PROFIT SHARING PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of the ValvTechnologies Employees' 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted by ValvTechnologies, Inc. (the Company or the Employer) on January 1, 1995. On January 1, 2008, the Plan was amended to include Spartek Products, Inc. as a participating employer. Effective January 1, 2010 the Plan adopted the provisions of the National Actuarial Pension Services, Inc. Non-Standardized 401(k) Profit Sharing Plan and the Plan was amended and restated to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) and other legislative and regulatory changes. The Plan is a defined contribution plan that covers substantially all employees of the Company who have completed one month of service and have attained the age of 18. Entry dates into the Plan are monthly, after eligibility requirements have been satisfied. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan consists of pooled separate accounts and guaranteed investment accounts under contract with John Hancock Life Insurance Company (U.S.A.) (John Hancock). Contributions to the Plan, including participant salary deferrals, matching contributions, and rollovers from other plans, can be invested in any fund or combination of funds included in the Plan, and are participant directed. A participant may change his or her investment allocations at any time via a telephone service or the internet, once enrolled.

John Hancock serves as the custodian of the Plan's units in the pooled separate accounts and guaranteed investment accounts and has provided certification statements as to the completeness and accuracy of the information provided to the Plan's sponsor. Accordingly, the Plan has elected to instruct the auditors not to perform any auditing procedures with respect to the information prepared and certified by the custodian, pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. This limited scope exemption applies only to the Plan's investment assets, participant loans, income thereon and related transactions, and the supplemental schedule of assets held for investment purposes at end of year.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Contributions

Each year, participants may contribute up to 90% of bonus and 100% of other pretax annual compensation, as defined in the Plan, subject to the annual deferral limitations as specified in section 402(g) of the Internal Revenue Code. The deferral limitation is $16,500 for 2010. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan provides that the Company may make a discretionary matching contribution to all eligible participants. The discretionary matching contribution is a uniform percentage, as determined by the Company, of participant contributions. For 2010, the Company made a matching contribution of 25% of employee deferrals up to 15% of employee compensation. For the year ended December 31, 2010, the Employer made matching contributions to the Plan of $181,240.

In addition, the Company may also elect to make a non-elective, discretionary contribution allocated based on compensation. For 2010, the Company did not make a non-elective, discretionary contribution to the Plan.

The EGTRRA includes a “catch up” provision for employee benefit plans. This provision became effective as of January 1, 2002, and permits employees who are 50 years old or older and who contributed the maximum amount allowed by law to contribute an additional $5,500 for the year ended December 31, 2010.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution and (b) Plan earnings thereon, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after two years of credited service, except that upon death or total permanent disability, the participant becomes 100% vested.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount of one-half the participant's vested account balance or $50,000 reduced by the excess, if any, of the highest outstanding loan balance in the account during the one-year period ending on the day before the date of the new loan over the current outstanding balance of loans as of the date of the new loan. The loans are secured by the balance of the participant's account and bear interest at rates that range from 3.25% to 8.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. The interest rate shall remain fixed throughout the duration of the loan.

Participant loans must be payable within a period not exceeding five years from the date the participant received the loan, unless the loan is for the purchase of the participant's principal residence, in which case the loan must be payable within a longer period as established by the Plan administrator. Loan repayments, including principal and interest, must be made through payroll deductions on at least a quarterly basis.

Payment of Benefits

Benefits are recorded when paid. On termination of service due to death, disability or retirement, a participant, or beneficiary in the case of death, may receive a lump sum distribution in the amount equal to the value of the participant's vested interest in his or her account. Partial withdrawals or installments are only permitted for required minimum distributions.

Forfeited Accounts

Nonvested benefits of terminated employees are forfeited. Forfeitures may first be used to pay Plan administrative expenses and then used to reduce any Employer contributions. As of December 31, 2010 and 2009, forfeitures totaled $349 and $11,786, respectively. Forfeitures totaling $17,370 were applied to reduce Employer matching contributions for the year ended December 31, 2010.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan management has determined that the guaranteed investment account under the group annuity contract with John Hancock is not a fully benefit-responsive investment contract. Consequently, there is no adjustment from fair value to contract value in the Statements of Net Assets Available for Benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell and assets and paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

All investments in the Plan are participant directed. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Loans

Participant loans represent notes receivable from participants and are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recorded when earned. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Administrative Expenses

Administrative expenses for the Plan are paid by the Plan, unless otherwise elected to be paid by the Company. During the year ended December 31, 2010, some administrative expenses were paid by the Company. Participant transaction fees are charged directly to participant accounts.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Improving Disclosure about Fair Value Measurements.* ASU 2010-06 requires additional disclosures about fair value measurements including transfers in and out of Levels 1 and 2 and a higher level of disaggregation for the different types of financial instruments. This ASU is effective for annual and interim reporting periods beginning after December 15, 2009 for most of the new disclosures. The adoption of ASU 2010-06 did not impact the Plan's net assets available for benefits and changes in net assets available for benefits.

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. ASU 2010-25 is effective for years ending after December 15, 2010, with early adoption permitted. The guidance in ASU 2010-25 should be initially applied retrospectively to all prior periods presented. The adoption of ASU 2010-25 did not impact the Plan's net assets available for benefits and changes in net assets available for benefits. Participant loans have been reclassified in this report as receivables in conformity with ASU 2010-25.

Reclassifications

Certain reclassifications have been made to the 2009 financial statements to make them conform to the 2010 presentation. Such reclassifications had no effect on net assets available for benefits or change in net assets available for benefits as previously reported.

NOTE 5. FAIR VALUE MEASUREMENTS

FASB Accounting Standard Codification (ASC) No. 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are unobservable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the Plan's valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: These investments are valued using the net asset value (NAV) of units held by the Plan at year end as provided by John Hancock. The NAV is based on the fair value of the underlying assets owned by the fund.

Guaranteed investment accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations.

NOTE 5. FAIR VALUE MEASUREMENTS – CONTINUED

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis, as of December 31, 2010.

	Level 1	Level 2	Level 3	Total

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

NOTE 7. TAX STATUS

The Plan adopted the third party administrator's (TPA) Prototype Non-Standardized Profit Sharing Plan with CODA (Prototype Plan) effective January 1, 2010. The Prototype Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the IRC. Prior to January 1, 2010, the Plan had adopted another Prototype Non-Standardized 401(k) Profit Sharing Plan. The IRS had determined and informed the Company by a letter dated March 16, 2005, that the Plan was designed in accordance with the applicable sections of the IRC, after which the Plan was amended. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan is qualified.

NOTE 7. TAX STATUS – CONTINUED

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan management believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 9. PARTY-IN-INTEREST

Certain Plan investments are in investment funds managed by John Hancock. John Hancock is also the custodian and record keeper of certain investments in the Plan, and therefore, these transactions qualify as party-in-interest transactions.

NOTE 10. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued, and determined that no events have occurred subsequent to December 31, 2010 that warrant additional disclosure.
