1. Description of Plan

The following description of The Cannon Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision. Information about the Plan agreement and the vesting and benefit provisions is contained in *The Cannon Corporation 401(k) Plan's Summary Plan Description.*

General. The Plan is a defined contribution plan which covers all employees of The Cannon Corporation (the "Plan Sponsor" or "Company") and subsidiaries who have met the age requirement of twenty-one years. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan of Merger. Effective as of the close of business on September 30, 2009, the Company became the sponsor of the O'Donnell Wicklund Pigozzi and Peterson, Inc. Retirement Plan ("OWPP Plan") as part of an Agreement and Plan of Merger whereby the Company acquired all of the outstanding stock of O'Donnell Wicklund Pigozzi and Peterson, Inc. ("OWPP").

On December 23, 2009 the Board of Directors of The Cannon Corporation entered into a Merger Amendment to merge the OWPP Plan (formerly sponsored by OWPP) into The Cannon Corporation 401(k) Plan effective December 31, 2009. All benefits, rights and obligations under the OWPP Plan were transferred to and included in The Cannon Corporation 401(k) Plan. All participant accounts under the OWPP Plan were made fully (100%) vested as of October 1, 2009, and shall continue to be fully vested under the Cannon 401(k) Plan.

On December 31, 2009, OWPP Plan investments of $5,018,944 were transferred into the Plan. The remaining OWPP Plan investments of $18,712,406 were transferred to the Plan on January 4, 2010 and are recorded as assets in transit on the accompanying statement of net assets available for benefits at December 31, 2009.

Contributions. Each year, participants may contribute up to 30% of pretax annual compensation, as defined in the Plan document, to the Plan. Participants who have attained the age 50 before the end of the Plan year are eligible to make catch-up contributions. Roth, or after tax deferrals, are also permitted under the Plan. Participants may also contribute amounts representing distributions from other qualified plans.

The Plan Sponsor may match any or all of the participant contributions and, at the option of the Board of Directors of the Company, may contribute additional amounts to the Plan. Further, the Plan Sponsor may decide, in its sole and absolute discretion, to make matching contributions for officers of the Company to the Cannon Non-Qualified Plan in lieu of matching contributions to the Plan. For the year ended December 31, 2010, the Board of Directors of the Company approved a matching contribution of 50% of the first 6% of eligible participant contributions. The employer matching contribution is made only to those participants employed at the Plan year-end. For 2010, the Plan Sponsor's matching contributions to Officers of the Company were made in the form of The Cannon Corporation common stock ("Cannon Stock"). The Plan Sponsor's matching contributions to non-officers of the Company were made in cash or in Cannon Stock at the discretion of the participant. Company contributions made

in the form of Cannon Stock cannot be transferred to any other investment option (Non-participant directed).

Contributions are subject to certain limitations.

The initial election of the amount of employee contributions is made by each participant at the beginning of any pay period. Additionally, participants may elect one of several available investment options, including the Cannon Stock. Employee elective deferrals into Cannon Stock are not permitted. Participants have the opportunity to change their options previously elected at any time.

Newly hired eligible employees are automatically enrolled in the Plan with a payroll deferral of 4% increasing 1% each year up to a maximum of 6%. Effective August 1, 2011, the automatic increase shall be effective each September and the maximum percentage shall increase from 6% to 10%. Eligible employees may decline participation within 30 days and may change deferral percentages at any time under the Plan.

Restriction of Transfer – Cannon Stock. All Cannon Stock shares held within the Plan shall be redeemed upon termination of employment by a participant for any reason with the Company in accordance with the Plan agreement and Company policies.

Participant Accounts. For all investment options, each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, if any, and (b) Plan earnings or losses. Allocations are based on participant salary deferral agreements and account balances, respectively, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting. Participants are 100% vested in the Plan upon entry into the Plan for both participant and Company contributions.

Payment of Benefits. Upon termination of service due to retirement, death, or disability, a participant with a vested benefit in excess of $5,000 may elect to keep the benefit in the Plan or to receive either a lump-sum amount equal to the value of his or her account, or various monthly installment packages. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or as an eligible rollover distribution, as defined. If the participant elects to keep the vested contributions in the Plan, an administrative fee of $32 per year is charged against the participant's account. Vested accounts of less than $5,000 may not be kept in the Plan.

Notes Receivable from Participants. Participants in the Plan may borrow from their fully vested account balance in accordance with the Plan document. Generally, loans are repaid at terms ranging from one to five years. Interest charged on the loans will be at a reasonable rate as prescribed in the Plan document. Effective July 1, 2010, the Plan restricted a participant to have only one outstanding loan at any time on a prospective basis.

Plan Recordkeeping. With the exception of the Plan's investments in Cannon Stock, Vanguard Fiduciary Trust Company, the custodian of the Plan has sole authority over all transactions made on behalf of the Plan and reports the investment return as well as net assets available for benefits to the trustee committee on a quarterly basis.

Plan Termination. Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. Summary of Accounting Policies

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined –contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FSP, the statements of net assets available for benefits presents the fair value of the investment contracts as well as an adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The Plan's investment in the Vanguard Retirement Savings Trust in a common collective trust, which holds fully benefit-responsive contracts. The average yield and crediting interest rate for the Vanguard Retirement Savings Trust were 3.36% and 3.01%, respectively for 2010. The crediting interest rates are based on a formula agreed upon with the issuers. Certain events limit the ability of the Plan to transact at contract value with the issuer. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is accrued when earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and other expenses charged to the Plan for investments in mutual funds (expense ratios) are deducted from the respective fund's return.

Payment of Benefits. Benefits are recorded when paid. As of the report date, the Company had not completed discrimination testing for the year ended December 31, 2010. Management of the Company believes the amount of refunds, if any, resulting from the 2010 testing would not be material to the Plan's financial statements.

Plan Expenses. Certain recordkeeping services are paid by the Plan. Costs to administer the Plan were provided at the expense of the Company. Loan administrative fees are charged directly to the participant's account and are included in administrative expenses.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan invests in various investment securities. Investment securities, in

general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

Recent Accounting Pronouncements. Fair Value Measurements and Disclosures – In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06 which amends Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. The Plan prospectively adopted the new guidance in 2010, except for the Level 3 disclosures, which are required in 2011. The adoption in 2010 did not materially affect, and the future adoption is not expected to materially affect, the Plan's financial statements.

Notes Receivable from Participants – In September of 2010, the FASB issued a new standard which requires participant loans to be classified as notes receivable rather than a plan investment and measured at unpaid principal balance plus accrued but unpaid interest rather than fair value. The Plan retrospectively adopted the new accounting in 2010. The adoption did not have a material effect on the Plan's financial statements.

Subsequent Events — The Plan has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

The employer contributions receivable at December 31, 2010 represents the balance of the Company's matching contribution for 2010. The balance was remitted to the Plan on January 31, 2011.

3. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) No. 820, *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC No. 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the overall fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the assets measured at fair value. The Plan believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered Investment Companies — The Plan's investments in registered investment companies (mutual funds) are valued at fair value and are based on quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Common Collective Trust — The Plan's interest in the common collective trust is valued based on information reported by the investment advisor using the audited financial statements of the common collective trust at year end and are expressed in units. Units are valued at net asset value at year-end.

Cannon Corporation Common Stock — The Plan's investment in Cannon Stock is valued at the adjusted net book value per share of the underlying equity of the Company at December 31, 2010 and 2009, respectively. This method of valuation is consistent with all Cannon Stock transactions, including but not limited to transactions with the Company's other benefit plans, and sales and purchases to Company Officers in accordance with individual shareholders agreements. Contributions to the Plan that are invested in Cannon Stock, and distributions from the Plan of amounts invested in Cannon Stock, are based on the previous audited December 31 adjusted net book value per share (total shareholders' equity divided by total outstanding shares of the Company).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

The Cannon Corporation common stock [(2)]	7,834,915	7,166,043

[(1)] Investment did not exceed five percent at December 31, 2009.

[(2)] Nonparticipant-directed investment amount of $7,366,885 and $6,558,259 as of December 31, 2010 and 2009, respectively.

5. Related Party Transactions

The Plan invests in securities managed by an affiliate of Vanguard Fiduciary Trust Company and J.P. Morgan Chase Bank, N.A. Vanguard Fiduciary Trust Company acts as custodian for only those investments as defined by the Plan. J.P. Morgan Chase Bank, N.A. was the custodian of the former OWPP plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

At December 31, 2010 and 2009, the Plan held 384,819 and 378,555 shares, respectively, of Cannon Stock with a cost basis of $4,806,298 and $4,678,761, respectively.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated September 13, 2011, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the Plan and related trust are exempt from taxation. The determination was conditioned by the IRS upon the adoption of certain plan amendments. On October 7, 2011, the Company adopted the plan amendments. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The plan is subject to routine audits by taxing jurisdictions. During 2011, the IRS completed its examination of the 2009 Plan year and issued a no-change letter. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. Financial Information Certified by Custodian (Unaudited)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by Vanguard Fiduciary Trust Company, the custodian of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that such information is complete and accurate as of December 31, 2010 and 2009 and for the year ended December 31, 2010.
