1. PLAN DESCRIPTION

The following description of the alliantgroup, LP 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is sponsored by alliantgroup, LP (the "Company").

General – The Plan is a defined contribution plan covering all employees of the Company having at least six months of eligible service and have attained age 21. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Participants' Accounts – Each participant's account is credited with the participant's contribution, allocations of (a) the Company's matching contributions, (b) the Company's profit sharing contributions and (c) Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions – Each year participants may contribute up to 90% of their pretax annual compensation as defined in the Plan not to exceed Internal Revenue Service maximum amounts allowable. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make matching contributions on behalf of qualifying participants equal to a discretionary percentage, to be determined by the Company, of each participant's elected deferral. No matching contributions will be made with respect to elective deferrals in excess of 6% of compensation. No matching contributions were made for the plan year ending December 31, 2010.

The Company may also make profit sharing contributions based on a discretionary percentage to be determined by the Company. No profit sharing contributions were made during the year ended December 31, 2010.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching or profit sharing portion of their accounts plus actual earnings thereon is based on years of continuous service. The following schedules describe the participant's level of vesting after each year of service.

Employer Matching or Profit Sharing Contributions	
Number of Years of Completed Service	**Percentage of Vested Interest**
<1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Forfeitures – Forfeitures arise when participants terminate employment before being fully vested in matching or profit sharing employer contributions. Forfeitures may first be allocated to the payment of the Plan's administrative expenses and then to reduce future employer matching contributions. At December 31, 2010, the forfeitures account totaled $0.

Investment Options – Upon enrollment in the Plan, participants may direct the investment of their accounts among investment funds provided under the Plan. Participants may change their investment elections at any time, as well as transfer existing balances between investment funds.

Custodian and Plan Administrator – The Plan's assets are held by Great-West Life & Annuity Insurance Company (the "Custodian" or "Great-West"). Among other duties, the Custodian receives the contributions, holds and invests the fund assets in accordance with the directions of participants and makes disbursements as directed by alliantgroup, LP (the Plan Administrator). The Plan absorbs substantially all the Plan's administrative costs. The Custodian for the 2009 Plan year was Automatic Data Processing, Inc (ADP). In January 2010 the Company elected to switch custodians from ADP to Great-West.

Participant Loans –Participants may borrow up to the lesser of 50% of their vested account balance or $50,000. Any amount borrowed is deducted pro rata from the funds in which the participant's account is invested. Loans bear interest at a reasonable rate of interest as determined by the Plan administrator. Loans are repayable over a period not to exceed five years, except for principal residence loans, which are repayable over a period not to exceed fifteen years. Repayments of principal and interest are credited to the funds in which the participant's deferrals and Company contributions are invested.

Benefits Payable – On termination of service due to death, disability, or retirement, a participant or their beneficiary may elect to receive a lump-sum amount equal to the value of his or her account or receive equal periodic payments. Upon termination of service for other reasons, a participant is entitled to the vested balance in his or her account as a lump-sum distribution.

Withdrawals – Participants may make early withdrawals of all or a portion of their elective deferral contributions in their account under the hardship provision of the Plan. Participants may make unrestricted withdrawals of their vested account balance on or after age 59½.

Plan Termination – The Company has not expressed any intent to terminate the Plan; however, it may do so at any time. In the event of termination of the Plan, all amounts credited to a participant's account become fully vested, and the Plan assets are to be distributed according to provisions outlined in the Plan document. Should the Plan encounter a partial termination, the account of each participant deemed to have been affected by the partial termination shall become fully vested in their accrued benefits as of the effective date of the partial termination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting. Administrative expenses are recognized when incurred. Benefits are recorded when paid.

Use of Estimates **–** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments Valuation and Income Recognition **–** The categorization of the Plan's financial instruments within the valuation hierarchy provided in Note 4 is based upon the lowest level of input that is significant to the fair value measurement. Investments that are valued using quoted prices are classified within level 1 of the valuation hierarchy, assets that are valued using internally-developed models that use, as their basis, readily observable market parameters, are classified within level 2 of the valuation hierarchy, and assets that are valued based upon models with significant unobservable market parameters are classified within level 3 of the valuation hierarchy.

The following is a description of the valuation methodologies used for the Plan's instruments measured at fair value, including the general classification of such instruments pursuant to the aforementioned valuation hierarchy:

Money Market –Balance is valued at the contract value based on the closing price of the security as quoted by the principal exchange on which the security is traded.

Fixed Annuities –The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider. The fair value is classified within level 2 of the valuation hierarchy.

Variable Annuities – Prices/unit values for variable annuity investment options are calculated daily by the annuity provider according to the methods described in the annuity contract. The fair value is classified within level 2 of the valuation hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contract with insurance company **–** The Plan has a group annuity contract with Great-West that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract since the contract was determined to be fully benefit-responsive. The contract is included in the financial statements at fair value which approximates contract value. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 was $44,152. The crediting interest is based on a formula agreed upon with the issuer but may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting. The average investment yield based on the interest rate credited to participants was 2.40%, the average investment yield based on the actual earnings was 2.49% for the period ending December 31, 2010.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Concentrations of Risk – Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of the Plan's investment portfolio. Such credit risk is considered to be limited due to the financial stability of the institutions and diversity of investments. The Plan does not require collateral with respect to its investments.

Risks and Uncertainties – The Plan holds investment securities for its participants. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

New Accounting Standards— In the first quarter of 2010, certain disclosure provisions of the Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2010-06 became effective. This standard clarified existing fair value requirements under the FASB Accounting Standards Codification's ("ASC") Fair Value Measurements and Disclosures Topic 820, including the level of disaggregation required for fair value disclosures and disclosure of the valuation techniques and inputs used in estimating level 2 and level 3 fair value measurements. The Plan's adoption of this standard did not have a material impact on the Plan's statement of net assets available for benefits.

In the fourth quarter of 2010, FASB ASU 2010-25 became effective for the Plan. This standard clarified existing fair value presentation under FASB ASC Topic 962, Plan Accounting – Defined Contribution Pension Plans. ASU 2010-25 requires participant loans to be classified as notes receivable from participants, segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest on the Statement of Net Assets Available for Benefits. In accordance with this standard, participant loans have been reclassified from their historical presentation as a component of investments, at fair value, to notes receivable from participants at December 31, 2010 and 2009.

Subsequent Events – The Plan has evaluated all events and transactions that occurred through September 1, 2011, the date these financial statements were issued.

5. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PARTY-IN-INTEREST TRANSACTIONS

The Plan has notes receivable from participants as investments at December 31, 2010. As a result, these investments and all transactions relating to these investments qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.

Fees paid by the Plan to the Custodian for administrative services amounted to $400 for the year ended December 31, 2010 and $2,174 in 2009.

7. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule as of December 31, 2010 and 2009, and for the year ended December 31, 2010 is complete and accurate:

9. CORRECTIVE DISTRIBUTIONS

Section 401(k) and Section 401(m) of the Internal Revenue Code limit the amount of contributions that can be credited to a highly compensated employee for each plan year. Contributions in excess of these limits, including investment gain or loss, must be refunded to the participant to meet non-discrimination testing requirements. For the year ended December 31, 2010, corrective distributions were $20,072 (net payment excluding interest).

10. CHANGE IN PLAN CUSTODIAN

Effective December 30, 2009 the plan custodian was changed from ADP to Great-West. The funds were received by Great-West on January 4, 2010; ADP shows no account balances or activity as of that date.

11. NON-COMPLIANCE WITH ERISA BONDING REQUIREMENTS

The plan fiduciaries were not in compliance with ERISA bonding requirements during the plan year ended December 31, 2010. According to ERISA requirements, the bond (1) must be a minimum of $1,000 or at least 10 percent of the amount of funds handled, and (2) not more than $500,000 and must provide protection against loss by reason of acts of fraud or dishonesty.
