Report of Independent Certified Public Accountants

To the Board of Trustees
of Tavistock 401(k) Plan
Miami, Florida

We were engaged to audit the accompanying statement of net assets available for benefits of Tavistock 401(k) Plan as of December 31, 2010, and the related statement of changes in net assets available for benefits for the year then ended, and the Supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management. The financial statements of Tavistock 401(k) Plan as of and for the year ended December 31, 2009 were audited by other auditors who have ceased operations. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by John Hancock Life Insurance Company, the trustee of the Plan. Their report, dated October 13, 2010, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information referred to in Note 3, which was certified by John Hancock Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2010, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2010 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TAVISTOCK 401(K) PLAN

Notes to Financial Statements
December 31, 2010 and 2009

Note 1 – Description of Plan

The following description of the Tavistock 401(k) Plan (the "Plan") provides only general information. The Plan is maintained for the employees of ICC Management, Inc. and Lake Nona Management Company, wholly-owned subsidiaries of Tavistock Group (the "Company"). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of the Company and its affiliated companies as listed in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of Section 401(k) of the Internal Revenue Code (the "Code"). Under the Code, participants are not liable for federal income taxes on employee contributions, Company contributions or Plan earnings until such time as they are partially or completely withdrawn from the Plan.

Plan Sponsor and Administrator – The Company serves as the Plan Sponsor. Carpenter Morse serves as the Plan's third-party administrator.

Plan assets - At December 31, 2010 and 2009, the Plan had assets with John Hancock Life Insurance Company ("John Hancock").

Eligibility – Employees become eligible to participate in the plan upon completion of one month of eligible service and upon reaching twenty-one years of age.

Contributions – Under the plan, participants may defer a percentage of their pretax annual compensation up to a maximum of $16,500. Participants over 50 and ½ years of age may defer an additional $5,500. Participants may also contribute amounts representing distributions from other qualified plans.

The Company has the option of making discretionary matching contributions and qualified non-elective contributions. The Company elected not to make contributions for the 2010 and 2009 plan year.

The annual contribution from all sources to a participant's account may not exceed the lesser of $49,000 or the participants' annual compensation during the plan year. Participants direct the investment of their contributions as well as the Company contributions into various investment options offered by the Plan.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocation of (a) the Company's discretionary matching contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of Plan (continued)

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution and earnings thereon is based on years of continuous service as follows:

Years of Service	Percent Vested
Less than 2	0%
2 years, but less than 3 years	20%
3 years, but less than 4 years	40%
4 years, but less than 5 years	60%
5 years, but less than 6 years	80%
6 years or more	100%

Notes Receivable from Participants – A participant may borrow a minimum of $1,000, up to a maximum of the lesser of $50,000 or 50% of his/her vested account balance. The notes receivable are secured by the balance in the participant's account or other acceptable collateral, and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. All notes receivable are required to be repaid within five years unless the purpose of the loan is to acquire a primary residence. Interest rates on these notes ranged from 4.25% to 8.75%. At December 31, 2010 and 2009, there were loans to participants totaling $110,438 and $79,319, respectively.

Payment of Benefits – On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution

Forfeitures – Forfeitures of matching contributions that are not used to pay Plan expenses are used to reduce the amount that the Company must contribute as a matching contribution. Forfeitures of profit sharing contributions that are not used to pay Plan expenses are reallocated as an additional profit sharing contribution. At December 31, 2010 and 2009, forfeited non-vested accounts totaled $363 and $0, respectively. For the year ended December 31, 2010, no forfeitures were applied to reduce the employer contribution.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Administration of Plan Assets – The Plan's assets are held by the Plan trustee. Contributions are held and managed by the trustee, who invests contributions and interest and dividend income as received and makes distributions to participants. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan. Fees and expenses of the Plan for legal, accounting and other administrative services may be paid directly by the Company, or at the Company's discretion, may be paid in whole or in part, out of Plan assets.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. See below for discussion regarding Fair Value Measurement. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts – Investment contracts held by a defined-contribution plan are also required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis with respect to fully benefit-responsive investment contracts.

Fair Value Measurements – Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives that highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets which are either directly or indirectly observable as of the reporting dates, and fair value can be determined through the use of models or other valuations methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability including assumptions regarding risk.

Note 2 – Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued) - A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the fair value hierarchy.

Pooled Separate Accounts - These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Collective Investment Trusts - These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however the unit price is based on underlying investments which are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair valuation of certain financial instruments could result in a different fair value measurement at the reporting date.

New Accounting Pronouncements – In January 2010, the FASB updated financial reporting standards ("the Update") to improve disclosures regarding fair value measurements. This Update requires entities to (i) disclose separately the amounts of significant transfers in and out of investments valued using Level1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number) information about purchases, sales, issuances, and settlements in the roll forward disclosure of changes in investments valued using Level 3 fair value measurements. The update also requires fair value disclosures on a more detailed basis (by class of assets and liabilities rather than by major category or line item in the statement of net assets available for benefits). Finally, the Update requires additional disclosures regarding the valuation techniques and inputs used to measure fair value for investments valued using Level 2 and Level 3 inputs. For all portions of the Update except for changes required in the Level 3 investment roll forward information, this Update is effective for interim and annual reporting periods beginning after December 15, 2009 (the 2010 Plan year).

Note 2 – Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements (continued) - For the changes required in the Level 3 investment roll forward information, the update is effective for fiscal years beginning after December 15, 2010 (the 2011 Plan year). As all of the requirements of this Update are only disclosure related, the adoption of the required portions of the Update in 2010 did not have any effect on any amounts in the accompanying basic financial statements.

On September 16, 2010, the FASB updated financial reporting standards on reporting loans to participants by defined contribution pension plans whereby participant loans are to be reclassified from plan investments to notes receivable and measured at the unpaid principal balance plus accrued but unpaid interest. This change is effective for the 2010 Plan year. The Plan adopted this change in accounting method as of December 31, 2010 in the comparative Statements of Net Assets Available for Benefits.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates that affect the amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events – The Employer has considered subsequent events through October 12, 2011, which is the date the financial statements were available to be issued, in connection with the preparation of these financial statements.

Note 3 – Information Certified by the Trustee (unaudited)

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by John Hancock Life Insurance Company as permitted by 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA.

Note 3 – Information Certified by the Trustee (unaudited) (continued)

	2010	2009
Investments, at fair value:		
Pooled separate accounts	$ 5,022,997	$ 3,955,565
Collective investment trusts	219,746	185,065
	$ 5,242,743	$ 4,140,630
Notes receivable from participants	$ 110,438	$ 79,319

	Year ended December 31, 2010
Net appreciation in fair value of investments	$ 665,494
Interest income on notes receivable from participants	$ 4,759

During the year ended December 31, 2010 the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value by $665,494 as follows:

Collective investment trusts	$ 34,681
Pooled separate accounts	630,813
	$ 665,494

The number of shares and fair values of individual investments at December 31 that represent 5% or more of the Plan's net assets are as follows:

	2010	2009
John Hancock Moderate Fund	$ 271,978	$ 232,675
John Hancock Balance Fund	485,855	462,278
John Hancock Growth Fund	820,947	634,147
John Hancock Aggressive Fund	274,585	213,355
Fidelity Contra Fund	306,891	213,851
Oppenheimer Developing Market Fund	380,455	222,813

Note 4 – Fair Value of Financial Investments

Below are the Plan's financial instruments carried at fair value on a recurring basis by the fair value hierarchy levels described in Note 2.

	Quoted Prices in Active Markets for Identical Assets (Level1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Pooled separate accounts	$ -	$ 5,022,997	$ -	$ 5,022,997
Collective investment trusts	-	219,746	-	219,746
	$ -	$ 5,242,743	$ -	$ 5,242,743

As of December 31, 2009

	Quoted Prices in Active Markets for Identical Assets (Level1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Pooled separate accounts	$ -	$ 3,955,565	$ -	$ 3,955,565
Collective investment trusts	-	185,065	-	185,065
	$ -	$ 4,140,630	$ -	$ 4,140,630

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2010 are reported in net appreciation in fair value of investments.

Note 5 – Collective Investment Trust

The Plan holds an interest in a collective investment trust (John Hancock Stable Value Fund) to maintain a portion of the Plan contributions in guaranteed investment contracts, synthetic guaranteed investments contracts, and separate account investment contracts. The account is credited with contributions and earnings on the underlying investments and charges for participant withdrawals and administrative expenses charged by the trustee of the collective investment trust. The guaranteed investment contract issuers are contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan. The collective investment trust is included in the financial statements at contract value as reported to the Plan by John Hancock, which approximates fair value. There are no reserves against the collective investment trust for credit risk of the contract issuer or otherwise.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

	December 31,	
	2010	2009
Average yields:		
Based on actual earnings	< 1%	< 1%
Based on interest rate credits to participants	< 1%	< 1%

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each contract may be difference from each issuer and can be found in the contract of the collective investment trust. Examples of such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investments options or deletion of equity wash provision, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any requires prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6 – Party-in-Interest Transactions

The Plan engages in investment transactions with funds managed by the Trustee, a party-in-interest with respect to the Plan. The Company acts as the Plan Administrator and, therefore these transactions are party-in-interest transactions. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the Internal Revenue Code.

Note 7 – Income Tax Status

The Internal Revenue Service ("IRS") informed the Plan Sponsor by a letter dated March 6, 2007, that the Plan and related trust constitutes a qualified Plan and trust under the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan's management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to business income tax and therefore, the Plan and related trust continues to be tax-exempt.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes it is no longer subject to income tax examinations for years prior to 2007.

Note 8 – Risk and Uncertainties

The Plan provides for investment options in various funds. Investment securities are exposed to various risks such as interest rate, market, credit, and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to the changes in their value, it is at least reasonably possible that changes in the fair value of investment securities in the near future could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.
