INDEPENDENT AUDITORS' REPORT

TO THE PLAN ADMINISTRATOR
CRUCIBLE INDUSTRIES LLC 401(k) SAVINGS PLAN

We were engaged to audit the Statements of Net Assets Available for Benefits of the Crucible Industries LLC 401(k) Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2010, and the supplementary schedule as of December 31, 2010 as listed in the accompanying table of contents. These financial statements and schedule are the responsibility of the Plan's administrator.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplementary schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010 that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CRUCIBLE INDUSTRIES LLC 401(k) SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of the Crucible Industries LLC 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan, covering eligible employees of Crucible Industries LLC (the Company) who have attained age 18. Plan entry dates are the first day of each month. The Company was formed on September 9, 2009 for the purpose of acquiring the assets of the former Specialty Metals Division of Crucible Materials Corporation (a non-related entity) in a Section 363 sale of assets under Chapter 11 of the US Bankruptcy Code. The asset purchase was completed on October 23, 2009. All Crucible Materials Corporation employees were eligible to enter the Plan as of January 1, 2010. The Crucible Materials Corporation 401(k) Plan merged into the Plan with all assets transferred January 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The total amount of assets transferred into the Plan was $266,459, which consisted of all outstanding loan balances. The accounts of the Company's employees were rolled over from the Crucible Materials Corporation 401(k) Plan on January 1, 2010, increasing net assets available for benefits by $6,127,303.

Contributions

Participants may elect to contribute up to the lesser of $16,500, (plus catch up contributions as defined in the Plan document) or 100% of their compensation to the Plan on a pre-tax basis or after-tax basis. Participants may also make rollover contributions to the Plan from other qualified defined benefit or defined contribution plans. As of January 1, 2010, eligible participants are automatically enrolled with a deferral percentage of 3%. Automatic elective deferrals are invested in the Stable Value Fund until changed by the participant. Employer contributions are equal to 100% of elective deferral contributions up to the first 3% of compensation, plus 50% of elective deferral contributions that are over 3% but do not exceed 5% of compensation. Company matching contributions were $607,822 for the year ended December 31, 2010.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, the Company's matching contributions, and Plan earnings, and charged with an allocation of administrative expenses and Plan losses. Allocations of earnings and expenses are based on the participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and employer matching contributions plus actual earnings thereon.

1. DESCRIPTION OF THE PLAN (continued)

Investment Options

Upon enrollment in the Plan, participants may direct contributions to their accounts into various investment options offered by the Plan.

Payment of Benefits

On termination of service due to death, disability, retirement, or separation of service, participants may receive a lump-sum amount payment equal to the value of the participant's vested interest in his or her account. Participants may also be permitted to receive a distribution from their account prior to termination of employment if they experience financial hardship.

Notes Receivable from Participants

No new notes receivable shall be available under this Plan. A participant may only roll in an existing note receivable from the Crucible Materials Corporation 401(k) Plan. The number of outstanding notes receivable shall be limited to one with a minimum amount of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates at the time of issuance. Note receivable terms typically range up to five years. Principal and interest are paid ratably through payroll deductions. Interest income of $13,452 for the year ended December 31, 2010 has been recorded as other income in the accompanying Statement of Changes in Net Assets Available for Benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. Contract value, as reported to the Plan by Principal Trust Company, the trustee of the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals, wrapper fees, and administrative expenses. The Statements of Net Assets Available for Benefits present the fair value of the common collective trust as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains (losses) on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All administrative expenses are paid by the Company or the Plan, at the discretion of the Company.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent Events

The Company evaluated events through October 13, 2011, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. INVESTMENTS

The following table presents the fair value of investments at December 31, 2010 and 2009. The investments and investment activity have been certified as complete and accurate by Principal Trust Company, the trustee of the Plan, and have not been audited by the independent auditors. Individual investments that represent 5% or more of the Plan's net assets are separately identified.

* This amount represents contract value for this investment.

During 2010, the Plan's investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in value by $826,249.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or are corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common/collective trust – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Pooled separate accounts – Certain pooled separate accounts are valued based on the net asset value (NAV) of shares held by the Plan at year end. Certain pooled separate accounts use the fair value of the funds included in the underlying assets to determine the NAV of the account.

Registered investment companies – Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Total
Common/collective trust			
Short-term fixed income	$ -	$ 886,113	$ 886,113
Pooled separate accounts			
Asset allocation	-	2,821,562	2,821,562
Fixed income	-	867,362	867,362
Large U.S. equity	-	1,018,668	1,018,668
Small/Mid cap equity	-	819,198	819,198
Registered investment companies			
International equity	788,543	-	788,543
Large U.S. equity	457,012	-	457,012
Small/Mid U.S. equity	879,252	-	879,252
Total assets at fair value	$ 2,124,807	$ 6,412,903	$ 8,537,710

5. TAX STATUS

The Plan will apply for a determination letter from the Internal Revenue Service (IRS) stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code. However, the Plan administrator believes that the Plan is qualified and, therefore, the related trust is exempt from taxation.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. COMMON/COLLECTIVE TRUST

The Plan is invested in the Principal Stable Value Fund (the Fund), a fully benefit-responsive investment contract through the Principal Trust Company. The Fund invests in assets (typically conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions), enters into "wrapper" contracts issued by third-parties, and invests in cash equivalents, represented by shares in high-quality money market funds.

Average Yields for the Year Ended December 31, 2010:

Based on actual earnings (underlying investment return)	2.820%
Based on interest rate credited to participants	2.806%

Distributions to the Fund's unit holders are declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) Fund administration is amended or changed, (2) merger or consolidation of investors, (3) group terminations or layoffs, (4) implementation of an early retirement program, (5) termination or partial termination of the Fund, (6) failure to meet certain tax qualifications, (7) participant communication that is designed to influence participants not to invest in the Fund, (8) transfers to competing options without meeting the equity wash provisions of the Fund, and (9) Plan sponsor withdrawals without the appropriate notice to the Fund. The Plan administrator has no knowledge that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments at December 31, 2010 are invested in funds managed by Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan document and, therefore, these transactions are considered party-in-interest transactions.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

10. RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2010 to the Form 5500:

Net assets available for benefits per the financial statements	$ 8,744,417
Plus: Adjustment from contract value to fair value for interest in a common/collective trust relating to fully benefit-responsive investment contracts	17,736
Net assets available for benefits per the Form 5500	$ 8,762,153

The following is a reconciliation of investment income per the financial statements for the year ended December 31, 2010 to the Form 5500:

Investment income per the financial statements	$ 832,610
Other income	13,452
Plus: Current year adjustment from contract value to fair value for interest in a common/collective trust relating to fully benefit-responsive investment contracts	17,736
Investment income per the Form 5500	$ 863,798
