Independent Auditor's Report

To the Plan Administrator
The Consolidated Edison Thrift Savings Plan

Opinion

We have audited the financial statements of The Consolidated Edison Thrift Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and is derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Thrift Savings Plan

The following description of The Consolidated Edison Thrift Savings Plan (the "Thrift Savings Plan") provides only general information. Participants should refer to the Thrift Savings Plan document for a more complete description of the Thrift Savings Plan's provisions.

General

The Thrift Savings Plan is a defined contribution plan. Other than a small number of employees in certain unregulated affiliated companies, all full-time and part-time eligible collectively bargained and non-collectively bargained employees in the Consolidated Edison, Inc. ("CEI") Controlled Group are eligible to participate. The eligible groups are the employees on the management payroll of Consolidated Edison Company of New York, Inc. ("CECONY Management Employees"), employees on the management payroll of Orange and Rockland Utilities, Inc. ("O&R Management Employees"), employees on the payroll of Con Edison Clean Energy Business, Inc. ("CEB Employees"), employees on the payroll of Con Edison Transmission, Inc. ("CET Employees"), weekly employees who are members of Local 1-2, Utility Workers Union of America, AFL-CIO ("Local 1-2" or "CECONY Weekly Employees"), or Local 3, International Brotherhood of Electrical Workers, AFL-CIO ("Local 3" or "CECONY Weekly Employees"), O&R hourly employees who are members of Local 503, International Brotherhood of Electrical Workers, and AFL-CIO ("O&R Hourly Employees"). Once each eligible employee in an eligible group meets the service requirement, if any, he or she is referred to as a participant.

Thrift Savings Plan Administration

Vanguard Fiduciary Trust Company ("Vanguard" or the "Trustee") is the recordkeeper and trustee for the Thrift Savings Plan. Vanguard, Fidelity Institutional Asset Management, Transamerica Asset Management, Inc. and Western Asset Management Company, LLC serve as investment managers for the Thrift Savings Plan.

Contributions

Pursuant to Sections 401(k) and (m) of the Internal Revenue Code of 1986, as amended (the "Code"), the Thrift Savings Plan permits participants to invest a portion of their compensation on a pre-tax basis and/or after-tax basis. CECONY Management, O&R Management, CET, CEB, Local 1-2 participants, Local 3 participants, and O&R Hourly Employees may also contribute to the Plan on a Roth 401(k) after-tax basis. The contributions to the Thrift Savings Plan are held in a trust fund maintained by the Trustee. The Trustee maintains a separate account for each participant that is updated daily.

Participants may contribute rolled over amounts representing distributions from other qualified defined benefit or defined contribution plans. Each participant who has attained age

50 before the end of Plan year is eligible to make a catch-up contribution, which is a pre-tax contribution to the Thrift Savings Plan that exceeds the otherwise annual pre-tax dollar limit.

Beginning in July 2013, CECONY and O&R have adopted a defined contribution pension formula ("DCPF") that provides an employer compensation credit to a participant in an amount based on a point system. Based on an employee's age and years of credited service, he or she receives a credit between 4% and 7% of his or her compensation. Employees who are covered under the DCPF and whose compensation exceeds the annual social security taxable wage base receive an additional flat 4% compensation credit on the excess compensation.

CECONY Management, O&R Management, CET, and CEB Employees under the Code Section 401(k) Formula: Each CECONY Management, O&R Management, CET, and CEB. Employee may choose to contribute from 1% to 50% of his or her regular compensation. CECONY Management, O&R Management, CET and CEB Employees who are covered under the career average or final average pension formulas in the Consolidated Edison Retirement Plan ("Retirement Plan") receive a match of up to 3% of compensation (50% match on up to 6% of employee contributions). CECONY Management, O&R Management, CET and CEB Employees who are covered under the cash balance pension formula in the Retirement Plan or the defined contribution pension plan in the Thrift Savings Plan, receive an employer matching contribution of up to 6% of compensation (100% on the first 4% of employee contributions, plus an additional 50% on the next 4% of employee contributions).

Local 1-2 Participants: Effective January 1, 2018, Local 1-2 employee contributions will be based on a percentage of the employee's straight-time pay, including premium pay. Each employee may contribute up to, but no more than, 50% of his or her straight-time pay. Local 1-2 participants who are covered under the cash balance pension formula of the Retirement Plan or the DCPF (see below) receive an employer matching contribution equal to 100% of the Participating Contributions on the first 6% of their contributions subject to contractual weekly and annual maximums. For employees covered under the final average pay formula in the Retirement Plan, the Company's match is 50% of the Participating Contributions made by the participant on the first 6% of their contributions. Refer to the Local 1-2 Collective Bargaining Agreement for a more complete description of the Plan's provisions.

Local 3 Participants: Effective January 1, 2018, Local 3 employee contributions will be based on a percentage of the employee's gross pay. Each employee may contribute a minimum of 1% up to a maximum of 50% of his or her gross pay. Local 3 participants who are covered under the cash balance pension formula of the Retirement Plan receive an employer matching contribution equal to 75% of the Participating Contributions made by the participant on the first 6% of their contributions subject to contractual weekly and annual maximums. For employees covered under the final average pay formula in the Retirement Plan, the Company's match is 50% of the Participating Contributions made by the participant on the first 6% of their contributions subject to contractual weekly and annual maximums. The Company match is 100% of Participating Contributions for participants covered under the

DCPF (see below) on the first 6% of their contributions subject to contractual weekly and annual maximums. Refer to the Local 3 Collective Bargaining Agreement for a more complete description of the Plan's provisions.

O&R Hourly Participants: An O&R Hourly participant can contribute from 2% to 50% of his or her regular compensation, of which the first 6% receives a 50% employer matching contribution. O&R Hourly Participants covered under the cash balance pension formula of the Retirement Plan and the DCPF (see below) can contribute from 2% to 50% of his or her regular compensation, of which the first 4% receives a 100% employer matching contribution. Refer to the O&R Hourly Collective Bargaining Agreement for a more complete description of the Plan's provisions.

Direct Contribution Formula: Certain CEB Employees are covered under a Direct Contribution formula (DCF). These participants are not covered by the Retirement Plan or the DCPF. Instead, the Company will contribute to the Thrift Savings Plan, each pay period, an amount equal to 3% of compensation on behalf of each participant.

Defined Contribution Pension Formula: Certain Local 3, Local 1-2 and Local 503 Employees are covered under the DCPF. These participants are not covered by the Retirement Plan. Instead, the Company will contribute to the Thrift Savings Plan, at the end of each calendar quarter, an amount equal to a compensation credit that is based on a participant's age and service and that ranges from 4% to 7% of compensation on behalf of each participant.

Beginning January 1, 2017, each full-time and some part-time employees hired by and on the management payroll of CECONY, O&R, or CET ("Management Employee") are automatically covered under the DCPF.

Additionally, on or after July 1, 2017, each Management Employee and Local 1-2 who is covered under the cash balance pension formula in the Retirement Plan ("Cash Balance Participant") is given a "Pension Choice," as here explained. A Pension Choice means that for a certain period, each Cash Balance Participant has a choice between remaining in the Retirement Plan for future pension accruals or transferring out of the Retirement Plan and into the DCPF in the Thrift Savings Plan for future accruals. The window for Local 1-2 to switch closed on June 20, 2020. The window for management employees to switch is scheduled to close on December 31, 2021. O&R Hourly Participants have a Pension Choice period that began June 2020 and will end on May 31, 2023. Members have a choice to begin participation in the DCPF beginning with the first quarter following their Pension Choice election. Those who do not exercise a choice during this period will remain covered under the cash balance pension formula in the Retirement Plan.

Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Employee Stock Ownership Plan ("ESOP")

The Thrift Savings Plan provides for a separate Employee Stock Ownership Plan ("ESOP") and a separate ESOP Trust Fund, which are components within the Thrift Savings Plan's Trust Fund. Each participant who receives an employer contribution is eligible to participate in the ESOP. Only employer matching contributions and dividends issued on shares held in the ESOP Trust Fund will be contributed to the ESOP. Participants are permitted to transfer assets from their ESOP accounts to their Thrift Savings Plan accounts. Employer contributions made into the DCPF may not be invested in the ESOP.

Vesting

Pre-tax, after-tax, and Roth 401(k) after-tax contributions by participants and earnings on such contributions are 100% vested at all times. CEI Employees, with the exception of Local 503 employees who are immediately vested in both 401(k) employer and DCPF contributions, become 100% vested in employer's contributions and earnings thereon after completing three years of service. Participants who have less than three years of service become fully vested for all employer contributions and earnings upon reaching age 65, termination of employment due to retirement or death, or termination of employment for reasons other than cause. Participants who terminate employment voluntarily other than by reason of retirement, or who are terminated for cause, forfeit the non-vested portion of employer contributions and the earnings (see Note 7, "Forfeitures"). O&R Hourly Employees and O&R Management Employees are immediately 100% vested in employer's matching contributions and earnings.

Each participant covered under the DCPF becomes 100% vested in employer's contributions and earnings thereon after completing three years of service.

Diversification

To provide diversification, the Thrift Savings Plan offers options among three primary asset classes - cash equivalents, fixed income and equity. Participants also have access to target date retirement funds, which have allocations based on projected retirement age, and a brokerage window to purchase investments not offered by the Plan.

Participant Accounts

Each participant's account is credited with his or her contributions, and employer's matching contributions and earnings, if any, attributable to the investment funds in which his or her account is invested, including an allocation of administrative expenses. The benefit to which a participant is entitled is his or her vested account balance.

Additionally, each participant who is covered under the DCPF will have an individual account into which the employer's compensation credit will be deposited.

The Thrift Savings Plan is intended to be operated and administered as an ERISA Section 404(c) Plan which means that each participant controls and is responsible for the investment selection of his or her account. The Named Fiduciary Committee is responsible for the investment fund selections and the appointment of the investment fund managers. Each participant elects to invest in the funds available, and subject to the investment fund's restrictions, has the right to transfer his or her account balance from one fund to another and change asset allocations on future contributions. However, only employer matching contributions may be invested in the Consolidated Edison Stock Fund.

Payment of Benefits

Upon termination of employment for any reason, a participant's vested account balance, if less than or equal to $1,000, will be distributed to the participant or designated beneficiary as soon as practicable. However, if the value of a participant's vested account is greater than $1,000, the participant's account will not be distributed until the earlier of attainment of age 70.5 or when the participant elects to receive such distribution in accordance with the terms of the Thrift Savings Plan.

Notes Receivable from Participants

The Thrift Savings Plan permits a participant to borrow from his or her account, other than the defined contribution pension formula account ("DCPF Account"), upon the terms and conditions set forth in the Thrift Savings Plan. The minimum amount of any loan is $500. The maximum amount a participant may borrow is equal to the lesser of 50% of his or her vested balance or $50,000 reduced by any principal repaid during the 12 months before the new loan.

Repayment will be made by level payments and shall be made by payroll deductions. Loans are secured by a portion of the participant's vested Thrift Savings Plan account balance and bear a fixed rate of interest. These rates are commensurate with local prevailing rates [prime rate (3.25% at December 31, 2021) plus 0.5%].

Plan Termination

The Thrift Savings Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") but is not subject to the minimum funding requirements of ERISA, and benefits under the Thrift Savings Plan are not guaranteed by the Pension Benefit Guaranty Corporation. The Thrift Savings Plan covers both represented (union) employees and non-represented (management) employees. Although it has not expressed any intent to do so, solely as to the Management Employees, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. As to the union employees, in accordance with the Company's collective bargaining agreements, the Company must negotiate any action to discontinue or terminate the Thrift Savings Plan. In the event of termination of the Thrift Savings Plan, the rights of all participants to the entire amounts in their accounts become 100% vested and the Trustee

must distribute the assets to the participants and beneficiaries in accordance with the Thrift Savings Plan document.

2. Summary of Significant Accounting Policies

Accounting Basis

The Thrift Savings Plan's financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Thrift Savings Plan. The Plan's valuation policies and procedures are approved by management of the Plan Sponsor. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Thrift Savings Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions are recorded on an accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Investment expenses and fees associated with each fund's operational and transactional fees as reported in the prospectus or trust document of each fund are reflected in the net asset value of the respective funds. The Thrift Savings Plan has payables of $417,723 and $445,168 in administrative expenses for the years ended December 31, 2021 and 2020, respectively.

Subsequent Events

The Thrift Savings Plan has evaluated subsequent events through October 14, 2022, which is the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Thrift Savings Plan invests in investment securities that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

In early 2020, an outbreak of novel strain of coronavirus (COVID-19) emerged globally. As a result, events occurred domestically in the United States and globally, including mandates from federal, state and local authorities, that led to an overall decline in economic activity. Through October 14, 2022, the impact of COVID-19 has not had a material adverse effect on the financial performance of the Plan's investments. The Company will continue to monitor the effects of COVID-19 on the global financial market.

4. Transactions with Parties-in-Interest

The Thrift Savings Plan invests in a unitized stock fund, which consists of a short-term investment fund component and common shares of the ultimate parent of the Thrift Savings Plan Sponsor, CEI. The unit values of the Consolidated Edison Stock Fund are recorded and maintained by an affiliate of Vanguard, the Trustee of the Thrift Savings Plan. During the year ended December 31, 2021, the Thrift Savings Plan purchased units in the Consolidated Edison Stock Fund for approximately $3,500,000, sold units in the Consolidated Edison Stock Fund for approximately $7,600,000 and had a net appreciation in the fair value of the investments of approximately $9,100,000. During the year ended December 31, 2020, the Thrift Savings Plan purchased units in the Consolidated Edison Stock Fund for approximately $3,600,000, sold units in the Consolidated Edison Stock Fund for approximately $6,900,000 and had a net depreciation in the fair value of the investments of approximately $13,800,000. The total value

of the Thrift Savings Plan's investment in the Consolidated Edison Stock Fund was approximately $58,500,000 and $53,400,000 at December 31, 2021 and 2020, respectively.

5. Investment Contracts

The Thrift Savings Plan has entered into various benefit-responsive guaranteed investment contracts ("GICs") with various insurance companies and other financial institutions ("Issuers" or "Issuer") under the Fixed Income Fund investment option. There are two types of GICs within the Fixed Income Fund: Traditional GICs and Synthetic GICs.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	2021	2020
Synthetic investment contracts	$889,172,085	$931,730,795
Traditional investment contracts	31,480,975	26,458,022
Total	**$920,653,060**	**$958,188,817**

As described in Note 2, because the Traditional GICs and Synthetic GICs are fully benefit-responsive, contract value is the relevant measure for that portion of the net assets available for benefits attributable to the Traditional GICs and Synthetic GICs. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fixed Income Fund at contract value.

Traditional GICs

The Issuer of a Traditional GIC takes a deposit from the fund and purchases investments which are held in the respective Issuer's general account. The Issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Thrift Savings Plan.

Synthetic GICs

A Synthetic GIC is a wrap contract paired with an underlying investment or investments, usually a portfolio, owned by the Thrift Savings Plan, of high-quality, short and intermediate term fixed income securities. The Thrift Savings Plan purchases a benefit-responsive wrap agreement from a financial services institution. Synthetic GICs provide for a variable crediting rate, which typically resets at least quarterly, and the Issuer of the wrapper contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation.

The terms of an investment contract generally provide for settlement of benefit payments at contract value for qualified participant activity. Contract termination also may occur by either party upon election and notice.

Certain events limit the ability of the Thrift Savings Plan to transact at contract value with the Issuers. Such events include, but are not limited to, the following: (i) amendments to the Thrift Savings Plan documents (including complete or partial Plan termination or merger with another plan), (ii) changes to the Thrift Savings Plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Thrift Savings Plan's ability to transact at contract value with participants, is probable.

There are no reserves against contract value for credit risk of the contract Issuer or otherwise.

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation

techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investment Valuation

Following is a description of the valuation methodologies used for assets at fair value. There have been no material changes in the methodologies used at December 31, 2021 and 2020.

Common collective trusts: Valued at the net asset value ("NAV") of units of a bank collective trust. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks: Common stock shares are valued at the last reported sales price on the last business day of the year as reported on the New York Stock Exchange.

Self-directed brokerage accounts: Consist of mutual funds and common stocks that are valued on the basis noted above.

The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Thrift Savings Plan's assets at the fair value as of December 31, 2021:

	Fair Value Measurements at December 31, 2021		
Asset Category	**Total**	**Level I**	**Level II**
Mutual funds	$648,490,100	$648,490,100	$ -

Total investments at fair value	**$4,737,047,811**	**$846,755,376**	**$3,890,292,435**

The following table sets forth by level, within the fair value hierarchy, the Thrift Savings Plan's assets at the fair value as of December 31, 2020:

	Fair Value Measurements at December 31, 2020		
Asset Category	**Total**	**Level I**	**Level II**
Mutual funds	$567,854,289	$567,854,289	$ -

Total investments at fair value	**$4,029,796,505**	**$729,335,636**	**$3,300,460,869**

There were no transfers in/out of level 3 during 2021.

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statements of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

7. Forfeitures

As provided in the Thrift Savings Plan, forfeitures of a participant's employer matching contribution and earnings thereon during any calendar month are applied as an offset to future employer contributions payable. The forfeitures account balances as of December 31, 2021 and 2020 were approximately $1,379,000 and $328,000, respectively. Employer contributions were reduced by approximately $1,676,000 and $1,096,000 for 2021 and 2020, respectively, from forfeited non-vested accounts.

8. Tax Status

IRS has determined and informed CECONY by a letter dated December 5, 2017 that the Thrift Savings Plan and related trust are designed in accordance with applicable sections of the Code. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Independent Auditor's Report

To the Plan Administrator
The Consolidated Edison Thrift Savings Plan

Opinion

We have audited the financial statements of The Consolidated Edison Thrift Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and is derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Thrift Savings Plan

The following description of The Consolidated Edison Thrift Savings Plan (the "Thrift Savings Plan") provides only general information. Participants should refer to the Thrift Savings Plan document for a more complete description of the Thrift Savings Plan's provisions.

General

The Thrift Savings Plan is a defined contribution plan. Other than a small number of employees in certain unregulated affiliated companies, all full-time and part-time eligible collectively bargained and non-collectively bargained employees in the Consolidated Edison, Inc. ("CEI") Controlled Group are eligible to participate. The eligible groups are the employees on the management payroll of Consolidated Edison Company of New York, Inc. ("CECONY Management Employees"), employees on the management payroll of Orange and Rockland Utilities, Inc. ("O&R Management Employees"), employees on the payroll of Con Edison Clean Energy Business, Inc. ("CEB Employees"), employees on the payroll of Con Edison Transmission, Inc. ("CET Employees"), weekly employees who are members of Local 1-2, Utility Workers Union of America, AFL-CIO ("Local 1-2" or "CECONY Weekly Employees"), or Local 3, International Brotherhood of Electrical Workers, AFL-CIO ("Local 3" or "CECONY Weekly Employees"), O&R hourly employees who are members of Local 503, International Brotherhood of Electrical Workers, and AFL-CIO ("O&R Hourly Employees"). Once each eligible employee in an eligible group meets the service requirement, if any, he or she is referred to as a participant.

Thrift Savings Plan Administration

Vanguard Fiduciary Trust Company ("Vanguard" or the "Trustee") is the recordkeeper and trustee for the Thrift Savings Plan. Vanguard, Fidelity Institutional Asset Management, Transamerica Asset Management, Inc. and Western Asset Management Company, LLC serve as investment managers for the Thrift Savings Plan.

Contributions

Pursuant to Sections 401(k) and (m) of the Internal Revenue Code of 1986, as amended (the "Code"), the Thrift Savings Plan permits participants to invest a portion of their compensation on a pre-tax basis and/or after-tax basis. CECONY Management, O&R Management, CET, CEB, Local 1-2 participants, Local 3 participants, and O&R Hourly Employees may also contribute to the Plan on a Roth 401(k) after-tax basis. The contributions to the Thrift Savings Plan are held in a trust fund maintained by the Trustee. The Trustee maintains a separate account for each participant that is updated daily.

Participants may contribute rolled over amounts representing distributions from other qualified defined benefit or defined contribution plans. Each participant who has attained age

50 before the end of Plan year is eligible to make a catch-up contribution, which is a pre-tax contribution to the Thrift Savings Plan that exceeds the otherwise annual pre-tax dollar limit.

Beginning in July 2013, CECONY and O&R have adopted a defined contribution pension formula ("DCPF") that provides an employer compensation credit to a participant in an amount based on a point system. Based on an employee's age and years of credited service, he or she receives a credit between 4% and 7% of his or her compensation. Employees who are covered under the DCPF and whose compensation exceeds the annual social security taxable wage base receive an additional flat 4% compensation credit on the excess compensation.

CECONY Management, O&R Management, CET, and CEB Employees under the Code Section 401(k) Formula: Each CECONY Management, O&R Management, CET, and CEB. Employee may choose to contribute from 1% to 50% of his or her regular compensation. CECONY Management, O&R Management, CET and CEB Employees who are covered under the career average or final average pension formulas in the Consolidated Edison Retirement Plan ("Retirement Plan") receive a match of up to 3% of compensation (50% match on up to 6% of employee contributions). CECONY Management, O&R Management, CET and CEB Employees who are covered under the cash balance pension formula in the Retirement Plan or the defined contribution pension plan in the Thrift Savings Plan, receive an employer matching contribution of up to 6% of compensation (100% on the first 4% of employee contributions, plus an additional 50% on the next 4% of employee contributions).

Local 1-2 Participants: Effective January 1, 2018, Local 1-2 employee contributions will be based on a percentage of the employee's straight-time pay, including premium pay. Each employee may contribute up to, but no more than, 50% of his or her straight-time pay. Local 1-2 participants who are covered under the cash balance pension formula of the Retirement Plan or the DCPF (see below) receive an employer matching contribution equal to 100% of the Participating Contributions on the first 6% of their contributions subject to contractual weekly and annual maximums. For employees covered under the final average pay formula in the Retirement Plan, the Company's match is 50% of the Participating Contributions made by the participant on the first 6% of their contributions. Refer to the Local 1-2 Collective Bargaining Agreement for a more complete description of the Plan's provisions.

Local 3 Participants: Effective January 1, 2018, Local 3 employee contributions will be based on a percentage of the employee's gross pay. Each employee may contribute a minimum of 1% up to a maximum of 50% of his or her gross pay. Local 3 participants who are covered under the cash balance pension formula of the Retirement Plan receive an employer matching contribution equal to 75% of the Participating Contributions made by the participant on the first 6% of their contributions subject to contractual weekly and annual maximums. For employees covered under the final average pay formula in the Retirement Plan, the Company's match is 50% of the Participating Contributions made by the participant on the first 6% of their contributions subject to contractual weekly and annual maximums. The Company match is 100% of Participating Contributions for participants covered under the

DCPF (see below) on the first 6% of their contributions subject to contractual weekly and annual maximums. Refer to the Local 3 Collective Bargaining Agreement for a more complete description of the Plan's provisions.

O&R Hourly Participants: An O&R Hourly participant can contribute from 2% to 50% of his or her regular compensation, of which the first 6% receives a 50% employer matching contribution. O&R Hourly Participants covered under the cash balance pension formula of the Retirement Plan and the DCPF (see below) can contribute from 2% to 50% of his or her regular compensation, of which the first 4% receives a 100% employer matching contribution. Refer to the O&R Hourly Collective Bargaining Agreement for a more complete description of the Plan's provisions.

Direct Contribution Formula: Certain CEB Employees are covered under a Direct Contribution formula (DCF). These participants are not covered by the Retirement Plan or the DCPF. Instead, the Company will contribute to the Thrift Savings Plan, each pay period, an amount equal to 3% of compensation on behalf of each participant.

Defined Contribution Pension Formula: Certain Local 3, Local 1-2 and Local 503 Employees are covered under the DCPF. These participants are not covered by the Retirement Plan. Instead, the Company will contribute to the Thrift Savings Plan, at the end of each calendar quarter, an amount equal to a compensation credit that is based on a participant's age and service and that ranges from 4% to 7% of compensation on behalf of each participant.

Beginning January 1, 2017, each full-time and some part-time employees hired by and on the management payroll of CECONY, O&R, or CET ("Management Employee") are automatically covered under the DCPF.

Additionally, on or after July 1, 2017, each Management Employee and Local 1-2 who is covered under the cash balance pension formula in the Retirement Plan ("Cash Balance Participant") is given a "Pension Choice," as here explained. A Pension Choice means that for a certain period, each Cash Balance Participant has a choice between remaining in the Retirement Plan for future pension accruals or transferring out of the Retirement Plan and into the DCPF in the Thrift Savings Plan for future accruals. The window for Local 1-2 to switch closed on June 20, 2020. The window for management employees to switch is scheduled to close on December 31, 2021. O&R Hourly Participants have a Pension Choice period that began June 2020 and will end on May 31, 2023. Members have a choice to begin participation in the DCPF beginning with the first quarter following their Pension Choice election. Those who do not exercise a choice during this period will remain covered under the cash balance pension formula in the Retirement Plan.

Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Employee Stock Ownership Plan ("ESOP")

The Thrift Savings Plan provides for a separate Employee Stock Ownership Plan ("ESOP") and a separate ESOP Trust Fund, which are components within the Thrift Savings Plan's Trust Fund. Each participant who receives an employer contribution is eligible to participate in the ESOP. Only employer matching contributions and dividends issued on shares held in the ESOP Trust Fund will be contributed to the ESOP. Participants are permitted to transfer assets from their ESOP accounts to their Thrift Savings Plan accounts. Employer contributions made into the DCPF may not be invested in the ESOP.

Vesting

Pre-tax, after-tax, and Roth 401(k) after-tax contributions by participants and earnings on such contributions are 100% vested at all times. CEI Employees, with the exception of Local 503 employees who are immediately vested in both 401(k) employer and DCPF contributions, become 100% vested in employer's contributions and earnings thereon after completing three years of service. Participants who have less than three years of service become fully vested for all employer contributions and earnings upon reaching age 65, termination of employment due to retirement or death, or termination of employment for reasons other than cause. Participants who terminate employment voluntarily other than by reason of retirement, or who are terminated for cause, forfeit the non-vested portion of employer contributions and the earnings (see Note 7, "Forfeitures"). O&R Hourly Employees and O&R Management Employees are immediately 100% vested in employer's matching contributions and earnings.

Each participant covered under the DCPF becomes 100% vested in employer's contributions and earnings thereon after completing three years of service.

Diversification

To provide diversification, the Thrift Savings Plan offers options among three primary asset classes - cash equivalents, fixed income and equity. Participants also have access to target date retirement funds, which have allocations based on projected retirement age, and a brokerage window to purchase investments not offered by the Plan.

Participant Accounts

Each participant's account is credited with his or her contributions, and employer's matching contributions and earnings, if any, attributable to the investment funds in which his or her account is invested, including an allocation of administrative expenses. The benefit to which a participant is entitled is his or her vested account balance.

Additionally, each participant who is covered under the DCPF will have an individual account into which the employer's compensation credit will be deposited.

The Thrift Savings Plan is intended to be operated and administered as an ERISA Section 404(c) Plan which means that each participant controls and is responsible for the investment selection of his or her account. The Named Fiduciary Committee is responsible for the investment fund selections and the appointment of the investment fund managers. Each participant elects to invest in the funds available, and subject to the investment fund's restrictions, has the right to transfer his or her account balance from one fund to another and change asset allocations on future contributions. However, only employer matching contributions may be invested in the Consolidated Edison Stock Fund.

Payment of Benefits

Upon termination of employment for any reason, a participant's vested account balance, if less than or equal to $1,000, will be distributed to the participant or designated beneficiary as soon as practicable. However, if the value of a participant's vested account is greater than $1,000, the participant's account will not be distributed until the earlier of attainment of age 70.5 or when the participant elects to receive such distribution in accordance with the terms of the Thrift Savings Plan.

Notes Receivable from Participants

The Thrift Savings Plan permits a participant to borrow from his or her account, other than the defined contribution pension formula account ("DCPF Account"), upon the terms and conditions set forth in the Thrift Savings Plan. The minimum amount of any loan is $500. The maximum amount a participant may borrow is equal to the lesser of 50% of his or her vested balance or $50,000 reduced by any principal repaid during the 12 months before the new loan.

Repayment will be made by level payments and shall be made by payroll deductions. Loans are secured by a portion of the participant's vested Thrift Savings Plan account balance and bear a fixed rate of interest. These rates are commensurate with local prevailing rates [prime rate (3.25% at December 31, 2021) plus 0.5%].

Plan Termination

The Thrift Savings Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") but is not subject to the minimum funding requirements of ERISA, and benefits under the Thrift Savings Plan are not guaranteed by the Pension Benefit Guaranty Corporation. The Thrift Savings Plan covers both represented (union) employees and non-represented (management) employees. Although it has not expressed any intent to do so, solely as to the Management Employees, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. As to the union employees, in accordance with the Company's collective bargaining agreements, the Company must negotiate any action to discontinue or terminate the Thrift Savings Plan. In the event of termination of the Thrift Savings Plan, the rights of all participants to the entire amounts in their accounts become 100% vested and the Trustee

must distribute the assets to the participants and beneficiaries in accordance with the Thrift Savings Plan document.

2. Summary of Significant Accounting Policies

Accounting Basis

The Thrift Savings Plan's financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Thrift Savings Plan. The Plan's valuation policies and procedures are approved by management of the Plan Sponsor. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Thrift Savings Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions are recorded on an accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Investment expenses and fees associated with each fund's operational and transactional fees as reported in the prospectus or trust document of each fund are reflected in the net asset value of the respective funds. The Thrift Savings Plan has payables of $417,723 and $445,168 in administrative expenses for the years ended December 31, 2021 and 2020, respectively.

Subsequent Events

The Thrift Savings Plan has evaluated subsequent events through October 14, 2022, which is the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Thrift Savings Plan invests in investment securities that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

In early 2020, an outbreak of novel strain of coronavirus (COVID-19) emerged globally. As a result, events occurred domestically in the United States and globally, including mandates from federal, state and local authorities, that led to an overall decline in economic activity. Through October 14, 2022, the impact of COVID-19 has not had a material adverse effect on the financial performance of the Plan's investments. The Company will continue to monitor the effects of COVID-19 on the global financial market.

4. Transactions with Parties-in-Interest

The Thrift Savings Plan invests in a unitized stock fund, which consists of a short-term investment fund component and common shares of the ultimate parent of the Thrift Savings Plan Sponsor, CEI. The unit values of the Consolidated Edison Stock Fund are recorded and maintained by an affiliate of Vanguard, the Trustee of the Thrift Savings Plan. During the year ended December 31, 2021, the Thrift Savings Plan purchased units in the Consolidated Edison Stock Fund for approximately $3,500,000, sold units in the Consolidated Edison Stock Fund for approximately $7,600,000 and had a net appreciation in the fair value of the investments of approximately $9,100,000. During the year ended December 31, 2020, the Thrift Savings Plan purchased units in the Consolidated Edison Stock Fund for approximately $3,600,000, sold units in the Consolidated Edison Stock Fund for approximately $6,900,000 and had a net depreciation in the fair value of the investments of approximately $13,800,000. The total value

of the Thrift Savings Plan's investment in the Consolidated Edison Stock Fund was approximately $58,500,000 and $53,400,000 at December 31, 2021 and 2020, respectively.

5. Investment Contracts

The Thrift Savings Plan has entered into various benefit-responsive guaranteed investment contracts ("GICs") with various insurance companies and other financial institutions ("Issuers" or "Issuer") under the Fixed Income Fund investment option. There are two types of GICs within the Fixed Income Fund: Traditional GICs and Synthetic GICs.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	2021	2020
Synthetic investment contracts	$889,172,085	$931,730,795
Traditional investment contracts	31,480,975	26,458,022
Total	**$920,653,060**	**$958,188,817**

As described in Note 2, because the Traditional GICs and Synthetic GICs are fully benefit-responsive, contract value is the relevant measure for that portion of the net assets available for benefits attributable to the Traditional GICs and Synthetic GICs. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fixed Income Fund at contract value.

Traditional GICs

The Issuer of a Traditional GIC takes a deposit from the fund and purchases investments which are held in the respective Issuer's general account. The Issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Thrift Savings Plan.

Synthetic GICs

A Synthetic GIC is a wrap contract paired with an underlying investment or investments, usually a portfolio, owned by the Thrift Savings Plan, of high-quality, short and intermediate term fixed income securities. The Thrift Savings Plan purchases a benefit-responsive wrap agreement from a financial services institution. Synthetic GICs provide for a variable crediting rate, which typically resets at least quarterly, and the Issuer of the wrapper contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation.

The terms of an investment contract generally provide for settlement of benefit payments at contract value for qualified participant activity. Contract termination also may occur by either party upon election and notice.

Certain events limit the ability of the Thrift Savings Plan to transact at contract value with the Issuers. Such events include, but are not limited to, the following: (i) amendments to the Thrift Savings Plan documents (including complete or partial Plan termination or merger with another plan), (ii) changes to the Thrift Savings Plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Thrift Savings Plan's ability to transact at contract value with participants, is probable.

There are no reserves against contract value for credit risk of the contract Issuer or otherwise.

6. Investments

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation

techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investment Valuation

Following is a description of the valuation methodologies used for assets at fair value. There have been no material changes in the methodologies used at December 31, 2021 and 2020.

Common collective trusts: Valued at the net asset value ("NAV") of units of a bank collective trust. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks: Common stock shares are valued at the last reported sales price on the last business day of the year as reported on the New York Stock Exchange.

Self-directed brokerage accounts: Consist of mutual funds and common stocks that are valued on the basis noted above.

The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Thrift Savings Plan's assets at the fair value as of December 31, 2021:

	Fair Value Measurements at December 31, 2021		
Asset Category	**Total**	**Level I**	**Level II**
Mutual funds	$648,490,100	$648,490,100	$ -
Consolidated Edison common stock	58,518,351	58,518,351	-
Self-directed brokerage accounts	139,746,925	139,746,925	-
Common collective trusts	3,890,292,435	-	3,890,292,435
Total investments at fair value	**$4,737,047,811**	**$846,755,376**	**$3,890,292,435**

The following table sets forth by level, within the fair value hierarchy, the Thrift Savings Plan's assets at the fair value as of December 31, 2020:

	Fair Value Measurements at December 31, 2020		
Asset Category	**Total**	**Level I**	**Level II**
Mutual funds	$567,854,289	$567,854,289	$ -
Consolidated Edison common stock	53,427,149	53,427,149	-
Self-directed brokerage accounts	108,054,198	108,054,198	-
Common collective trusts	3,300,460,869	-	3,300,460,869
Total investments at fair value	**$4,029,796,505**	**$729,335,636**	**$3,300,460,869**

There were no transfers in/out of level 3 during 2021.

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statements of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

7. Forfeitures

As provided in the Thrift Savings Plan, forfeitures of a participant's employer matching contribution and earnings thereon during any calendar month are applied as an offset to future employer contributions payable. The forfeitures account balances as of December 31, 2021 and 2020 were approximately $1,379,000 and $328,000, respectively. Employer contributions were reduced by approximately $1,676,000 and $1,096,000 for 2021 and 2020, respectively, from forfeited non-vested accounts.

8. Tax Status

IRS has determined and informed CECONY by a letter dated December 5, 2017 that the Thrift Savings Plan and related trust are designed in accordance with applicable sections of the Code. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Independent Auditor's Report

To the Plan Administrator
The Consolidated Edison Thrift Savings Plan

Opinion

We have audited the financial statements of The Consolidated Edison Thrift Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2021 and 2020, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2021 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and is derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Thrift Savings Plan

The following description of The Consolidated Edison Thrift Savings Plan (the "Thrift Savings Plan") provides only general information. Participants should refer to the Thrift Savings Plan document for a more complete description of the Thrift Savings Plan's provisions.

General

The Thrift Savings Plan is a defined contribution plan. Other than a small number of employees in certain unregulated affiliated companies, all full-time and part-time eligible collectively bargained and non-collectively bargained employees in the Consolidated Edison, Inc. ("CEI") Controlled Group are eligible to participate. The eligible groups are the employees on the management payroll of Consolidated Edison Company of New York, Inc. ("CECONY Management Employees"), employees on the management payroll of Orange and Rockland Utilities, Inc. ("O&R Management Employees"), employees on the payroll of Con Edison Clean Energy Business, Inc. ("CEB Employees"), employees on the payroll of Con Edison Transmission, Inc. ("CET Employees"), weekly employees who are members of Local 1-2, Utility Workers Union of America, AFL-CIO ("Local 1-2" or "CECONY Weekly Employees"), or Local 3, International Brotherhood of Electrical Workers, AFL-CIO ("Local 3" or "CECONY Weekly Employees"), O&R hourly employees who are members of Local 503, International Brotherhood of Electrical Workers, and AFL-CIO ("O&R Hourly Employees"). Once each eligible employee in an eligible group meets the service requirement, if any, he or she is referred to as a participant.

Thrift Savings Plan Administration

Vanguard Fiduciary Trust Company ("Vanguard" or the "Trustee") is the recordkeeper and trustee for the Thrift Savings Plan. Vanguard, Fidelity Institutional Asset Management, Transamerica Asset Management, Inc. and Western Asset Management Company, LLC serve as investment managers for the Thrift Savings Plan.

Contributions

Pursuant to Sections 401(k) and (m) of the Internal Revenue Code of 1986, as amended (the "Code"), the Thrift Savings Plan permits participants to invest a portion of their compensation on a pre-tax basis and/or after-tax basis. CECONY Management, O&R Management, CET, CEB, Local 1-2 participants, Local 3 participants, and O&R Hourly Employees may also contribute to the Plan on a Roth 401(k) after-tax basis. The contributions to the Thrift Savings Plan are held in a trust fund maintained by the Trustee. The Trustee maintains a separate account for each participant that is updated daily.

Participants may contribute rolled over amounts representing distributions from other qualified defined benefit or defined contribution plans. Each participant who has attained age

50 before the end of Plan year is eligible to make a catch-up contribution, which is a pre-tax contribution to the Thrift Savings Plan that exceeds the otherwise annual pre-tax dollar limit.

Beginning in July 2013, CECONY and O&R have adopted a defined contribution pension formula ("DCPF") that provides an employer compensation credit to a participant in an amount based on a point system. Based on an employee's age and years of credited service, he or she receives a credit between 4% and 7% of his or her compensation. Employees who are covered under the DCPF and whose compensation exceeds the annual social security taxable wage base receive an additional flat 4% compensation credit on the excess compensation.

CECONY Management, O&R Management, CET, and CEB Employees under the Code Section 401(k) Formula: Each CECONY Management, O&R Management, CET, and CEB. Employee may choose to contribute from 1% to 50% of his or her regular compensation. CECONY Management, O&R Management, CET and CEB Employees who are covered under the career average or final average pension formulas in the Consolidated Edison Retirement Plan ("Retirement Plan") receive a match of up to 3% of compensation (50% match on up to 6% of employee contributions). CECONY Management, O&R Management, CET and CEB Employees who are covered under the cash balance pension formula in the Retirement Plan or the defined contribution pension plan in the Thrift Savings Plan, receive an employer matching contribution of up to 6% of compensation (100% on the first 4% of employee contributions, plus an additional 50% on the next 4% of employee contributions).

Local 1-2 Participants: Effective January 1, 2018, Local 1-2 employee contributions will be based on a percentage of the employee's straight-time pay, including premium pay. Each employee may contribute up to, but no more than, 50% of his or her straight-time pay. Local 1-2 participants who are covered under the cash balance pension formula of the Retirement Plan or the DCPF (see below) receive an employer matching contribution equal to 100% of the Participating Contributions on the first 6% of their contributions subject to contractual weekly and annual maximums. For employees covered under the final average pay formula in the Retirement Plan, the Company's match is 50% of the Participating Contributions made by the participant on the first 6% of their contributions. Refer to the Local 1-2 Collective Bargaining Agreement for a more complete description of the Plan's provisions.

Local 3 Participants: Effective January 1, 2018, Local 3 employee contributions will be based on a percentage of the employee's gross pay. Each employee may contribute a minimum of 1% up to a maximum of 50% of his or her gross pay. Local 3 participants who are covered under the cash balance pension formula of the Retirement Plan receive an employer matching contribution equal to 75% of the Participating Contributions made by the participant on the first 6% of their contributions subject to contractual weekly and annual maximums. For employees covered under the final average pay formula in the Retirement Plan, the Company's match is 50% of the Participating Contributions made by the participant on the first 6% of their contributions subject to contractual weekly and annual maximums. The Company match is 100% of Participating Contributions for participants covered under the

DCPF (see below) on the first 6% of their contributions subject to contractual weekly and annual maximums. Refer to the Local 3 Collective Bargaining Agreement for a more complete description of the Plan's provisions.

O&R Hourly Participants: An O&R Hourly participant can contribute from 2% to 50% of his or her regular compensation, of which the first 6% receives a 50% employer matching contribution. O&R Hourly Participants covered under the cash balance pension formula of the Retirement Plan and the DCPF (see below) can contribute from 2% to 50% of his or her regular compensation, of which the first 4% receives a 100% employer matching contribution. Refer to the O&R Hourly Collective Bargaining Agreement for a more complete description of the Plan's provisions.

Direct Contribution Formula: Certain CEB Employees are covered under a Direct Contribution formula (DCF). These participants are not covered by the Retirement Plan or the DCPF. Instead, the Company will contribute to the Thrift Savings Plan, each pay period, an amount equal to 3% of compensation on behalf of each participant.

Defined Contribution Pension Formula: Certain Local 3, Local 1-2 and Local 503 Employees are covered under the DCPF. These participants are not covered by the Retirement Plan. Instead, the Company will contribute to the Thrift Savings Plan, at the end of each calendar quarter, an amount equal to a compensation credit that is based on a participant's age and service and that ranges from 4% to 7% of compensation on behalf of each participant.

Beginning January 1, 2017, each full-time and some part-time employees hired by and on the management payroll of CECONY, O&R, or CET ("Management Employee") are automatically covered under the DCPF.

Additionally, on or after July 1, 2017, each Management Employee and Local 1-2 who is covered under the cash balance pension formula in the Retirement Plan ("Cash Balance Participant") is given a "Pension Choice," as here explained. A Pension Choice means that for a certain period, each Cash Balance Participant has a choice between remaining in the Retirement Plan for future pension accruals or transferring out of the Retirement Plan and into the DCPF in the Thrift Savings Plan for future accruals. The window for Local 1-2 to switch closed on June 20, 2020. The window for management employees to switch is scheduled to close on December 31, 2021. O&R Hourly Participants have a Pension Choice period that began June 2020 and will end on May 31, 2023. Members have a choice to begin participation in the DCPF beginning with the first quarter following their Pension Choice election. Those who do not exercise a choice during this period will remain covered under the cash balance pension formula in the Retirement Plan.

Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Employee Stock Ownership Plan ("ESOP")

The Thrift Savings Plan provides for a separate Employee Stock Ownership Plan ("ESOP") and a separate ESOP Trust Fund, which are components within the Thrift Savings Plan's Trust Fund. Each participant who receives an employer contribution is eligible to participate in the ESOP. Only employer matching contributions and dividends issued on shares held in the ESOP Trust Fund will be contributed to the ESOP. Participants are permitted to transfer assets from their ESOP accounts to their Thrift Savings Plan accounts. Employer contributions made into the DCPF may not be invested in the ESOP.

Vesting

Pre-tax, after-tax, and Roth 401(k) after-tax contributions by participants and earnings on such contributions are 100% vested at all times. CEI Employees, with the exception of Local 503 employees who are immediately vested in both 401(k) employer and DCPF contributions, become 100% vested in employer's contributions and earnings thereon after completing three years of service. Participants who have less than three years of service become fully vested for all employer contributions and earnings upon reaching age 65, termination of employment due to retirement or death, or termination of employment for reasons other than cause. Participants who terminate employment voluntarily other than by reason of retirement, or who are terminated for cause, forfeit the non-vested portion of employer contributions and the earnings (see Note 7, "Forfeitures"). O&R Hourly Employees and O&R Management Employees are immediately 100% vested in employer's matching contributions and earnings.

Each participant covered under the DCPF becomes 100% vested in employer's contributions and earnings thereon after completing three years of service.

Diversification

To provide diversification, the Thrift Savings Plan offers options among three primary asset classes - cash equivalents, fixed income and equity. Participants also have access to target date retirement funds, which have allocations based on projected retirement age, and a brokerage window to purchase investments not offered by the Plan.

Participant Accounts

Each participant's account is credited with his or her contributions, and employer's matching contributions and earnings, if any, attributable to the investment funds in which his or her account is invested, including an allocation of administrative expenses. The benefit to which a participant is entitled is his or her vested account balance.

Additionally, each participant who is covered under the DCPF will have an individual account into which the employer's compensation credit will be deposited.

The Thrift Savings Plan is intended to be operated and administered as an ERISA Section 404(c) Plan which means that each participant controls and is responsible for the investment selection of his or her account. The Named Fiduciary Committee is responsible for the investment fund selections and the appointment of the investment fund managers. Each participant elects to invest in the funds available, and subject to the investment fund's restrictions, has the right to transfer his or her account balance from one fund to another and change asset allocations on future contributions. However, only employer matching contributions may be invested in the Consolidated Edison Stock Fund.

Payment of Benefits

Upon termination of employment for any reason, a participant's vested account balance, if less than or equal to $1,000, will be distributed to the participant or designated beneficiary as soon as practicable. However, if the value of a participant's vested account is greater than $1,000, the participant's account will not be distributed until the earlier of attainment of age 70.5 or when the participant elects to receive such distribution in accordance with the terms of the Thrift Savings Plan.

Notes Receivable from Participants

The Thrift Savings Plan permits a participant to borrow from his or her account, other than the defined contribution pension formula account ("DCPF Account"), upon the terms and conditions set forth in the Thrift Savings Plan. The minimum amount of any loan is $500. The maximum amount a participant may borrow is equal to the lesser of 50% of his or her vested balance or $50,000 reduced by any principal repaid during the 12 months before the new loan.

Repayment will be made by level payments and shall be made by payroll deductions. Loans are secured by a portion of the participant's vested Thrift Savings Plan account balance and bear a fixed rate of interest. These rates are commensurate with local prevailing rates [prime rate (3.25% at December 31, 2021) plus 0.5%].

Plan Termination

The Thrift Savings Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") but is not subject to the minimum funding requirements of ERISA, and benefits under the Thrift Savings Plan are not guaranteed by the Pension Benefit Guaranty Corporation. The Thrift Savings Plan covers both represented (union) employees and non-represented (management) employees. Although it has not expressed any intent to do so, solely as to the Management Employees, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. As to the union employees, in accordance with the Company's collective bargaining agreements, the Company must negotiate any action to discontinue or terminate the Thrift Savings Plan. In the event of termination of the Thrift Savings Plan, the rights of all participants to the entire amounts in their accounts become 100% vested and the Trustee

must distribute the assets to the participants and beneficiaries in accordance with the Thrift Savings Plan document.

2. Summary of Significant Accounting Policies

Accounting Basis

The Thrift Savings Plan's financial statements are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Thrift Savings Plan. The Plan's valuation policies and procedures are approved by management of the Plan Sponsor. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Thrift Savings Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions are recorded on an accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 and 2020.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Investment expenses and fees associated with each fund's operational and transactional fees as reported in the prospectus or trust document of each fund are reflected in the net asset value of the respective funds. The Thrift Savings Plan has payables of $417,723 and $445,168 in administrative expenses for the years ended December 31, 2021 and 2020, respectively.

Subsequent Events

The Thrift Savings Plan has evaluated subsequent events through October 14, 2022, which is the date the financial statements were available to be issued.

3. Risks and Uncertainties

The Thrift Savings Plan invests in investment securities that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

In early 2020, an outbreak of novel strain of coronavirus (COVID-19) emerged globally. As a result, events occurred domestically in the United States and globally, including mandates from federal, state and local authorities, that led to an overall decline in economic activity. Through October 14, 2022, the impact of COVID-19 has not had a material adverse effect on the financial performance of the Plan's investments. The Company will continue to monitor the effects of COVID-19 on the global financial market.

4. Transactions with Parties-in-Interest

The Thrift Savings Plan invests in a unitized stock fund, which consists of a short-term investment fund component and common shares of the ultimate parent of the Thrift Savings Plan Sponsor, CEI. The unit values of the Consolidated Edison Stock Fund are recorded and maintained by an affiliate of Vanguard, the Trustee of the Thrift Savings Plan. During the year ended December 31, 2021, the Thrift Savings Plan purchased units in the Consolidated Edison Stock Fund for approximately $3,500,000, sold units in the Consolidated Edison Stock Fund for approximately $7,600,000 and had a net appreciation in the fair value of the investments of approximately $9,100,000. During the year ended December 31, 2020, the Thrift Savings Plan purchased units in the Consolidated Edison Stock Fund for approximately $3,600,000, sold units in the Consolidated Edison Stock Fund for approximately $6,900,000 and had a net depreciation in the fair value of the investments of approximately $13,800,000. The total value

of the Thrift Savings Plan's investment in the Consolidated Edison Stock Fund was approximately $58,500,000 and $53,400,000 at December 31, 2021 and 2020, respectively.

5. Investment Contracts

The Thrift Savings Plan has entered into various benefit-responsive guaranteed investment contracts ("GICs") with various insurance companies and other financial institutions ("Issuers" or "Issuer") under the Fixed Income Fund investment option. There are two types of GICs within the Fixed Income Fund: Traditional GICs and Synthetic GICs.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	2021	2020
Synthetic investment contracts	$889,172,085	$931,730,795
Traditional investment contracts	31,480,975	26,458,022
Total	**$920,653,060**	**$958,188,817**

As described in Note 2, because the Traditional GICs and Synthetic GICs are fully benefit-responsive, contract value is the relevant measure for that portion of the net assets available for benefits attributable to the Traditional GICs and Synthetic GICs. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Fixed Income Fund at contract value.

Traditional GICs

The Issuer of a Traditional GIC takes a deposit from the fund and purchases investments which are held in the respective Issuer's general account. The Issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Thrift Savings Plan.

Synthetic GICs

A Synthetic GIC is a wrap contract paired with an underlying investment or investments, usually a portfolio, owned by the Thrift Savings Plan, of high-quality, short and intermediate term fixed income securities. The Thrift Savings Plan purchases a benefit-responsive wrap agreement from a financial services institution. Synthetic GICs provide for a variable crediting rate, which typically resets at least quarterly, and the Issuer of the wrapper contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation.

The terms of an investment contract generally provide for settlement of benefit payments at contract value for qualified participant activity. Contract termination also may occur by either party upon election and notice.

Certain events limit the ability of the Thrift Savings Plan to transact at contract value with the Issuers. Such events include, but are not limited to, the following: (i) amendments to the Thrift Savings Plan documents (including complete or partial Plan termination or merger with another plan), (ii) changes to the Thrift Savings Plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Thrift Savings Plan's ability to transact at contract value with participants, is probable.

There are no reserves against contract value for credit risk of the contract Issuer or otherwise.

6. Investments

Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation

techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investment Valuation

Following is a description of the valuation methodologies used for assets at fair value. There have been no material changes in the methodologies used at December 31, 2021 and 2020.

Common collective trusts: Valued at the net asset value ("NAV") of units of a bank collective trust. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks: Common stock shares are valued at the last reported sales price on the last business day of the year as reported on the New York Stock Exchange.

Self-directed brokerage accounts: Consist of mutual funds and common stocks that are valued on the basis noted above.

The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Thrift Savings Plan's assets at the fair value as of December 31, 2021:

	Fair Value Measurements at December 31, 2021		
Asset Category	**Total**	**Level I**	**Level II**
Mutual funds	$648,490,100	$648,490,100	$ -

Total investments at fair value	**$4,737,047,811**	**$846,755,376**	**$3,890,292,435**

The following table sets forth by level, within the fair value hierarchy, the Thrift Savings Plan's assets at the fair value as of December 31, 2020:

	Fair Value Measurements at December 31, 2020

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statements of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

7. Forfeitures

As provided in the Thrift Savings Plan, forfeitures of a participant's employer matching contribution and earnings thereon during any calendar month are applied as an offset to future employer contributions payable. The forfeitures account balances as of December 31, 2021 and 2020 were approximately $1,379,000 and $328,000, respectively. Employer contributions were reduced by approximately $1,676,000 and $1,096,000 for 2021 and 2020, respectively, from forfeited non-vested accounts.

8. Tax Status

IRS has determined and informed CECONY by a letter dated December 5, 2017 that the Thrift Savings Plan and related trust are designed in accordance with applicable sections of the Code. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
