REPORT OF INDEPENDENT AUDITORS

To the Trustees
Threshold Enterprises, Ltd. 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Threshold Enterprises, Ltd. 401(k) Plan as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule(s) of Schedule H, line 4(i) - schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Charles Schwab Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from information certified by Charles Schwab Trust Company, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Threshold Enterprises, Ltd. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement and subsequent plan amendments for a more complete description of the Plan's provisions.

General – The Plan is a 401(k) salary deferral and profit-sharing plan covering all full-time employees of Threshold Enterprises, Ltd., who are age 21 or older, have completed one year of service and have 1,000 hours of service during the 12-month period beginning on the date of hire or any plan year beginning after the date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Threshold Enterprises, Ltd. (the Company), is the Plan's sponsor and serves as the plan administrator.

Contributions – Participants may voluntarily defer compensation subject to the maximum permitted by law. The Company may make discretionary matching contributions to participants in an amount equal to 10% of the participant's deferral but not to exceed $200 per participant. Additionally, the Company may make discretionary profit sharing contributions to participants in an amount the Company's Board of Directors may deem appropriate. Profit sharing contributions are allocated to participants in the same proportion as the participant's compensation bears to the total of all participants' compensation. There were no profit sharing contributions for the year ended December 31, 2010.

Participant accounts – Each participant's account is credited with their deferral and allocations of: (a) the Company's contribution; and (b) plan earnings. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary deferrals, plus actual earnings thereon. Vesting in company contributions is based on years of continuous service. Vesting occurs at 20% per year after the participant's second year of service, with full vesting after six years of credited service.

Payment of benefits – Upon retirement, termination, death, or disability, a participant or beneficiary may elect to receive an amount equal to the value of their vested account balance in a lump-sum amount.

Forfeitures – Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are first used to pay for administrative expenses and then to reduce the Company's discretionary contributions. As of December 31, 2010 and 2009, there were $1,561 and $2,435 in forfeited, nonvested accounts. No forfeitures were used by the plan sponsor during 2010.

Notes receivable from participants – Notes of up to 50% of amounts vested, but not in excess of $50,000, are available to participants at an interest rate equal to the prime rate plus 2%. The maximum note term is five years, unless the note qualifies as a home loan in which case the term of the note is not to exceed fifteen years. As of December 31, 2010, the rates of interest on outstanding notes ranged from 5.25% to 11.50% with various maturities through July 2024.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Recent accounting pronouncement(s) – In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements.* The new guidance requires additional disclosures about transfers between levels within the fair value hierarchy and clarifies existing disclosure requirements regarding classes of assets and liabilities measured at fair value. The new guidance requires the Plan to: (a) disclose separately the amounts of significant transfers into and out of each level of the fair value hierarchy and describe the reasons for those transfers; (b) disclose the Plan's policy for determining when transfers between levels of the fair value hierarchy are recognized, and (c) present information about purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the beginning and ending balance of Level 3 fair value measurements. The new guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 reconciliation disclosures which are effective for reporting periods beginning after December 15, 2010. The Plan adopted this guidance on January 1, 2010 (see Note 5).

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting-Defined Contribution Pension Plans* which amends existing guidance by requiring participant loans to be classified as notes receivable from participants, segregated from plan investments, and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments to the Accounting Standards Codification included in ASU 2010-25 are effective for fiscal years ending after December 15, 2010. The Plan has adopted this guidance effective December 31, 2010 and has reclassified participant loans of $65,427 and $54,779 for the years ended December 31, 2010 and 2009, from investments to notes receivable from participants.

Risks and uncertainties – Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. It is reasonably possible that given the level of risk associated with investment securities, changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Investment valuation and income recognition – Investments are stated at fair value as certified by the Plan's custodian, Charles Schwab Trust Company (Charles Schwab). Quoted market prices are used to value investments.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The net appreciation in fair value of participant-directed investments consists of both the realized gains or losses and unrealized appreciation or depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable.

Payment of benefits – Benefits are recorded when paid.

Expenses – Administrative expenses and certain transaction fees are paid by the Plan.

Plan termination – Although it has not expressed any intent to do so, the plan sponsor has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Subsequent events – The Plan has evaluated subsequent events through October 11, 2011, which is the date the financial statements were available to be issued.

NOTE 3 – CERTIFICATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab, the custodian of the Plan, has certified to the completeness and accuracy of:

- participant-directed investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009;
- net appreciation in fair value of participant-directed investments, dividends, and interest income from notes receivable from participates reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2010; and
- investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 4 – INVESTMENTS

Investments representing 5% or more of net assets available for benefits consisted of the following as of December 31:

	2010	2009
DWS Gold & Precious Metals	$ 695,949	$ 490,320
American Funds Cap Wd G/I R4	279,656	less than 5%
Dreyfus S&P 500 Index Fund	257,901	209,410
Morley Stable Value Inst	245,103	307,242
Dreyfus Bond Market Index Fund	204,907	176,246
American Funds Growth Fund	192,000	179,083
Artisan Midcap Fund	178,236	less than 5%
Schwab Retirement Fund	165,914	215,225
Pimco Low Duration Fund	165,432	140,314
Capital World Growth & Income Fund	less than 5%	264,045
Victory Diversified Stock Fund	less than 5%	143,421

During 2010, the Plan's investments (including investments purchased, sold, as well as held during the year) appreciated in fair value, as determined by quoted market prices, by the following:

Registered investment companies	$ 291,964
Common/collective trust	8,939
Net appreciation in fair value of investments	$ 300,903

The Plan reports its direct and indirect interests in fully benefit-responsive investment contracts at fair value in the participant-directed investments caption of the statements of net assets available for benefits. In addition, any material difference between the fair value of these investments and their contract value is presented as a separate adjustment line in the statements of net assets available for benefits, because contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts. The Plan does not directly invest in guaranteed investment contracts, but instead invests in them through a stable value fund, The Union Bond & Trust Company Stable Value Fund (the Trust), formerly the Gartmore Trust Company Stable Value Fund. Management has determined that the estimated fair value of the Trust as of December 31, 2010 and 2009, approximate contract value. Accordingly, the statements of net assets available for benefits reflect no adjustment for the difference between net assets at fair value and net assets available for benefits. The average yield earned by the underling investments of the Trust during 2010 and 2009, was 1.97% and 2.25%. The average yield of the underlying investments, after an adjustment to reflect the actual interest credited to participants, was 2.75% and 2.52% during 2010 and 2009.

In the event that the Plan is terminated, there is a material adverse change to the provisions of the Plan, or the Company elects to withdraw from the Trust in order to switch to a different investment provider, the amount withdrawn from the Trust would be payable at fair value rather than at contract value. The plan administrator, however, believes that the occurrence of such an event is not probable.

NOTE 5 – FAIR VALUE MEASUREMENTS

The Plan classified its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at December 31:

	2010

NOTE 6 – TAX STATUS

The Plan is a volume submitter profit sharing plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Charles Schwab manages the Schwab Market Track Balanced Fund and the Schwab Retirement Money Fund. As Charles Schwab is the Plan's custodian, as defined by the Plan, transactions with Charles Schwab qualify as exempt party-in-interest transactions.
