Report of Independent Public Accountants

To the Administrator
401(k) Savings Plan of Ensign-Bickford Industries, Inc.

We were engaged to audit the accompanying statements of net assets available for benefits of the 401(k) Savings Plan of Ensign-Bickford Industries, Inc. as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule - Schedule H, Line 4i - schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by T. Rowe Price Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

401(k) SAVINGS PLAN OF ENSIGN-BICKFORD INDUSTRIES, INC.

NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2010 and 2009

1. DESCRIPTION OF THE PLAN

The following description of the 401(k) Savings Plan of Ensign-Bickford Industries, Inc. (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General—The Plan is a defined contribution plan covering all eligible salaried and hourly employees of Ensign-Bickford Industries, Inc. and subsidiaries (the "Company") who elect to participate. The Incentive Savings Plan 401(k) Administrative Committee of the Company controls and manages the operation and administration of the Plan. T. Rowe Price Trust Company serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Any new employee who qualifies for participation will automatically be enrolled into the Plan at a 6% deferral rate. Participants have the right to decline participation into the Plan and to change their deferral rate (higher or lower) at any time.

Contributions—Eligible participants can elect to make pre-tax and after-tax contributions to the Plan in an amount not to exceed 50% of their compensation, subject to certain Internal Revenue Code (the "IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans based on the approval of the administrative committee of the Company. The Company makes a safe harbor match contribution equal to 100% of the first 3% contributed by employees and 50% of the next 3% to all eligible participants who have completed six months of service. The Company also makes an additional core contribution of 2% to 7% of eligible compensation based on age and years of service, for eligible non-union employees who have attained age 21, have completed one year of service, and are employed on the last day of the year. Participants may also contribute amounts from other qualified plans. Contributions are subject to certain limitations.

Participants' Accounts—Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's matching contributions, the Company's core contributions, and investment earnings, and charged with withdrawals, investment losses, and an allocation of administrative expenses. The benefit to which a participant is entitled is the participant's vested balance.

Investments—All investments are participant directed. The Plan provides twenty three investment options into which participants may direct their contributions and any Company contributions. The Plan currently offers a variety of mutual funds and a common collective trust as investment options for participants. Contributions may be allocated to one or more of these investment options. Participants in the Plan may change their investment election or transfer their account balance between funds at any time.

Vesting—Participant contributions, Company matching contributions, and all investment earnings and losses are immediately vested. The Company's core contributions are fully vested after three years of service. In the event of termination due to death, total and permanent disability or retirement (attainment of age 65), participants shall become 100% vested in the Company's core contributions.

Notes Receivable from Participants—Participants may borrow from their fund accounts up to the lesser of $50,000 or 50% of their vested account balance. The minimum amount a participant may borrow is $1,000. Notes must generally be repaid within five years; however, residential notes may be repaid over a period of up to 20 years. The notes are secured by the balance in the participant's account and bear interest at 1% above the prime borrowing rate at the time funds are borrowed. Interest rates range from 4.25% to 9.50% as of December 31, 2010. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits—Participants or their beneficiaries are entitled to receive the entire amount of their vested interest in the Plan upon retirement, death, disability, employment termination, reaching age 59-1/2, or qualifying for a "Hardship Distribution", as defined in the Plan. Upon termination of service, a participant may elect to defer benefit payments until a date no later than age 70 1/2 or may elect to receive the balance in their account in a single lump-sum payment.

Forfeitures—At December 31, 2010 and 2009, forfeited non-vested accounts totaled $23,395 and $11,660, respectively. Forfeitures can be used to reduce future Company contributions. In 2010 and 2009, there were no forfeitures used to reduce employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Stable Value Common Trust Fund, a common collective trust. The statements of net assets available for benefits present the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition—Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation in fair value for each type of investment held by the Plan, which includes dividends, gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

***Payment of Benefits*—**Benefit payments are recorded upon distribution.

***Notes receivable from Participants*—**Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses—Most usual and reasonable expenses incurred in administering the Plan are paid by the Company. Any expenses not paid by the Company are paid by the Plan. In addition, personnel and facilities of the Company used by the Plan for its accounting and other activities are provided at no charge to the Plan. Investment expenses paid out of the Plan are offset against investment income.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the period. Actual results could differ from those estimates.

***Reclassifications*—**Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

Subsequent Events—The Plan has evaluated events and transactions for potential recognition or disclosure through October 6, 2011, which is the date the financial statements were available to be issued.

3. TAX STATUS

The Internal Revenue Service (the "IRS") has determined and informed the Company by a letter dated December 15, 2009, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

4. PLAN TERMINATION

Although the Company expects to continue the Plan indefinitely, it reserves the right to terminate or partially terminate the Plan at any time. Upon termination or partial termination of the Plan, all amounts credited to the accounts shall be fully vested and will be fully distributed to the affected participants.

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

During the years ended December 31, 2010 and 2009, there were transactions involving the investment of Plan assets in investment funds managed by the T. Rowe Price Trust Company, the Plan trustee. The Plan trustee is a party-in-interest, as defined in Section 3(14) of ERISA. The aggregate market value of investment funds managed by the Plan trustee at December 31, 2010 and 2009 was $60,162,830 and $47,462,534, respectively. The investment income for the investments managed by the Plan trustee for the years ended December 31, 2010 and 2009 totaled $6,983,347 and $10,531,277, respectively. No fees were paid by the Plan for investment management services in either 2010 or 2009. Certain officers and/or employees of the Company perform certain administrative functions for the Plan. These officers and/or employees may also be participants in the Plan. The Plan also allows participants to take loans against their account balances, which also qualify as exempt party-in-interest transactions.

6. FAIR VALUE MEASUREMENTS

The fair value framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds are valued at the net asset value of shares held by the Plan at year-end using market prices on active markets (Level 1).

The Plan's interest in the common collective trust is valued based on the information reported by the Plan trustee using the audited financial statements of the trust at year-end. The common collective trust is valued at the Plan's proportionate share of the trust's net asset value reflecting all investments at fair value, including investments in fully benefit-responsive investment contracts. The fair value of investment contracts of the common collective trust is determined by discounting the scheduled future payments required under the contract using an interpolated market rate for contracts with maturities comparable to the average remaining life of the contract being valued. For assets other than investment contracts, fair value is determined by using market prices traded in over-the-counter markets or furnished by dealers who make markets in such securities. Investments in the common collective trust are designated as a (Level 2) instrument.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, the Plan's assets at fair value as of December 31, 2010 and 2009:

2010	Level 1	Level 2	Level 3	Total

Totals	$ 69,999,609	$ 55,171,057

* Investments represent less than five percent of the Plan's net assets available for benefits.

10. RISKS AND UNCERTAINTIES

The Plan invests in registered investment companies and a common collective trust which invest in various securities including U.S. Government securities, corporate debt instruments, and corporate stocks, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with these securities, it is reasonably possible that changes in the values of investments will occur in the near-term and that such changes could materially affect the amounts reported in the financial statements.

11. SUBSEQUENT EVENT

On August 20, 2010, the Company acquired EnviroLogix Inc. and, effective December 31, 2010, the EnviroLogix Inc. 401(k) Plan and all of its assets were merged into the Plan. Therefore, as of December 31, 2010, a receivable has been recorded for the transfer from the EnviroLogix Inc. 401(k) Plan. The funds were transferred into the Plan on January 5, 2011.

Effective January 1, 2011, participants represented by the United Auto Workers Union, Local 282 will become eligible to receive employer core contributions.
