Report of Independent Auditors

Farallon Capital Management Profit Sharing and 401(k) Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of Farallon Capital Management Profit Sharing and 401(k) Savings Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Farallon Capital Management
Profit Sharing and 401(k) Savings Plan

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The following description of the Farallon Capital Management Profit Sharing and 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Farallon Capital Management, L.L.C. (the Company or Plan Sponsor) established the Plan, effective January 1, 1995, as a defined contribution plan. The Plan is intended to qualify as a profit sharing plan under Section 401(a) of the Internal Revenue Code of 1986 (the Code), with a salary reduction feature qualified under Section 401(k) of the Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Generally, all employees and members of the Company are eligible to participate in the Plan. However, nonresident aliens with no earned income from sources within the United States, leased or temporary employees, and independent contractors are not eligible to participate in the Plan. Also, members who are not entitled to receive fixed semi-monthly payments are not eligible to participate in the Plan.

An eligible employee will become a participant in the Plan with respect to the Company's discretionary contributions as of the last day of the plan year in which such eligible employee completes five months of credited service.

An eligible employee will become a participant in the Plan with respect to such eligible employee's pretax deferral contributions on the date such eligible employee makes a deferral election.

Contributions

Through the 401(k) component of the Plan, participants may elect to defer a portion of their eligible compensation by contributing such amount on a pretax basis, up to the maximum amount deductible under the Code, of their eligible compensation, as defined by the Plan. Contributions are subject to annual deductibility limits specified under the Code. The annual limitation was $16,500 for 2010 and $22,000 for participants 50 years old and older by the end of 2010.

1. Description of the Plan (continued)

Each plan year, the Company may make a discretionary contribution, through the profit sharing component of the Plan, to the account of eligible active participants employed on the last day of such plan year. Such Company discretionary contributions will be allocated in the ratio that each eligible active participant's: (a) compensation bears to the total compensation paid to all eligible active participants for the plan year; and (b) excess compensation bears to the total excess compensation of all eligible active participants employed by the Company for the plan year (the excess contribution percentage). The excess contribution percentage will not exceed the lesser of the base contribution percentage for discretionary contributions or 5.7%. The Company made discretionary contributions for the year ended December 31, 2010, in the amount of $3,413,257.

Participants are also allowed to rollover contributions from other qualified retirement plans and individual retirement accounts.

Participants direct the investment of all contributions into any of the Plan's various investment fund options. In the absence of a direction, contributions are made to the Schwab Value Advantage Money Fund – effective November 30, 2010, this was replaced by the Schwab U.S. Treasury Money Fund, which invests in high-quality short-term money market investments issued by U.S. and foreign issuers such as commercial paper.

Investment Fund Options

Investment fund options available to the participants are (1) Schwab Personal Choice Retirement Accounts, which are self-directed brokerage accounts, (2) McDonald Capital Investors, Inc. (McDonald), an equity portfolio management company, which offers a pooled, separately managed account to the Plan and (3) the following investment options in mutual funds:

- Schwab Value Advantage Money Fund – effective November 30, 2010, this was replaced by the Schwab U.S. Treasury Money Fund
- Vanguard Total Bond Market Index
- Dreyfus Bond Market Index Basic
- Schwab Institutional Select S&P 500
- TIAA-CREF S&P 500 Index Institutional
- Columbia Mid Cap Index Z
- TIAA-CREF Small-Cap Blend Index Institutional
- TIAA-CREF International Equity Index Institutional

1. Description of the Plan (continued)

Effective November 30, 2010, the TIAA-CREF S&P 500 Index Institutional fund option was eliminated as an investment option as it had similar characteristics of another fund offered by the Plan.

Investments presented in the accompanying financial statements represent the aggregate investments of all investment options.

Participant Accounts

Participant accounts are credited with the participant's salary deferral contributions, rollovers, and allocations of (a) Company discretionary profit-sharing contributions, if any, and (b) plan earnings and losses. Allocations are determined in accordance with the provisions of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Vesting

Participants are always 100% vested in their salary deferral contributions, rollover contributions, and actual earnings thereon.

The Company's discretionary profit-sharing contributions vest in accordance with the following schedule based on the anniversary hire date:

Years of Credited Service	Percentage Vested
1	33 1/3%
2	66 2/3%
3	100%

Forfeited balances of terminated participants' nonvested accounts shall be applied: (1) to pay administrative expenses pursuant to the terms of the Plan and (2) to reduce the Company's contributions. At December 31, 2010 and 2009, the amount of unallocated, forfeited, nonvested accounts was $38,569 and $42,331, respectively. For the year ended December 31, 2010, 100% of the forfeitures were used to offset Company contributions, and to pay third-party administrative expenses.

1. Description of the Plan (continued)

Notes Receivable From Participants

Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance (the $50,000 limit is reduced by the highest outstanding aggregate loan balance during the preceding 12 months). Loan terms may not exceed 5 years unless the loan is used to purchase a participant's principal residence, in which case the fixed term may be up to 30 years. Loans are secured by 50% of the value of the participant's vested account balance at the time of the loan. The loan will bear interest at a fixed rate comparable to current rates in the San Francisco area for similar loans and must be repaid by substantially equal payments of principal and interest at least quarterly. Payments are to be made by payroll deduction, if possible. At December 31, 2010 and 2009, the participant loan balance was $324,532 and $184,821, respectively. Participant loans are measured at their unpaid principal balance plus accrued but unpaid interest.

Payment of Benefits

Upon termination of service, retirement, death or total disability, participants may elect to receive a lump-sum amount or installment payments equal to the value of their vested account balance. Hardship distributions are permitted if certain criteria are met.

Administrative Expenses

The Company has elected to pay for substantially all administrative expenses on behalf of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants affected by the termination will be 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Common stocks, bonds (corporate and government obligations), and preferred stock that are traded on a national securities exchange are valued at the last reported sale price on the last business day of the plan year. Those corporate bonds not traded on a national securities exchange are priced by the Plan Sponsor with reference to a national, independent pricing service. The shares of registered investment companies are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The money market fund is valued at cost plus accrued interest, which approximates fair value. Unit investment funds are valued based on the underlying assets held by the funds at the Plan year-end. Participant loans are measured at their unpaid principal balance plus accrued but unpaid interest.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a hierarchal disclosure framework which prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is impacted by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Under ASC 820, investments are classified in one of the following categories.

Level I – Pricing inputs are unadjusted quoted prices available in active markets for identical investments.

Level II – Pricing inputs are quoted prices for similar assets or liabilities, or inputs that are observable either directly or indirectly, for substantially the full term of the asset or liability through corroboration with observable market data. Level II includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the investment.

Level III – Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant Plan Sponsor judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment. Inputs applicable to a particular investment type, or a specific investment, may vary from period to period.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level II and Level III fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels I, II and III of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level III assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level III measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retroactively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009 and recorded as such as of December 31, 2010.

2. Summary of Significant Accounting Policies (continued)

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

There were no transfers between levels for the year ended December 31, 2010.

5. Related-Party Transactions and Parties in Interest

The Company's founder and co-managing partner, Thomas Steyer, is a shareholder of McDonald and a participant in the Plan. McDonald serves as an investment advisor to the Plan and manages a portfolio of equity investments of the Plan; therefore, McDonald is a party in interest to the Plan. Although a McDonald shareholder, Mr. Steyer has no direct involvement in portfolio management and does not have access to the Plan's assets under management by McDonald. The Company pays any fees to McDonald for the Plan to utilize McDonald as an investment advisor.

6. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2010	2009
Net assets available for benefits per financial statements	**$ 53,041,604**	$ 46,297,005
Less: Benefits payable at year-end	**(523,377)**	(141,234)
Net assets available for benefits per the Form 5500	**$ 52,518,227**	$ 46,155,771

The following is a reconciliation of benefit payments per the financial statements to the Form 5500 for the year ended December 31, 2010:

Benefit payments per the financial statements	$ 5,057,916
Add: Benefits payable at December 31, 2010	523,377
Less: Benefits payable at December 31, 2009	(141,234)
Benefits payments per the Form 5500	$ 5,440,059

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 30, 2002, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt. The Plan has applied for a subsequent determination letter with the IRS.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 12, 2011, the date the financial statements were available to be issued.
