Independent Auditor's Report

To the Audit Committee
Flexera Software Inc. 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Flexera Software Inc. 401(k) Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010, and of delinquent participant contributions for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As discussed in Note 1 to the financial statements, the Board of Directors of Flexera Software Inc., the Plan's sponsor, voted on March 17, 2010, to merge the Intraware 401(k) Plan into the Plan. The merger was effective April 5, 2010, and all plan assets were transferred to the Plan on April 5, 2010.

Note 1. Plan Description

The following brief description of Flexera Software Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering certain employees of Flexera Software Inc. (the Company) who are 18 or older. The Plan covers all employees except those covered by a collective bargaining agreement, leased employees and nonresident aliens without U.S. income. Employees may enter the Plan on the first day of the month following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 60% of annual compensation, as defined by the Plan. These deferrals can be designated as pre-tax deferral contributions or as Roth after-tax deferral contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may also designate certain pay periods where participants may contribute up to 100% of the period's pretax or bonus compensation. The Company may make a discretionary matching contribution to the Plan equal to a percentage of the elective contributions made by the participants to the Plan. The Company may also make a discretionary employer contribution on behalf of the eligible participants. There were no discretionary matching or employer contributions in 2010. Contributions are subject to limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and company discretionary contributions, and allocations of plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service. Credited service includes service with certain predecessor employers as described in the plan agreement.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the highest outstanding loan balance of the participant in the most recent 12 months or 50% of their vested account balance, whichever is less. Only one loan per participant may be outstanding at any time. Loan terms range from one to five years; however, loans used for the purchase of a principal residence may exceed five years. The loans are secured by the balance in the participant's account and bear interest at a rate which is commensurate with local prevailing rates as determined by the Plan Administrator. Loans outstanding at December 31, 2010, bear an interest rate of between 4.25% and 6%. Principal and interest are paid ratably through semi-monthly payroll deductions.

Plan merger: On January 7, 2009, the Company acquired all the outstanding shares of Intraware Incorporated and assumed sponsorship of the Intraware 401(k) Plan (Intraware Plan). The Board of Directors of the Company voted on March 17, 2010, to merge the Intraware Plan into the Plan. Effective April 5, 2010, the Plan was amended to allow employees of Intraware Incorporated to become eligible to participate in the Plan, and assets of the Intraware Plan totaling $2,173,186 were transferred to the Plan.

Note 1. Plan Description (Continued)

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In addition, in-service and hardship withdrawals are permitted in certain situations as described in the plan agreement.

Forfeited accounts: Forfeitures may be used to pay administrative expenses of the Plan or to reduce future Company contributions. Forfeitures of $14,250 were used to pay administrative expenses during the year ended December 31, 2010. At December 31, 2010 and 2009, forfeited nonvested accounts totaling $2,749 and $14,900, respectively, were available for future use.

Subsequent events: The Company has evaluated subsequent events through October 10, 2011, the date the financial statements were available to be issued.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Accounting estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

New accounting pronouncements: The Financial Accounting Standards Board (FASB) issued ASU 2010-6, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements,* which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and those disclosures should include a discussion of inputs and valuation techniques. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment is effective for periods beginning after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010. The Plan adopted this update in 2010. See Note 4 for impact of adoption.

Note 2. Significant Accounting Policies (Continued)

In September 2010, the FASB issued an amendment, *Plan Accounting—Defined Contribution Pension Plans (Topic 962*): *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $159,942 and $155,042 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

Pending accounting pronouncement: In May 2011, the FASB issued Accounting Standards Update, *Amendment to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs.* The update amended *Fair Value Measurements and Disclosures,* to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in *Fair value Measurements and Disclosures.* In addition, the update requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of the update will have on the Plan's financial statements.

Note 3. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the asset and income information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and income:

	2010	2009
Net assets available for benefits		
Investments	$ 15,345,134	$ 9,926,504
Notes receivable from participants	159,942	155,042
Changes in net assets available for benefits		
Net appreciation in fair value of investments	1,586,848	
Interest and dividends	262,727	
Interest income on notes receivable from participants	8,729	

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2010:

Fidelity Retirement Money Market	917,492	1,091,722
Fidelity Freedom 2030	1,522,282	*

* Less than 5% of net assets at year-end.

Note 5. Investments (Continued)

The Plan's investments in common stocks and shares of registered investment companies, including investments bought, sold and held during the year, appreciated in value by $73,007 and $1,513,841, respectively, during the year ended December 31, 2010.

Note 6. Related-Party Transactions

Certain plan investments are shares of registered investment companies that are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to the trustee for administrative services amounted to $15,570 for the year ended December 31, 2010.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

Effective May 15, 2009, the Plan adopted a volume submitter plan of Fidelity Management and Research Co. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by the Plan. The Plan has been amended since the adoption date. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained it tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examination by the U.S. federal, state, or local tax authorities for years before 2008.

Note 9. Late Deposits

During the year ended December 31, 2010, the Plan engaged in prohibited transactions related to late deposits of participant deferrals and loan repayments totaling $215,133. Lost earnings on the deposits will be calculated and deposited to the trust. Form 5330 will also be filed to remit the applicable excise tax to the Internal Revenue Service.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	$ 15,577,152	$ 10,148,972
Contributions receivable	(62,093)	(67,426)
Differences in:		
Investments	159,942	155,042
Receivables-notes receivables from participants	(159,942)	(155,042)
Net assets available for benefits per the Form 5500	$ 15,515,059	$ 10,081,546

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2010, per the financial statements to the Form 5500:

Change in net assets available for benefits prior to transfer of assets from merged plan per the financial statements	$ 3,254,994
Prior year contributions receivable	67,426
Current year contributions receivable	(62,093)
Change in net assets available for benefits per the Form 5500	$ 3,260,327

Note 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
