INDEPENDENT AUDITORS' REPORT

To the Participants and Plan Administrator of
Wicker Smith 401(k) Plan I
Coral Gables, Florida

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audit of the financial statements of **Wicker Smith 401(k) Plan I** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certification from Reliance Trust Company as of and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section –

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("United States").
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – 2024 Financial Statements

The Plan's financial statements as of December 31, 2024, and for the year then ended were audited by predecessor auditors whose report dated October 2, 2025, expressed an ERISA Section 103(a)(3)(C) audit opinion that (a) the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the financial statements related to assets held by and certified to by a qualified institution agreed to, or was derived from, in all material respects, the information prepared and certified by an institution that management determined met the requirements of ERISA Section 103(a)(3)(C). Their report also included other-matter paragraphs addressing the 2024 ERISA-required supplemental schedule and the audit of the 2023 financial statements by another auditor.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule of assets (held at end of year), other than that agreed to or derived from the certified investment information, has not been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In our opinion –

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) DESCRIPTION OF THE PLAN

The following description of **Wicker Smith 401(k) Plan I** (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan maintained by Wicker, Smith, O'Hara, McCoy & Ford, P.A. (the "Company", "Employer" or "Plan Administrator") to provide eligible employees with retirement savings benefits. The Plan is subject to ERISA, as amended, and applicable provisions of the Internal Revenue Code ("IRC"). As a defined contribution plan, its benefits are not insured by the Pension Benefit Guaranty Corporation.

The Plan was instituted effective May 1, 1975, and was restated on July 1, 2022. The Plan Administrator appointed Reliance Trust Company ("Reliance") as the Trustee and asset custodian and appointed Automatic Data Processing, Inc. ("ADP") as the record keeper of the Plan.

The Plan is subject to applicable provisions of the SECURE 2.0 Act of 2022, including changes relating to contribution limits and required minimum distributions.

Transfers To/From the Plan

The Company also maintains Wicker Smith 401(k) Plan II, which covers shareholder attorneys and nonprofessional staff. When an employee changes between a classification covered by this Plan and a classification covered by Plan II, the participant's account balance is transferred to the applicable plan. Transfers between the plans are presented separately from contributions and benefit payments.

Eligibility

The Plan covers non-shareholder attorneys, paralegals and nurses who have attained age 21 and completed a year of service with at least 1,000 hours. Entry occurs on the first January 1 or July 1 following satisfaction of these requirements. Union employees, certain non-resident aliens and leased employees are excluded. No additional allocation conditions apply to salary deferrals or matching contributions.

(1) DESCRIPTION OF THE PLAN (CONTINUED)

Contributions

Participants may elect pre-tax salary deferrals or designate some or all deferrals as Roth contributions, subject to IRC limits. The elective deferral limit was $23,500 for 2025. Excess deferrals and related earnings are returned as required. Participants direct the investment of their accounts among the Plan's investment options.

Participants age 50 or older by year end may make catch-up contributions, subject to the Plan's terms. The standard catch-up limit was $7,500 for 2025; the higher limit for participants attaining ages 60 through 63 was $11,250, if permitted by the Plan. Eligible distributions from qualified retirement plans and IRAs may be accepted as rollovers.

Eligible employees who became participants on or after January 1, 2014, are automatically enrolled at 3% Plan compensation unless they make a contrary election. The rate increases by 1% on the first day of each Plan year beginning with the second Plan year following initial automatic enrollment, up to 6%, unless the participant elects otherwise. Default contributions are invested under the Plan's investment policies.

The Company may make discretionary matching contributions as a percentage of salary deferrals during each payroll period. The matching percentage is determined by the Company.

The Company may also make discretionary nonelective contributions allocated as a uniform percentage of compensation. Generally, participants must work at least 1,000 hours during the Plan year and be employed on its last day, with exceptions for death, disability and retirement at normal retirement age. Qualified Matching Contributions ("QMACs") and Qualified Nonelective Employer Contributions ("QNECs") and may also be made under the Plan.

Individual participant accounts

Each participant's account is credited with the participant's contributions, employer contributions and allocated investment earnings or losses, and is charged with applicable administrative expenses. Allocations are based on participant earnings, account balances or specific transactions under the Plan. The benefit to which a participant is entitled is the amount provided by the vested account balance.

(1) DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are immediately 100% vested in salary deferrals, rollovers, QMACs and QNECs, and related earnings. Matching and nonelective employer contributions and related earnings are subject to the six-year graded vesting schedule below.

Participants become fully vested upon attaining normal retirement age of 65 while employed, death or disability during employment, or Plan termination.

Years of Service	Vested Interest
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years and over	100%

Participants should refer to the Plan Document for complete details.

Notes receivable from participants (Participant loans)

Participants may borrow a minimum of $1,000, subject to a maximum of the lesser of $50,000, adjusted for outstanding loans during the preceding 12 months, or 50% of the vested account balance. Up to two loans may be outstanding. Loans are secured by the participant's account and bear a reasonable interest rate disclosed when the loan is requested.

Loans generally must be repaid within five years; loans to purchase a principal residence may extend to ten years. Level repayments are made at least quarterly, generally through payroll withholding. The Plan Administrator may modify procedures in a separate written loan policy.

Notes receivable from participants are measured at unpaid principal plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Loan defaults and offsets are administered under the Plan and applicable tax rules; a tax deemed distribution does not itself extinguish the repayment obligation.

(1) DESCRIPTION OF THE PLAN (CONTINUED)

Payment of benefits

The Plan permits distributions upon termination of employment, retirement, disability, or death, as well as specified in-service and hardship withdrawals. Vested benefits may be paid as a lump sum or as partial lump sums, subject to the Plan's distribution provisions.

Upon termination of employment, a participant whose vested account balance is $1,000 or less may receive an automatic lump-sum distribution without the participant's consent. Vested account balances exceeding $1,000 are not distributed without the participant's consent. Rollover contributions are excluded when determining the vested account balance for this purpose. Death benefits are paid to the participant's designated beneficiaries.

Hardship withdrawals

Hardship withdrawals are limited to qualifying financial needs and the amounts available under the Plan. Qualifying needs include:

- Medical expenses of the participant or a member of their immediate family for which reimbursement has not been made and will not be available from any other source
- Purchase of a principal residence by the participant
- To prevent eviction from a participant's principal residence or foreclosure of the mortgage
- Post-secondary education of the participant or a member of his/her immediate family at an accredited institution of higher learning for a 12-month period
- For payment of burial expenses of a participant's spouse, children or dependents
- Qualifying repairs to the participant's principal residence, or expenses and losses arising from a federally declared disaster

The participant must represent in writing that available cash or other liquid assets are insufficient and must first take other available plan distributions. Withdrawals may not exceed the financial need, including anticipated taxes or penalties. QMACs and QNECs are not available for hardship withdrawals.

Rollovers

The Plan may accept eligible rollover distributions from qualified retirement plans and IRAs, including Roth rollovers from qualified plans. Roth IRA rollovers are not permitted. Rollover amounts and related earnings are fully vested.

(1) DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures

Nonvested employer contributions are forfeited under the Plan's distribution and break-in-service provisions. Forfeitures are first available to pay Plan expenses; remaining amounts offset employer contributions for the following Plan year. Forfeited nonvested accounts totaled $43,433 as of December 31, 2025. During the year ended December 31, 2025, $65,124 was applied to reduce employer contributions.

Investment options

Participants direct the investment of their accounts among available investment options, including money market funds and mutual funds. The Plan also provides access to self-directed brokerage accounts. Investment elections and changes are subject to Plan procedures.

Plan termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Plan and ERISA. In the event the Plan terminates, the interest of each participating employee in the Plan shall be fully vested and such termination shall not reduce the interest of any participating employee or their beneficiaries accrued under the Plan up to the date of such termination.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, who are responsible for their integrity and objectivity. The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Plan expenses

Plan administrative expenses are recognized as incurred. Expenses paid directly by the Company are excluded from these financial statements. Fees related to participant loans are charged to the affected accounts. Investment-related expenses are included in net appreciation in fair value of investments.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Valuation of investments and income recognition

Investments are reported at fair value. Money market and mutual funds are valued at their quoted year-end net asset values. Self-directed brokerage investments are valued using quoted market prices or fund net asset values, as applicable.

Purchases and sales are recorded on the trade date. Interest income is accrued, and dividends are recorded on the ex-dividend date. Net appreciation includes realized and unrealized gains and losses on investments bought, sold and held during the year. Due to broker represents securities purchases not settled at year end.

Due to broker

Due to broker represents amounts payable for investment purchases executed on or before year-end that had not settled as of December 31, 2025 and 2024. Investment purchases are recorded on a trade-date basis. Amounts due to broker totaled $52,045 and $16,751 at December 31, 2025 and 2024, respectively.

Payment of benefits

Benefits are recorded when paid.

Transactions with parties-in-interest

Plan assets may include investment in funds managed by Reliance Trust Company. Reliance Trust Company is the custodian and trustee as defined by the Plan and therefore, these transactions would qualify as an exempt party-in-interest transaction under ERISA.

Notes receivable from participants are considered to be party-in-interest because they are transacted with Plan participants.

The Plan pays various fees to the record keeper and other administrative fees including third-party administration fees and investment advisory fees. These are party-in-interest transactions.

Income taxes

The IRS informed the Company by a letter dated April 24, 2023, that the Plan and related trust were designed in accordance with applicable IRC provisions. The Plan Administrator believes the Plan remains qualified and the related trust tax-exempt; accordingly, no income tax provision is recorded.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income taxes (continued)

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or financial statement disclosure. The Plan is subject to routine audits by taxing jurisdictions until the applicable statute of limitations expires; however, there are currently no audits for any tax periods in progress.

(3) RISK AND UNCERTAINTIES

Financial instruments which potentially expose the Plan to concentrations of credit risk consist of a money market fund and several mutual funds, which inherent in the fair market value determination include the risk factor of credit worthiness of each individual security underlying the investment. These funds invest in equities and fixed income securities, which in general are exposed to various risks such as interest, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participant account balances.

The Plan's exposure to certain concentrations of risk is mitigated by the diversification of investments across a variety of participant-directed fund elections. Additionally, the investments within each participant-directed fund are further diversified into a variety of financial instruments.

(4) INVESTMENTS

The Plan's investments are managed by Reliance Trust Company.

Investment income includes interest and dividends and net appreciation in fair value of investments bought, sold and held during the year, as presented in the statement of changes in net assets available for benefits.

(5) FAIR VALUE MEASUREMENT

The Plan adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* which provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

(5) FAIR VALUE MEASUREMENT (CONTINUED)

The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include:

  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability; and
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Money market fund – The value is calculated using a pricing model, which maximizes the use of observable inputs for similar securities.

Mutual funds – The value is calculated at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the United States Securities and Exchange Commission. The funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that is not necessarily indicative of the net realizable value or reflective of future values. While the managers believe their valuation methods are appropriate and consistent with other market participants, the use of different methodologies to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) FAIR VALUE MEASUREMENT (CONTINUED)

The inputs or methodology used for valuating securities are not necessarily an indication of the risk associated with these securities.

The following tables set forth by level, within the fair value hierarchy, the balances of investments measured at fair value on a recurring basis as of December 31, 2025 and 2024:

	2025			
Description	Level 1	Level 2	Level 3	Total
Money market fund	$ 66,760	$ -	$ -	$ 66,760
Mutual funds	23,391,596	-	-	23,391,596
Total investments	$ 23,458,356	$ -	$ -	$ 23,458,356

	2024			
Description	Level 1	Level 2	Level 3	Total
Money market fund	$ 79,703	$ -	$ -	$ 79,703
Mutual funds	25,169,905	-	-	25,169,905
Total investments	$ 25,249,608	$ -	$ -	$ 25,249,608

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan Administrator evaluates transfers between levels based on the inputs used in measuring fair value. There were no significant transfers between levels during 2025 and 2024.

(6) INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator elected a method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, Reliance Trust Company, the trustee and asset custodian has certified to the completeness and accuracy of:

- Investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2025
- Investment income is reflected on the accompanying statements of changes in net assets available for benefits for the year ended December 31, 2025
- Investments reflected in the supplemental schedule of assets (held at end of year)

(7) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of investments per the financial statements to investments per Form 5500 as of December 31, 2025:

Investments per the financial statements	$ 23,458,356
Notes receivable from participants (participant loans)	262,377
Investments per Form 5500	$ 23,720,733

(8) SUBSEQUENT EVENTS

In accordance with FASB ASC Topic 855, *Subsequent Events*, the Plan has evaluated events that have occurred through October 8, 2026, which is the date these financial statements were available to be issued. No events have occurred subsequent to the date of the statement of net assets available for benefits that would require adjustment to, or disclosure in, the financial statements.
