REPORT OF INDEPENDENT AUDITORS

The Plan Administrator of
WCI Steel, Inc. Retirement and
Capital Accumulation Plan
Warren, Ohio

We were engaged to audit the financial statements and supplemental schedule of WCI Steel, Inc. Retirement and Capital Accumulation Plan as of December 31, 2010 and for the year then ended, as listed in the accompanying content page. These financial statements and supplemental schedule are the responsibility of the Plan's management. The statement of net assets available for benefits of the Plan as of December 31, 2009 was reported on by other auditors whose report dated September 24, 2010, disclaimed an opinion for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and for the year then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2010 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – DESCRIPTION OF PLAN

The following description of WCI Steel, Inc. Retirement and Capital Accumulation Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established effective September 1, 1988. WCI Steel, Inc. entered into bankruptcy in 2003 and, as a result of its reorganization under new owners, the new company, WCI Steel, Inc., adopted the Plan effective as of May 1, 2006. As of July 7, 2008, WCI Steel, Inc. was acquired by Severstal US Holding, Inc. and operated under the name of Severstal Warren LLC. As of April 1, 2010, Severstal Warren LLC was acquired by Ira Rennert LLC and is now operating under the name of RG Steel Warren LLC (the "Company").

The Plan is a defined contribution plan covering substantially all salaried employees and all hourly nonunion employees of the Company who are not covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan provides for employee salary contributions up to a maximum of 60% of the pretax annual eligible compensation as defined by the Plan, up to the maximum annual IRS limitation. The Company contributes, on a monthly basis, an amount, based on the participant's age and years of service, ranging from 4% to 10% of eligible compensation. In addition, the Company matches employee contributions at a rate of 50% of the amount deferred by participants, up to 2% of eligible compensation.

Participant Accounts: Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting: Participants are immediately 100% vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contributions, plus actual earnings thereon, is based on years of continuous service. A participant is 100% vested in the employer matching contribution and monthly Company contribution after three years of credited service.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 100% of their vested account balances (excluding the employer contribution and IRA account balances). Loans are collateralized by the participant's account balance and bear interest at the prime rate in effect on the first day of the quarter in which the loan was made, plus 1%.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document.

Forfeitures: Forfeitures of non-vested Company contributions and matching contributions are used to offset future employer contributions and matching contributions. Forfeitures available to be used as of December 31, 2010 and 2009 were $2,202 and $45.00, respectively. Forfeitures used during 2010 were $43.00.

Administrative Expenses: Most administrative expenses of the Plan are paid by the Company.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Adoption of New Accounting Standard: In September 2010, the Financial Accounting Standards Board (FASB) amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. Early application is permitted. The adoption of this guidance by the Plan resulted in a reclassification from investments to notes receivable from participants of $255,618 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan has an indirect interest in fully benefit-responsive contracts through its investments in a stable value collective trust.

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $3,315,023 as follows:

	2010
Mutual Funds	$ 3,315,023
Collective Trusts	-
	$ 3,315,023

The Plan's interest and dividend income from investments and notes receivable from participants totaled $384,684 in 2010.

NOTE 4 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, each participant would be 100% vested in their accounts. Plan assets would be distributed based on the priority described in the Plan document. Specifically, any due and accrued expenses and liabilities of the Plan and any expenses involved in the termination of the Plan would be paid first, to the extent not paid by the Company. Any remaining assets would then be distributed to Plan participants.

NOTE 5 – INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated August 13, 2003 indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 6 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

FASB ASC 820 defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. FASB ASC 820 establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements).

The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Stable Value Fund: The fair value of the stable value fund is based upon the net asset value of such fund reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the Trustee (level 2 inputs). The investment objective of the stable value fund is to preserve capital and achieve a competitive level of income over time. The stable value fund holds nonconvertible bonds, U.S. government and government agency obligations, and asset backed securities and enters into wrapper contracts issued by third parties. The collective trust fund provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

NOTE 6 – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2010 Using

NOTE 7 - PARTIAL PLAN TERMINATION

During 2009, the Company permanently laid off approximately 60 percent of its salaried and hourly nonunion employees. The permanent layoffs impacted enough participants in the Plan to trigger provisions of ERISA requiring that the plan administrator declare that a partial plan termination has taken place during plan year 2009. Under the declaration of a partial plan termination, employees severed as a result of the permanent layoffs may elect to maintain their participant accounts, or may elect to take a distribution in accordance with the plan document. Additionally, the impacted employees are automatically 100 percent vested in all Company matching and fixed contributions contributed to their participant accounts plus actual earnings thereon.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Certain Plan investments are shares of mutual funds managed by Fidelity Investments and a collective trust managed by Fidelity Management Trust Company, the trustee. Fidelity Management Trust Company is affiliated with Fidelity Investments and is the trustee as defined by the Plan, and therefore, these investments qualify as party-in-interest transactions. These investments totaled $28,174,919 and $30,660,715 at December 31, 2010 and 2009, respectively. The Plan held notes receivable from participants at December 31, 2010 and 2009 of $249,076 and $255,618, respectively. Fees paid to the trustee by the Plan for the year ended December 31, 2010 totaled approximately $487.

NOTE 9 - FORM 5500 RECONCILIATION

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2010	December 31, 2009

Net assets per the Form 5500	$ 33,868,264	$ 35,096,794

The following is a reconciliation of net change in net assets available for benefits per the financial statements to the Form 5500:

	2010
Net decrease per the financial statements	$ (1,461,752)
Plus: Prior year adjustment to fair value for indirect investments in a fully benefit-responsive contract	170,424
Less: Current year adjustment to fair value for indirect investments in a fully benefit-responsive contract	62,798
Net income per the Form 5500	$ 1,228,530

NOTE 10 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 13, 2011, which is the date the financial statements were available to be issued.
