INDEPENDENT AUDITOR'S REPORT

TO THE PLAN ADMINISTRATOR AND PARTICIPANTS
OF ALFA TECH CONSULTING ENGINEERS, INC. 401(k) PLAN

We were engaged to audit the financial statements and supplemental schedule of ALFA TECH CONSULTING ENGINEERS, INC. 401(k) PLAN (the "Plan") as of December 31, 2010 and 2009, and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Ascensus, Inc., as agent for Frontier Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the agent on behalf of the trustee as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the agent of the trustee is complete and accurate.

Because of the significance of the information in the Plan's financial statements that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the agent on behalf of the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ALFA TECH CONSULTING ENGINEERS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2010

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the ALFA TECH CONSULTING ENGINEERS, INC. 401(k) PLAN (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan was established in 1992 by ALFA TECH CONSULTING ENGINEERS, INC. (the "Company") to provide benefits for its employees. The Plan is a defined contribution plan covering all full-time employees who are at least eighteen years of age, except for the following employees as defined under the Plan agreement: (a) employees covered by a collective bargaining agreement, (b) certain nonresident aliens who have no earned income from sources within the United States, (c) leased employees, (d) temporary employees with less than 1,000 hours of service, (e) individuals who are classified as consultants (and who may also be referred to as independent contractors), (f) individuals who are classified as interns, or (g) individuals who are classified as "commission salespersons".

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and certain provisions of the Internal Revenue Code ("IRC").

The Plan provides for a plan administrator who is responsible for keeping accurate and complete records with regard to the Plan's operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Employer Contributions – The Company may make discretionary matching contributions equal to a percentage of the participant's elective deferrals. Through February 2010, the Company contributed an amount equal to 50% of each respective participant's deferral, limited to $2,000 per participant. No further discretionary matching contributions were made in 2010. Additionally, profit-sharing contributions may be made at the option of the Company to participants who are at least 21 years of age, subject to limitations imposed by applicable provisions of the IRC. For the year ended December 31, 2010, the Company did not make profit-sharing contributions to the Plan.

Participant Contributions – Participant contributions are made in the form of pre-tax deferred and/or after-tax ("Roth" deferrals) salary reductions starting December 2010. Participant contributions are limited to a maximum of $16,500 for the year ended December 31, 2010 plus annual catch-up contributions of $5,500 for participants who are at least 50 years of age during the year.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts – Each participant's account is credited with the participant's and employer matching contributions and allocations of (a) the Company's profit sharing contributions and (b) Plan investment earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions, rollover contributions and matching contributions from the Company plus actual earnings thereon.

Vesting in any discretionary profit sharing contributions from the Company is based on years of continuous service. Vesting is based on a six-year graded scale as follows:

Years of Credited Service	Amount Vested
1 or Less	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants – The Plan allows participants to borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or fifty percent of the vested portion of their account balance. Loan terms range from one to five years, except for loans to purchase a primary residence. The loans are secured by the balance in the participant's account and the interest rate is set at 2.00% above the prime rate as published in the Wall Street Journal at the time the loan is approved by the Plan's Administrative Committee. Principal and interest is paid ratably through bi-weekly payroll deductions. At December 31, 2010, interest rates on loans ranged from 5.25% to 10.25% with maturity dates ranging from February 2011 to September 2015. Principal and interest are repaid ratably through semi-monthly payroll deductions. Participants are allowed to repay the entire outstanding balance of the loan (including any accrued interest) within a reasonable period following termination of employment. The participants' vested account balance will be reduced for any remaining unpaid loan balance. Alternatively, a participant may rollover any unpaid loan to a qualified plan maintained by another employer, provided such employer will accept a loan rollover.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits – At 59½ years of age or upon termination of service, disability, death or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account. If a participant whose account holds a balance between $1,000 and $5,000 is terminated and no instructions have been received from such participant, the amount will be rolled over to an individual retirement account plan as designated by the plan administrator. A balance less than $1,000 will be distributed directly to the participant as a lump-sum payment and a balance greater than $5,000 may be left in the Plan.

Forfeited Accounts – The non-vested portion of a terminated participant's account balance is forfeited. Forfeitures may be applied to reduce future employer contributions at the discretion of the Company. There was no forfeiture balance at December 31, 2010 and the December 31, 2009 balance was not significant.

Administrative Expenses – The Company has elected to fund all administrative costs of the Plan other than those associated with miscellaneous fees charged by the trustee, and certain participant directed transactions such as participant loans and distributions fees.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared under the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America.

Adoption of New Accounting Standards – In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended the *Fair Value Measurements and Disclosures* topic of the FASB Accounting Standards Codification ("ASC") to clarify certain existing fair value disclosures and to require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. The guidance in ASU 2010-06 is effective for the Plan beginning in 2010, with the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is effective in 2011. The Company adopted ASU 2010-06 for the plan year ending December 31, 2010, and the adoption did not have a material impact on the Plan's net assets available for benefits or its changes in net assets available for benefits, as changes are related to the fair value measurement disclosures.

On September 28, 2010, the FASB issued ASU No. 2010-25, *Plan Accounting – Defined Contribution Pension Plans - Reporting Loans to Participants by Defined Contribution Pension Plans*. This update provides guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. The classification requires participant loans of a defined contribution plan to be classified as notes receivable from participants and measured at their unpaid principal balance plus, any accrued but unpaid interest. This guidance is effective for years ending after December 15, 2010, with early adoption permitted. The Company adopted ASU 2010-25 for the year ended December 31, 2010. Accordingly, participant loans are presented as notes receivable from participants as of December 31, 2010 and 2009. Previously, loans to participants were classified as investments and measured at fair value. Interest income related to notes receivable has been classified as interest income on notes receivable from participants. The adoption of this update did not have an impact on the Plan's net assets available for benefits as of December 31, 2010 or 2009 or its changes in net assets available for benefits for the year ended December 31, 2010.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payments of Benefits – Benefits are recorded when paid.

Reclassification – Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation. These reclassifications had no effect on previously reported net assets available for benefits.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Cash Equivalents: Valued at their outstanding balance, which represents fair value.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The Plan administrator has determined that the Plan's investments are all Level 1 within the fair value hierarchy. The fair value of these investments by class as of December 31, 2010 and 2009 are as follows:

	2010	2009
Cash Equivalents	$ 616,977	$ 637,059
Mutual Funds:		
Equity Funds	3,619,915	3,359,225
Fixed Income	1,652,572	1,417,765
Balanced Funds	105,883	133,473
International Funds	1,431,034	1,311,984
Specialty Funds	328,506	263,912
Total Mutual Funds	7,137,910	6,486,359
Total Investments at Fair Value	$ 7,754,887	$ 7,123,418

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, Inc. ("Ascensus"), as agent for Frontier Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2010 and 2009, the supplemental Schedule H, line 4i –Schedule of Assets (Held at End of Year) as of December 31, 2010, the fair value information in Note 3, and investment activity and interest income on notes receivable from participants reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010. All investments are in participant directed funds.

NOTE 5 – TAX STATUS

The Plan is a defined contribution plan designed to qualify as a tax-exempt plan under the IRC. A favorable opinion letter from the Internal Revenue Service was issued on March 31, 2008 regarding the qualified status of the prototype plan on which the terms of the Plan are based. The Plan has not filed for a determination letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. Accordingly, no tax provision for federal or state income taxes has been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 6 – RELATED PARTY TRANSACTIONS

Certain Plan investments are in the contribution account of Frontier Trust Company and in cash equivalent accounts of Merrill Lynch. Frontier Trust Company serves as the trustee and Merrill Lynch serves as the investment advisor of the Plan and therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in a trust fund that will remain in existence until the Company requests the discontinuance of the trust agreement.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of funds available through the trustee. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and in the Statement of Changes in Net Assets Available for Benefits.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset backed securities, collateralized mortgage obligations, and commercial mortgage backed securities and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of the issuers, changes in interest rates and conditions in financial markets.

NOTE 9 – SUBSEQUENT EVENTS

Effective January 1, 2011, the Plan's assets were transferred to a new trustee, MG Trust Company, LLC. The Plan also engaged a new investment advisor, Horizon Investments, LLC and changed its record keeper from Ascensus, Inc. to Benefit Solutions Corporation. To prepare for the transfer, a black-out period from December 23, 2010 to January 10, 2011 was observed. Outstanding investments were converted to cash and re-invested in a new portfolio of investment funds in January 2011.

The Plan has evaluated subsequent events through October 4, 2011, the date the financial statements were available to be issued.
