537**	$ 61,776,130	N/A	Daily	None

6. COVID-19 – relief provisions

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was passed by Congress. The CARES Act provides immediate and temporary relief for retirement plan sponsors and their participants with respect to employer contributions, distributions and participant loans. The provisions of the CARES Act may be effective and operationalized immediately prior to amending the Plan document. The Plan has implemented the following relief provisions:

- *Coronavirus-related distribution* – 'Qualified' participants may take a coronavirus-related distribution of up to $100,000 from the Plan without a 10% early withdrawal penalty. Eligible distributions can be taken through December 31, 2020. Coronavirus-related distributions may be repaid within three years.

- *Participant loans* – 'Qualified' participants may borrow from their fund accounts amounts not to exceed the lesser of $100,000 or 50% of the vested portion of the balance. 'Qualified' participants may elect to suspend loan repayments due through December 31, 2020. Repayments must resume in January 2021. Loans will be reamortized to extend the payoff period by one year and will include accrued interest for the suspension period.

7. Termination

Although it has not expressed any intent to do so, the Company reserves the right to discontinue contributions and to terminate the Plan at any time. Upon termination of the Plan, all employees not experiencing a break in service shall become fully vested.

8. Party-in-interest transactions

Certain Plan investments are shares of funds managed by T. Rowe Price Trust Company, the Trustee. Therefore, these transactions qualify as party-in-interest transactions. The Plan paid $94,351 of administrative expenses to T. Rowe Price Trust Company for the year ended May 30, 2021. Plan consulting fees of $53,558 for the year ended May 30, 2021 were paid to a third party consultant.

9. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

As a result of the spread of the COVID-19 pandemic, there has been heightened market risk and volatility. This could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits. Due to the overall uncertainty, Plan management is unable to estimate the total impact that the pandemic will have.
