To the Plan Administrators
The Equinox Holdings, Inc. 401(K) Plan

We were engaged to audit the statements of net assets available for benefits of The Equinox Holdings, Inc. 401(K) Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental Schedule of Assets (Held At End of Year) as of the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan through June 30, 2010, and Oppenheimer Funds Inc. Trust Company, the trustee of the Plan from July 1, 2010 to December 31, 2010, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustees as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

As described in Note 2, in 2010 the Plan adopted a policy of preparing its financial statements in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The financial statements for 2009 have been restated on the US GAAP basis of accounting adopted in 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN:

The following plan description of The Equinox Holdings, Inc. 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Effective January 1, 2002, The Equinox Group, Inc. (the "Company" or the "Employer") established the Plan. On May 1, 2004, the Plan was restated and a prototype defined contribution plan was adopted. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was amended to comply with the involuntary cash out provisions of account balances of $1,000 or less of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). The Plan was also amended to adopt the provisions of the Pension Protection Act of 2006, and the Heroes Earning Assistance and Relief Tax Act of 2008 (HEART).

Eligibility

Employees must be twenty-one years of age or more and complete one year of service to be eligible to participate in elective deferrals. Employees who meet those requirements and are enrolled in the Plan become eligible to receive employer matching contributions. Employees covered under a collective bargaining agreement are excluded from the Plan.

Contributions:

Elective Deferrals

The Plan allows each participant to defer up to the maximum annual limitation set forth in the Internal Revenue Code (the "Code"). Rollover contributions as well as catch-up contributions are allowed. Effective July 1, 2010, after tax contributions are allowed.

Employer Contributions

The Employer, at its discretion and in an amount as determined year to year, may make a matching contribution (the "Matching Contribution"). The total of the annual contributions to the Plan on behalf of a participant (including the participant's contribution) is subject to a defined total dollar contribution limit and a defined contribution compensation limit that is based on the participant's annual compensation, as set forth in the Code.

The Employer may designate all or a portion of the matching contribution to be a Qualified Matching Contribution for the purpose of satisfying compliance testing required by the Department of Labor (DOL). Only non-highly compensated employees, as defined in the Code, can receive an allocation of a Qualified Matching Contribution.

No matching contributions were made for the years ending December 31, 2010 or 2009.

Participant Accounts

The Plan is a participant-directed account plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants' accounts are credited with participant contributions, Employer contributions and rollovers. Plan earnings are allocated based on a participant's account balance in proportion to the balances of all participants' accounts.

Vesting
Participants' contributions and rollovers and earnings thereon are 100% vested and non-forfeitable at all times. In general, participants become fully vested in the Company's matching contributions and earnings after two years of service. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. In the event of death or total and permanent disability, Employer contributions vest immediately.

Forfeited Accounts
Forfeitures may be used to pay administrative expenses of the Plan or to reduce Employer contributions to the Plan. In 2010 and 2009, total forfeitures were $510 and $1,950, respectively. The account also earned $1,156 in interest during the year ended December 31, 2010. The account balance was $11,270 and $10,640 at December 31, 2010 and 2009.

In 2010, $1,036 was used to offset Plan expenses from the forfeiture account. No forfeited amounts were used or allocated in 2009.

Investment Options
The Plan's investments are held by Oppenheimer Funds Inc. Trust Company ("Oppenheimer"), the trustee of the Plan. Contributions to the Plan by or on behalf of a participant are invested at the election of the participant in a money market fund and/or mutual funds or a common collective trust, all of which are managed by Oppenheimer. At December 31, 2010, the Plan offers investment options consisting of a combination of 14 publicly-traded mutual funds, seven target date retirement funds and one common collective trust.

Notes Receivable from Participants
Participants may borrow from their participant accounts at a minimum of $1,000 up to a maximum of $50,000 or 50% of the participants vested account balance, whichever is less. The notes are secured by the participant's vested account balances and, except for funds used to acquire a principal residence, must have a repayment period of no greater than five years. The interest rates for notes outstanding as of December 31, 2010 were between 3.25%-8.25%. Interest rates are commensurate with local prevailing rates at the time of borrowing as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions made on a bi-weekly basis. Repayment of the entire balance is permitted at any time. Participants are allowed up to two outstanding notes. Interest is calculated at the prime rate in effect at the time the loan is taken.

Payment of Benefits
Participants' benefits under the Plan are payable to participants or their beneficiaries upon termination of employment, normal retirement (age 65), disability, financial hardship or death. Benefits are payable in one lump sum payment. Hardship withdrawals are available, as are distributions to participants who have attained the age of 59½.

Participants may withdraw amounts from their "rollover accounts" at any time.

Administrative Expenses

The Employer has elected to pay all administrative expenses incurred by the Plan, except for certain transaction fees such as loan and distribution requests, which are paid by the Plan. Direct compensation paid by the Plan to the outside third party administrators totaled $5,201 for these transaction fees for the year ended December 31, 2010. Indirect compensation is paid by the Plan to the various managers of the investments. In addition, the Employer paid $9,866 to the third party outside administrator for administrative services related to the operations of the Plan. These fees will not be reimbursed by the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The financial statements as of December 31, 2009 were previously prepared on the modified cash basis of accounting. Consequently, investment income (loss), contributions from participants and the Company and benefits paid to participants were recognized when received or paid rather than when earned or when the obligation was incurred. The financial statements as of and for the year ended December 31, 2010 were prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. The financial statements as of December 31, 2009 have been restated to conform to the 2010 presentation. There was no effect on the statement of net assets available for benefits.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and when applicable, disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the plan document.

Payments and Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

As described in accounting regulations related to *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the accounting regulations, the Statement of Net Assets Available for Benefits should present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The

Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. In this Plan, as described in Note 5, fair value of the investment contracts held by the Plan at December 31, 2010 exceeded the contract value by $22,710. Accordingly, there is an adjustment to contract value in the Statement of Net Assets Available for Benefits.

Investments are held in separate investment accounts that invest in publicly-traded mutual funds and are stated at fair value as reported by the fund managers. Fair value is determined based upon quoted market prices, which represent net asset value per share. Fund transactions are accounted for on the trade date (the date the securities are purchased and sold). Interest income is accounted for on the accrual basis. Dividend income is accounted for on the ex-dividend date. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation/depreciation in the fair value of its investments, which consists of dividends and interest income, realized gains and losses and the unrealized appreciation/depreciation on investments bought and sold as well as held during the year.

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The accounting pronouncement establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring the most observable units be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumption about inputs market participants would use at the measurement date. The fair value hierarchy is categorized into three levels based on inputs as follows:

Level 1- Valuation based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2- Valuation based on quoted prices for similar assets or liabilities in active markets; for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3- Valuation based on inputs that are unobservable and significant to the overall fair value measurement.

Level 3 assets and liabilities are measured at fair value based on one or more of the three following approaches noted in accounting pronouncements. The three approaches are as follows:

• Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

• Cost approach - Based on the amount that currently would be required to replace the service capacity of an asset (i.e. current replacement cost); and

• Income approach - Uses valuation techniques to convert future amounts to a single present discounted amount based on market expectations about those future amounts (including present value techniques, option-pricing models, and lattice models).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Adoption of Accounting Pronouncements

Fair Value Measurements

In September 2009, the Financial Accounting Standards Board ("FASB") issued an accounting standard update which amends existing guidance on fair value measurements and disclosures. The update allows an entity to measure the fair value of an investment that has no readily determinable fair market value, on the basis of the net asset value per share as provided by the investee. The update was effective for annual and interim periods ending after December 15, 2009. The adoption of this update did not have a material impact on the Plan's financial statements.

In January 2010, the FASB issued an accounting standard update on fair value measurements and disclosures. The update requires more robust disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The Plan's adoption of the new disclosures and clarifications of existing disclosures that were effective for interim and annual reporting periods beginning after December 15, 2009 did not have an effect on the Plan's financial statements. The disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of the Level 3 disclosures is not expected to have an effect on the Plan's financial statements.

Notes Receivable from Participants

In 2010, the Plan adopted an accounting standard update which clarified how loans to participants should be classified and measured by defined contribution benefit plans. The standard requires that participant loans be segregated from plan investments and presented as notes receivable from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. As a result, the Plan has reclassified participant loans for 2010 and 2009 from investments to notes receivable from participants.

Recent Accounting Pronouncements

Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS

In May 2011, the FASB issued an accounting standard update which works to achieve common fair value measurement and disclosure requirements in US GAAP and International Financial Reporting Standards. The update both clarifies the FASB's intent about the application of existing fair value guidance, and also changes certain principles regarding measurement and disclosure. The update is effective prospectively and is effective for annual periods beginning after December 15, 2011. Early application is permitted for interim periods beginning after December 15, 2011. The Plan is currently evaluating the effect the update will have on its financial statements.

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2011 which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED):

In July 2010, the Plan changed its trustee from Fidelity Management Trust Company ("Fidelity") to Oppenheimer Funds Inc. Trust Company ("Oppenheimer"). Oppenheimer (trustee effective July 1, 2010) and Fidelity (trustee prior to July 1, 2010) certified as to the completeness and accuracy of the investment assets transactions, income and schedules of the investment assets as of and for the years ended December 31, 2010 and 2009.

The following information, included in the accompanying financial statements and supplementary information at December 31, 2010 and 2009, was obtained from data that has been prepared and certified by Fidelity and Oppenheimer.

	December 31, 2010	December 31, 2009 (Restated)
Investments, at fair value:		
Mutual funds	$13,440,522	$10,521,723

During 2010, the Plan's investments (including gain and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,646,124. This appreciation was from investments in mutual funds, $1,633,544 and net appreciation on the investment in the stable value fund of $12,580.

4. FAIR VALUE MEASUREMENTS: The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2010. In accordance with ASC 820, *Fair Value Measurements and Disclosures*, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement. There have been no changes to the valuation methodologies used at December 31, 2010 and 2009.

Level 1 inputs to the valuation methodology include quoted market prices in active markets. Mutual funds are valued at the net asset value of shares held by the Plan at year end.

In addition to quoted market prices in active markets, valuation techniques for Level 3 inputs included:

- The stable value fund is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 Gains and Losses
The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2010.

Fair Value Measurements Using Significant Unobservable Inputs-Level 3

	Stable Value Fund
Beginning Balance	$ -
Net realized/unrealized gains included in earnings	12,580
Purchases and issuances	1,502,046
Settlements	(296,662)
Ending Balance	$1,217,964
The amount of total investment gains for the period included in earnings attributable to the change in unrealized gains relating to assets still held at December 31, 2010	$12,580

5. STABLE VALUE FUND: In 2010, the Plan entered into an agreement which authorized the Plan to participate in a trust sponsored by OFI Trust Company (the "OFI Trust"). At December 31, 2010 the OFI Trust is invested in only the Union Bond & Trust Company Stable Value Fund ("UBT"). UBT invests in conventional and synthetic guaranteed investment contracts.

As described in Note 2, because the underlying guaranteed investment contracts in UBT are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to OFI Trust represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs.

The information below includes the actual and credited earnings from UBT to the OFI Trust. OFI fees include a management and trustee fee (0.45%), an investor servicing fee (0.25%) and a participating trust servicing fee (0.25%) which are not included in the rates below. OFI waived 0.10% of management and trustee fees for the year ended December 31, 2010.

Average yields:	**2010**
Based on actual earnings	2.66%
Based on interest rate credited to participants	2.748%
Fair value of investment in OFI Trust at December 31, 2010	$1,217,964

6. RISKS AND UNCERTAINTIES: The Plan provides for various investment options in separate investment accounts that invest in publicly traded mutual funds and a stable value fund. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

7. RELATED PARTIES/PARTIES IN INTEREST TRANSACTIONS: Certain Plan investments are shares in mutual funds managed by the trustee of the Plan, which qualify as party-in-interest transactions.

8. TAX STATUS: The volume submitter plan adopted by the Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The volume submitter plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

9. PLAN TERMINATION: Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants will receive a distribution of their account balances in a lump sum.
