Report of Independent Auditors

To the Retirement Committee of
Warburg Pincus LLC

Opinion

We have audited the financial statements of the Warburg Pincus LLC Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025 (referred to as the "supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of

Shape the future

management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

General

The Warburg Pincus LLC Profit Sharing Plan (the "Plan") is a defined contribution plan covering all benefit eligible employees (each an "Eligible Employee") of Warburg Pincus LLC and affiliates (the "Company" or the "Employer"). The following is a summary of certain provisions of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Fidelity Investments is the Trustee and recordkeeper of the Plan. Capitalized terms used herein and not otherwise defined shall have the meanings ascribed thereto in the Plan documents.

Contributions

During each Plan Year, the Employer may contribute out of its profits or accumulated earnings such amounts, if any, as determined by its Retirement Committee, subject to the minimum contribution described below. In 2025, the employer contribution was $12,884,813 net of forfeitures.

Although Employer contributions are generally discretionary and based on profits, the Employer contributes an amount for each Plan Year of each Eligible Employee equal to a percentage of such participant's total compensation from the Employer for such year. For a Participant, who is not a highly compensated employee, their contribution shall not be less than the lesser of (1) $5,500 minus the amount allocated for him or her under Section 3.01 of the Plan Document or (2) twenty-five percent (25%) of his or her Compensation for such Plan Year minus the amount allocated for him or her under Section 3.02 of the Plan Document. Additionally, a Participant who is not a highly compensated employee receives 7.5% of his or her compensation for such Plan Year, even if terminated employment during the year. For the year ended December 31, 2025, the Company made contributions to the Plan equal to 10%, of which 7.5% is safe harbor contributions for non highly compensated employees, of covered compensation (wage compensation box of Form W-2) of eligible payroll.

The Plan also allows for participant contributions and certain rollovers subject to the provisions of the Plan. Participants may elect to have amounts not exceeding 100% of a participant's cash compensation for a payroll period, called Salary Reduction Contributions, contributed to the Plan under its 401(k) feature subject to the Internal Revenue Service's ("IRS") limitations ($23,500 for 2025 and $23,000 for 2024). Participants who have attained age 50 before the end of the plan year are eligible to make additional catch–up contributions ($7,500 for 2025 and $7,500 for 2024 for participants age 50–59 or 64 and older; pursuant to the SECURE 2.0 Act, participants who attained age 60, 61, 62, or 63 before the end of the plan year were eligible to make enhanced catch-up contributions of $11,250 for 2025).

1. Description of the Plan (continued)

These participant contributions are 100% vested regardless of the participant's length of employment.

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. Participants who are automatically enrolled have their contributions invested in a qualified default investment alternative designated by the plan administrator in accordance with Department of Labor guidelines. However, once deposited, the participant has the option to move these amounts to another investment fund in accordance with the Plan's investment transfer rules. The Company's contributions are invested in the same manner as that of the participant's elective contributions. Such amounts are primarily invested in mutual funds and common/collective trusts (CCT).

Effective January 1, 2013, the Employer may, in its sole discretion, provide an additional contribution to Managing Directors (excluding Senior Advisors and Consultants), equal to the limit, applicable to such Managing Director, under section 415(c)(1) of the Code, effective January 1 of each Plan year, minus the limit under section 402(g) of the Code, minus 10% of the limit under section 401(a)(17) of the Code.

Effective for Plan Years ending after 2010, the Employer may, in its sole discretion, contribute an additional $2,500 for each participant including Senior Advisors and Consultants but excluding Managing Directors who (i) has attained at least age 45 by December 31st of such Plan Year and (ii) is employed by the Employer on the last day of such Plan Year. During the year ended December 31, 2025, the Employer contributed an additional $2,500 for each Eligible Employee.

Effective December 13, 2024, the Employer implemented a Roth in Plan Conversion feature, which allows employees to convert any or all pre-tax contributions and vested profit-sharing dollars to a designated Roth account within the same plan.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with contributions made by the participant, Employer profit sharing contributions on behalf of a participant, allocation of Plan investment income and investment appreciation (or depreciation, as appropriate) and charged with any benefit distributions. Allocations are based on participant earnings or account balances, as defined in the stated Plan documents. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (continued)

Vesting

The Plan provides for vesting of account balances derived from Employer, non-safe harbor contributions, based on the following schedule:

Completed Years of Vesting Service	Vested Percentages
Less than 2 years	0%
2 years	20
3 years	40
4 years	60
5 years	80
6 or more years	100

The above vesting schedule is applied to the participant's account balance as of the valuation date which coincides with or following the date of termination.

Payment of Benefits

Upon termination of service (including death, disability, retirement, etc.), a participant may elect to receive payment of benefits in one or more of the following methods: (1) a lump-sum amount equal to the value of his or her account, (2) annual installments over a period which complies with the requirements of section 401(a)(9) of the Income Tax Regulations, (3) by the purchase of any form of annuity as provided by the Plan, or (4) eligible rollover distributions to other accounts directed by participants, provided that the installments are for a period of less than 10 years. Benefits to participants are recorded when paid.

Loans to Participants and Hardship Withdrawals

Upon application of any participant, the Plan's Trustee may provide for a loan from a participant's employee contribution account and vested matching contribution account for certain specified purposes. All loans are generally limited to the lesser of $50,000 or 50% of the participant's vested interest in his or her accrued benefits, and bear interest rates ranging from 3.25% to 9.50% and mature in 1 year to 15 years. The rate of interest for loans is set at a reasonable rate determined by the Plan's administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances.

In addition, a participant may make a hardship withdrawal with approval if he or she can demonstrate an immediate and heavy financial need as set forth in the applicable IRS regulation and as outlined in the Plan document.

1. Description of the Plan (continued)

Forfeitures

The nonvested portion of a terminated participant's account balance is forfeited and applied against the Employer's contribution as of the last day of the Plan year. For the year ended December 31, 2025, the forfeitures balance was $704,305 and it was fully utilized to reduce the employer contribution. For the year ended December 31, 2024, the forfeitures balance was $922,974, and it was fully utilized to reduce the 2024 employer contribution.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in the Employer's contributions.

The foregoing description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual method of accounting in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from these estimates.

Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

2. Summary of Significant Accounting Policies (continued)

Valuation of Investments, Investment Transactions and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3 for the further discussion and disclosures related to fair value measurements.

Purchases and sales of investment securities are accounted for on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participants' loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. If a participant ceases to make loan repayments and the plan administrator deems the participant's loan to be a distribution, the participant's loan balance is reduced and a benefit payment is recorded.

3. Fair Value Measurements

In accordance with ASC 820, *Fair Value Measurements and Disclosures*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Mutual funds: Valued at the net asset value ("NAV") of shares based on quoted market prices held by the Plan at year end.

Common/collective trust: Valued at the NAV of units held by the Plan at year end.

At December 31, 2025 and 2024, the Plan valued its investment in the Common/Collective Trust using the practical expedient, which should not be categorized within the fair value hierarchy. The practical expedient uses the total fair value of the underlying investments less liabilities, divided by the number of units to arrive at NAV as determined by the Trust fund manager.

Common/Collective Trusts seeks to provide investors with a moderate level of stable income without principal volatility.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value of the mutual funds, which are all classified as Level 1 investments was $352,470,541 at December 31, 2025, and $298,483,721 at December 31, 2024. The fair value of the common/collective trusts, valued using practical expedient was $12,448,269 at December 31, 2025, and $13,336,002 at December 31, 2024, which should not be categorized within the fair value hierarchy.

Participant directed redemptions have no restrictions; however, the Plan is subject to a one year lockup if the Plan were to liquidate its entire investment in the Common/Collective Trusts.

4. Administrative Expenses

Administrative expenses of the Plan are paid for by the Company. For the year ended December 31, 2025, these expenses amounted to approximately $151,074.

5. Related-Party and Party-in-Interest Transactions

The members of the Retirement Committee of the Plan, who are responsible for the management, operations and administration of the Plan, are officers and members of the Company. Fidelity Investments, party-in-interest who is the Trustee and recordkeeper of the Plan, engages in the transactions necessary for the Plan operations; however, these transactions are exempt from prohibited transaction rules under ERISA.

6. Income Tax Status

The underlying pre-approved plan has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020 stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS pre-approved plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions. In July 2026, the Plan was notified by the IRS that it was selected for examination for the 2024 plan year. As of the date of these financial statements, the examination has not yet commenced, and no findings or proposed adjustments have been communicated. The plan administrator does not expect the outcome of this examination to have a material effect on the Plan’s financial statements.

7. Subsequent Events

Management has evaluated the impact of all subsequent events on the Plan through August 17, 2026, the date the financial statements were available to be issued, and noted no material subsequent events requiring disclosure in or adjustment to the financial statements, other than as described in Note 6.
