Report of Independent Auditors

The Plan Administrator for the
Buchalter Cash Balance Pension Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements (liquidation basis) of Buchalter Cash Balance Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of September 15, 2025, and December 31, 2024 (liquidation basis), and the related statements of changes in net assets available for benefits for the period from January 1, 2025 through September 15, 2025 and for the year ended December 31, 2024 (liquidation basis), and the related notes to the financial statements (liquidation basis).

In our opinion, the accompanying financial statements (liquidation basis) present fairly, in all material respects, the net assets available for benefits of Buchalter Cash Balance Pension Plan as of September 15, 2025, and December 31, 2024 (liquidation basis), and the changes in its net assets available for benefits for the period from January 1, 2025 through September 15, 2025 and for the year ended December 31, 2024 (liquidation basis), in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Buchalter Cash Balance Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Plan Termination

As discussed in Note 1 to the financial statements, those charged with governance made a decision to terminate the plan effective December 31, 2024. As a result, the Plan's 2025 and 2024 financial statements are presented on the liquidation basis of accounting. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt Buchalter Cash Balance Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Buchalter Cash Balance Pension Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Buchalter Cash Balance Pension Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 – Description of Plan

The following brief description of the Buchalter Cash Balance Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for more complete description of the Plan's provisions.

General – The Plan is a defined benefit pension plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Buchalter, A Professional Corporation (the Firm) is the Plan sponsor and serves as Plan administrator. The Retirement Plan Committee and the appointed actuarial and consulting firm is responsible for the operation and administration of the Plan and reports to the Firm's Board of Directors. The Committee and it's appointed ERISA 3(21) investment manager determine the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan includes all full-time Shareholders of the Firm who are eligible to participate in the Plan upon completion of two weeks of employment with the Firm.

Plan termination – The Benefits Committee adopted resolutions to terminate the Plan effective December 31, 2024 (the "termination date"). The Company made any contributions necessary to ensure that the assets of the Plan were sufficient to implement a standard termination of the Plan. The Plan filed an application for a determination letter with the Internal Revenue Service on July 14, 2025.

During 2025, the Plan completed the standard termination process. All participant obligations were settled and fully liquidated, as prescribed by ERISA and its related regulations, through lump-sum distributions equal to each participant's accumulated benefit as of September 15, 2025. The Plan was formally terminated as of the termination date.

As a result of the approved termination and the expectation that the Plan's assets would be distributed in settlement of all benefit obligations, the Plan used the liquidation basis of accounting in presenting both 2025 and 2024 financial statements.

The actuarial present value of accumulated plan benefit obligations was determined as of December 31, 2024, reflecting total benefit obligations of $32,087,210. Plan assets totaled $32,116,543 as of December 31, 2024, which was sufficient to satisfy the benefit obligations outstanding as of the termination date. The valuation represents a reasonable estimate of the actuarial present value of accumulated plan benefits as impacted by the Plan termination. Significant actuarial assumption that was updated includes the fact that 100% of active and deferred vested participants will elect the lump-sum distribution option..

Participant accounts – Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are allocated compensation credits and investment credits at the end of each annual period. The compensation credits are allocated based on participant elections, limited to the percentage of the participants election to certified compensation as defined in the Plan document for that particular period.

Participants' hypothetical accounts also receive investment credits at the end of every annual period. The amount of the investment credit is tied to the average of the annual yields on 30-year treasury securities and is adjusted annually. As of September 15, 2025, and December 31, 2024, the interest rates were 0%, and 3%, respectively.

Payment of benefits

Pension benefits and vesting – Employees are entitled to their accumulated benefit beginning at the later of their normal retirement age 62, or the 5th anniversary in plan participation. The Plan does not permit early retirement. Employees may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, or they may elect to receive their benefits as a life annuity payable monthly from retirement. The participants' accumulated benefit cannot be less than the sum of the initial balance and all hypothetical employer contributions thereafter credited to the participant under the plan.

Death and disability benefits – If an active employee dies at age 62 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled will be eligible for the immediate commencement of the actuarial equivalent of their accrued benefit at the time of disability is declared.

Note 2 – Summary of Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

The Plan was terminated in 2025. In connection with the approved termination of the Plan and the liquidation and settlement of all Plan obligations, the financial statements were prepared using the liquidation basis of accounting. Under the liquidation basis of accounting, Plan assets are stated at their estimated net realizable values and liabilities are stated at their estimated net settlement amounts.

Use of estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment valuation – Investments are reported at fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Expenses – Administrative expenses related to operating and maintaining the Plan are paid by the Company.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the Statement of Net assets available for benefits but arose after the Statement of Net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through July 15, 2026, which is the date the financial statements were available to be issued.

Note 3 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the employees accumulated benefit on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service, rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2024 were (a) life expectancy of participants (RP-2014 combined Mortality tables for males and females, projected to 2025.), (b) retirement age assumptions (the assumed normal retirement age defined as 62), (c) investment return, and (d) the election of a lump-sum payment. The 2024 valuations included assumed average rates of return of 3%. As the Plan terminated effective December 31, 2024, no additional actuarial calculation was performed.

The foregoing actuarial assumptions were based on the presumption that the Plan would continue. Because the Plan terminated during the year under audit, different actuarial assumptions and other factors may apply in determining the actuarial present value of accumulated plan benefits upon termination. The actuarial present value of accumulated plan benefits was computed as of January 1, 2025. No additional actuarial computation was prepared following the Plan's termination.

Note 4 – Funding Policy

Employee contributions – Contributions by participants are not required or permitted by the Plan.

Employer contributions – The Company's funding policy is to make annual contributions to the Plan in amounts that are elected by the participants, not to exceed the elected contributions as percentage of employee annual compensation.

The Company's contributions for 2024 exceeded the minimum funding requirements of ERISA. During 2025, the Company made additional minor contributions as necessary to satisfy the Plan's remaining obligations in connection with its termination.

The Company initiated the termination of the Plan in accordance with the applicable provisions of ERISA. Accordingly, the Company discontinued contributions to the Plan as required in connection with the termination process.

Note 5 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. Due to the termination of the Plan, there were no assets as of September 15, 2025.

Interest-Bearing Cash – Interest-bearing cash is stated at its carrying amount, including accrued interest, which approximates fair value due to the short-term nature and liquidity of the underlying accounts.

US Government Securities (Treasury Bonds) – Valued at the quoted market prices obtained from external pricing services. These funds are categorized within Level 1 of the fair value hierarchy and are deemed to be actively traded.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose the fair value hierarchy of the Plan's assets by level at fair value as of December 31, 2024:

	Fair Value Measurements at December 31, 2024			
	Level 1	Level 2	Level 3	Total
Interest Bearing Cash	$ 84,200	$ -	$ -	$ 84,200
U.S. government securities	31,837,162	-	-	31,837,162
Total assets in the fair value hierarchy	$ 31,921,362	$ -	$ -	$ 31,921,362

Note 6 – Tax Status

The Internal Revenue Service informed the Company, in a determination letter dated April 10, 2018, that the Plan was designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan was amended after the issuance of that determination letter, the Plan administrator believes that the Plan remained designed and operated in compliance with the applicable requirements of the IRC through the date of its termination. The Company also received a favorable determination letter from the Internal Revenue Service dated July 14, 2025, in connection with the termination of the Plan.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.
