Report of Independent Auditors

To the Participants and Administrator of
The California Commerce Club, Inc. Retirement Savings Plan:

We were engaged to audit the financial statements and supplemental schedule of the California Commerce Club, Inc. Retirement Savings Plan (the "Plan") at December 31, 2010 and 2009, and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 2 to the financial statements, the Plan has changed the manner of presentation of notes receivable from participants.

1. Plan Description

The following description of the California Commerce Club, Inc. Retirement Savings Plan (the "Plan") provides general information only. Participants should refer to the Plan agreement (the "Agreement") for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of California Commerce Club, Inc. (the "Company" or the "Plan Sponsor"), as defined below. The Company also acts as Plan Administrator. The Plan is designed to qualify under Section 401(k) of the Internal Revenue Code (the "Code"), as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Custodian and Record Keeper of the Plan is Principal Life Insurance Company ("Principal").

Investment Options

The Plan's investments consist of various investment funds. Plan assets are invested in twenty-three pooled separate accounts, guaranteed interest accounts, and mutual funds as directed by the Plan participants.

Eligibility

All Company employees who have completed one year of eligible service and are at least 21 years of age are eligible to participate in the Plan.

Contributions

Each participant is eligible to contribute up to 40% of their compensation subject to certain limits established by the Internal Revenue Service ($16,500 plus up to $5,500 in catch up contributions for participants over 50 for 2010 and 2009). The amount of matching contributions made by the Company on behalf of participants is determined annually at the discretion of the Company.

For the years ended December 31, 2010 and 2009, the Company matched approximately 50% of each eligible employee's contributions, up to a maximum of 5% of the participant's wages.

The Company's contribution is funded on an annual basis, after the close of the Plan year. The allocation of the Company's matching contribution by investment option is at the discretion of the participant.

Participant Accounts

Each participant's account is credited with the participant's contributions, contributions by the Company and an allocation of net earnings or losses of the selected investment, less transaction processing and investment management expenses. Allocations of net earnings or losses are based on the participant's account balance to the total of account balances of all participants within the selected investment.

Vesting
Participants are immediately fully vested in their contributions and the earnings thereon. Participants become fully vested in employer contributions over six years of service with the Company, as follows:

Years of Service	Percent Vested
Less than 2	0%
More than 2, less than 3	20%
More than 3, less than 4	40%
More than 4, less than 5	60%
More than 5, less than 6	80%
6 or more	100%

Payment of Benefits
Upon termination of service, participants with a vested account value in the Plan of more than $5,000 may elect to receive either a lump-sum amount equal to the value of their account or periodic installments, or may defer distribution until retirement, as defined in the Agreement. Employees choosing to defer their distribution continue to participate in investment gains and losses, but are no longer eligible for matching contributions by the Company. Terminated employees with a vested account value in the Plan between $1,000 and $5,000 may receive benefits in a lump sum distribution or may roll over benefits to an Individual Retirement Account with an affiliate of Principal Life Insurance Company. Terminated employees with a vested account value in the Plan of $1,000 or less may receive benefits only in a lump-sum distribution.

Forfeitures
Upon termination of service, a participant forfeits any non-vested employer matching contributions and earnings thereon. Such forfeitures are used to reduce future contributions by the Company. At December 31, 2010 and 2009 forfeited non-vested accounts totaled $5,000 and $0 respectively.

Notes Receivable from Participants (Participant loans)
After one year of participation in the Plan, participants may apply for a loan from the Plan. A loan made to a Plan participant shall be in an amount that is not less than $1,000 and not more than 50% of the vested interest in the participant's account not to exceed $50,000. Loans bear interest at a rate of prime plus 1/2% and are collateralized by the borrower's assignment of rights to their available account, as acknowledged by a promissory note. Repayments are generally made over a maximum five-year period. Loans made for the purchase, major repair or renovation of a primary residence may exceed the five-year repayment terms. All loans immediately become due and payable upon death or termination of employment by the participant.

Administrative Expenses
Most Plan costs and expenses, excluding brokerage fees, adjust an investment's net asset value used to value participant accounts. Member initiated expenses, including those that relate to withdrawal charges/fees, loan expense, and member requested services are paid directly by plan participants and amounted to $70,800. Brokerage fees are paid by the Company and amounted to $31,500 for the year ended December 31, 2010.

Plan Terminations
Although the Company has not expressed any intent to do so, it has the right, under the Agreement, to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their individual account, including the employer contributions.

New Accounting Pronouncements
In June 2009, new accounting guidance was issued which established the FASB Accounting Standards Codification as the single source of authoritative US GAAP. Adoption of this guidance during the year ended December 31, 2009 changed the way we reference accounting standards and did not have a material impact on our financial statements.

In May 2009, new accounting guidance was issued which established principles and requirements for reports events or transactions occurring after the balance sheet date. The guidance requires the Plan to disclose the date through which subsequent events have been evaluated and whether it is the date the financial statements are issued. Adoption of this new guidance for the year ended December 31, 2010 did not have a material impact on our financial statements.

In January 2010, the FASB issued "Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements" which requires new disclosures about transfers in and out of Levels 1 and 2 of the fair value hierarchy and more detailed information about the activity in Level 3 fair value measurements. To improve the degree of disaggregation in disclosures of the fair values of assets, the update changed the previous terminology from major categories of assets to classes of assets. Disclosure of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements are now required for fair value measurements that fall into either Level 2 or Level 3. For the Plan, the update became effective in January 2010, except the new Level 3 activity disclosures, which will be effective prospectively beginning in January 2011. The new Level 3 activity disclosure requirement is not expected to have a material impact on the disclosures of the Plan.

2. Summary of Significant Accounting Policies

Method of Presentation
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Accordingly, income is recognized when earned, and expenses are recorded when incurred.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting periods. Actual results could differ from those estimates.

Investment Valuation
The Guaranteed Interest Account is stated at fair value. Fair value represents accumulated contributions plus earnings, less participant withdrawals and administrative expenses, adjusted for current market interest rates. The account pays a fixed rate of interest per the contract which changes periodically at the discretion of the Custodian.

The interest rates paid on the Guaranteed Interest Accounts ranged from 1.65% to 4.70% as of December 31, 2010, and from 2.09% to 4.70% as of December 31, 2009. The Plan earned an average yield on these accounts of 3.55% and 3.88% for the years ended December 31, 2010 and 2009, respectively.

Investments in the pooled separate accounts (the "Funds") are carried at net asset values per unit of participation as determined by Principal, which represents an undivided interest in the underlying assets of the Funds. The purchase or redemption price of the units is determined based on the current market values of the underlying assets of the Funds. Net asset value is the fair value based on quoted market prices in an active market for the underlying assets, plus accrued dividend income and interest income. The value per unit is determined by dividing the net asset value by the number of units outstanding. Mutual funds are valued at the net asset value of the shares held by the Plan at year end.

The following is the stated method of arriving at net asset values of the underlying assets in the Funds:

- Investments in common stock and preferred stock traded on national securities exchanges are valued at year-end closing prices and, in the case of over-the-counter securities, at closing bid prices on December 31.

- Investments in publicly traded bonds are valued at the average of year-end closing bid prices obtained from several investment brokers.

- Investments in privately placed debt securities are valued by a valuation committee of the investment pool management company.

- Open futures contracts held by the pools are valued at the market value of the contract at the end of trading on the final trading day of the year.

Net Appreciation (Depreciation) in Fair Value
The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Interest Income
Interest income is accrued as earned.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan Document.

Concentration of Credit Risk
Each investment fund is diversified through a portfolio containing a wide variety of investments that fit the particular investment strategy and targeted composition. Further diversification is available to participants through participation in more than one fund. The quality of investments held in the fund portfolio reflects the expertise of the fund sponsor and fund managers.

The Guaranteed Interest Account consists of a series of group annuity contracts negotiated with the Custodian. The ultimate performance of the contracts is dependent upon the ability of the issuer to honor them.

Reclassification
Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) no. 2010-25 in September 2010, which stipulates that participant loans should be classified as notes receivable and measured at their unpaid principal balance plus any accrued but unpaid interest for years ending after December 15, 2010. The guidance in this ASU is to be applied retrospectively. Accordingly, participant loans previously included in investments of the Plan at December 31, 2009 have been reclassified in the statements of net assets available for benefits to conform to the current year presentation.

Subsequent Events
The plan has evaluated subsequent events through October 11, 2011, the date the financial statements were available to be issued.

3. Investments

The following are individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2010 and 2009:

	2010	2009
Pooled separate accounts		
Principal Money Market Separate Account	$ 13,188,548	$ 13,160,835
Principal Large Cap Stock Index Separate Account	$ 6,942,474	$ 5,858,267
Principal International Small Cap Separate Account	$ 5,409,832	$ 4,535,873
Unallocated interest contracts		
Principal Guaranteed Interest Account	$ 9,932,595	$ 9,438,111
Mutual funds		
PIMCO Total Retum A Fund	$ 3,941,646	*

*Under 5% of the Plan's net assets for the respective year.

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $6,640,537 as follows:

	2010
Pooled separate accounts	$ 4,897,823
Mutual funds	1,724,929
Unallocated insurance contracts	17,785
	$ 6,640,537

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques

used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to their fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Separate accounts: Valued at the net asset value (NAV) per unit of participation as determined by Principal.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed interest contract: Valued at fair value based on the amount participants would receive at year end if they were to withdraw or transfer funds prior to their maturity. This represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceeds crediting rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The separate accounts, mutual funds and interest contract are eligible for redemption on a daily basis, pending market conditions with trade settlement occurring within 1 to 3 days of the initiation of the trade. There are no other trading restrictions or commitments to purchase specific investments in the future.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

5. Information Certified by the Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Custodian of the Plan, except for comparing such information to the related information included in the financial statement footnotes and supplemental schedule. The Plan Administrator has obtained a certification from the Custodian that the information provided to the Plan Administrator by the Custodian is complete and accurate. Such information includes:

- Investments, at fair value on December 31, 2010 and 2009, $68,596,115 and $59,975,563, respectively
- Net appreciation in fair value of investments, $6,640,537
- Interest and dividend income, $776,719

6. Party-in-Interest Transactions

Certain investments of the Plan are shares of pooled separate accounts and unallocated insurance contracts managed by Principal. Principal is the Custodian and Record Keeper, as defined by the Plan, and therefore, transactions involving such investments are considered exempt party-in-interest transactions.

7. Tax Status

The Plan Sponsor has not filed for a determination letter from the Internal Revenue Service, but is utilizing a non-standardized prototype plan developed by Principal Life Insurance Company

which has received a determination letter dated March 31, 2008. Although the Plan has been amended since, the Plan Sponsor and its legal counsel believe that the Plan, as currently designed, is being operated in compliance with the requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes that it is no longer subject to income tax examinations for years prior to December 31, 2007.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades.
