SNYDER VILLAGE 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Snyder Village ("Home") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Home who have completed one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Third Party Administrator

Ascensus, Inc. is the third party administrator of the Plan. As third party administrator, Ascensus, Inc. administers and performs accounting for the Plan.

Trustee and Custodian

OFI Trust Company ("Oppenheimer") is the trustee of the Plan. Oppenheimer was custodian of the Plan until July 20, 2009. Frontier Trust Company became custodian of the Plan on July 20, 2009.

Contributions

Elective deferrals are permitted under the Plan. A discretionary profit sharing contribution and discretionary matching contribution by the Home are determined annually. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's elective deferrals, an allocation of the Home's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in the Home's contributions plus earnings thereon is based on covered years of service. A covered year of service is any twelve month period ending on the Plan year end during which the participant worked at least 1,000 hours. A participant is always 100 percent vested in the deferral portion of their account. A participant is 100 percent vested in the match and profit sharing portions of their account after three years of covered service. A participant is 100 percent vested in the former money purchase plan portion of their account after five years of covered service. Additionally, participants become 100 percent vested upon retirement (age 65), death or disability.

Payment of Benefits

Benefits commence upon death, disability, retirement or other termination of service. Participant accounts may be taken in a lump sum amount, in installments, or in an annuity contract. Minimum distributions must be taken once a participant reaches age 70 ½.

Forfeited Accounts

At December 31, 2009 and 2008, forfeited nonvested accounts totaled \$53 and \$5,063, respectively. These accounts will be used to reduce future employer contributions. Employer contributions were reduced by \$5,368 and \$0 from forfeited nonvested accounts in 2009 and 2008, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Home has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their account.

Tax Status

The Plan, as adopted, is an Oppenheimer Prototype Non-standardized Safe Harbor Profit Sharing Plan with CODA. Oppenheimer has been informed by the Internal Revenue Service in letters dated April 22, 2005 and October 21, 1998, that its prototype plan document is qualified under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment Valuation

The Plan has entered into a trustee arrangement with OFI Trust Company. As directed by the participants, the funds are invested in various Oppenheimer and other mutual funds. The mutual funds are stated at fair value as determined by the trustee of the Plan based on market values.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through July 2, 2010, the date which the financial statements were available to be issued, and has determined there are no subsequent events that require recognition or disclosure in these financial statements.

NOTE 8. FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (FASB ASC Topic 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 from prior year.

Shares of registered investment companies: Valued daily at unit values based on the price from each fund house after the close of the stock market. The unit values include the net asset value and any dividends or capital gains declared.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
