EIGHT-O MANAGEMENT, INC. 401(K) PLAN
Notes to Financial Statements

Note 1 - Description of Plan

The following description of Eight-O Management, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Eight-O Management, Inc. ("Company"), other than those nondiscriminatory classifications specified in the Plan agreement, who have one year of service and are age twenty-one or older with entry dates of January 1 and July 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan, up to the maximum percentage allowable not to exceed the limits of IRS code sections 401(k), 402(g), 404 and 415. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 17 mutual funds and 5 five target date funds of funds as investment options for participants. The Company may, at its sole discretion, contribute and allocate to each eligible participant's account, a percentage of the participant's elective deferral contributions. Matching contributions, if any, shall be determined as of the end of the Plan Year. For 2009, there were no Company matching contributions made to the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, and, (b) Plan earnings, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Note 1 - Description of Plan (continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement or other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2009 and 2008 forfeited nonvested accounts totaled $6 and $6, respectively. These accounts will be used to reduce future employer contributions.

Note 2 - Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through June 28, 2010, the date which the financial statements were available to be issued.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with the generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. At December 31, 2009 and 2008 the fair values of all Plan assets were measured using Level 1 inputs.

Level 1 Fair Value Measurements

The fair value of registered investment companies is based on quoted net asset values of the shares held by the Plan at year-end.

Note 4 - Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2009 and/or December 31, 2008. All investments are participant directed.

	December 31, 2009	December 31, 2008
ING Fixed Account	$ 143,938	$ 104,614
Solution 2025 Portfolio - Service Class	133,813	84,411
Solution 2035 Portfolio - Service Class	54,597	22,435
Solution 2045 Portfolio - Service Class	86,899	39,115
Solution Income Portfolio - Service Class	62,582	53,988

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value as follows:

Variable investment funds	$ 86,383
Fixed account investment funds	3,111
	$ 89,494

Note 5 - Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee:

	2009	2008
Investments, at fair value:		
Variable investment funds	$ 476,994	$ 293,577
Fixed account investment funds	143,938	104,614
Investment income	89,701	

Note 6 - Related Party Transactions

Certain Plan investments are shares of registered investment companies administered by the trustee; therefore, these transactions qualify as party-in-interest transactions.

The Company paid administration fees and professional fees totaling approximately $8,408 and $4,500, respectively, on behalf of the Plan for the year ended December 31, 2009.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the sponsoring organization by a letter dated March 31, 2008, that the prototype plan adopted by the Company was designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
